CATÁLOGO ACCESORIOS

Publicación N.º C-100 Edición 2024

Versión inglesa - 21ª edición • English version - 21th edition

Photo by Chris Swan

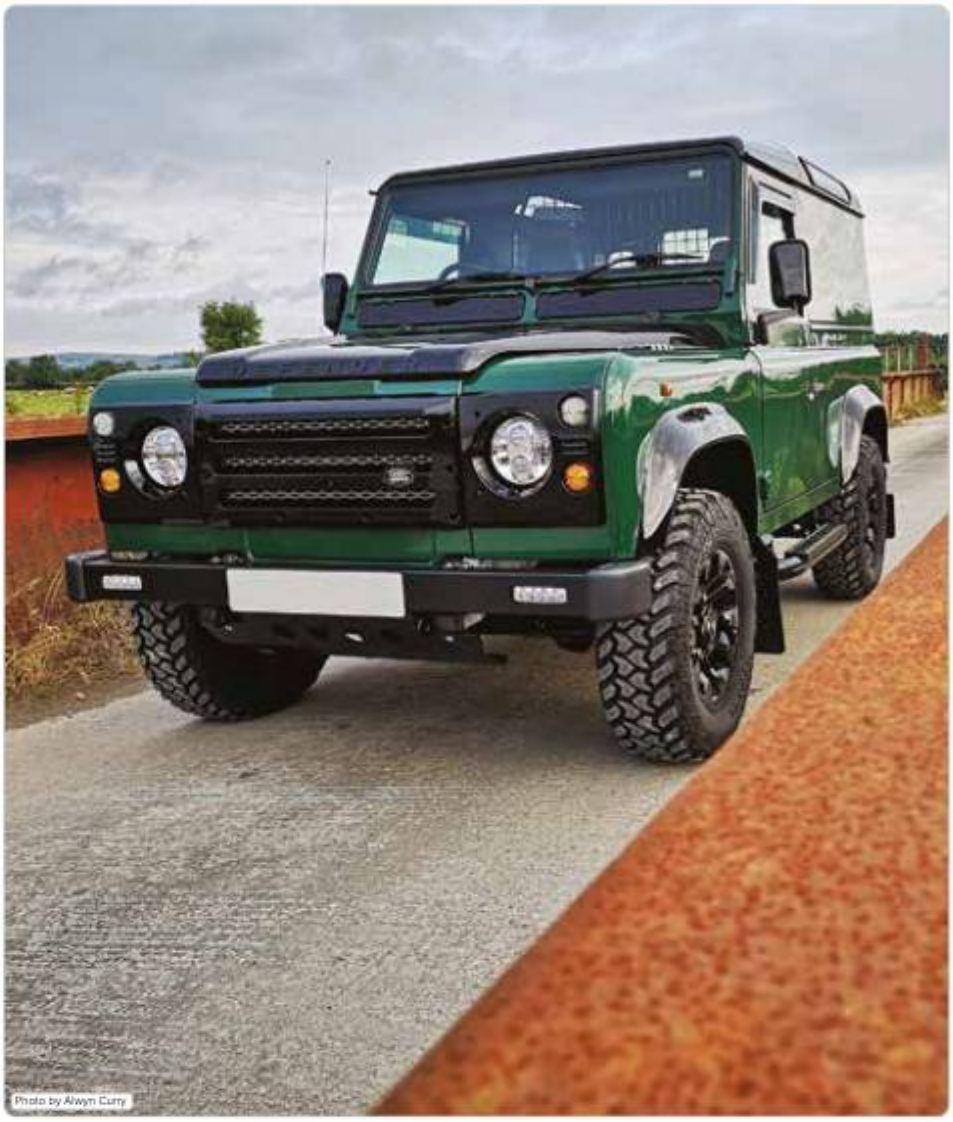

Welcome to our 21st Edition of the Britpart Accessory Catalogue.

This new edition is packed with ***over 500 new parts***. Many of the new parts are for the latest Land Rover models but with plenty of exciting new accessories for the older range of vehicles too. You'll be able to personalise your Land Rover to your exact needs and wants.

Britpart also stock a vast range of repair parts, many of which are featured in this catalogue, to help Land Rover owners across the world to keep their vehicles going both on and off-road.

At Britpart we are always adding new and exciting products to our accessories range, so remember to look at ***www.britpart.com*** for all the latest additions. Also worth remembering is that if there is no picture in the catalogue of a product, then visit our website as there are plenty more product pictures online.

Our commitment to you...

Photo by David Orrill

For over 40 years Britpart has been supplying quality parts and accessories for Land Rover users across the world. We are very proud to announce that all* Britpart parts and accessories will be backed by an industry leading 24 month guarantee.

With a recent multi-million pound investment in the best Land Rover products and with extensive investment in new staff, equipment and procedures we are convinced this guarantee will give consumers confidence in Britpart products. This is backed up with our approval by Lloyd's Register Quality Assurance to ISO 9001:2015.

This pioneering guarantee will cover over 28,000 parts from our extensive parts catalogue, from springs to clutches and winches to shock absorbers, confidence in the products we supply is assured. If any part is found to be defective following an inspection by our quality team due to faulty materials or workmanship then that part will be replaced free of charge.

With this significant development in Britpart's philosophy we are now confident that the parts the end users fit to their Land Rovers will deliver time after time, whether the customer is buying a part for a Series 3 or a new Range Rover, they are backed by the same 24 month guarantee.

Look out for the Britpart Guarantee Logo which is a constant reminder to the customer they are fitting the best available parts and accessories to their Land Rover.

*Subject to our standard terms and conditions. Proof of purchase required by the original point of purchase. Excludes reconditioned gearboxes & engines. This guarantee does not affect your statutory rights.

Now you've seen what we look like from the outside, why not have a look inside? **www.britpart.com/fly**

BRITPART

The quality parts for Land Rovers

www.britpart.com

A world of Land Rover ***parts*** & ***accessories***
all under one (well several) roofs!

The Marque

For over 40 years Britpart has been supplying quality parts and accessories for Land Rover vehicles, in that time we have become known as the leading independent wholesaler. With over 1,000 stockists worldwide, from government agencies to trade outlets our customers recognise us as a brand that can be trusted and relied upon time and time again.

BRITPART

The quality parts for Land Rovers

Our commitment to quality and customer service is at the forefront of our operations, with the Britpart logo a highly respected marque that embodies excellence in the field. Our ethos of continuous innovation ensures that we work hard to bring the best solutions to Land Rover owners around the world.

Products

With years of experience, our purchasing team swiftly reacts to the demands of the Land Rover parts markets. Britpart strives to provide our stockists with exactly what they want, when they want it, with many parts simply unavailable from other sources.

We recognise that Land Rover owners want to have many options when customising their vehicles. Our extensive range of accessories means that customers will always find something to suit their individual tastes and lifestyles. With our products, you can create a completely bespoke Land Rover!

Land Rover appointed Britpart as an 'Approved European Parts Distributor' for all Land Rover Genuine Parts. This, together with Britpart's vast range of parts, accessories, and extensive inventory of O.E.M. products, has resulted in Britpart becoming the ultimate 'One-Stop-Shop' for Land Rover parts. Providing everything our customers could possibly require, all ordered and delivered from one dedicated source.

Quality

Britpart is approved by Lloyd's Register Quality Assurance to ISO 9001:2015, demonstrating our commitment to supplying quality parts and accessories for Land Rover users across the world.

CERTIFIED LR ISO 9001

We take pride in offering very competitive prices complemented by excellent customer service. Through maintaining high levels of stock we are able to fulfil orders promptly, whatever part you may require.

Our industry-leading 24 month guarantee means that we are confident that the parts end-users fit to their Land Rovers will deliver time after time, whether the customer is buying a part for a Series 3 or a new Range Rover, they are backed by our guarantee.

Distribution

The extensive warehouse facilities at Britpart HQ in Shropshire, UK oversee the distribution of Land Rover parts and accessories around the globe. With hundreds of vans and lorries passing through each week, our warehouse has a continual flow of Land Rover parts and accessories to serve our customers.

AEO

UK Authorised Economic Operator

The fleet of Britpart vans and trucks deliver directly to Britpart stockists throughout the UK and Europe, adding to the personal touch that customers have come to associate with Britpart. We also work with the major carrier companies to dispatch our parts and accessories to stockists in every corner of the globe. No matter what part is required, or where in the world, Britpart will make sure to get it there!

Global

When Land Rover finally severed its association with Santana Motor SA it was Britpart who bought up all the existing stock from the factory in Spain and shipped it to their UK headquarters in Shropshire. The shipment included everything from small components to body panels and new engines, along with all the original drawings and tooling. Some of the stock was found to be interchangeable with Land Rover parts and a proportion of the rest is gradually making the journey back home with the assistance of our partner in Spain, Britpart España, Estanfi Automoción. Britpart's other partners around the globe include: Britpart France, Britpart Belgium, Britpart Brazil, Britpart USA, and Britpart Poland. Britpart is seeking to further expand its comprehensive customer base overseas and is continually looking for well established independent stockists of Land Rover parts to work closely with.

Service

Providing the best service to our customers is at the heart of our ethos, and our team is always willing to go the extra mile for our valued customers. Our enthusiastic and highly knowledgeable team is always on hand to assist with enquiries and facilitate the dispatch of goods to our customers. With years of experience, you will deal with people who have an in-depth knowledge of the business. The sales operation boasts three specialised sales teams; one each for Home, European, and Export markets, each with their own technical experts. Our Export team speaks several languages meaning that we can assist you in Spanish, French, German, Mandarin, Arabic, and many other languages. Customers can also place orders through our online portal, making it easier than ever to place orders at the most convenient time for you.

Handmade

Our modern Trim Shop operation produces a wide range of handmade seats, seat covers, bases, backs, and benches for Land Rovers. The highly skilled team ensures that the trim products are produced to the highest standards using quality materials. Our trim products are built with comfort and quality in mind, meeting the strictest safety regulations. Our Lock Shop Team also carries out a wide range of light engineering on site.

Quality Parts

From o-rings and oil seals to engines and exhausts, Britpart holds in excess of 28,000 stock items. Choice is key for our customers, who can choose from Britpart, O.E.M., or Land Rover Genuine Parts all at competitive prices.

With such an extensive stock holding, we have everything required for servicing, repairing, restoring, and even rebuilding a Land Rover, whether it is an old Series or a modern Range Rover. Thus enabling customers to order all they need on just one order sheet making it easy to keep track of stock and take delivery.

Quality Accessories

Whether you need accessories for an over-landing trip or want to make your Land Rover stand out from the crowd - Britpart has all the latest accessories to create a bespoke vehicle, whatever the model.

In line with our commitment to quality, we ensure that every accessory has undergone rigorous testing and meets the highest safety standards. To complement our Britpart accessories, we also stock accessories from leading brands such as ARB, Ring, Corbeau, Dynamat, Ravenol, Alcon, and many more.

DA7334	M10 x 35 bolt set & key

Security Marking Kit

DA8533
The International Security Register (ISR) system has proved successful in deterring and detecting theft and fraud for over 30 years. It works on the principle that if a vehicle's windows and parts are marked using robust techniques and details are recorded on a secure database - supported by a 24/7 verification service - criminals stealing the vehicle will run a real risk of being caught and prosecuted. Each mark applied to a vehicle will contain a unique 8-digit code, the ISR logo and www.isrcodecheck.com

Pack Components

- Full instructions on marking and registering a Land Rover are in the security marking kit.
- 8 vinyl stencils, fluid and brush for marking windows.
- 2 warning decals.
- 2 sets of 6 UV self-etch labels for application to painted metal body panels.
- 2 sets of 7 ultra-destruct labels with UV fluid and applicator for identifying plastic parts.
- A set of three Britpart branded security tags for increasing the chance of items that are so often mislaid, being returned to the owner.
- A Britpart branded ISR customer contact card.

Registration of Vehicle and Owner Data on the ISR
The vehicle owner - or the stockist - would complete the registration process online via the Britpart registration page at www.TheISR.org then select "All Vehicles" then "Vehicles" followed by "Britpart Registration Form" entering the unique code together with the vehicle make, model, colour, VIN and VRM together with the owners name and contact details. If an email address is supplied, an automated acknowledgement of registration would be sent. The code for the security tags would be automatically recorded.
More details of the kit can be found at
www.britpart.com/security

Parking Sensor Kit

DA4511
These bumper* mounted sensors will detect the distance between your vehicle and any rear obstruction and warn the driver to any potential obstructions. An advanced parking solution for obstacle detection at the rear of your vehicle. Reduce the risk of collision during reversing and reverse parking manoeuvres with this kit.

As the reverse gear is engaged, a sound indicates that the reverse sensors are activated. Any obstacle at the rear of the vehicle is then detected and signalled to the driver through a progressive sound whose frequency increases when moving closer to the obstacle.

Enhance your safety through obstacle detection, even when objects are out of the driver's field of vision. Improve comfort through easy parking manoeuvres. Suitable for 12v cars, SUVs and light commercial vehicles.

Kit contents include -
4 x Bumper fit sensors
1 x Warning buzzer
1 x Control unit
1 x Wiring harness
1 x Cutting tool
1 x Fitting accessories
1 x Installation instructions

Add an extra set of 'eyes' when reversing...

***Note** - Not suitable for vehicles with metal bumpers.

Rock/Tree Sliders & Sill/Side Protectors

Rock Slider/Side Steps
DA7533 Black finish
Discovery 3 & Discovery 4
The best of both worlds with these fitted to your Discovery!
Rock Slider - an essential purchase for any off road use. They prevent damage to the underside sill of the vehicle and allow for safe passage over rocky and rough terrain.
Side Steps - users often fit side steps to enable easy access to and from the car - this is a problem when going off-road as they bend, break and cause snagging. These heavy-duty side steps are made from 5mm steel plate with 50mm tube backed up by an additional 2 x 40mm tube supports. The joints are TiG welded for a smooth finish.

Rock Sliders
DA7534B Black finish
Discovery 3 & Discovery 4
These rock sliders (sill protectors) are manufactured from 6mm 5083 aluminium and come completely machined and drilled ready to fit. An essential purchase for any off-road use as they prevent damage to the underside sill of the vehicle and allow for safe passage over rocky and rough terrain. Attaches to your vehicle using 11 mounting points on the side and underneath and when the car doors are closed they are almost unseen, but you have the piece of mind that your car sills are safe from damage. These units require no additional drilling just unscrewing and unclipping of the plastic OEM parts.
For more information & images of these rock sliders visit **www.britpart.com/rock**

DA1307 DA1308 DA1311 DA1313

Direct fit!
No Cutting!

Great protection for the side of your Land Rover and they replace the sill of your vehicle. These rock & tree sliders are a fully welded 3mm steel construction with heavy-duty chassis mounted brackets and zinc primed with a smart black powder coated finish.

Dirt D-fenders

Dirt D-Fenders are a great solution to the annoying problem of mud which splashes through the gap that exists between the bottom of the wheel arch and the mudflap of your Defender. They are an especially useful addition if you are using wider tyres. The Dirt D-Fenders attach with rivets into the underside of the sill and wheel arch flare. The smooth finish is suitable for painting to match your body colour. Supplied in pairs with fitting kit.

Defender		Textured Finish	Smooth Finish
90 / 110 / 130	Rear of front wheel	**DA1193**	**DA1193S**

Note - DA1193, DA1193S, DA1198 & DA1198S will not fit Defenders with rock/tree sliders fitted.

Wheel Arch Kits - Plus 30mm Kits

Plus 30mm Wheel Arch Kits

DA1979	Front pair
DA1978	Rear pair

Defender
Designed to keep your vehicles legal when fitting wider tyre and wheel combinations whilst maintaining an appearance closer to the standard arch than other wide arches.
Using similar material to the OE arches they fix to the vehicle using the normal style clips - supplied.

Note - Wheel arches shown here with 285 75/R16 tyres on a ZU rim with an 11mm + VE offset

Keep your vehicles legal when fitting wider tyre and wheel combination.

Wheel Arch Kits - Standard

Replace any faded or damaged wheel arches with these OEM replacement wheel arch kits. Full kit for each vehicle.

Range Rover Classic - 3-door

DA2365
Discovery 1 - 5-door
Range Rover Classic - 5-door

Defender
2" wider than standard enabling tyres up to 14" wide and/or wheel spacers to be fitted while being legal for MOT testing. Made from an unbreakable plastic - ideal for extreme off-road use. Full kit.

DA2366
Defender 90 - 1984 - 2016
Defender 110 - 1984 - 2016

Discovery 2
These wheel arches enable larger tyres to be fitted while still being legal as these arches cover the tyres when wider tyres are fitted. They are virtually indestructible and all fixings are supplied with the kit.

DA1960 Discovery 2 50mm
50mm arches are required for large off-set wheel. Up to 31" diameter tyres with a 2" lift. Wing does not need cutting for fitment.

DA1961 Discovery 2 75mm
75mm arches will cover the tyres when wheel spacers are used. Up to 35" diameter tyres with a 2" lift. Wing does need cutting for fitment.

Outdoor & Indoor Covers

Ultimate Outdoor Covers
The Ultimate Outdoor Car Covers are made from a specially formulated advanced nanotechnology fabric, giving a unique water resistant coating to ensure long term protection and care for your Land Rover. The cover is manufactured from an advanced fabric which is fully waterproof*, fully breathable, strong and stretchy. The fabric is a little like a wetsuit, making them extremely soft on the inside and extremely durable. The covers have three sets of fully detachable straps underneath to help secure the cover, one at each end and one in the middle.

*Whilst the fabric is waterproof occasionally some seepage may occur through the seams, this will evaporate naturally as the fabric is breathable.

Note - At certain times of year (particularly in winter) when the air temperature fluctuates often, you will find that any outdoor car cover won't stop condensation forming on the car. The cold bodywork of the car will attract condensation due to the warm micro-climate within the car cover, however these covers are fully breathable, so as the temperature equalises this will evaporate through the cover. If you are worried about condensation forming during this higher humidity weather, we advise removing the car cover for a short while to let both the cover and the car air.

DA2834 Series - SWB / Defender 90 - 1987 - 2016
DA2835 Series - LWB / Defender 110 - 1987 - 2016
Defender 110 - 2020 onwards
Discovery 1, 2, 3, 4 & 5
Range Rover / Range Rover Sport

Super Soft Stretch Indoor Covers
This super soft, super stretchy indoor car cover is made with Lycra blended, satin fabric which allows the cover to cling to the car whilst its subtle sheen gives an elegant finish. Tightly knitted fleece lined fabric provides excellent protection from dust and other pollutants as well as remaining breathable to prevent any build-up of condensation forming on the car. The snug fit of these covers ensures that they not only look great but also provide exceptional protection. Low profile seams guarantee a sleek finish whilst displaying the contours and profile of your Land Rover.

DA2837 Series - SWB / Defender 90 - 1987 - 2016 / Defender 90 - 2020 onwards
DA2836 Series - LWB / Defender 110 - 1987 - 2016 / Defender 110 - 2020 onwards / Discovery 1, 2, 3, 4 & 5

Sump Guards

These guards from Britpart are manufactured from high-quality, hard-wearing and corrosion resistant materials to counteract any unforeseen obstacles your Land Rover may encounter whilst off-roading. All fixings are supplied and the guards fit into the vehicle's pre-existing holes. Each guard has holes at the front to allow for water drainage and also to help with ventilation for the cooling system.

DA7535B	Discovery 4	Black finish

*Great **Protection** from Hidden **Dangers!***

Sump Plate

DA7536 Discovery 3

This sump plate protects the underside of the engine and allows the car to slide over objects, forward and backwards due to the rear lip. With a natural finish the plate is made from 6mm 5083 grade aluminium and has been water jet cut to a precise finish. Plate bolts directly into existing holes and bulkheads already in the chassis, using the standard Land Rover fixings.

Transmission Guards

DA5625 Defender - Td5

Reduce damage to your Defender 90. Made from galvanised steel, this transmission guard protects your 90's gear box and cross members from snagging and reduces damage to your vehicle. Bolts on and is easy to fit and importantly it is also easy to remove when your vehicle needs servicing. **Note** - Only fits with centre exhaust removed and pipe fitted.

DA7532 Discovery 3

This transmission plate protects the underside of the transmission and allows the car to slide over objects. With a natural finish the plate is made from 6mm 5083 grade aluminium and water jet cut to a precise finish. Plate bolts directly into existing holes and bulkheads already in the chassis, using the standard Land Rover fixings and two additional fixings.
Note - Can only be fitted when sump plate DA7536 is also fitted.

Fuel Tank Guards

Protect your Defender's fuel tank. Manufactured from 6mm aluminium.
Note - Guards may not be compatible with other accessories fitted to the vehicle such as towbars.

DA6538	Defender 90 - Td5 & 2007 - 2016

DA7530B

DA6538

DA6539

Fuel Cooler Guard

DA6540
Defender - 2007 - 2016
Protect the Defender's vulnerable fuel cooler with this easy to fit electro-plated guard.

Swivel Housing Gaiter Kits

- Bond in place under existing flange
- Completely seals against dust, water and grit
- Moulded in high performance neoprene rubber
- No special tools required
- Proven tongue and groove for easy assembly
- Kit includes two gaiters, metal straps, bonding agent, gloves and full instructions

Permanent Protection!

DA3056
Series / Lightweight
DA3057
Defender / Discovery 1 / Range Rover Classic
DA3057GLUE
Additional bonding agent for DA3056 & DA3057
For easier fitting of gaiter without dismantling the axle assembly.

Universal Joint Silicone Sleeves

Series / Defender
Discovery 1 / Discovery 2
Range Rover Classic
By adding one of these silicone sleeves you will reduce debris from building up in the universal joint which, in time, will increase the life span of the joint.

DA4810
Rear UJ silicone sleeve for 63mm diameter propshafts
DA4811
Rear UJ silicone sleeve for 51mm diameter propshafts

Diff Guards

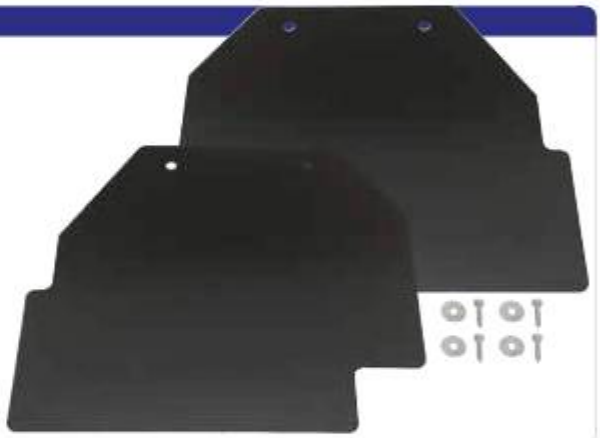

Defender / Discovery 1 / Range Rover Classic
Give your vehicle some extra protection with a diff guard. This guard is simple to fit (no drilling) and has the added advantage of having the fill plug accessible at all times.

DA2250B	Electroplate finish
DA2250GALV	Galvanised finish

Outrigger Mud Shields

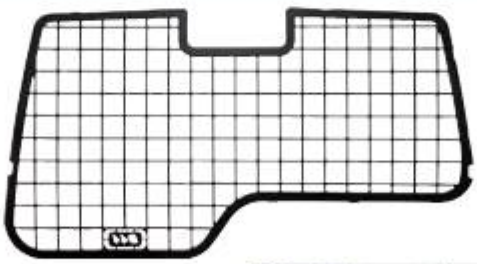

DA3477
Front Outrigger Mud Shields
Defender
These Gwyn Lewis 4x4 outrigger mud shield guards will fit all Defenders. Designed to stop all the mud and road salt getting on top of the front outriggers which can cause them to rot away, even galvanized chassis can suffer after a while. They also make cleaning your Defender much easier as the mud can't get into the outrigger and around the footwell. Another advantage of fitting them is they also cut down road noise especially in wet conditions. Manufactured from a rigid but still flexible 3mm plastic material in black, they are very easy to fit. Just slide them in behind the inner wing and use the 2 inner wing securing screws (included) to secure them. Fitting instructions are supplied with the kit.

Window Guard Kits

DA1586
Internal Rear Window Guards
Defender 90 - 2002 - 2016
Defender 110 - 2002 - 2016
3 guard set
Window guards for the small quarter windows at the rear of the vehicle and the tailgate door offering protection to the glass.

DA1588
Internal Tailgate Rear Door Window Guard
Discovery 2
Window guard for the tailgate door offering protection to the glass.

DA1587
External Window Guards
Defender 90 - 2002 - 2016
Defender 110 - 2002 - 2016
5 guard set
Externally mounted window guards for the side windows, small quarter windows at the rear of the vehicle and an internal guard for the tailgate door offering full protection to the glass.

These guards will increase security by deterring opportunists looking to enter from the rear, less visible part of your Land Rover. Designed to fit perfectly and providing full window coverage for the vehicle, these grills are constructed from 2mm steel with a zinc and black powder coat. All guards are supplied with the necessary brackets & fixings required for fitting at home.

Make Your Land Rover A Star!

Details on how to enter and full terms and conditions - **www.britpart.com/calendar**

Here at Britpart we are planning our next Land Rover themed calendar and we'd love to feature the pictures of proud Land Rovers owner's vehicles - whatever model, age or condition of the vehicle.

We love to see pictures of Land Rovers in locations stretching from rural UK, right through to vehicles in a foreign urban environment - use your imagination.

Winning entries will all feature in the next Britpart calendar and each one picked will win a great prize. So get out there with your Land Rover and camera - happy snapping. You can send us as many entries as you would like! ***Good luck!***

12 x Prizes Available

STC7632MT 1987 - 2006
LR016430MT 2007 - 2016
Folding rear door step with rubber tyre tread top

DA4818 Replacement rubber top with tyre tread pattern for STC7632MT & LR016430MT

Discovery

Rock Slider/Side Step

DA7533
Discovery 3 / Discovery 4
Pair

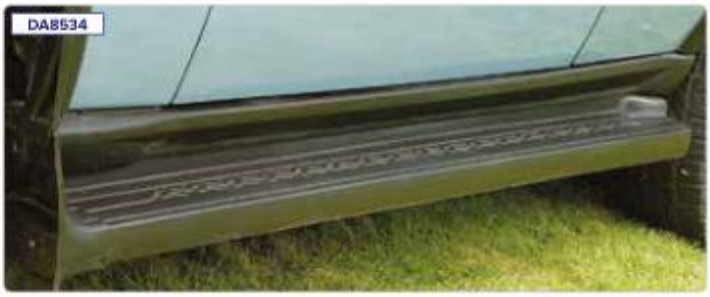

Rock Slider - an essential purchase for any off-road use. They prevent damage to the underside sill of the vehicle and allow for safe passage over rocky and rough terrain.

Side Step - users often fit side steps to enable easy access to and from the vehicle - this is a problem when going off road as they bend, break and cause snagging. These are heavy-duty side steps made from 5mm steel plate with 50mm tube backed up by an additional 2 x 40mm tube supports. The joints are TIG welded for a smooth OEM finish. The other benefit of this rock slider/side step combo is that the outer 'bar' pushes away small trees and scrub from the bodywork of the vehicle. They can also be used to 'slide' around thick trees when grip is minimal. These units require no additional drilling just unscrewing and unclipping of the plastic OEM parts. Fitting should take 15 minutes each side. Grip tape supplied loose for optional fitment.

The best of both worlds with these fitted to your Discovery!

Side Steps

Discovery 1

STC8130AB	Side steps	Chevron tread	Pair

Discovery 2

DA8534	Side steps - including mudflaps	Chevron tread	Pair
Replacement mudflaps - STC50221 - RHS & STC50222 - LHS

Electric Deployable Side Steps

Discovery 4

- Easy access to your Discovery 4
- Never available from Land Rover as an OE option
- Smart design. Enhance the look of your Discovery 4
- Tucked away when driving, prevents damage. Fixed steps are susceptible to damage when driving off-road
- Side steps automatically lower into place when a door is open and raise once door is shut
- Safety cut-off should step encounter an object
- Function to lower step with door shut - ideal for accessing the roof
- Manufactured from aluminium - strong and light

Britpart Expedition Roof Racks

Made in the UK

BRITPART EXPEDITION

More images online at www.britpart.com/expedition

These roof racks are manufactured from aluminium with a smart black powder coated finish. Fully welded, they are extremely strong, versatile, with a low profile and are easy to use. The floor plank profiles are orientated longitudinally which results in a reduction in wind noise. There are nut channels on all the extrusions to allow for easy fitment of 3rd party accessories.

DA3072

Roof Bar

Can be used as a spotlight mounting bar!

DA5570
Roof bar - single
Defender 90 & 110 - 1991 onwards
Weight 4kg
Load 100kg

Summit Roof Bars

DA5350	Discovery 5 - with rails
DA5351	Discovery Sport - with rails
DA5352	Range Rover Evoque - 2012 - 2018 with rails

Summit aluminium roof bars complete with pre-mounted feet and ready to use on vehicles with raised railings.

- Aluminium roof bars with non-slip coating
- Fully assembled ready to use
- Plastic foot suitable for open railings
- Fixing system with allen key which fixes the bar to the foot and the foot to the railing at the same time
- T-Track width on aluminium roof bars - 20mm
- Locks included
- Three year guarantee
- Manufactured to TUV standards
- Maximum load 75kg

Front Runner Roof Racks

All aluminium construction, fully welded. Powder coated finish. Patented slat, with grooves to accommodate 8mm bolts Modular design - allow accessories to be mounted and removed as need without drilling. Rail towards the rear, open in the front. Gutter mount stainless steel clamps

Full Racks - Silver

Maximum load weight of 80kg
Complete with a pair of black square bars.

Safety Devices Roof Racks - Explorer Range

Safety Devices Explorer Roof Rack Range
Heavy-Duty Steel Roof Rack
Explorer roof racks can be affixed with a system of detachable roof cross rails to the rainwater gutters or with aluminium clamps to fit directly on to the majority of Safety Devices' external roll cages. A rain gutter mounted roof rack can be converted into a roll cage mounted roof rack with the appropriate fitting kit. The standard pack includes a steel roof rack, fixing bolts and optional roof cross rails.

Roof racks are grit blasted, primed with a zinc enriched powder undercoat, and finished with a durable black powder coat. Tents can normally be affixed to the roof rack without a floor, although a marine ply non-slip floor is also available.

Additional roof cross rails are available to purchase for use without a roof rack for use as, for example, a roof bar, basic tent support, attaching a roof storage box or to spread additional load on the Safety Devices' roof racks.
Note - Not compatible with a sunroof.

Notes
Short Luggage Rail with rain gutter mount, ideal for side loaded tents.
Long Luggage Rail with rain gutter mount, ideal for front or back loaded tents.

www.britpart.com/safety-devices-racks

Safety Devices 'G4 Expedition' Roof Rack Range
An 'all in one' rack without detachable parts and a luggage rail which completely surrounds the roof rack. The roof rack neatly follows the profile of the roof to provide two floor levels and fixes to the rainwater gutter only. This roof rack cannot be fitted to a vehicle where an external roll cage has been fitted.

Includes 4 spotlight brackets at the front and 1 spotlight bracket at the rear. Heavy-duty steel roof rack, grit blasted, primed with a zinc enriched powder undercoat, and finished with a durable black powder coat. Standard pack includes a steel roof rack and rain gutter fixing bolts.

Note - Not compatible with a sunroof or roof tent.

Safety Devices Roof Racks - Highlander Roof Rack

DA4732

DA4733

Safety Devices Highlander Roof Rack
DA4732
Discovery 2 with roof rails
Highlander' roof rack for mounting to the rain gutter.
Full luggage rail which neatly follows the profile of the vehicle's roof. 4 light brackets at the front, 1 at the rear. Roof rack will also fit with factory fitted 'oversized' roof bars. Roof racks are grit blasted, primed with a zinc enriched powder undercoat, and finished with a durable black powder coat. Will allow limited use of the sunroofs although cannot be opened fully.
Weight: 29kg

DA4733
Marine ply floor for DA4732
1 floor with 2 'levels' plus all stainless and galvanised hardware for mounting.
Weight: 19kg

Safety Devices Roof Racks - Low Profile Roof Rack

Safety Devices

DA4873

Safety Devices
Low Profile Roof Rack
DA4736
Discovery 3 / Discovery 4
For mounting to roof rails
- CNC mandrel bent tubes
- Laser profiled plates and tubes
- 4mm gloss acrylic capped ABS wind spoiler
- All stainless steel fasteners
- Load area - 1,950 x 1,015mm / 60kg

DA4873
Roof rack flooring kit for DA4736
- 2,100 x 1,080mm approx
- 18kg

Safety Devices Roof Rack & Accessory Rack - Defender - 2020 onwards

DA3565
Roof Rack
Defender 110 - 2020 onwards
Roof rack assembly complete with wind deflector bib. Requires the installation of roof rails (VPLER0177) to allow fitment. No modification to the vehicle is required and the rack does not obscure the rear-view camera. Top of rack is 125mm above roof skin, measured directly behind the rear-view camera. Provides clearance for the panoramic sunroof to both tilt and open fully. The roof rack is compatible with the access ladder and accessory rack.

DA3568
Accessory Rack
Defender 90 / 110 / 130 - 2020 onwards
Multi-purpose accessory mount that can be fitted to either side of the vehicle. It can be installed standalone or in conjunction with the Safety Devices Roof Rack Assembly. Features mounting rails along upper and lower sides along with 4 x tie down points. Requires drilling of the trim panels below the rear window to allow installation into the existing body mounts beneath.

Safety Devices®

Safety Devices Soft Top Roof Racks

RRL2290FRS

RRL2290LRS

Defender 110 4-door Soft Top Roof Racks
Roof racks for mounting to RBL3087SSS.
Rack covers the rear section of the vehicle only, the area directly above the front row of seats is clear.
Kit includes double rear ladder and cross rail.

RRL2290FRS	2.0m x 1.4m	Full luggage rail
RRL2290LRS	2.0m x 1.4m	Long luggage rail
RRL2290SRS	2.0m x 1.4m	Short luggage rail
RRL2290NRS	2.0m x 1.4m	No luggage rail

Safety Devices Seat Belt Anchorage Frame

DA3554
Series 2
Series 2A
Series 3
Defender
Note - Will **NOT** fit a Lightweight or Series 1

This Safety Devices seat belt anchorage frame is designed to provide a robust belt mounting in Soft Top models.

Manufactured from 38.1mm x 2.64mm seamless tube, the frame provides both upper inertia seat belt reel mounting points and also provides upper harness mounting points when wrapped around the tube.

The frame fits directly over the existing canopy support brackets and has rearwards supports which also mount to the capping.

ARB BASE Rack

ARB BASE Racks

Introducing the next phase in roof rack evolution, the ARB BASE Rack. Ultra-sleek, boasting a low mounting profile and lightweight design, the ARB BASE Rack incorporates a unique dovetail accessory mounting system that makes attaching and removing accessories easier, faster and more secure. When developing ARB's BASE Rack one of the requirements of our engineering team was to have a complete roof rack system - racks, mounts, guard rails and equally important, a wide range of BASE Rack accessories. The dovetail attachment point of the BASE Rack provides a number of advantages to traditional accessory fitment on racks including:

- Accessories can be fitted anywhere on the dovetail feature either on the perimeter of the rack or on the front or rear of each cross beam. No need to slide along a t-slot with defined entry and exit points.
- Easy clean dovetail surface does not accumulate dirt and debris.
- Minimal tools required for fitment of BASE Rack accessories which greatly adds to the modular nature of the rack. Accessories can be quickly and easily removed when not required if there are height restrictions. For example, for low garage entry or an underground car park, and then refitted on the weekend for camping trips.
- Integrated channel within the BASE Rack structure for wiring of auxiliary lighting, solar panels or antennas.

Key Features

- Constructed from extruded aluminium beams featuring rigid internal bracing
- Fully welded construction (excluding corner caps)
- BASE Rack comes fully assembled ready to fit to mount brackets (sold separately)
- Integrit textured black powder-coat finish
- Strength through design requires no additional cross bars
- Dovetail accessory attachment design allows easy to install one handed attachment for various accessories
- Provision for easy running of wiring within the BASE Rack assembly

Rack Assembly

- Fully welded construction (excluding corner caps)
- Comes fully assembled - no additional assembly required to fit the rack to mounting system
- Controlled welds to ensure that the height of the weld doesn't impede on loading and unloading of the rack

Rack Beams

- Common extruded aluminium cross beams
- Box piece beam with internal bracing for added strength and rigidity
- Dovetail on both front and rear of each cross beam allowing for greater flexibility for the location of accessory fitment
- Beams run perpendicular to the vehicle to greatly assist in strength of the rack and ease of loading and unloading of longer items

Rack Longitudinal Side Beams

- Specific extruded longitudinal side beams features provision for running wiring within the beam through provided blanking plugs
- Internal bracing greatly adds to strength without added external dimensions
- Dovetail on exterior edge only

Rack Corner Caps

- Die-cast, UV resistant aluminium corner caps
- Bottom section is plastic to enable easy drilling for running of wiring

ARB BASE Rack Gutter Mount Kits

ARB BASE Rack gutter mount leg kits are based on ARB's traditional roof rack fit kits but now finished in Integrit textured black and with support plates to suit the BASE Rack extrusion. Steel gutter runners with plastic sleeves are included to spread the load within the vehicles roof gutter.

- Maximum load per BASE Rack beam is 25kg. Net Payload of the rack is dependent on vehicle specifications. Loads must be evenly distributed and adequately secured
- Required tools for fitment: 10mm spanner, 13mm spanner, hex key (supplied in kit), tape measure

17900060 BASE Rack Gutter 4-leg H2 fitting kit
Suits - 1770020 Weight of kit - 6.5kg

17900050 BASE Rack Gutter 6-leg H2 fitting kit
Suits - 1770030 & 1770040 Weight of kit - 10kg

17932010 NEW BASE Rack fitting kit - Defender - 2020 -
Suits - 1770040 Weight of kit - 14kg

Note - Please be aware that with speeds over 50mph you may hear air noise, which will come from rack area. Due to this we strongly recommend to use ARB LED bar, which is designed to decrease noise.

ARB BASE Rack - Accessories

ARB's BASE Rack has been designed around the premise of "**Build, Attach, Set, Explore**" allowing customers to set up, and importantly, change how the rack is configured and used. When developing ARB's BASE Rack one of the requirements of the engineering team was to have a complete roof rack system - racks, mounts, guard rails and equally important, a wide range of BASE Rack accessories. The dovetail attachment point of the BASE Rack provides a number of advantages to traditional accessory fitment on racks including:

- Accessories can be fitted anywhere on the dovetail feature either on the perimeter of the rack or on the front or rear of each cross beam. No need to slide along a t-slot with defined entry and exit points.
- Easy clean dovetail surface does not accumulate dirt and debris.
- Minimal tools required for fitment of BASE Rack accessories which greatly adds to the modular nature of the rack. Accessories can be quickly and easily removed when not required if there are height restrictions. For example, for low garage entry or an underground car park, and then refitted on the weekend for camping trips.
- Integrated channel within the BASE Rack structure for wiring of auxiliary lighting, solar panels or antennas.

TRADE GUARD RAIL

1/4 GUARD RAIL

¼ Guard Rail
Perfect for campers providing a level mount for a rooftop tent whilst still providing guard rail load security at the front or rear of the rack depending on set up.

1780020	1,285mm	3kg

Suits racks - 1770020 / 1770030 / 1770040

Trade Guard Rail
Great for loading longer items such as timber or ladders

1780600	1,255mm long	2.3kg	Suits racks - 1770070
1780110	1,545mm long	3kg	Suits racks - 1770020
1780120	1,835mm long	3.5kg	Suits racks - 1770030
1780130	2,125mm long	4kg	Suits racks - 1770040

1780500
Slimline LED Roof Rack Light Bar
Complementing the sleek design of the ARB BASE Rack, the light bar uses a uniquely tuned reflector design and pumps out a competitive 1 lux @ 728m with up to 60m of spread. Manufactured from extruded aluminium with high pressure die cast aluminium caps. The body is fully powder coated in a stealth black finish, with a light tint added to the polycarbonate lens. Using the mounting system built into the rack allows the light to be setup in minutes with two different mounting options - in front of the rack or below the rack. All brackets are included with the light. Light bar extras - **3500810** - **ARB Light bar wiring loom** & **3500820** - **ARB Light bar extension loom** ***Technical Specifications - see website.***

Slimline Light Bar Lens Covers

1780510	Clear x 2 covers
1780511	Black x 2 covers
1780512	Amber x 2 covers

Slimline Light Bar is 915mm wide and requires 2 packets of covers (2 x 2 pieces) to provide full protection. Virtually indestructible polycarbonate cover. Clear hard-coated finish UV stable. Specifically designed to suit the ARB Slimline roof rack light bar

1780490
Light Bar Mount - Underneath
Suitable for single bolt, end mount light bars and work lights. Suitable for mounting small items up to 3.5kg per pair. Can attach to the bottom of rack cross beams using included stud plate and fasteners. Supplied as left hand/right hand pair, includes fasteners for attachment to rack.

1780480
Light Bar Mount - Dovetail
Suitable for single bolt, end mount light bars, work lights and for mounting small items up to 3kg per pair. Can attach to the dovetail on any location of the rack. Brackets made from strong powder-coated steel. Supplied as left hand/right hand pair and includes fasteners.

1780520
20W Aux Light
Includes a unique bracket, over a moulded DT connector suitable for rack channelling, it features an additional DT connector for custom wiring. A scene lighting beam will reduce hot spots in the beam output and reduce glare for reverse cameras. Bracket included along with male and female DT connectors. 9V to 36V input. 20W power consumption/1.5A. 1,100 Lumens @ 5700K. IP69K, ECE, R10, CISPR 25/5 - Compliance. More information available online.

1780515
Light Bar Mount - With Front Guard Rail
Required when mounting ARB BASE Rack LED Light Bar (1780500) with BASE Rack front section of guard rail. Attaches to dovetail section of rack. Supplied as left hand/right hand pair, includes fasteners for attachment of bracket to rack. Supplied as a pair.

Rack Roller Kits

1780360	Rack Roller Kit	1,025mm
1780365	Rack Roller Kit	1,185mm

The roller helps your equipment to glide onto the rack making it easy to load the rack. Can attach to the dovetail track anywhere on the perimeter. Made from powder-coated aluminium. Full-width, low-profile roller.

Jerry Can Holders

1780350	Double - Horizontal
1780340	Double - Vertical*
1780330	Single - Horizontal
1780320	Single - Vertical*

Allows easy fitment jerry cans to your BASE Rack. Double holders secure to two beams, single to one beam or spans between beam. Strap included. *Provision for water tap.

1780380
Spare Wheel Y-Strap
These effective ratchet strap systems secure the tyre in three points on the rack. The unique dovetail clip which offers a positive connection directly to the rack at all three points. 400lbs lashing capacity to AS/NZS4380:2001 Adjustable one inch straps suit most tyre sizes. Supplied with carry bag.

1780385
Spare Wheel Y-Strap With Snap-Lock Hooks
Design features include a tether strap and snap lock hooks, which in combination positively retain the spare wheel and tyre even in the event of the spare wheel deflating. The tether strap also improves retaining of a tyre carcass only. Work conveniently with rack eye bolt tie-downs (not included).

1780250
Gas Bottle Holder
Perfect for carrying a 2kg - 9kg gas bottle, comes complete with the base, ratchet strap and two fixing eye bolts and can be secured to an individual beam or span between beams. Eye bolts and strap included to secure the gas bottle. Durable baseplate with adjustable stainless steel locking bracket.

ARB BASE Rack - Accessories

1780210
Spring Loaded Tie Down
Quick-attach spring-loaded tie-downs are easy to use with a simple one-handed operation. The tie-downs twist on & twist off. Provides a lashing point for ratchet straps. Designed to be taken off the rack when not in use by a simple half turn. Made from stainless steel. Pair.

1780370
Ratchet Straps
Ensure all your gear is safe and secure on your BASE Rack with these ratchet straps. They form a positive connection with the rack so there is no need for additional tie-down points. 25 x 3,000mm polyester webbing, 330lbs lashing capacity to AS/NZS4380:2001. Supplied with carry bag. Pair.

1780280
Hi-Lift™ Jack Premium Brackets
Quick-release loading and unloading of jack with two hinged cradles. It incorporates provisions for a padlock to secure the jack to your vehicle. Can be mounted in the foot up or foot down position and positioned anywhere on the dovetail track on the perimeter. Made from strong, powder-coated steel.

1780290
Hi-Lift™ Jack Classic Brackets
The Classic jack holder keeps the jack secure with two eye bolts attached directly to the dovetail. The jack can be mounted in either the foot up or foot down position. Can attach to the dovetail track anywhere on the perimeter. Made from strong, corrosion-resistant steel. Includes rubber handle keeper.

T-slot Adaptors

1780220	Single
1780230	Pair

For use with your existing T-slot compatible accessories. Allows fitment of accessories from a range of roof rack manufacturers. Uses a standard T-slot channel to accept T-slot mounted accessories. Can attach to the dovetail track at any point on the rack.

Recovery Track Holder

1780310	Holder
T2QRMP	Quick Release Pins - 2 Boards
T2QP162	Quick Release Pins - 4 Boards

4 piece fastening kit suitable for use with TRED Pro mounting systems. Can attach to the dovetail track at any point on the rack. Made from strong, corrosion-resistant steel.

1780610
Alloy Block Set - Nut & Bolt Kit
Powder-coated aluminium blocks. Can attach to the dovetail on any location of the rack. Set of 4.

1780200
Tie Down Eyebolts
These eye bolt tie-downs are built tough to handle any load and terrain and provide a lashing point for ratchet straps. Design to stay securely on the BASE Rack when not in use. Made from strong, powder-coated aluminium with forged steel eye nuts. Set of 4.

Awning Brackets

1780240	Fixed
1780260	Quick-release

The Awning Bracket allows quick fitment of your awning. Easy to attach to the BASE Rack, simply secure onto the dovetail track on the rack, can be attached at any point. Height adjustable. Made from strong, powder-coated steel.

1780390
Heavy-Duty Awning Bracket
Suits 270° awnings up to 30kg. Integrated eye nut tie down points. Attaches to outer perimeter dovetail and cross beam. High and low mount position for awning. Quick release slots for easy install and removal of awning to bracket. Includes bracket for additional hook point (if supplied) with awning.

1780420
Bridge Plate - Narrow
Provides a strong, versatile attachment point. Ideal for mounting rooftop tents. Can be used as a clamped pair or mounted individually.

1780430
Bridge Plate - Wide
Suitable for mounting aerials, sand flags, some beacons, and round driving lights with 1780610 alloy blocks. Can be used as a clamped pair or mounted individually using 1780610 alloy blocks. Mounts between cross beams.

1780440
Horizontal Mount - Narrow
Provides a strong, versatile, horizontal attachment point to your BASE Rack. Suitable for mounting small items up to 3kg per bracket including work lights, aerials, solar panels. Can attach to the dovetail on any location of the rack.

1780450
Horizontal Mount - Wide
Provides a strong, versatile, horizontal attachment point to your BASE Rack. Suitable for mounting small items up to 6kg per bracket including work lights, aerials, solar panels. Can attach to the dovetail on any location of the rack.

1780460
Vertical Mount - Narrow
Provides a strong, versatile, vertical attachment point to your BASE Rack. Suitable for mounting small items up to 3kg per bracket including work lights, solar panels. Can attach to the dovetail on any location of the rack.

1780470
Vertical Mount - Wide
Provides a strong, versatile, vertical attachment point to your BASE Rack. Suitable for mounting small items up to 6kg per bracket including work lights, conduit holders. Can attach to the dovetail on any location of the rack.

1780270
Shovel Holder
With its unique 4 mounting positions, the Shovel Holder can be fitted to all rack configurations allowing for various shovel or spade sizes & configuration of other accessories. A unique flip down, quick release retaining system ensures high clamping force and ease and speed of use. The custom designed retaining system is also lockable.

ARB Classic Roof Racks

DELUXE STEEL WITH MESH FLOOR TYPE

DELUXE STEEL TYPE

ARB

4X4 ACCESSORIES

ARB products available in the UK only.

Extensive research, design and testing goes into all ARB racks to ensure their functionality is never compromised, even under the most demanding conditions. With a strong, aerodynamic design, ARB's steel roof racks are constructed for maximum strength and perfectly suited to the structural design and load carrying requirements of off-roading.

3700090

Features

- Evenly spaced crossbars can support loads of up to 150kg, with an optional fully welded steel mesh floor also available.
- Precision cut drainage channel, specifically designed to reduce build up of dirt and accumulation of moisture.
- Full length, zinc annealed steel support channel with plastic protection strip to distribute load along the gutter and prevent vehicle damage.
- Stainless steel fitting hardware and a unique, super-strong clamping system that's easy to install and remove.
- MIG welding is used on the joins to ensure optimum strength.
- Pressed steel feet and legs are height & width adjustable, allowing multi-vehicle installations.
- Top rail sits well above rack floor to ensure a secure load and is constructed from tough, 25mm tube while the bottom rail utilises 35mm tubing.
- Air deflector plate significantly reduces wind noise.
- Rails are mandrel formed, ensuring consistency and even wall thickness across all sections.

TRADE STEEL TYPE

ARB's Trade Racks are available as an alternative to deluxe racks for a selection of models. Open at both ends, a trade rack enables the carrying of longer items, such as lengths of timber and ladders.

Rack shows accessories not supplied with roof rack.

Safety Devices Roll Cages

Thinking of taking your 4x4 over rough terrain? You might want to consider using a Safety Devices roll cage to help protect you in case of a roll over. The purpose of a roll cage is to help protect the cab of the vehicle against collapse.

Safety Devices®

Defender 90

RBL0927SSS **8-Point Multi-Point External/Internal Bolt-In Roll Cage** Black
Defender 90 - Hard Top - 3-door - 1990 - 2006 - right hand drive
Ninety - Hard Top - 3-door - 1983 - 1990 - right hand drive
Internal single hoop, external front legs, long backstays to rear chassis. For vehicles with bulkhead and without rear headlining. Made to Camel Trophy specification. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL092PAD.

RBL0927SSSLHD **8-Point Multi-Point External/Internal Bolt-In Roll Cage** Black
Defender 90 - Hard Top - 3-door - 1990 - 2006 - left hand drive
Ninety - Hard Top - 3-door - 1983 - 1990 - left hand drive
Internal single hoop, external front legs, long backstays to rear chassis. For vehicles with bulkhead and without rear headlining. Made to Camel Trophy specification. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL092PAD.

RBL1087SSS **6-Point Full External Bolt-In Roll Cage** Black
Defender 90 - Station Wagon & Hard Top - 1990 - 2006
Ninety - Station Wagon & Hard Top - 1983 - 1990
For vehicles with bulkhead. Includes brackets for forward facing rear seats. Models between 1983 - 1988 had three raised ribs on the roof approx. 22mm tall. This kind of roof does not work with our external roll cages as the hoops will clash with them.

RBL1224SNS **4-Point Internal Rear Bolt-In Military Style Hoop** Black
Defender 90 - Soft Top / Pick-up - 1983 - 2016
2 inch, without diagonal. Mounts through cappings into corner brackets. Backstays go to waist rail cappings. Front seatbelt shoulder anchor points. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL122PAD.

RBL122PAD **Internal Roll Cage Padding** Black
For roll-cage kit RBL1224SNS. Specially formulated polyurethane flame retardant padding kits of 55 Shore hardness. Kit covers all internal roll cage components above shoulder height.

RBL1383SSS **4-Point External Bolt-In Front Roll Cage** Black
Defender 90 - Hard Top - 3-door - 1990 - 2016 - without bulkhead
Defender 90 - Station Wagon - 3-door - 1990 - 2016 - without bulkhead
Roof mounting has internal reinforcement plate and front wing plates mount to chassis outriggers. Designed for Land Rover 50th Anniversary.

RBL1387SSS **8-Point External Bolt-In Front Roll Cage With Internal Rear Roll Cage** Black
Defender 90 - Station Wagon & Hard Top - 1990 - 2016
Ninety - Station Wagon & Hard Top - 1983 - 1990
Will fit bulkhead models, although bulkhead will need to be trimmed. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL1387PAD.

RBL1387PAD **Internal Roll Cage Padding** Black
For roll-cage kit RBL1387SSS. Specially formulated polyurethane flame retardant padding kits of 55 Shore hardness. Kit covers all internal roll cage components above shoulder height.

RBL1536SSS **6-Point Full External Bolt-In Roll Cage** Black
With 2" tube waist rail backstays
Defender 90 - Pickup - 1990 - 2016 - right hand drive
Ninety - Pickup - 1983 - 1990 - right hand drive

RBL1887SSS **8-Point Multi-Point External/Internal Bolt-In Roll Cage** Black
Defender 90 - Soft Top - 2-door - 1983 - 2006
External front cage that passes through the canvas behind the door to join the internal B hoop. B hoop includes front seat belt upper anchor points and backstays that mount to the capping. Developed from the original NAS specification Soft Top vehicles. Rearward mounted hoop, so requires 1 x OEM hoodstick in front of B hoop to mount door hardware to. Designed to fit vehicles that came with a factory fitted bulkhead behind the seats. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL188PAD.

RBL188PAD **Internal Roll Cage Padding** Black
For roll-cage kit RBL1887SSS. Specially formulated polyurethane flame retardant padding kits of 55 Shore hardness. Kit covers all internal roll cage components above shoulder height.

RBL2137SSS-A **6-Point Full External Bolt-In Roll Cage** Black
Defender 90 - Station Wagon - 1998 - 2006
For vehicles without bulkhead. Includes brackets for forward facing rear seats. Please note that this roll cage will clash with the older style roofs (1983 - 1988) that had three raised ribs approx 22mm (7/8") tall.

RBL2137SSS-B NEW **6-Point Full External Bolt-In Roll Cage** Black
Defender 90 - Station Wagon - 2007 - 2016
For vehicles without bulkhead. Includes brackets for forward facing rear seats. Please note that this roll cage will clash with the older style roofs (1983 - 1988) that had three raised ribs approx 22mm (7/8") tall.

RBL2303SSS **4-Point Full External Bolt-In Style Bar** Silver
RBL2303SSSBLACK **4-Point Full External Bolt-In Style Bar** Black
Defender 90 - Station Wagon & Hard Top - 3-door - 1990 - 2016
Ninety - Station Wagon & Hard Top - 3-door - 1983 - 1990
2.5" diameter front tubing, 2" diameter side tubing and 2" diameter windscreen rail tubing. Roof mounting has internal reinforcement plate and front wing plates mount to chassis outriggers. Made for Land Rover 60th Anniversary.

RBL2367SSS **6-Point Bolt-In Internal Rear Heavy-Duty Hood Stick Replacement** Black
Defender 90 - Soft Top - 2-door - 1983 - 2016
Forward hoop position. B hoop includes front seat belt upper anchor points, mountings for door frame hardware and backstays that mount to the capping. Rear hoop includes upper and lower mountings for forward facing seats. Designed to fit vehicles that came with a factory fitted bulkhead behind the seats. Please note, will not fit the earlier Series 88" models, currently only designed to fit vehicles with a bulkhead and will not fit models with a bulkhead replacement bar. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL236PAD.

RBL2997SSS **8-Point Multi-Point External/Internal Bolt-In Roll Cage** Black
Defender 90 - Soft Top - 1990 - 2006
Ninety - Soft Top - 1983 - 1990
External front cage that passes through the canvas behind the door to join the internal B hoop. B hoop includes front seat belt upper anchor points and backstays that mount to the capping. Developed from the original NAS specification Soft Top vehicles. Rearward mounted hoop, requires 1 x OEM hoodstick in front of B hoop to mount door hardware to. Designed to be used only on vehicles equipped with OEM/Land Rover bulkhead replacement bar - it may not work with after-market alternatives. We strongly recommend fitting the roll cage padding when installing this roll cage - RBL299PAD.

RBL299PAD **Internal Roll Cage Padding** Black
For roll-cage kit RBL2997SSS. Specially formulated polyurethane flame retardant padding kits of 55 Shore hardness. Kit covers all internal roll cage components above shoulder height.

RBL3017SSS **6-Point Bolt-In Internal Rear Heavy-Duty Hood Stick Replacement** Black
Defender 90 - Soft Top - 1990 - 2016
Ninety - Soft Top - 1983 - 1990
Forward hoop position, B hoop includes front seat belt upper anchor points, mountings for door frame hardware and backstays that mount to the capping. Rear hoop includes upper and lower mountings for forward facing seats. Designed to be used only on vehicles equipped with OEM/Land Rover bulkhead replacement bar - it may not work with after-market alternatives. We strongly recommend fitting the padding kit when installing this heavy-duty hood stick set - RBL301PAD.

RBL301PAD **Internal Roll Cage Padding** Black
For roll-cage kit RBL3017SSS. Specially formulated polyurethane flame retardant padding kits of 55 Shore hardness. Kit covers all internal roll cage components above shoulder height.

Defender 110

RBL0117SSS **4-Point Bolt-In Internal Rear 'Half' Roll Cage** Black
Defender 110 - Station Wagon - 4-door - 1983 - 2006
This roll cage will not fit with the larger rear bench seats that are fitted to Puma versions of the Defender. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL011PAD.

RBL1224SNS **4-Point Internal Rear Bolt-In Military Style Hoop** Black
Defender 110 - Soft Top / Pick-up - 2-door - 1983 - 2016
Defender 110 - Double Cab Pick-up - 4-door - 1990 - 2016
2 inch, without diagonal. Mounts through cappings into corner brackets. Backstays go to waist rail cappings. Front seatbelt shoulder anchor points. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL122PAD.

RBL122PAD **Internal Roll Cage Padding** Black
For roll-cage kit RBL1224SNS. Specially formulated polyurethane flame retardant padding kits of 55 Shore hardness. Kit covers all internal roll cage components above shoulder height.

RBL1383SSS **4-Point External Bolt-In Front Roll Cage** Black
Defender 110 - Double Cab Pick-up - 4-door - 1990 - 2016
Defender 110 - Station Wagon - 5-door - 1990 - 2016
Roof mounting has internal reinforcement plate and front wing plates mount to chassis outriggers. Designed for Land Rover 50th Anniversary.

RBL1487SSS **8-Point Multi-Point Internal 'Half' Roll Cage With External Front Legs** Black
Defender 110 - Station Wagon - 5-door - 1990 - 2006
One Ten - Station Wagon - 5-door - 1983 - 1990
Models between 1983 - 1988 had 3 raised ribs on the roof approx 22mm tall. This kind of roof does not work with our external roll cages as the hoops will clash with them. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL148PAD.

RBL1727SSS **8-Point Full External/Internal Roll Cage** Black
Defender 110 - Station / Utility Wagon - 4-door - 1983 - 2016
Mounts to the chassis at 6 external points. Internal B hoop mounts at 2 points. Front legs mount through front wings down to chassis outrigger. B hoop mounts to the vehicle floor above chassis outrigger. C hoop ties in to rear door shut assembly. D hoop ties to rear chassis cross member. The cage will not fit vehicles with the external ribs fitted on the roof, nor will it fit if the rear seat box is stepped in the rear corner. For clarification, see Safety Devices website. Compatible with Safety Devices 'Explorer' Roof Racks for roll cage mount, and Safety Devices L052 ladder. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL172PAD.

RBL172PAD **Internal Roll Cage Padding** Black
For roll-cage kit RBL1727SSS. Specially formulated polyurethane flame retardant padding kits of 55 Shore hardness. Kit covers all internal roll cage components above shoulder height.

RBL1837SSS **10-Point Multi-Point Bolt-In External Front Roll Cage With NAS Front Underwing Mounts & Internal Full Length Rear Roll Cage** Black
Defender 110 - Station Wagon - 5-door - 1990 - 2006
One Ten - Station Wagon - 5-door - 1983 - 1990
Models between 1983 - 1988 had 3 raised ribs on the roof approx 22mm tall. This kind of roof does not work with our external roll cages as the hoops will clash with them. We strongly recommend fitting roll cage padding when installing this roll cage - RBL183PAD.

RBL1857SSS **10-Point Multi-Point Full External Bolt-In Roll Cage/Internal B Hoop** Black
Defender 110 - Crew Cab / Double Cab Pick-up - 4-door - 1990 - 2016
Made to NAS Specification. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL185PAD.

RBL1907SSS **Full External Multi-Point Bolt-In Roll Cage** Black
Defender 110 - Hard Top - 2-door - 1983 - 2016
Made to NAS specification. Includes brackets for forward facing rear seats. Models between 1983 - 1988 had 3 raised ribs on the roof approx 22mm tall. This kind of roof does not work with our external roll cages as the hoops will clash with them.

RBL2057SSS **8-Point Multi-Point Bolt-In Full Roll Cage** Black
Defender 110 - Double Cab Pick-up - 4-door - 1998 - 2016
With front external roll cage and rear internal roll cage. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL205PAD.

RBL2303SSS **4-Point Full External Bolt-In Style Bar** Silver
RBL2303SSSBLACK **4-Point Full External Bolt-In Style Bar** Black
Defender 110 - Double Cab Pick-up - 4-door - 1990 - 2016
Defender 110 - Hard Top - 3-door - 1990 - 2016
Defender 110 - Station Wagon - 5-door - 1990 - 2016
Defender 110 - Utility Wagon - 5-door - 2007 - 2016
One Ten - Hard Top - 3-door - 1983 - 1990
One Ten - Station Wagon - 5-door - 1983 - 1990
2.5" diameter front tubing, 2" diameter side tubing and 2" diameter windscreen rail tubing. Roof mounting has internal reinforcement plate and front wing plates mount to chassis outriggers. Made for Land Rover 60th Anniversary.

RBL2427SSS **6-Point Bolt-In Full External Roll Cage** Black
Defender 110 - Station / Utility Wagon - 4-door - 1983 - 2016
Models between 1983 - 1988 had 3 raised ribs on the roof approx 22mm tall. This kind of roof does not work with our external roll cages as the hoops will clash with them. Compatible with Safety Devices 'Explorer' Roof Racks for roll cage mount. Compatible with Safety Devices L052 ladder.

RBL2437SSS **6-Point Full External Bolt-In Roll Cage** Black
Defender 110 - Double Cab Pick-up - 4-door - 1990 - 2016
Please note that this roll cage will clash with Ifor Williams hard tops.

RBL2447SSS **10-Point Bolt-In Internal Rear Heavy-Duty Hood Stick Set** Black
Defender 110 - Soft Top - 2-door - 1983 - 2006
Forward hoop position, so B hoop includes front seat belt upper anchor points, mountings for door frame hardware and backstays that mount to the capping. Rear hoop includes upper and lower mountings for forward facing seats. Designed to fit vehicles that came with a factory fitted bulkhead behind the seats. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL244PAD.

RBL2507SSS **12-Point Multi-Point External Front/Internal Rear Bolt-In Roll Cage** Black
Defender 110 - Soft Top - 2-door - 1990 - 2006
One Ten - Soft Top - 2-door - 1983 - 1990
External front cage that passes through the canvas behind the door to join the internal B hoop. B hoop includes front seat belt upper anchor points and backstays that mount to the capping. Rearward mounted hoop, so requires 1 x OEM hoodstick in front of B hoop to mount door hardware to. Designed to fit vehicles that came with a factory fitted bulkhead behind the seats. We strongly recommend fitting roll cage padding when installing this roll cage - RBL250PAD.

RBL2557SSS **4-Point Bolt-In Internal Rear 'Half' Roll Cage** Black
Defender 110 - Station / Utility Wagon - 4-door - 2007 - 2016
Suitable for the Puma Defender with high backed/bench seats. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL255PAD.

RBL3087SSS **10-Point External/Internal Multi-Point External/Internal Bolt-In Roll Cage** Black
Defender 110 - Soft Top - 5-door - 1990 - 2016
One Ten - Soft Top - 5-door - 1983 - 1990
External front cage that passes through the canvas behind the doors to join the internal C hoop. Features an internal hoop at the B pillar which connects internally to the rear hoop at the C pillar. Includes mountings for door frame hardware and is designed to have the same profile as traditional hood stick supports. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL308PAD.

RBL3097SSS **8-Point Internal Multi-Point Internal Heavy-Duty Hoodstick Set** Black
Defender 110 - Soft Top - 5-door - 1990 - 2016
One Ten - Soft Top - 5-door - 1983 - 1990
Internal heavy-duty hoodstick set spanning from B pillar to rear of the vehicle. Includes mountings for door frame hardware and is designed to have the same profile as traditional hood stick supports. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL309PAD.

RBL3107SSS **10-Point External/Internal Multi-Point External/Internal Bolt-In Roll Cage** Black
Defender 110 - Soft Top - 5-door - 1990 - 2016
One Ten - Soft Top - 5-door - 1983 - 1990
External front cage section which joins to an internal rear section at the B pillar. Also features an internal hoop at the B pillar which connects internally to the rear hoop at the C pillar. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL310PAD.

RBL3167SSS **12-Point External/Internal Bolt In External/Internal Roll Cage** Black
Defender 110 - Soft Top without bulkhead behind seats - 2-door - 1998 - 2016
External front cage that passes through the canvas behind the door to join the internal section. Rearward mounted B hoop, so requires 1 x OEM hood stick in front of B hoop to mount door hardware to. Designed to be used only on vehicles equipped with OEM/Land Rover bulkhead replacement bar - it may not work with after-market alternatives. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL316PAD.

RBL3177SSS **10-Point Heavy-Duty Bolt-In Internal Rear Hood Stick Replacement** Black
Defender 110 - Soft Top without bulkhead behind seats - 2-door - 1998 - 2016
Forward hoop position, so B hoop includes front seat belt upper anchor points, mountings for door frame hardware and backstays that mount to the capping. Rear hoop includes upper and lower mountings for forward facing seats. Designed to be used only on vehicles equipped with OEM/Land Rover bulkhead replacement bar - it may not work with after-market alternatives. We strongly recommend fitting the padding kit when installing this heavy-duty hood stick replacement - RBL317PAD.

Add some extra protection to your Land Rover

Defender 130

RBL1383SSS **4-Point External Bolt-In Front Roll Cage** Black
Defender 130 - Double Cab High-Capacity Pick-up - 4-door - 1990 - 2006
Defender 130 - Station Wagon - 4-door - 1994 - 2016
Roof mounting has internal reinforcement plate and front wing plates mount to chassis outriggers. Designed for Land Rover 50th Anniversary.

RBL2303SSS **4-Point Full External Bolt-In Style Bar** Silver
RBL2303SSSBLACK **4-Point Full External Bolt-In Style Bar** Black
Defender 130 - Double Cab High-Capacity Pick-up - 4-door - 1990 - 2016
Defender 130 - Station Wagon - 4-door - 1998 - 2016
2.5" diameter front tubing, 2" diameter side tubing and 2" diameter windscreen rail tubing. Roof mounting has internal reinforcement plate and front wing plates mount to chassis outriggers. Made for Land Rover 60th Anniversary.

RBL2477SSS **8-Point Multi-Point External Bolt-In Roll Cage With Internal B Hoop** Black
Defender 130 - Double Cab High-Capacity Pick-up - 4-door - 1990 - 2016
The rear provides sufficient clearance to allow the original rear canvas to be left in place with only a small modification required each side at the rear. We strongly recommend fitting the roll cage padding kit when installing this roll cage RBL247PAD.

RBL2497SSS-A **8-Point Bolt-In Full External/Internal Roll Cage** Black
Defender 130 - Station Wagon - 4-door - 1990 - 2016
Suitable for vehicles with rear tub length of 1650mm. We strongly recommend fitting roll cage padding when installing this roll cage - RBL249PAD.

RBL2587SSS **8-Point Bolt-In Internal/External Bolt In Roll Cage With Internal B Hoop** Black
Defender 130 - Double Cab High-Capacity Pick-up - 2007 - 2016
For High-Capacity Pick-up with rear Tembo hard top. We strongly recommend fitting the roll cage padding kit when installing this roll cage - RBL258PAD.

RBL2607SSS **6-Point Multi-Point Full External Bolt-In Roll Cage** Black
Defender 130 - Double Cab Pick Up - 1990 - 2016
The rear provides sufficient clearance to allow the original rear canvas to be left in place with only a small modification required each side at the rear.

Freelander 1

RBL1507SMU
14-Point Multi-Point Bolt-In Competition Internal Roll Cage For Cross Door Bars
Black
Freelander 1 - 3-door & 5-door - 1997 - 2006
Rear roll cage has cross diagonal in backstays, harness bars, tunnel brace & lower backstays. Please note that this roll cage no longer complies to Comp Safari regulations due to the Cross Country Events (P) Technical Regulations where Section 56.14.10 stipulates that a roof brace must be installed. As this is a competition roll cage, appropriate padding should be fitted in accordance to competition requirements.

RBL150FFK
Fitting kit for RBL1507SMU

DA3801 Coming Soon...
Safety Devices Stepped Non-Winch Front Bumper
Defender - 1983 - 2016
Constructed from 3mm steel plate and finished in a durable zinc-based powder coat, this bumper is a direct fit replacement for your Defender. Can be installed to both air-con and non-air-con vehicles, and no modification of the grille or the OEM jacking points is required.

DA3802 Coming Soon...
Safety Devices Stepped Non-Winch Steering Guard
Defender - 1983 - 2016
Powder coated steel mounting brackets and aluminium steering guard plate. Can only be fitted when Safety Devices Stepped Non-Winch Front Bumper (DA3801) has been installed.

DA3807 Coming Soon...
Safety Devices Tubular Side Step/Rock Slider
Defender - 110 Station Wagon - 2007 - 2016
Designed to be a direct replacement for the OEM side steps. The mount to both the existing OEM mounts under the sill as well as additional chassis mounts. Features a removable toe rail assembly.

DA3803 Coming Soon...
Safety Devices Stepped Winch Front Bumper
Defender - 1983 - 2016
Constructed from 3 & 5mm steel plate and finished in a durable zinc-based powder coat, this bumper provides the option to install a variety of different winches using the mounting dimensions are 254 x 114.5mm (10" x 4.5"). There are also 2 x recovery shackle mounts (23mm hole) along with an opening for a standard 255mm hole centre fairlead to be installed. Can be installed to both air-con and non-air-con Defenders, although the grille may need to be modified on an air-con model, depending on the winch installed. The OEM chassis jacking points must be removed from the end of the chassis legs to allow the bumper to fit.

DA3804 Coming Soon...
Safety Devices Stepped Winch Steering Guard
Defender - 1983 - 2016
Powder coated steel mounting brackets and aluminium steering guard plate. Can only be fitted when Safety Devices Stepped Winch Front Bumper (DA3803) has been installed.

Safety Devices Roll Cage Mounted Raised Air Intake
Defender - 1987 - 2016
3" diameter stainless steel snorkel, designed for use with Safety Devices roll cages as listed. Includes anodised aluminium clamp to mount to roll cage.
Note - Excludes 3" raised air intake head.

DA2985
Right hand side cage mount
Fits the following Safety Devices roll cages -
L108, L172, L185, L190, L213, L227, L242, L243, L247, L249, L258, L259 & L260

DA3808 Coming Soon...

winning MINILITE wheels

The original Minilite wheel, was probably the most successful competition wheel of the 1960's and 70's. As the name suggests, it was originally developed as a magnesium competition wheel for the then revolutionary new Austin 'Mini', but its instant success meant that it was soon to be seen on many of the serious race and rally cars of that era.

A new iconic style was born, and to this day, all genuine Minilite wheels are made to that original classic design. Originally conceived for race and rally, demand soon grew for road car applications, and has remained so ever since.

Minilite wheels are 'Low-Pressure' die cast, in high grade aluminium alloy, machined on the latest CNC equipment, 100% pressure tested, and finally powder coated for maximum protection against the elements.

MaxXtrac - Blindo Alloy Wheels

Defender
Discovery 1
Range Rover Classic
Specifications
- Size - 16" x 7"
- PCD - 5 x 165.1
- Offset - et 15
- Weight - 14.3kg

DA2488	Anthracite
DA2489	Black

Smart looking, tough, high quality alloy wheels which are ideal for off-road use. Used for rally-road competition vehicles as well as the military. Blindo wheels are manufactured in Italy.
- Only prime aluminium is used.
- Less silicon is added than cheaper alloy wheels.
- Alloys are heat-treated for improved mechanical properties.
- Metal is de-gassed to remove any small bubbles.
- Low pressure cast to ensure improved metal density.
- Once made each alloy is x-rayed to check for defects, then water tank pressure tested to ensure no leaks.

DA2488

Spare Wheel Removal Kits

The considerable weight of the spare tyre on the rear door of your Defender can sometimes make using that door awkward, especially if you're parked on a hill. The same tyre also restricts your view when driving. To help alleviate these problems or to change the look of your Defender, you can now remove the rear tyre and fit colour co-ordinated blanking plates to the rear door.

This easy to install 2-piece kit is supplied with all the fixings you need. The plates fit snugly in the recess, ensuring a smart flush finish to your door. Photos for illustrative purposes only.

Cordless Tyre Inflator Air Compressor

A rechargeable and detachable 20V high-performance battery is included along with an extra base which is powered by the 12V on-board power outlet with a 3m power cable.

The LCD display not only shows the battery level and 4 optional pressure units (PSI, BAR, KPA, Kg / cm^2) but also displays the current tyre pressure and target tyre pressure. When it reaches the pre-set pressure the inflator will stop automatically.

An LED light can be controlled by an independent switch, providing bright vision at night or in dark places.

Storage of the tyre inflator is easy thanks to its compact design.

Specification

- Input voltage - DC 21V
- Operating voltage - DC 18V
- Maximum current - <11A
- Maximum inflation pressure - 150PSI
- Air volume - 40L/min
- Battery capacity: 5 x 2500mAh lithium
- Accuracy - ±1.5psi
- Charging time - 3-5 hours
- Use time - 30min
- LED light - 8LM
- Length of hose - 350mm
- Length of power cord (no battery packaging) - 3m±10mm
- Working environment temp - -20° to 50°
- Weight - 2.03kg

XS Cordless Tyre Inflator Air Compressor

DA2908	With UK Plug
DA2908EU	With EU Plug

20V cordless tyre inflator air compressor up to 150PSI with LCD digital pressure gauge, LED light, rechargeable li-ion battery and 12V socket.

A fully charged 20V tyre inflator can top up 10 car tyres (185/70 R14). Extra nozzles included can also easily inflate bicycles, motorcycles, SUVs, vans, along with inflatable toys and balls. It has increased power with air flow up to 40L/min. It only takes 2 minutes to fill up an empty 185/70 R14 tyre.

When it reaches the pre-set pressure the inflator will stop automatically.

Kit Contents

1 x Tyre inflator
1 x Cigarette lighter socket
1 x Lithium battery holder
2 x Conical nozzle
1 x Transfer valve
1 x Air hose
1 x Ball needle
1 x Portable zipper bag
1 x User manual

205 x 16 - Uses TR13 (small) type valve

Stud Kleen

DA1698
The all-in-one stud & hub cleaning tool!
Stud Kleen attaches firmly to a standard impact wrench, providing the fastest and safest cleaning solution for your wheel changing process. The face of the tool moves rust and contaminants in seconds, providing a smooth clean surface for ease of assembly of all mating parts. At the same time, stainless steel tines effectively clean the threaded studs assuring easy and accurate torquing of lug nuts. The proprietary abrasive material is significantly longer lasting than any other material on the market.

- Cleans the hub and stud at the same time
- Fits to ½" impact
- Single size for all passenger cars and light trucks
- Won't damage your wheels
- Dense, long lasting abrasive pad
- Hundreds of internal stainless steel tines instantly & effectively clean threaded studs
- Stack tolerances when balancing wheels will improve and ensure proper torque tensioning during installation
- Cleans approximately 800 wheels

Speedo Healer

DA1426
Defender
Td5 & 2007 - 2016
Plug & play. Behind the handbrake backplate, on later Defenders, is a green 3 wire transducer which generates a pulse. This is then sent to the speedometer to show your vehicle's speed. Fitting different sized tyres or a non-standard ratio ring and pinion in the diffs could well mean the speed displayed is inaccurate. Fitting and programming this small box is easy. Once installed it allows you to adjust the output pulse, both up and down, which means your speedo will indicate the correct speed at which you are travelling.

Tyre Repair Kits

Don't get caught out with a flat tyre or two!

DA2390
Tyre Repair* Kit in Travel Case
How it Works

1. Find and remove the item that caused the puncture.
2. Apply rubber solution to the reamer tool then push the reamer into the puncture and work up and down until the reamer moves easily in the hole.
3. Thread one rubber tyre plug in the hook tool.
4. Push the rubber tyre plug into the hole until ½" of the tyre plug remains outside the tyre then turn the hook tool a quarter turn and pull out slowly.
5. Cut off the excess tyre plug as close to the tyre as possible.
6. If the puncture is too big have the tyre fixed by a professional.

*Recommended for off-road use only.

Magnum High-Precision Tyre Balancing Beads

What are MAGNUM+ Beads & How Do They Work?

Beads are dispersed evenly around the inner wall of the tyre through centrifugal force. Based on Newton's law that every force creates an equal and opposite reaction, MAGNUM+ beads reposition themselves to offset the heavy spots, neutralizing the imbalance and eliminating vibration. Made of tempered glass, MAGNUM+ beads are 98% round and carefully calibrated for consistent size and maximum precision.

- 100% TPMS (Tyre pressure monitoring system) compatible
- No special valve core required
- Perfectly round and extremely smooth preventing them from disintegrating and causing any damage to the inner liner of the tyre.

See them work here

www.britpart.com/magnum-action

MAGNUM+ Benefits

Save Fuel

High precision balancing means a proper, consistent balance every time. A balanced tyre means less vibration resulting in a reduction in rolling resistance, and in turn, better fuel efficiency!

Save Time

Self-adjusting balancing minimizes downtime on the job and less time in the workshop so you can do more... and play more.

Save Money

Saving fuel and time ultimately means that you save money. MAGNUM+ will extend the life of your tyres by promoting consistent, even wear and tear. With MAGNUM+ you will replace your tyres less often!

Balance It. Forget It.

Proper tyre maintenance involves a constant balancing that will, on one hand, maintain fuel efficiency and, on the other hand, maximize the life of the tyre. Traditional external weight tyre balancing means rebalancing your tyres at regular intervals. With MAGNUM+, all tyres can be efficiently balanced throughout their life because the beads retain their physical characteristics and never disintegrate, thus they will outlast your tyres.

Adapt To Any Road Condition

If you like to play in the mud, drive in the snow or go from one messy job site to another, heavy spots on your tyre may change leaving your wheels unbalanced. Wheel weight balancing can often be ineffective on a vehicle experiencing various conditions. With MAGNUM+ the beads simply reposition themselves according to the new force created by the heavy spot.

Using MAGNUM+ Beads

Toss

First, you need to determine what size MAGNUM+ you require using the online calculator. MAGNUM+ comes in pre-measured INSERT™ bags that you simply toss directly inside the tyre during installation. That's it! The rest is business as usual.

Mount

You don't have to do anything to the bag. Once you toss the MAGNUM+ insert bag into the tyre, just mount the tyre to the rim as normal!

Inflate

When you're ready, inflate the tyres as usual. There's nothing else to do. No spinning, waiting, calibrating or weight fixing. The whole process takes a fraction of the time as a traditional fixed weight balance!

Drive

Then get on the road! As you drive, the bag will break open and set the beads free to do their job, providing a high-precision balance every time!

ARB Pressure Control

Employing the same unmatched ARB proprietary technology and learnings from over 3 years of in-field use, this premium product now provides more ARB Air Compressor customers with the option to use convenient, accurate and unmatched air pressure control. More so, this incredible functionality is conveniently controlled at your fingertips by a smartphone app!

Features & Benefits

- Utilises a smartphone app and pressure control regulator valve to conveniently inflate and deflate tyres, balls, air mattresses, bike tyres and more
- View the current pressure in your tyres
- Set the desired target pressure using four customisable pre-set modes of your choice
- Set the maximum system pressure
- Choose your own units of measurement from kPa, bar, psi
- Receive audible and vibration alerts to indicate when desired pressure has been achieved
- Set system settings such as only allowing pressure control to operate if the engine is running
- Initiate a recalibration of the pressure sensor via the app for unmatched accuracy
- View the current voltage of your electrical system
- IP rated pressure control module and wiring harness safe for engine bay mounting

What's In The Kit

- Pressure control module
- Pressure regulating valve
- Pressure transducer
- Wiring harness
- Mounting bracket
- Installation instructions

Compatibility

- Suits ARB air compressors: CKMA12, CKMA24, CKSA12 & CKMTA12
- Suits 12-volt electrical charging systems only
- Smartphone application suits Android and iOS compatible devices

ARB Air Compressors & Tyre Maintenance

ARB601
ARB Digital Tyre Inflator
Most four wheel drivers understand the importance of running the correct tyre pressures for different situations and or load variances. This is why it's so important to carry an accurate air pressure gauge and tyre inflation equipment in your vehicle, especially when driving off road. The ARB digital tyre inflator makes checking and adjusting your vehicle's tyre pressures a fast and simple operation thanks to its large easy to read digital blue backlight display, big thumb operated inflator button and easy access deflator bleed button.
- Inflate, deflate & measure
- 600mm dual swivel PVC coated braided hose
- Accuracy to +/-1psi @ 25-75psi
- Up to 200hrs runtime on set of batteries
- Easy to read blue backlight display

ARB605A
ARB Tyre Inflator
- Compatible with ARB compressors
- Protective rubber gauge guard
- Air bleed button for deflating
- 600mm stainless braided PVC coated flexible hose
- Clip on chuck
- Incorporates ¼" NPT-US industrial interchange male coupling
- Bronze bourdon tube gauge design
- Fully gear, solid brass precision movement
- Easy to read dial with psi & bar scales

ARB600
ARB Tyre Deflator
Makes tyre deflation even easier.
The unique, patented design of the E-Z Deflator allows for removal of the valve core for rapid tyre deflation, while also providing accurate pressure reading via the simple movement of a sliding valve. Provided in a protective canvas pouch, the quality bronze Bourdon Tube gauge design ensures accuracy is not affected by fluctuations in temperature, humidity or altitude.
- Corrosion resistant brass/stainless deflator tool
- Fully geared, solid brass precision movement
- Protective rubber gauge guard
- Easy to read dial with one PSI increments

ARB510
ARB E-Z Deflator Digital Gauge
The ARB E-Z Deflator Digital Gauge makes tyre deflation even easier thanks to accuracy of up to +/-1psi @ 15-75psi, a large digital read out with blue backlight display as well as multiple pressure readouts including PSI, BAR, KPA and KgF.
- Ribbed rubber gauge guard
- Flexible braided hose
- Full swivel gauge connection
- Rated capacity - 0 to 200psi
- Multiple pressure scales
- Large LCD digital readout
- Easy read blue backlight display
- Brass components and crimps
- Up to 200hrs battery life

DA8998
ARB Portable Air Compressor
This portable 12V air compressor comes in a durable polypropylene carry case for added versatility and uses quality components for quiet operation and extra long life. Including a 19ft air hose, it also comes with all the necessary fittings for tire inflation and camping or leisure gear. Its twin motors are internally thermal protected against extreme temperature damage while a heavy duty in-line maxi fuse for each motor provides professional circuit protection. The compressor comes in a high quality carry case featuring internal pockets for components and accessories including a 6 metre air hose. Much more information available online.

CKMTP12
ARB Portable Twin Air Compressor
The ARB CKMTP12 portable air compressor is a compact sized yet high performance compressed air source that is intended for rapid inflation of large tyres and operation of most air powered tools rated up to 85LPM (3CFM) @ 600kPa (90PSI). The ARB CKMTP12 is a world class recreational product designed and built to commercial / industrial standards boasting the following features:
- High flow, twin motor, dual cylinder, portable 12V DC air compressor with 4L air tank, 6m durable high temp air hose, inflation accessory kit and air blow gun
- Ultra-compact twin motor with dual cylinder design makes this the highest flowing portable compressor of its size on the market at 174LPM (6.16CFM)
- Integrated aluminium air tank and pressure switch regulates pressure between 930kPa (135PSI) and 1030kPa (150PSI) suited to most air powered tools.
- Mounted in a waterproof carry case constructed from a durable impact resistant polymer. The carry case has convenient compartments for storing the air hose and other compressor accessories.

Much more information available online.

CKMTA12
ARB Twin On-board Compressor Kit
Designed to fill the market need for a compact sized yet high-volume compressed air source to suit the high volume airflow needs of most air powered tools, and also to suit the actuation and control needs of the ARB Air Locker, and the harsh and demanding environment of the ARB Air Locker user. Much more information available online.

ARB Speedy Seal Puncture Repair Kit
DA8930 Repair kit
10100010 50 x Replacement cords
Coming in a compact, high visibility carry case, the Speedy Seal includes all the components necessary to repair tubeless radial or cross ply tyres, without removing the tyre from the vehicle or rim. A pencil type tyre gauge with dual chuck makes setting pressures a snap, while a spring steel insertion needle and hardened reamer tool allow fast tyre repairs.
- Lubricant for easier tool insertion
- Additional accessories (valve core tool, spare valves and valve caps)
- 30 self vulcanising repair cords for complete air sealing
- Allen keys

0740113
ARB Hose Coupling Dust Cap

0740108
ARB Compressed Air Blow Gun
To keep your air compressor and air accessories clean from dust and debris encountered during regular off-road driving, the compressor blow gun is the ideal solution delivering compressed air for fast and easy cleaning.

ARB4297
ARB Inflation Case
Housing your Air Systems gear in a safe and convenient location within your vehicle is not always an easy task. The extreme conditions we put our vehicles through demand a solution that is fit for purpose and of the highest quality. This is the solution.
7 pockets capable of holding 2 x air hoses, 1 x inflator, 1 x deflator, 1 x compressor blow gun and more
- PVC waterproof and abrasion resistant material
- Reflective strips for high visibility and safety
- Holds an ARB Speedy Seal SII Repair Kit
- Updated Air Systems branding and colours
- Ergonomic pull ring zippers and rubber handle

171302V2
ARB Tyre Inflation Kit
The ARB tyre inflation kit for air compressors is specially sourced from Japan, providing a unique high-heat tolerant hose for the hi-output compressor (CKMA12 & CKMA24). The practical kit includes a dust resistant air chuck and an enclosed internal bearing system to prevent dirt ingestion.
- Suitable for camping, touring and off-road applications as well as everyday usage
- Provides fast, accurate inflation
- Kit includes
  1 x high heat pressure hose
  1 x ARB air chuck with quick press fitting
  1 x ARB T-fitting for use with the ARB air compressors and an assortment of additional fittings to suit various camping and sporting gear such as air mattresses and footballs

Replacement cover for DA4088, DA4088C & DA4088W

Cibié Driving Light

DA6502 Cibié LED spot light - single

High performance with a large, homogeneous beam
- Includes one Oscar LED light with wiring, mounting hardware, installation instructions, white protective cover with Cibié logo and Cibié sticker.
- Coated polycarbonate lens is waterproof, shock resistant, corrosion resistant and UV resistant.
- Luminous flux - 700lm
- Voltage - 12 - 24V DC
- Light temperature - 6,000K
- Candelas - 75,000 cd
- Length of visibility - 370m
- Width of visibility - 40m
- Safety certification - ECE / SAE / CCC

Other Driving Lights

DA4099	Hella Rallye 3000	Black	Single
PRC8238	Spoiler lights classic	Black	Pair
STC8480LR	Safari 5000	Black	Single

Defender - 1987 - 2006 / Discovery 1 / Discovery 2
Range Rover Classic - 1992 - 1994 / Range Rover P38

Light Bar

STC50243
Discovery 2
Black
Note - Excludes lights

Fog Lights

LR004088
Freelander 2 - up to AH999999
Upgrade your Freelander 2 with this genuine driving and fog light upgrade kit. Adds driving lights to Freelander 2 models with fog lights, giving you better all-round night vision. The kit comes with everything you need to upgrade to driving lights (vehicle must have bumper fog lights already fitted).

Universal Drive/Spot Light Harness Assembly

DA6619
Ideal for installing Britpart's XS Lynx auxiliary lights.

XS Lynx Auxiliary Lights

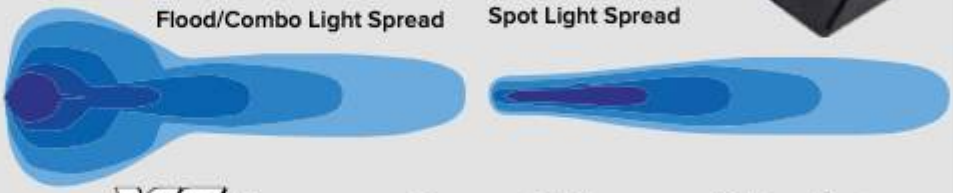

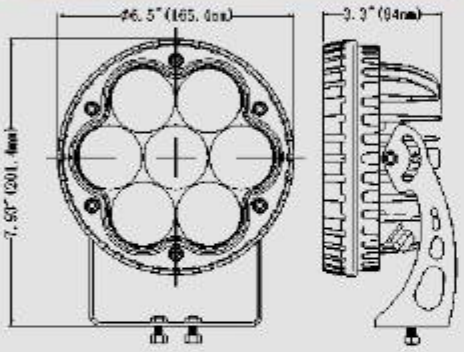

These still images don't do justice to what a difference the XS Lynx Spot Lights make. Check out our video showing them in action.

XS Lynx Auxiliary Light

DA6618	Flood/Combo light	Single
DA6633	Spot light	Single
DA6619	Universal drive/spot light harness assembly	

- 7 x 10W CREE LEDs
- 70 watts
- 11,000 lumens
- 9 - 32V
- 6 amps
- Shockproof
- Die cast aluminium housing
- UV polyester powder coated - won't fade in the sun
- Unbreakable optical polycarbonate lens
- Stainless steel bracket and accessories
- IP68 certified - completely waterproof & dustproof
- RFI/EMC protected - won't interfere with radio reception
- Deutsch connectors - for easy wiring
- Pressure equalizing vent
- 50,000 hour lifespan
- Over & under voltage protection
- Operating temperature: -60°C to 125°C
- CE & RoHs compliant

Unbreakable optical polycarbonate lens

Completely waterproof & dustproof

Roo-Lites

Exclusive to Britpart

DA1062
Roo-Lite
- High performance lighting with super strength construction
- 7¼" round long range spot lights with "stone-proof" clear polycarbonate lens
- Super strength housing with an Osram 100 watt Xenophot long life technology bulb
- Variable focus from spot to fog beam pattern
- Lightweight for reduced vibration
- Reflector unit is screw-on for easy bulb change
- 12V - 100W - 8 amps

Note - Roolites sold individually

ROO-LITE®

Roo-Lite Impact Resistant Covers

Plain

DA1062AMBER	Amber
DA1062BLUE	Blue - produces 'Xtra white' light

Diffused - suitable for fog/snow conditions

DA1062FOGA	Amber
DA1062FOGW	Blue - produces 'Xtra white' light
DA1062COVER	Protective cover

Note - Roo-Lite covers sold individually

DA1063	100W Spare bulb
DA1064	Harness

Harness is of a heavy gauge wire to ensure safe operation of high wattage lights. It includes digital switch, in-line fuse, built-in relay and wiring harness.

High performance lighting with super strength construction

LED Lights

DA3293
240W Single LED Light Bar
- 48 x 5W CREE LEDs
- ECE / SAE high beam combo pattern
- Die-cast aluminium alloy housing and polycarbonate cover
- Adjustable side brackets
- Stainless steel fixings
- Lumens: Raw - 16,800 Lms
  Effect - 10,900 Lms
- Angle: 20° to 60°
- Power: 240W
- Voltage: 10-32V DC
- Colour temperature: 6,000K
- Waterproof: IP68
- Size: 1299 x 85 x 63mm
- Lifetime: More than 30,000 hours
- Certification: CE ROHS IP68 ECE R112

Extra brackets in kit to mount these lights individually

DA3295
Double 40W LED Driving Light Bars
- 4 x 10W CREE LEDs per light
- Deutsch connector, harness & stack brackets
- ECE / SAE high beam pattern
- Die-cast aluminium alloy housing and polycarbonate lens
- Chrome reflector
- Adjustable brackets
- Waterproof breather screw
- Stainless steel fixings
- Lumens: Raw - 4,800 Lms
  Effect - 3,900 Lms
- Power: 40W
- Voltage: 9 - 32V DC
- Colour temperature: 6,000 - 6,500K
- Work temperature: -40° to 80°
- Waterproof: IP67
- Size: 222 x 55 x 100mm
- Lifetime: More than 30,000 hours
- Certification: CE ROHS IP67 ECE R112R10 EMC

DA3287
120W Dual Row LED Light Bar
- 40 x 3W Osram LEDs
- ECE / SAE high beam combo pattern
- Die-cast aluminium alloy housing and polycarbonate cover
- Adjustable side brackets
- Stainless steel fixings
- Lumens: Raw - 9,600 Lms
  Effect - 6,800 Lms
- Angle: 40° to 60°
- Power: 120W
- Voltage: 10-32V DC
- Colour temperature: 6,000K
- Waterproof: IP67
- Size: 570 x 84 x 83mm
- Lifetime: More than 30,000 hours
- Certification: CE ROHS IP67 ECE R112

Britpart

DA3294
Single 40W LED Driving Light Bar
- 4 x 10W CREE LEDs
- Deutsch connector
- ECE / SAE high beam pattern
- Die-cast aluminium alloy housing and polycarbonate lens
- Chrome reflector
- Adjustable brackets
- Waterproof breather screw
- Stainless steel fixings

- Lumens: Raw - 2,400 Lms
  Effect - 1,950 Lms
- Power: 40W
- Voltage: 9 - 32V DC
- Colour temperature: 6,000 - 6,500K
- Work temperature: -40° to 80°
- Waterproof: IP67
- Size: 222 x 55 x 100mm
- Lifetime: More than 30,000 hours
- Certification: CE ROHS IP67 ECE R112 R10 EMC

DA3286
36W Dual Row LED Light Bar
- 12 x 3W Osram LEDs
- ECE / SAE high beam combo pattern
- Die-cast aluminium alloy housing and polycarbonate cover
- Adjustable side brackets
- Stainless steel fixings
- Lumens: Raw - 2,800 Lms
  Effect - 2,100 Lms
- Angle: 40° to 60°
- Power: 36W
- Voltage: 10-32V DC
- Colour temperature: 6,000 - 6500K
- Waterproof: IP67
- Size: 213 x 84 x 83mm
- Lifetime: More than 30,000 hours
- Certification: CE ROHS IP67 ECE R112

LED Lights

DA3347
24W LED Flood Light
- Power: 24 x 1W Osram LED
- Effect Lumens: 1,920 LM
- Beam pattern: Flood
- Voltage: 9 - 32V DC
- Colour Temperature: 6,000K
- Body: 148.5 x 40mm
- Waterproof & Dustproof: IP68 IP67
- Lifespan: 50,000 hours
- Housing: Die-cast aluminium with polyester powder coating
- Lens: Durable polycarbonate
- Hardware: Stainless steel
- Operating temperature: -40°C to 85°C
- Protection: Overvoltage and heating
- Certificates: E-mark approved / CE / RoHs / UKCA
- EMC Standard: CISPR25 / Class 3

DA3348
32W LED Flood Light
- Power: 32 x 1W Osram LED
- Effect Lumens: 2,560 LM
- Beam pattern: Flood
- Voltage: 9 - 32V
- Colour Temperature: 6,000K
- Body: 111 x 61mm
- Waterproof & Dustproof: IP67
- Lifespan: 50,000 hours
- Housing: Die-cast aluminium with polyester powder coating
- Lens: Durable polycarbonate
- Hardware: Stainless steel
- Operating temperature: -40°C to 85°C
- Protection: Overvoltage and heating
- Certificates: E-mark approved / CE/RoHs / UKCA
- EMC Standard: CISPR25 / Class 3

DA3349
60W LED Interior/Exterior Scene Light - Amber/White
- Power: 60W in total
- Amber light: 30 x 1W Osram LED
  Effect Lumens: 2,100 LM
- White light: 30 x 1W Osram LED
  Effect Lumens: 2,400 LM
- Beam pattern: Flood
- Voltage: 9 - 32V
- Surface mounting: 45 degree tilt
- Body: 329 x 66 x 51mm
- Waterproof & Dustproof: IP67
- Lifespan: 50,000 hours
- Housing: Die-cast aluminium
- Lens: Durable polycarbonate
- Hardware: Stainless steel
- Certificates: ECE / CE / RoHs / UKCA
- EMC Standard: CISPR25 / Class 3

Lazer Lamps - Individual LED - Triple-R & ST4

DA3475

DA3475 NEW
Triple-R 24 Elite
Lazer Part Number - 00R24-G2-EL-B
Single Lamp

Triple-R 24
The Triple-R 24 has been given Elite level performance through the adoption of a combination of the latest high efficiency LED technologies and modified optics, used to deliver more distance illumination and more left/right spread of light. Borne out of extensive testing at the highest levels of professional track and rally motorsport, the Triple-R Elite represents the pinnacle of LED driving light technology. Subtle styling updates have resulted in a clean contemporary design, with a more aggressive edge, to match the aesthetic design prevalent on modern vehicles.

DA3728

Triple-R 750
Boasting the very latest high efficiency LED technology, the Triple-R 750 is a high-performance driving light that delivers a spot beam pattern well suited to both on-road and off-road applications. Subtle styling updates have resulted in a clean contemporary design, with a more aggressive edge, to match the aesthetic design prevalent on modern vehicles.

Lazer CAN Interface (Dual-Output)
Lazer Part Number - CAN-LZR
CAN-Bus interface provides an effective solution for detecting vehicle lighting activity

DA2844
Lazer Two Light Harness Kit With Splice
Lazer Part Number - 2L-LP-120
The ideal solution for wiring a pair of E-mark approved Lazer high performance LED spotlights. The setup is quick, easy, and reliable with 2-pin superseal connections and no configuration procedures.

ARB Driving Lights & Light Bars

AR21SV2

AR21FV2

AR32SV2
AR32 Intensity LED Spot Light
The light features an ARB engineered heat-sink with 15 fins to help prevent heat damage to the LEDs and surrounding components. The heat-sink also ensures the LED circuits run cooler and produce optimum light output while extending the light's longevity.
Dimensions - 220.5 W x 245.5mm H

AR21SV2
AR21 Intensity LED Spot Light
Delivering outstanding performance in a smaller form factor, the AR21 Intensity LED spot light provides vehicle owners with a high performance lighting upgrade that is better suited to areas or bull bars with limited space.
Dimensions - 184 W x 209mm H

AR32F
AR32 Intensity LED Flood Light
Submersible to 3m, the AR32 Intensity LED flood light is vibration tested to military specifications to ensure it can withstand extended periods of use on uneven ground and extreme conditions.
Dimensions - 220.5 W x 245.5mm H

AR21FV2
AR21 Intensity LED Flood Light
The AR21 Intensity LED flood light is vibration tested to military specifications and produces a wide and even beam coverage that provides the driver with confidence during night driving conditions.
Dimensions - 184 W x 209mm H

Engineered in Australia, the ARB Intensity LED light range has been specifically designed to meet the demanding requirements of 4WDers throughout the world. From producing white light that is the closest possible imitation of sunlight, to a virtually indestructible polycarbonate lens, these lights are the premium choice. Unlike high intensity discharge (HID) lights, the LED range does not require time to warm up and performs brilliantly on uneven roads by producing a broad field of light that helps diffuse vibration. Submersible to 3m, the ARB Intensity LED lights have been vibration tested to military specifications to ensure they can withstand extended periods of use on uneven ground and extreme conditions to keep the road ahead brightly lit.

Much more technical information is available for all these lights at
www.britpart.com/arb-lights

ARM603

ARM603 Mounting kit to suit bar tube diameter 60.3mm
ARM761 Mounting kit to suit bar tube diameter 76.1mm

ARB Intensity Light Bar Mounting Kits
The ARB bull bar mounting kit provides the option to secure the Intensity LED Light Bar to bars. Available in three sizes to suit the tube diameter of vehicle's bars. Compatible with bars with a tube with a diameter of up to 76.1mm, the mounting kits provide a solid clamp between the Intensity LED Light Bar and the bar tube to minimise vibration and movement. Constructed from extruded aluminium and with fasteners manufactured from stainless steel, the bar mounting kit has been designed for toughness to handle various weather conditions.

ARMP
ARB Intensity Light Bar Pedestal Mounting Kit
Offering increased versatility by allowing fitment of the Intensity LED Light Bar to the pan of a bull bar or roof rack. For increased versatility, the pedestal mounting kit is an alternative to the bull bar mount by enabling fitment to the pan of a bull bar or a roof rack. All fasteners are manufactured from stainless steel, with mounting hardware manufactured from a combination of aluminium & steel.

4X4 ACCESSORIES

ARB products available in the UK only.

3500520

ARB Light Wiring Looms
More information available online

3500520
ARB Intensity LED Driving Light Wiring Loom
Suitable for use with the ARB Intensity Spot & Flood Lights - AR21FV2, AR21SV2, AR32F & AR32SV2.
Pre-assembled plug-&-play design.

ARB Driving Lights & Light Bars

The ARB Intensity Solis provides a whole new level to the ARB Intensity range of driving lights and bars. Introducing digital dimming control and providing a massive 1 lux @ 1,032m for an individual spot beam via the 30 x 4W combined with 6 x 10W high output OSRAM LEDS provides a smooth driving beam.

- Revolutionary update of the Intensity light
- New colour design and shape
- New interchangeable bezels
- Superior grade LEDs and electronics
- Digital dimming control
- Unique ARB engineered reflectors

Features

- 30 x 4W OSRAM high output LEDS
- 6 x 10W OSRAM high output LEDS
- Total of 36 LEDs
- High pressure die-cast housing with improved heat-sink and UV stabilization
- High pressure die-cast bracket with pinning holes
- Integrated ARB thermal management
- In-built digital dimming LED driver control
- Unique ARB engineered spot & flood reflectors
- 4-pin high amperage waterproof connectors
- 50K lifespan
- Clean and crisp light with a refined colour temperature
- Pressure tested breather
- Reverse polarity
- Mil spec vibration
- IP68
- Over & under voltage
- Compatible with LINX
- Protected against RFI / EMC interference
- RoHS, CE & ECE R10 compliant
- Security Torx hardware included

High Pressure Die Cast Aluminium Bracket & Housing

- Scalloped back - more bar fitment possible
- Improved heat-sink and UV stabilization
- Adjustable bracket
- Pressure tested breather

Brackets

- Various mounting options
- Vertical & horizontal mounting
- Simplified fitting
- Torx security fasteners

Compatible With LINX

Solis can be fully integrated into LINX. You will need to purchase a patch lead that is simple to install + set up the new light and its features within the LINX system. Features include custom pre-sets, infinite dimming control, courtesy light feature and dedicated Solis icons and function.

What's In The Package?

- Light
- Extra (black) bezels
- Bracket
- User guide

See them in action at
www.britpart.com/solis

IMPORTANT

If you want to install Solis Lights to use with the LINX system you will need both - SJBHARN & SJBLINX, but you don't need to install the touchpad since you'll be controlling the lights through the LINX app.

Interchangeable bezels

SJBLINX

Solis LINX Patch Cable

Suitable for SJB36S, SJB36F & SJB21EUX2

The ARB LINX Accessory Interface is your one-stop controller for all your off-road accessories. For software version 1.8 and up, LINX is now your optimal controller for your ARB Intensity Solis driving lights. Easily adjust light dimming, fade rate, set multiple lighting modes, and more through a simple interface. Keep your dash clear and switch-free with ARB LINX, now integrated with your ARB Intensity Solis driving lights.

- Requires ARB LINX Accessory Interface
- Requires ARB Intensity Solis Driving Lights
- Enables up to 4 different preset lighting modes with ARB LINX
- Enables LINX-controlled dimming feature for ARB Intensity Solis
- Customize fade rate turning on/off ARB Intensity Solis lights
- Set brightness for normal use and courtesy-light use
- Enables ARB Intensity Solis lights as daytime running lights (in accordance with local laws)

SJBHARN

Solis Wiring Loom & Dimmer Touchpad

Important - Needed to fit 2 x Solis lights

- Silicone touch pad
- Intuitive feel touch - no eyes off the road
- Simple 3 button control
- Easy fitment
- Cable can be directed at back or out bottom
- Percentage changes - 5%, 25%, 50%, 75%, 100%
- Silicone sleeved for durability and protection
- 58mm (L) x 10mm (D) x 25mm (W)
- The touchpad is required to operate the ARB Intensity Solis™ lights if no LINX system is connected

SJB21EUX2

ARB Intensity Solis 21 LED Driving Lights

The ARB Intensity Solis™ 21 LED (7") Driving Lights are offered in dedicated combination optic tuned for on and off-road use. The lights are E-mark approved (following UNECE R149 regulation) ready for legal fitment & on road use in European countries. A single ARB Intensity Solis™ 21 provides 620m @ 1 Lux on setting #5 in off-road mode. The ARB Intensity Solis™ 21 on setting #3 provides 426m @ 1 lux with up to 40m spread from the vehicle in on-road mode. In dual combo off-road configuration, the distance down the road is a very impressive 877m @ 1 lux on setting #5 and dual combo configuration on setting #3 on-road modes it's a competitive 603m @ 1 lux. As well as distance, a warmer light colour helps to reduce eye strain over long driving periods and improves driver comfort while assisting to reduce fatigue.

Features

- 21 Osram LED (15x 4W + 6x 5W)
- 50,000+ Hour LED life span
- Input voltage - 10-30VDC
- Raw lumens - 9133LM
- Colour temperature - 5700 Kelvin
- 9° full beam width
- Operating temperature - -40°C to +65°C
- Weight - 2.73kg
- Light dimensions (single) - 192 x 190 x 114mm
- Integrated thermal management
- Pressure equalisation breather
- High pressure die-cast aluminium body and mount with variable positions
- Virtually unbreakable polycarbonate lens
- UV stable moulded polycarbonate lens cover
- Durable UV stable powder coat
- High power Amphenol AT06 waterproof connector
- Over voltage protection to 30VDC
- Protected against RFI / EMC interference
- Dust and waterproof to IP68
- Tested to MIL810-STDG for vibration
- RoHS compliant
- CE compliant
- UNECE R10 compliant
- For Intensity Level #3 (UNECE R149 compliant)
  - Power draw 36W
  - Current draw 2.7 Amps @ 13.2V
  - Effective Lumens 2,700LM
  - Distance @ 1Lux – 426m (single light)
- For Intensity Level #5
  - Power draw 82W
  - Current draw 6.2 Amps @ 13.2V
  - Effective Lumens 6,000LM
  - Distance @ 1Lux – 620m (single light)
- Warranty 3 years – Global warranty

What's In The Package?

- 2 x Lights & 2 x clear covers
- 2 x Mounting bracket & mounting hardware kit
- UV-resistant interchangeable red or black bezels to suit
- Wiring loom with dimmer (touchpad)

ARBVX17B
ARB Intensity IQ
Pair

Overview

The ARB Intensity IQ has been developed from the ground up, with performance front of mind, whilst delivering a design that complements modern vehicle styling and bar work. With a subtle introduction of ARB red within the light, the free-form clear front lens, bezel-less design and CNC machined ARB logo provide a modern, classy and premium look. Packed with unique features, the Intensity IQ sets a new level of driving light design and usability.

A unique 4-optic design (Super Spot, Spot, Flood and Midrange) is employed to provide virtually an unlimited choice of light beams to suit any road condition. The Super Spot and Spot optics, based on free-form reflector technology, produce an even spot beam for extended distance illumination. The Flood optic has a specially designed lens to maximise the light spread for excellent foreground visibility. The Midrange optics employ a conventional parabolic reflector to illuminate the midrange area. Furthermore, the beam pattern of each of the two lights can be independently adjusted so you could run, for example, one focused on spot and one focused on flood.

Innovative Mounting Bracket

Intelligent thermal management maximises light output in all driving conditions and provides outstanding LED life expectancy. Cooling is maximised via the die cast aluminium body which acts as a massive heat sink. An innovative, sleek new mounting bracket design not only allows adjustment of light beam angle, but also provides additional mass and surface for cooling.

Customisable On-board Switch

The Intensity IQ is equipped with a switch to:
- Turn on and off the driving lights
- Provide 8 selectable and customisable pre-set light beams
- Disable courtesy light function (delayed light off after ignition off)
- Turn on/off Euro mode (light beam complying UNECE R149)
- Activate/deactivate demo mode
- Restore factory settings

The switch is customisable via the ARB Intensity IQ app (available via the App Store for iOS and Google Play for Android), which allows users to:
- Turn on and off the driving lights
- Adjust the intensity of each row of optics on each individual light (or both at once) to create your ideal beam pattern
- Setup the fade in/out feature
- Turn on/off courtesy feature and adjust timer
- Activate the work light function (lights on without high beam on)
- Select a light network to connect to (for example if you have 2 different vehicles, each with IQ lights)
- Save or undo the change
- Turn on and off the Euro mode
- Set the on-board switch response time
- Restore factory settings

Specification

LED Configuration	Super Spot: 4 x Cree XP-P LEDs Spot: 2 x Cree XM-L3 & 3 x XP-P LEDs Flood: 18 x Cree XT-E LEDs Midrange: 4 x Cree XM-L3 LEDs

Polybush Rear Light Boot

DA3648 NEW

The Defender's rear lights have no protection from water ingress via the rear of the vehicle. Anything from rain to wading can cause damage, which leads to rust and corrosion of the electrical system, resulting in short circuits and malfunctioning lights and indicators.

Light not supplied

The Polybush Rear Light Boot saves your Defender from corrosion, its designed to specifically to fit around the O.E lights on your Defender. The boot provides an effective barrier against water ingress and wheel spray, protecting the connections and preventing rust and corrosion ensuring that the rear lights and indicators remain functional, improving visibility and reducing the risk of accidents. The boot is made from a durable and long-lasting Polyurethane, which is unaffected by oil, fuel, and road contaminants.

Unlike rubber, Polyurethane remains flexible and pliable, ensuring that the boot maintains its protective qualities for decades. Installation of the boot is a straightforward process. Cost-effective as it saves Defender owners time and money by eliminating the need for expensive repairs due to water damage. The boot is an affordable and practical solution that provides peace of mind for Land Rover Defender owners who enjoy off-road adventures.

LED Headlights - Britpart Lynx Eye

Defender, Series & Range Rover Classic
Durable polycarbonate lens & die-cast aluminium housing provide maximum protection

DA6282	Pair	**DA6282K**	Single	Right hand drive
DA6283	Pair	**DA6283K**	Single	Left hand drive

Features & Benefits
- Standard 7" fitment
- Light source - 8pcs CREE(XML-10W) LED
- Certification - DOT & E-mark
- 2800LM@30W on low beam
- 4450LM@48W on high beam
- Durable polycarbonate lens stands up to harsh environmental conditions
- Rugged solid LED means never having to replace another bulb again
- Die-cast aluminium housing provides maximum protection

General Specifications
- Lens material: Polycarbonate
- Housing material: Die-cast aluminium
- Mounting: Replaces PAR56 headlights
- Mounting connector: H4 and H4 to H13 converter
- Colour temperature: 6000 - 6500k

Technical Specifications
- Low beam: 2.5 amps @ 12V DC
- High beam: 2.00 amps @ 24V DC
- Low beam: 1.25 amps @ 24V DC
- Row lumen output: 5600LM
- Effective lumen output: 3640LM

Note - Some EU countries may require fitment of headlight washers.

Lynx Halo

LED Headlights - ECE

Series
Defender
Range Rover Classic

DA6280K	Right hand drive	Pair
DA6281K	Left hand drive	Pair

Technical Specifications
- Hard-coated polycarbonate lens
- eCoat aluminium housing and internal structures
- Metallized reflector
- 1.3mm CSA / 16 gauge wire
- Light source - 2 LED arrays
- Multi-volt (9V-33V) design works with both 12V and 24V systems
- More technical information available online

Note - Some EU countries may require fitment of headlight washers.

Features & Benefits
- ECE & ROHS compliant
- LED sealed beam technology with polycarbonate lens and sealed electronics
- Up to 50 x longer life than halogen headlights, lowering life-cycle costs
- Produces pure white light, nearly identical to daylight that is easy on the eye, unlike harsh blue HID systems
- Includes built-in position light with optional wiring
- Offers great forward vision, improved roadside coverage and highly controlled beam patterns, offering glare protection to oncoming traffic
- Dipped/passing beam and main/driving beam functionality
- Ultra-bright output for maximum night visibility
- H4, 3-Blade connector system (main & dipped beam only)

Osram Xenarc Cool Blue Intense Extra White Light

DA5094-150
Osram Xenarc Cool Blue Intense Extra White Light
Extra white light for stylish LED look
Extra white light due to a special filling system used instead of conventional coating
Up to 6,200 Kelvin
High contrast and brilliantly white light for most stylish and modern look on the road
Up to 150% more brightness
More light allows to see farther and therefore react sooner Xenarc Cool Blue Intense - discover that modern look at high power! With its extra white light for LED look, high contrast xenon light, this automotive light appeals especially to drivers who like the perfect combination of stylish and individual design with exceptional road illumination. The high-tech xenon light with colour temperatures of up to 6,200 Kelvin comes up with a highly efficient technology, brilliant effect and no-compromise design. Thanks to a special filling system which is used instead of conventional coating the light emits its extra white light. This stylish light creates a high attention effect that helps you to be better seen by other motorists. Discover the exceptionally bright, high-contrast and brilliantly white light with up to 6,200 Kelvin and 150% more brightness! With Xenarc Cool Blue Intense, the night turns into day. Please note: XENARC light change is recommended to be carried out by a professional. More technical details available online.

Osram Xenarc Night Breaker Laser D3S

DA5201
Osram Xenarc Night Breaker Laser D3S
Up to 200% more brightness - To see further and therefore react sooner compared to the minimum legal standard
Up to 250m long beam - For better visibility
Up to 20% whiter light - Compared to the minimum legal standard (close to laser look)

The most powerful xenon light from Osram Xenarc Night Breaker Laser is the brightest Osram xenon light. This powerful light with efficient xenon technology ensures a better visibility on the road: up to 200% more brightness compared to the minimum legal standard.

More light allows to see further and therefore react sooner. Added to this is the up to 250 meter long beam and up to 20% whiter light, close to laser look (compared to the minimum legal standard).

Note - XENARC light change is recommended to be carried out by a professional and in pairs.

- Angled light source
- Quick to install
- Compact design
- Waterproof to IP66
- E-type approved

Perfect light source to illuminate work areas

The Astro gives a wide spread of light; perfectly angled for awning and area lighting. The lights incorporates the Orizon LED strip light which uses the latest in LED technology, offering optimum performance and extended life. The properties of these LEDs give greater luminosity, allowing for a brighter unit whilst using fewer LEDs to maintain the low power draw. The Astro is approximately twice as long as a standard awning light, thereby increasing the spread of light along the side of a vehicle offering greater external illumination. The angled wash of light to the floor also makes it a perfect light source to illuminate work areas, shelving, lockers and much more. The LED strip sits within a slim aluminium housing which conceals the fixings; and with ABS snap-on end caps, this compact light unit is quick and easy to install. The PCB driver, components and LEDs are completely encased within a polycarbonate extrusion, which protects against moisture ingress.

Astro Lights	DA1446 250mm White	DA1447 500mm White	DA1448 500mm Grey

Optimum performance & extended life

Nebula 12V LED Strip Lights

- Long life, high intensity LEDs
- Quick to install
- Compact design
- Robust construction
- Unique impact deflection design
- E-type approved

The Nebula incorporates the Orizon LED strip light, which uses the latest in LED technology, offering optimum performance and extended life. The properties of these LEDs give greater luminosity, allowing for a brighter unit whilst using fewer LEDs to maintain the low power draw. Set in a low profile, tough aluminium housing, the Nebula is quick and easy to install, making it suitable for both new vehicle specifications and retrofitting into existing vehicles.

Fits in seconds, no drilling, no bolts!

Keep Rover ***firmly*** in his place!

Upgrade your Land Rover's interior by installing made to measure Car Shades, a cost-effective alternative to window tints, reducing light in the cabin by 72%. Car Shades are made to measure sun blinds for your vehicle. They fit all rear windows of your vehicle offering protection from bright light and UV rays. The shades can be easily installed in a few minutes using unique fixing clips supplied. Additionally, the tailored made Car Shades allow for full functionality of your rear windows whilst fitted but ensure there is no gaps allowing sun through.

Dog Ramp

Make life easier for you & Rover!

DA1631

This handy dog ramp is perfect for dogs who have difficulty jumping into the back of your Land Rover. With an anti-slip coating the ramp is quick and safe to use even in wet conditions. The ramp is perfect for aging & injured dogs as well as puppies and smaller dogs who can't reach! No more hurting your back lifting up your dog!

Features

- Telescopic lightweight design for quick and easy storage
- Rubber feet to hold ramp in position
- Catch to hold together when stored
- Anti-slip coating

Specifications

- Maximum weight capacity - 90kg
- Weight - 7kg
- Length compressed - 1,000mm
- Length extended - 1,850mm
- Width at widest point - 450mm
- Deck width - 390mm

The acoustic mat system has been designed to drastically reduce noise entering the cabin of your Land Rover. Made from cast dense polyurethane, the mat is built to industrial standards for reducing noise levels often found in construction equipment. It provides a hard wearing, durable surface that can withstand constant daily use & is easy to clean. A custom fit mat drastically reduces noise entering the cabin and panel reverberation.

Q. Does the acoustic mat system fit Lightweights?
A. It has been fitted to lightweights but it wasn't designed to and it's a tricky job. It involves a lot of cutting.

Q. What about seat box lids?
A. The seat box mat has witness marks on its under side corresponding to all the features of the seat box. It can be cut to your individual requirements using a HD craft knife.

Q. What about the trapped water?
A. Anything you put on the floor will trap water/condensation, even the new mats supplied by Land Rover. As the acoustic mat system is a hard wearing secondary surface you now have the ability to rustproof the inner surfaces of the floor. You will find that it is only a small amount of water and does dry out.

Q. What does the foam do?
A. There is closed cell foam in the area of the footwells and floor panels. It is there to take some weight out of the mat and provide more comfort under foot. The foam has very little acoustic properties.

Q. How heavy is the system?
A. Approximately 25 kilos of dense polyurethane which is the barrier to noise. This is equivalent to having a spare wheel and tyre spread over the floor area. This is why it is so effective.

Q. How effective is the mat system?
A. It would be impossible to quote the reduction in decibels as each application would be different. In testing we used a SWB 2A with a NA 2.5 freight Rover diesel engine. The owner can now have a sensible conversation at full speed!

Q. What if I want to get to the gearbox?
A. In the good old Haynes manual tradition, removal is the reversal of fitting. It takes about 5-10 minutes to remove. You shouldn't ever need to remove the seat box mat or bulkhead mat, unless you wish to transfer them to a different vehicle.

Q. What if my mats are distorted?
A. In most cases, over time it will return to its cast shape. Try to warm it to speed this up.

Easy to Fit & Clean

- Reduces noise - the complete system negates the need for engine and gearbox blankets
- Hard wearing - harder wearing than rubber - it will probably outlast your Land Rover
- Easy to fit - no glue and is transferable
- Easy to clean - can be hosed out
- Insulation - provides insulation to keep heat out (or in)
- Inert - mat will not rot or hold water unlike felt or carpet
- Resistant - material is fuel, oil, water and sunlight resistant
- Fire retardant
- Recyclable

FIX THIS PROBLEM

DA1756BLACK

DA1756BLACK
Defender / Series
The kick plate on the Defender is prone to damage and can lead to the inside of your Defender looking tatty and tired. Protect that edge and smarten up your interior by fitting a pair of these panels.

- Supplied in pairs
- Can be trimmed to fit Series vehicles
- To be paired with Acoustic Mat Systems
- Easy to fit & easy to clean
- Inert - will not rot or hold water
- Resistant - material is fuel, oil, water and sunlight resistant
- Fire retardant

Britpart XS Waterproof Seat Covers
Custom-made seat covers designed and manufactured in the UK. These seat protectors are guaranteed waterproof and are perfect for guarding your Land Rover's seats from not only daily wear, but also from spills, oil, grease, pet fur, and everyday dirt and grime. Attention to detail ensures that these covers fit seamlessly.

They feature elasticated borders around the seat base and come with complete backs. The back also features a slit to enable the rear passengers to use the seat pocket in front of them. To ensure they remain securely in position, they're equipped with elastic straps and buckle fastenings beneath. Additionally, individual headrest covers are included, allowing for height adjustments.

Attention to detail ensures that these covers fit seamlessly.

The covers have expertly sewn seams that are then top-stitched, ensuring durability and a quality finish. Convenient velcro openings at the seat top mean you can install them without the need to remove the headrests.

Constructed from resilient 600 Denier Polyester with a polyurethane coating, the fabric is 100% waterproof. This robust and premium material has a slightly textured surface for added comfort.

Defender Carpet Kits

Once installed, these easy to fit, hard wearing carpet kits will transform your Defender's interior. The black 5mm woven pile carpet is manufactured with a hardback which ensures it holds its shape for years to come. All holes are pre-cut for a precision fit. No glue is required and with only strips of double-sided tape (supplied where applicable), fitment is quick and easy with no mess. The carpet also has the added advantage of improving soundproofing within the cabin. When applicable, floor mats have a reinforced edged for a smart, hard-wearing finish.

Holes are pre-cut for a precision fit

Note - The carpet kit will not fit over rubber moulded mat sets. As a general rule, our carpet will however, fit over sound proofing kits such as Dynamat. Why not Dynamat your vehicle at the same time as fitting this kit. See our extensive range of kits - **www.britpart.com/dynamat**

Watch how easy the kits are to fit...

Sparco Seats

DA7301

DA7305

- Lightweight and compact
- High comfort
- Tubular frame construction
- High quality recline mechanism for smooth and easy adjustment
- Compatible with 3 or 4 fixing point harnesses
- Base mounted - 271 x 345mm

These Sparco seats are ideal for Defenders (excluding truck cabs*). Drawing on decades of racing history, Sparco has created a line of street car seats that offer the ultimate in comfort and performance. The ergonomic designs help cradle and protect the driver against even the most demanding lateral forces.

The R100 is Sparco's latest incarnation of ground-breaking steel-model seats. It features redesigned bolsters for greater support and new padding configurations for improved comfort. It has been built with comfort and support in mind but it's lower side bolsters and slightly narrower steel frame allow it to fit into vehicles where fitting seats with larger side bolsters may be difficult. The seat features backrest harness slots so that it can be used with a race type harness or normal seatbelts.

The seats can be reclined using the double adjuster lever. Made from a durable fabric, the R100 is available in single tone or duo-tone styles. Duo-tone styles feature contrasting side accenting and stitching to match any interior. The Sparco R100 range is designed to attach using Sparco vehicle specific seat mounts.

*Not suitable for vehicles with truck cabs fitted as they restrict the leg room in the vehicle.

Corbeau Seats

Corbeau Sportline RRS Low Base Seats

A revised version of the RSS, the Low Base has been designed specifically for Defender owners. The RRS has modern styling, giving you the ultimate in comfort and safety. This steel-framed sports recliner has a high quality moulded foam cushion, with lumber support to give maximum comfort whilst not compromising lateral support.
With its ultra low side bolster this is the perfect application for any high rise vehicle.
Fitted with a high quality single reclining and tilting mechanism for ease of adjustment.
Sold in pairs.

- 250ml aerosol

Ideal for bonding and laminating of polyurethane foam, polystyrene foam, fibres, fabrics & felts etc to themselves.

Defender & Series

DA2662MESH

Fitting a Britpart cubby box in your Land Rover will help you keep your vehicle clutter free. With a double cup holder as standard, spilt drinks are a thing of the past. Hand-built in the UK, these quality cubby boxes are suitable for Series 3 and Defenders. Expertly crafted with precision tools using a hard wearing leatherette outer with locking stay brass hinges.

'Chubby' Boxes
Fitting a Britpart 'Chubby' box in your Land Rover will also make driving more of a pleasure with the extra padded lid. In addition to our standard cubby box features, our 'Chubby' boxes have a lovely thick and comfy 80mm thick lid. This compares to 20mm thick lid for a standard cubby box.

Equivalent to - FBS100920LOY, FBS100930LOY, MTC4617LDQ & MTC4617LOY

DA9198 NEW Left hand drive

Equivalent to - MTC4618LDQ & MTC4618LOY

This MUD grey plastic vent panel sits horizontally in the back of the Defender dashboard. Over the years this fragile panel traditionally gets a million things screwed into it so is always high on the shopping list for any restoration project but is no longer available to buy from Land Rover. The colour and texture of the original panel have been accurately replicated but manufactured in a thicker grade material for greater durability.

DA9199

Door Card Fixing Kits

DA4649

*Can be fitted to Defenders up to 2007 with adaption of seat belt anchor brackets - LR012450 & LR012451 - not supplied. Not suitable for side facing seats.

DA3844

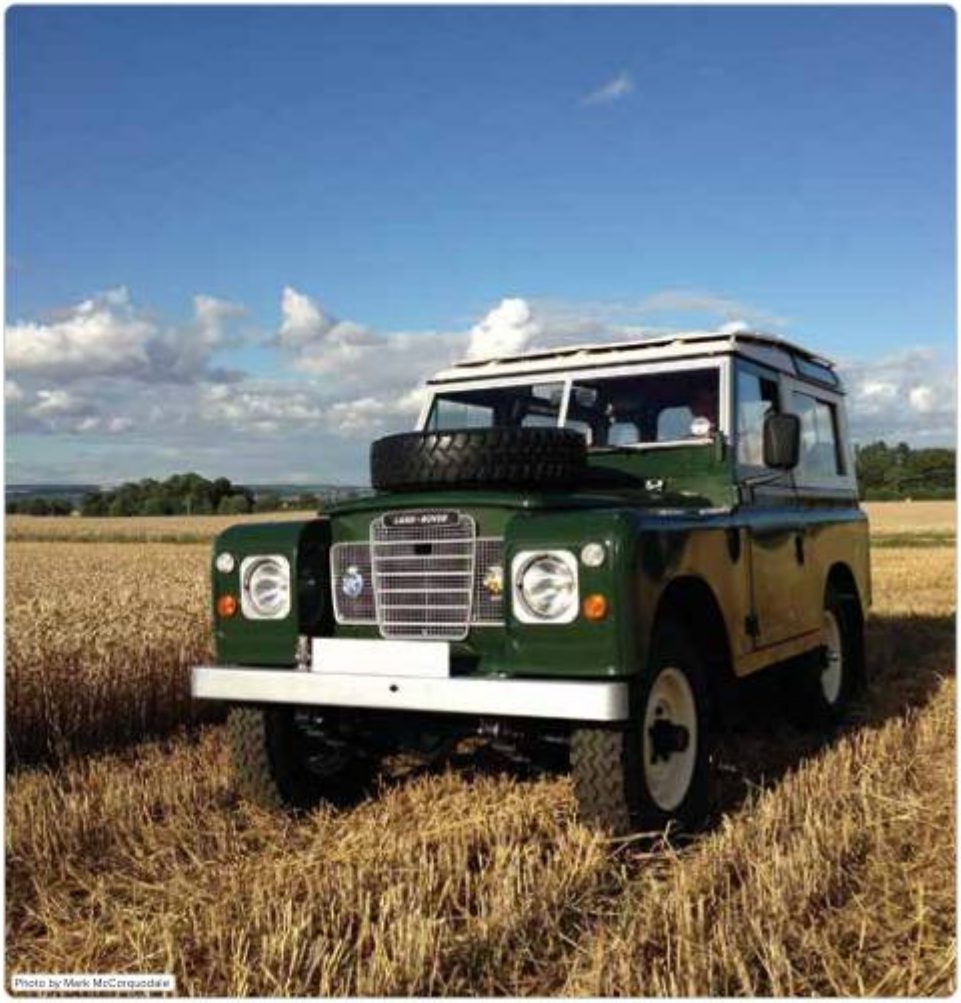

Seat Box Protectors

DA7370	Brushed Stainless Steel
DA7371	Black steel

Defender Pair

The edge of the Defender seat box is prone to damage, protect that edge and smarten up your interior with these protectors. Made from 2mm steel. Less than 5 minutes to fit and all you need is a drill for the fixings. Kit includes a pair of corner protectors and 8 x 19mm flanged steel self drill fixings. These will also fit a Series 2 & 3 but will require matching drilling to accommodate seat rail fixing.

Makes maintaining a clean interior effortless

Say Goodbye to Sagging Cloth Headliner
Our kits are manufactured to replace sagging or deteriorating cloth headliners, giving your Defender's interior a much-needed facelift.

Rigid Composite Material for Durability
Constructed from a robust composite material with a textured finish, these kits offer enhanced durability and longevity, outperforming traditional cloth headliners.

Easy to Clean Surface
The wipe-clean feature of our headlining kits makes maintaining a clean and hygienic interior effortless.

Simple Installation with Existing Clips
Designed for convenience, these kits can be easily fitted using the existing clips in your vehicle, making the installation process quick and hassle-free.

Moulded for a Perfect Fit
Each headlining kit is moulded to ensure a precise fit, adhering to the contours of your Defender for a professional and smart appearance.

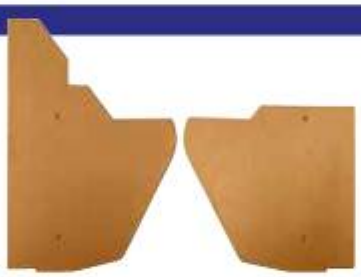

Lightweight Construction
Despite their rigidity and durability, our headlining kits are surprisingly lightweight, ensuring they don't add unnecessary weight to your vehicle.

Retrofit Seat Heaters

DA5717

These retrofit seat heaters will allow you to enjoy a comfortable and warm seat in any Land Rover vehicle with a removable seat cover. These highly durable and flexible heating elements are placed between the upholstery and seat cover on the seat base and back and will not alter the shape of the seats. There are two switches provided for the driver and passenger seats which allow the heat output to be altered to the two different settings. A ready-made cable set connects the switches to the 12V on-board power supply to the heat the pads. There are integrated temperature sensors which ensure that the seat heater will not overheat.

Operating voltage: 12 volt
Output: Low - 44 watts / High - 90 watts
Dimensions: Seat base - 400 x 280mm / Backrest - 300 x 280mm

- Complete set for driver and passenger seats
- Two stages of heating
- Kit includes four heating elements and items needed for installation
- Pre-assembled cable set with switching relay and buttons included
- Temperature guard to prevent overheating
- Heating elements are durable and extremely flexible
- For use on seats which have a removable cover
- Includes fitting materials and instructions
- Test mark: e-approved to 95/54/EC (EMC guidelines for vehicles)

DA5717W

Dometic version available

Enjoy warm seats at the flick of a switch

Bulkhead Bars

DA1810
Defender OEM bulkhead removal bar kit

DA2351
Defender bulkhead reduction bar kit

Need more leg room and seat adjustment in your Defender?

These bulk head bars alleviate that problem without compromising strength. The bulk head bars allow for extra seat recline and travel on the seat base - giving you a more comfortable seating position and more space in the front foot wells. The bars create a rigid bracing for the front of the Defender tub as well as the added benefits of extra room in the vehicle due to the seats being more manoeuvrable, access to the rear of the Defender is now not compromised by a higher bulk head. Powder coated and supplied complete with all the necessary fixings and instructions.

Extended Seat Rails

DA2148
Give your Defender seats 3" of extra slide with a pair of these seat rails. Ideal for the taller driver to give a more practical and comfortable driving position. One pair of rails is suitable for one seat.

Ideal for the taller driver.
A more practical and comfortable driving position.

Vinyl gaiters are glued into place on the original gaiter housing. Contents - Gaiters for gear lever (FJL101680PMA), handbrake lever (FJL101710PMA) & high/low lever (FJL101530PMA).

Glove Boxes

Neat storage solution for the Defender - 2007 -2016 - which utilises the available dashboard space.

Ideal for storing all the usual small items you carry with you. Robust construction and easy to fit with all the necessary parts supplied.

Suitable for both right and left hand drive vehicles.

DA2603
Normal interior finish fascia plate

DA2603CF
Carbon fibre effect finish fascia plate

Door Stays

Does your Defender's rear door sometimes close on you unexpectedly?

This neat and easily installed gas strut kit will solve that problem and replaces the original door stopper. The gas strut will hold the door in place when open - even with a spare wheel in place - and will assist in the opening of the rear door too with a smoother and more controlled movement. Complete with fittings and instructions.

- Long cables to reach tyres all around the vehicle.
- Comes with three piece adaptor kit for small inflatables & bikes.

Diff Lockers & Associated Equipment

ARB Diff Lockers, Air Compressors & Equipment

LX100
LINX - The Next Generation Of 4x4 Accessories
LINX is a unique modern controller that de-clutters the dashboard and centralises the command of vehicle accessories by replacing classic switches, gauges and monitors with one sleek and smart driver interface. Built on an expandable platform, LINX will continue to evolve your on and off-road driving experience both now and into the future.

Experience Total Control
Fitting out a modern 4X4 with a range of accessories such as driving lights, air lockers, dual batteries and air compressors can quickly lead to a dash full of out of place, hard to reach switches and a myriad of gauges and monitors either stuck to the windscreen or drilled into the dashboard - not to mention all the associated fuses and wiring.

LINX offers a single point of control via its user-friendly, Bluetooth enabled, mobile touch screen display. The LINX mobile display mounts conveniently and unobtrusively within reach of the driver while the main control hub lies neatly out of sight under the dash or seat; taking care of all accessory wiring.

LINX comes with six pre-installed modules: Front and Rear Traction, Compressor Control, Accessory Switchboard, Battery Monitor, Speedometer and Air Suspension Control.

General Settings
Beyond its expansive range of modules, LINX presents a truly adaptable platform with module level settings, as well as, many additional general settings.
Functions
- Set theme colour to match your vehicle's dash
- Engage night mode which engages when your headlights are activated
- Set all measurements to your preferred units
- Software upgradeable via WiFi connection

What's In The Box
- LINX display screen
- LINX controller
- USB charge cable
- 3 wiring looms
- LINX gimbal mount
- Quick start-up guide
- 1 Pre-installed display screen protector

There's much more to LINX than meets the eye - see how it can unlock a brand new experience with your 4X4 accessories. Visit the LINX site to explore each feature - **www.linx.arb.com.au**

7450109
LINX Airbag Suspension Isolation Kit
This allows owners with air suspension to take full advantage of LINX's Airbag Suspension Module

7450107
LINX Pressure Control Kit
Offering 'set & forget' simplicity to tyre inflation as well as remote control over your airbag suspension

ARB 4X4 ACCESSORIES
ARB products available in the UK only.

ARB High Flow On-board Compressor Assembly
- Airflow - 87.2lpm
- Designed for Air Locker use
- Sealed for moisture and dust resistance
- Quality components for quiet operation and extra long life
- Hard anodised cylinder bore & Teflon impregnated carbon fibre piston seal for reduced friction & maximum trouble free life
- Heavy-duty maxi-fuse equipped for professional in-line circuit protection
- Anodised mounting brackets dissipates motor heat and allows compressor to be repositioned by 180°
- Constructed entirely of lightweight, high strength engineering grade materials
- Over-pressure safety value equipped
- Motor is internally thermal protected against extreme temperature damage

CKMA12
12 volt
CKMA24
24 volt

CKSA12
ARB Compact 12 Volt On-board Compressor Assembly
- Airflow - 27.7lpm
- Designed for Air Locker use
- Compact, vehicle mounted design
- Sealed for moisture & dust resistance
- Quality components for quiet operation & extra long life
- Mounting bracket allows for versatile positioning
- Kit contains 12V air compressor, mounting bracket & hardware, auto on/off pressure switch, plug-in Air Locker wiring loom and installation instructions

CKMTA12
ARB Twin On-board Compressor Kit
Designed to fill the market need for a compact sized yet high-volume compressed air source to suit the high volume airflow needs of most air powered tools it also suits the actuation and control needs of the ARB Air Locker, and the harsh and demanding environment of the ARB Air Locker user. Much more information available online.

ARB air compressor wiring loom for CKMA12 & CKMA24

082002SP NEW
ARB Diff Air Feed Ring & Pipe
ARB - RD082002

180103SP
Replacement Solenoid
For the compressors to activate the ARB airlockers.

171507 NEW
ARB 4 Litre Air Tank - 2 Ports
Redesigned from the ground up with significant changes eliminating moisture retention and allowing for great mounting flexibility.

- Forged aluminium end caps tig welded with an extruded aluminium body
- 50% lighter than an equivalent steel tank
- Horizontal or vertical mountable
- Minimal fluid retention due to outlets placed at the lowest point
- Daisy chain compatible to allow fitment of multiple tanks
- Rated to 150 PSI
- Four 1/4 NPT ports (user configurable) with 2 x JIC-4 male fittings included

170112
ARB Diff Breather Kit

- Specifically engineered to work with differentials and ARB Air Lockers
- Compact and lightweight design with push-in fittings for simple installation
- Four breather ports for multiple applications
- Mounting holes will accommodate M6 bolt or stud
- Splash resistant air filter with washable high flow sintered bronze filer cartridge
- Oil, water and heat resistant 8mm polyurethane tubing reduces likelihood of oil blockages

1 x Anodised aluminium manifold
1 x Air filter
1 x 8mm x 8m polyurethane tubing
4 x 8mm- ⅛" BSP push-in fittings
3 x ⅛" BSP plugs
2 x Self-tapping screws
10 x Cable ties

171503
ARB Air Locker Manifold Kit

- Designed for the remote mounting of air locker solenoids
- Stainless steel braided PTFE hose and fittings connect to and cool the compressor outlet air

Kit includes
Manifold body with mounting bracket
2 x ⅛" BSPP ports for installation of up to 2 x Air Locker solenoids
2 x ¼" NPT ports, one to be used as an input and the second could be used for installation of a pump up kit
1 x high temperature resistant Teflon stainless steel braided hose with heavy duty JIC4 fittings
2 x JIC4 - ¼" NPT nipples to connect the included hose to the compressor outlet and manifold kit input
2 x M6 hex head bolt and nylon lock-nuts for securing the manifold kit

3501010
ARB Universal Compressor Bracket
Enables the installation of compressors CKMA12, CKMA24, CKSA12 & CKMTA12 and air tank 171507 with optional Air Locker solenoids, quick connect coupling, switch, manifold kit - CKMTA12 only) and ARB LINX PRV in various mounting positions.

0740300
ARB Air Locker Heavy-duty Pressure Air Line Kit
The kit is designed for ARB air lockers. This kit is designed for use on one locker. Suits black 6mm and existing blue 5mm. No hose.

DA8994
ARB Air Compressor Pressure Switch
Threads into the ARB air compressor to regulate internal pressure in the compressor tank. Turns compressor on at 70psi and off at 100psi.

150602SP
ARB Diff Side Clip

160235-2
ARB O-Rings
2 x O-Rings for 24 spline air locker

170111
ARB Bulkhead Fitting Kit
Handy little kit to help pass an airline through any panel. 5mm to 3.5mm O-ring type.

ARB
4X4 ACCESSORIES
ARB products available in the UK only.

171314
ARB Remote Hose Coupling Mount Kit
Mount the output for the air compressor remotely in the vehicle.

ARB Diff Lockers, Air Compressors & Equipment

Those who enjoy heading off the beaten track in their 4×4 know that even the most familiar tracks can present you with unexpected conditions. Whether you're up against a steep incline, uneven & rocky terrain or a slippery muddy track, being able to take advantage of traction is one of the most important elements.

In a vehicle with open differentials in 4WD mode, drive can only go to two wheels at any given time. At the flick of a switch, an ARB Air Locker can send equal drive to both wheels on an axle allowing you to take advantage of the wheels that have traction and push forward along the track.

ARB Diff Lockers

- Provides 100% traction on demand without affecting on road driveability or driveline wear
- Vastly improved traction means less reliance on momentum, thus reducing the likelihood of vehicle damage and environmental impact
- Easy, convenient operation allows the driver to concentrate on the terrain without leaving the comfort and safety of their seat
- Ultra durable and extremely strong - only the highest quality materials used in construction
- Incredibly simple yet effective design that employs minimal moving parts, thereby ensuring maximum reliability
- Thoroughly tested and proven design - trusted and used in over 80 countries around the world
- Easy installation and maintenance - no special tools, skills or additives required
- Two year warranty guarantees the Air Locker will be free of defects in materials

Air Locker locking differentials allow you to tackle the toughest terrain. As the world's premier traction aid, ARB Air Lockers keep you moving in all conditions. Ultra durable and extremely strong - only the highest quality materials used in construction.

ARB

4X4 ACCESSORIES

ARB products available in the UK only.

Notes - 1. If vehicle was manufactured during 1993, check spline count. **2.** Air Locker not available for vehicles equipped with high load option. **3.** Ring gear spacer required. Longer ring gear bolts (not supplied) are also necessary - (Land Rover part no. 576521). **4.** When an RD127 Air Locker is to be installed in Range Rovers manufactured prior to 1980 (approx.), special carrier bearings (No. K113001K111162) may also be necessary - Land Rover part no. RTC3426. **5.** Some vehicles have crown wheel bolts which cannot be reused and must be replaced. Consult service manual. **6.** P38A is most commonly found in traction control equipped vehicles. Identify P38A type diff by large 205mm (8.07") flange diameter. P38A was not used on North American delivered Discoverys - use DA4193.

WHAT'S THE "DIFF"-ERENCE?

There are a multitude of different diffs available for your Land Rover - read about the different types of locking diffs. www.britpart.com/diffs

ARB Diff Cover

Defender - rear Salisbury axles.
High tensile solid nodular iron structure (tougher and harder than solid carbon steel) protects the differential and ring & pinion set from the obstacle impact hazards of competition rock crawling, or extreme off road trails.
More information available online.

DA8926	Red
0750001B	Black

Ashcroft Transmissions

DA1224

Diff Locker

- A unique non-rotating annular piston locking actuator is designed to eliminate air leaks sometimes found with rotating seals
- The annular piston is also designed to eliminate the oil blow back in the air exhaust line
- The large piston area gives maximum hold-in force to reduce the possibility of jumping out of lock
- Locking ring gives full 6mm positive engagement with side gear, again reducing the possibility of jumping out of lock
- Gears have been redesigned for maximum strength and durability
- The lock ring is made from high spec 300m steel to provide ultimate strength and ability to withstand shock loads
- Locking actuator cage made from steel to withstand shock loading caused by power locking
- Locker body turned from billet 817M40T (EN24T) to give optimum strength
- Only change necessary to fit the locker is drill and tap the diff housing ¼" bsp for the air feed fitting
- No changes to the axle case
- Requires on board air supply - not supplied

Defender 110 - Wolf - 2002 - 2016	Rear
Range Rover P38	Front & Rear

DA1207

Heavy-duty Crown Wheel & Pinions

With the standard diff design, under extreme conditions, the front diff tries to climb out of full engagement under full power and then easily strips the teeth. Ashcroft has cut the gears in reverse for the front so they try to push together in mesh rather than push out so much stronger then the original design. Ashcroft looked at the materials used and compared these to the genuine materials used by Land Rover. The range are made from improved materials which is an improvement over the genuine specification. All pinions accept the later 24 spline drive flanges and have the female thread to accept the later type bolt (FS112301P) and washer (FTC5413), all ring gear threads are the stock ⅜ UNF, we stock the late flanges head high tensile bolts for these also FTC5150. Ashcroft have chosen to coat the crown wheel and pinions in chemical black to aid corrosion resistance and offer a unique appearance.

DA1207 Front with reverse cut
Heavy-duty 4.12 ratio using a tooth count of 33 on the crown wheel and 8 teeth on the pinion.
Defender / Discovery 1 / Range Rover Classic

DA1508 Rear long pinion
Heavy-duty 4.12 ratio using a tooth count of 33 on the crown wheel and 8 teeth on the pinion.
Defender - up to 7A / Discovery 1 / Range Rover Classic

DA9011

DA9011
Automatic Torque Biasing Limited Slip Differential

Defender - 1993 - 2016	Front & Rear
Discovery 1 - 1993 - 1998	Front & Rear
Discovery 2	Front & Rear
Range Rover Classic - 1993 - 1996	Front & Rear

Note - Not suitable for Salisbury axles.

- Fully automatic - needs no driver input
- Totally transparent on road, i.e., no unwanted adverse effects
- Only comes into play when one wheel looses traction, i.e., a difference in wheel speed
- Enhances the traction control as it multiplies the bias load created by the braking effect of the traction control
- Needs no special oils
- Needs no adjustment as the gears compensate for any wear that takes place
- Only with 24 spline side gears

DA1225
Cross Pin
Defender - 1987 - 2016
Discovery 1
Discovery 2
The standard LT230 transfer boxes have a two piece cross pin in the centre diff, this is two shafts with a cut out in the centre so they can overlap. This one piece heavy-duty cross pin is much stronger.

WHAT'S THE "DIFF"-ERENCE?

There are a multitude of different diffs available for your Land Rover - read about the different types of locking diffs. www.britpart.com/diffs

Detroit & ELocker

Detroit Locker

- 100% locking differential
- Legendary traction
- Ultimate performance

The legendary Detroit Locker began the revolution in performance differentials and still leads the industry today as an Eaton brand. The Detroit Locker is the most durable and dependable locking differential available. The Detroit Locker maximises traction by delivering 100% of the torque to both drive wheels. It is engineered to keep both wheels in a constant drive mode, and has the ability to automatically allow wheel speed differentiation when required. No other performance differential has the reputation for delivering traction in mud, snow, rocks and on the track. The choice of professional racers and off-road enthusiasts around the world! The durability of the Detroit Locker is unmatched!

NEW

"Recognised for its toughness as well as its smooth & quiet operation."

Detroit Truetrac

- Smooth operation
- Performs open until needed
- Fully automatic limited slip

The Detroit Truetrac was the first helical gear differential ever introduced into the automotive aftermarket as an Eaton brand. It remains the leading helical gear-type limited slip differential in the industry. Detroit Truetrac's proven helical gear design eliminates the need for wearable parts, resulting in maintenance free traction. Recognised not only for its toughness but also it's smooth and quiet operation. Engineered to work efficiently in front and rear axles, semi-floating (C-clip axles) and transfer cases. Power transfer is so smooth, it literally goes unnoticed by the driver - even in front wheel drive axles. Proven design, low cost and effective performance, all make the Detroit Truetrac limited slip differential the ideal choice for a wide variety of vehicle applications. No maintenance - just traction!

Diff Lock Lever Kit

DA1178
Discovery 2
Early Discovery 2's were not supplied with a centre diff lock function for the LT230 transfer case although the vehicles still have the centre diff lock installed in the transfer case. To get the diff lock function to work it just needs connecting. The linkage is easy to fit, cable operated and very neat. You attach the existing high/low stud to this new lever assembly. This kit will only work on transfer cases with serial numbers starting with either 41D or 42D.

IMPORTANT

When fitting a metric diff centre with metric bearings into an imperial casing you will require the additional following parts. Diffs went from imperial to metric in approximately 1983, take a look at one of the heads of the four large journal end cap bolts, if '8.8' is on the head it is metric, if not then it is imperial. Parts are required for fitting to both Truetrac or Detroit lockers.

DA5712	Spacer ring
DA5713	Imperial bearing sleeves
RTC3095	Bearings 2 x bearings are required
576521	Longer bolts x 10

Sump Covers

DA9016 NEW
Transfer Case Sump Cover
Fits all Series 1, 2, 2A and 3 models (except V8)
Billet transfer case sump oil coolers are designed to replace the flimsy sump covers supplied as standard equipment. This cover is stronger than the originals and has cooling fins to keep the oil in your transfer case cool in harsh conditions. This Series model is supplied with a new gasket and replacement fastening bolt to replace the brittle standard studs.
Being solid aluminium, the cover completely eliminates leaks caused by differential expansion. If your vehicle is pre-1980 you can use your existing drain plug and washer. Owners of later Series vehicles with metric fasteners should purchase a plug (Land Rover part 235592) to fit the threads in this casting. As the cover expands at the same rate as the aluminium transfer case the stubborn oil leaks associated with the original steel cover are completely eliminated.

DA9018 NEW
Transfer Case Sump Cover
Fits models fitted with 230 type transfer case.
Defender - up to 2007 / Discovery 1
Range Rover Classic
Billet transfer case sump oil coolers are designed to replace the flimsy sump covers supplied as standard equipment. This cover is stronger than the original and has cooling fins to keep the oil in your transfer case cool in harsh conditions. The sump cover is supplied with a new gasket, and the existing bolts are used for installation. The sump cover is significantly stronger than the original and adds about 1/2 litre to oil capacity. Existing ground clearance is not compromised. A plugged port is supplied so that an oil temperature gauge can be fitted. It is possible to fit this sump cover to V8 models but check first that there is good clearance between the cover and existing exhaust pipes.

Emergency Equipment

Tyre Repair

DA6652
Emergency Tyre Kit
12V Analogue Air Compressor
- Pressure gauge in psi, Kg/cm2, bar
- Complete with 3 piece adapter kit for bikes, air beds and other inflatables
- Flexible air hose with screw valve connector
- Separate on/off power switch
- Fitted with fused 12v power plug

Analogue Tyre Pressure & Depth Gauge
- Tyre pressure measurement in psi/bar
- Gauge range 0-120 psi/0-8bar
- Tread depth range 0-25mm

Tyre Repair Sealant
- 400ml tyre sealant
- 1 aerosol for one tyre, a single use product for tyres up to and including 16"

Accessories
1 x pair protective gloves & 1 x pair of cleaning wipes

DA8930

DA6651
Emergency Puncture Repair Sealant
- 400ml tyre sealant
- The sealant is an equal mix of a hydrocarbon propellant and water based liquid latex
- 1 aerosol for one tyre, a single use product for tyres up to and including 16"
- A temporary repair designed to get you home no need for any tools or wheel changes
- For use on tubeless tyres only
- Will not repair tyres that have come off the rim, are ripped, have punctures larger than 5mm or have damaged walls

Complete First Aid Kit
First aid kit that includes a comprehensive range of essentials items stored away in a handy case. Ideal for the car, camping, home and travel. Contents are CE certified.

DA4981 NEW
European Travel Kit
Includes warning triangle, high visibility jacket, universal bulb kit, beam converters, UK sticker, first aid kit, foil blanket & compact carry bag.

Emergency Hammer

Life Hammer - The Original
DA6500
- Double-sided steel hammer for shattering windows quickly and easily for a safe and quick exit from any vehicle
- Razor sharp blade cuts through seatbelts to ease escape
- Fluorescent button allows hammer to be located in the dark
- Installation mounting bracket ensures hammer is accessible when most needed

For a safe and quick exit from any vehicle

Long Range Fuel Tanks

Defender 90
- 30 litres (approximately) plastic flow tank
- Lightweight
- Supplied as kit
- Easy to install & use
- Requires no pumps or added fillers
- Does not interfere with storage or clearance
- Compatible with standard Defender fuel filler cap

DA4547
Defender 90 - Td5 & Tdci - up to 8A

DA4548
Defender 90 - Tdci - from 8A

Defender 110
DA4545
Defender 110 - up to 1999 (pre-Td5 models)
- Rear arch metal spare fuel tank - right hand side
- 45 litres
- Supplied with all the necessary fittings to install and use

DA4546
Defender 110 - 1999 - 2016
- Rear arch metal spare fuel tank - right hand side
- 45 litres
- Supplied with all the necessary fittings as well as a replacement filler neck and specifically engineered bulkhead fitting for the balance pipe, having these makes the fitting of the tank quicker and easier as well as it working better too.

Note - Both above tanks are not suitable for use in a Defender 130. Additional bracket required for 7 seater - DA4546KIT.

DA4546KIT
The long range fuel tank DA4546 will require this additional bracket when fitting to a 7-seater Defender.

The best way of getting more fuel into your Defender without using valuable space or complex pumping systems!

LongRanger Fuel Tanks
LongRanger fuel tanks are a safe and simple way to increase your vehicle's travelling range. Additional fuel capacity is essential for any Land Rover heading off into remote areas. The long range fuel tanks are designed with the latest CAD/CAM manufacturing processes. Using 2mm aluminiumised steel (14 gauge) as the material of choice for the fuel tanks, the tank is individually designed and tailored to suit each vehicle incorporating features such as internal baffling, anti surge dam, in-built expansion chamber and fully sealed brackets. Pre-drilled holes in mounting brackets for fast & easy installation. Fully baffled for better fuel usage & stronger tank design. Comprehensive fitting kit & instructions. More information available online.

TA45
Defender - All Hard Top & Station Wagon Models
- Fuel type: Diesel
- Capacity: 80 litres
- Fitting location: Right hand side sill, outside chassis rail
- Filler location: Under drivers seat
- Fuel transfer: 6 port valve - supplied in kit
- Exhaust modifications: None
- Other modifications: Sender unit supplied to interface with original gauge

TA62A
Discovery 3 / Discovery 4 - Diesel - excludes models with AdBlue
- Fuel type: Diesel
- Capacity: 104 litres - 186 litres in total when combined with factory 82 litres tank
- Fitting location: In place of spare wheel behind rear diff
- Filler location: Original, new dual filler neck supplied in kit to replace OEM
- Fuel transfer: Transfer pump (supplied with automatic pump cut-off, gauge & sender unit)
- Exhaust modifications: None
- Other modifications: Spare wheel must be relocated, retains standard departure angle. Access to cargo area required to remove wheel winder (drawer units will be a problem). Fits with factory tow bar & Kaymar rear bar
- Features: Automatic pump cut off. Fully baffled for better fuel usage and stronger tank design. Pre-drilled holes in mounting brackets for fast & easy installation.

Double incline land meter Black

DA1004
Double incline land meter Carbon fibre effect

Electronic Altimeter

DA1920

The 4x4 Altimeter on-dash integrated information display is a perfect match for any adventure on harsh and uneven terrain, providing data on the orientation of the vehicle (pitch angle, roll angle) as well as its speed. The bright display features an electronic compass for navigation and a light sensor to automatically adjust the device's back-light in line with the brightness outside. Since the altimeter connects via GPS, its speed, location and time measurements are far more accurate than could be achieved with the OEM vehicle read-outs and provide the driver with the information they need on any excursion.

- Integrated speaker
- Volume +/- & mute
- Power on/off
- Light sensor (automatically adjusts back-light brightness relative to outside brightness to reduce glare)
- GPS icon (will show when successful GPS connection is established)
- Current time (hours/minutes - automatically calibrated by GPS)
- Voltage
- Vehicle speed
- Pitch angle
- Roll/tilt angle
- Elevation
- Temperature (internal)
- Electronic compass (calibrated by GPS)

The perfect match for any adventure on harsh and uneven terrain

Specification

Pitch angle:	-40° - +40°
Roll angle:	-40° - +40°
Temp. accuracy:	+/-1°C
Voltage measurement range:	DC 5-30V
Speed precision:	<0.36Km/h
Wireless transmission frequency:	2.4GHz
Operating temp:	-40°C - +80°C
Power supply:	DC 10V ~ 30V

ARB Jacks

1060001
ARB Hydraulic Jack
Adding a new dimension to traditional techniques, the long-travel ARB JACK is backed by the unique power of hydraulic technology. Kicking into action when even the lightest force is applied to the handle, the hydraulics will smoothly jack the vehicle up at up to 13mm increments with each downward manoeuvre. Whilst in action, a black rubber body bumper shields the vehicle from risk of damage during the recovery. The easy-to-access red lowering lever ensures lowering the vehicle is achieved swiftly and safely thanks to the two-stage descent feature and safety stop. Empowering the user with dual lowering speeds, with a press of the lever, a slow or rapid descent can be achieved.

Keeping A Low Profile
Carefully designed upon the importance of matching ergonomic form with safe and reliable function, the handle's high position and top pivot function provides users with ultimate control while preventing the need to uncomfortably kneel down in a deep trench to operate.

Ready For Heavy Lifting
JACK's body is made from hardy aircraft grade 6061 T6 aluminium and the shaft from military grade nitride for maximum strength and corrosion resistance. Running up the body, 9 locating points offer the adjustable hook a wide range of lifting heights; capable of lifting up to a total of 2,000kg. When under load, an internal blow-off valve provides overload protection to safeguard both JACK and most importantly, the user, from the dangerous consequence of the vehicle suddenly dropping if the working limit is exceeded.

Stand Your Ground With 360° Adjustability
Standing true to its adaptable character, JACK features an adjustable foot that can be rotated 360° via the shaft to match the angle of the terrain and reach a firm, stable connection between the base and ground surface.

Specifications

Minimum lifting height:	160mm
Maximum lifting height:	710 - 1,230mm
Travel:	540 - 550mm
Lifting range:	160 - 1,230mm
Maximum capacity:	2,000kg
Compressed height:	890mm
Extended height:	1,432mm
Weight:	10.5kg
Lift per stroke:	13mm

72X10
ARB Exhaust X Jack
Total lift height - 750mm
Total lift weight - 2 tonnes
Bushranger® X Jack is designed and engineered to perfection. This award-winning product has a long history in the Australian landscape and put to the test many times. The X-Jack has a triple layer top with a hardcore for maximum protection and stability. The patented two-way inflation system can utilise exhaust or a portable air compressor inflation which provides added control in rate and extent of lift required. The X Jack assists lifting vehicle in a diverse range of situations or conditions such as sand, mud, snow or soft ground.
Dual inflation - Dual alternatives for inflation provide the option of completing the inflation process by connecting a portable compressor to the X jack valve inlet or by the exhaust. (High temp hose included to 140°C.)
Quality construction - The hard top integrated between two layers of reinforced PVC provides structure, reducing the risk of puncture during inflation and deflation.
Convenient - Due to the X-Jacks inflatable nature, it goes anywhere, collapsing flat for easy storage into a heavy- duty storage bag.

Jackall

DA3122
DA3121

Features & Benefits
- Patented 'safety link' mechanism which prevents abuse and misuse.
- Heavy ribbed, extra large base which provides strength and greater load stability.
- Cast components assures long life, trouble free operation.
- Hot roll-formed, alloy steel beam which is strong and reliable.
- Steel handle locks against beam for convenient storage.
- Powder coated through and through which reduces scratching, greater corrosive resistance.

DA3121	48" Jack (4ft) - 8,000lbs capacity

ARB Jack Base
- 324 x 304 x 56mm
- Provides a safer environment for the user
- Alleviates sinkage on soft ground for safer use
- 7000kg rated load capacity
- Designed to suit your ARB Jack® or Hi-Lift™ and other suitable farm jacks.
- Heavy-duty high-density polyethylene construction
- High visibility safety orange
- Non-slip textured pattern on bottom of the Jack Base for extra grip
- Rugged construction meets all ARB standards for strength and durability
- Can be mounted on a TRED™ Pro mounting kit or on the shaft of a Hi-Lift™ Jack using optional mounts (sold separately)
- Easy and comfortable grab handle
- Can be used as a rake to level terrain
- Can be used as a wheel chock or jockey wheel receiver
- Convenient leash attachment points for easy retrieval of the Jack Base after use (sold separately - TLOARB)
- Designed and made in Australia

ARB TRED Pro™ Recovery Boards

TREDPROBB Black/Black
TREDPROMGO Grey/Orange

Features

- Exotred™ unique and patented composite construction
- Sipe-Lock™ patented grip profile
- Unique nylon material for superior flex and durability
- Special glass filled resin nylon teeth to reduce premature wear from wheel spin
- Lower profile for stacking and storage
- Retro fit mounts to suit most recovery board mounting options
- Ergonomic handles for shovel control
- Contour ramp with real 4x4 tyre data, dimensions and tread patterns for optimized design
- The first recovery board to boast a lifetime warranty
- Made by four-wheel drivers for four-wheel drivers
- ARB unique colours and branding

Technical Specifications

- CAD modelled 4x4 tyre patterns for the right traction in the right place
- Unique two material composite over moulded construction
- Patented composite 2-layer nylon design
- Glass filled nylon teeth

Dimensions

- 1,160 x 330 x 65mm
- Nested/stacked height - (one set/pair) 85mm

Special glass filled resin nylon teeth to reduce premature wear from wheel spin

TLOARB
ARB TRED Pro™ Recovery Leash
Recovery leashes assist in locating your TRED Pros should they bury beyond sight after vehicle recovery. 1,500mm length. Supplied as a pair.

TQRMK NEW
ARB TRED Pro™ Quick Release Mounting Kit
The TRED Quick Release Mounting Kit has been designed to make the installation of recovery boards to a vehicle, trailer or caravan much easier and more secure. The ratchet handle design allows for a quicker and more user-friendly operation.

- Lockable with a padlock to safely secure your recovery boards
- Unique design will mount up to four TRED GT, HD or PRO model recovery boards
- Stainless steel hardware for securing the pins to baseplate is included
- Designed for various fixing options
- Recessed plate mount securing holes
- Flush slot covers included

ARB
4X4 ACCESSORIES

Lift Rod Kit

DA7531
Fully adjustable suspension lift rod kit
Discovery 3 / Discovery 4 / Range Rover Sport - 2005 - 2013

"The ease of changing the ride height is what separates these rods from others in the marketplace."

These adjustable rods replace the plastic and rubber parts Land Rover supply on the vehicle. Made from aluminium with an industrial heavy grade rubber bushing, the aluminium parts are anodised black to help with corrosion protection and blending in when in the garage for work.

The lift rods have two settings, standard and off-road. With the air suspension set to normal driving height the lengthened rods will give you standard road and off road driving heights. If you shorten the rods the standard ride height will be approx 50mm higher. If you select off-road height the vehicle will be in the 'super extended' position.

No tools are required and should take no more than 2 minutes to do all four rods.

Access to the front is over the front wheels and for the back is through the rear wishbones (blanket required!)

Note - If run for a long time in off-road position then wheels may need realigning.

Raised Air Intakes - Safari

Pioneered in Australia in the early 1980's, Safari Snorkels were born out of a need to protect 4WD engines from the hazards of dust and water commonly encountered in touring and off road applications.

Safari snorkels are manufactured to the highest standards in durable, UV stable, cross linked polyethylene material, using stainless steel hardware where appropriate. Each system includes quality fixtures and fittings, which offer superior sealing, presentation and long-term durability.

In arguably the best, if not toughest environment, Safari Snorkel Systems are thoroughly researched, tested and tooled for each model of Land Rover. The Safari Snorkel delivers a continuous and cooler supply of air for maximum engine performance. It is positively sealed as well to ensure the best protection against deep water crossings and dust.

WINCHES

Get To Where You Want To Go

Britpart Winches

If you are serious about off-roading then a winch is an essential piece of kit. They are indispensable when getting yourself and others out of tricky situations.

The Britpart Pulling Power range of powerful and reliable electric winches all feature a planetary gear system for fast line speed, free spooling, power in & power out and low electric current. Now with the larger winches you have a choice of having the traditional steel cable fitted or Dyneema rope.

A full range of winching equipment is also available from Britpart - including; safety gear, bumpers, chocks, hooks, shackles & ropes.

Together with the winches you'll be able to 'Get to where you want to go!'

DA5621

Tubular Winch Bumpers

- Stylish tubular steel space-frame construction for strength
- Extremely close fitting for maximum approach angle
- Compatible with many steering guards
- Built-in high-lift jacking points
- Integral rock guard
- Supplied with full fitting kit

Note - Grille will need modifying

DA5609 Defender - air-con — Black
Suitable for DB12000i & DB9500i winches

DA5622 Defender - non air-con — Black
Suitable for DB12000i & DB9500i winches

Note - Grille needs trimming for fitment to air-con & automatic vehicles

Standard Winch Bumpers

- Heavy-duty steel winch bumpers

DA5620 Defender - non air-con — Black
Suitable for DB12000i & DB9500i winches

DA5681 Defender - non air-con — Galvanised
Suitable for DB12000i & DB9500i winches

DA5623 Defender - air-con — Black
Suitable for DB12000i & DB9500i winches

DA5643 Defender - air-con — Black
Suitable for Warn XD9000 and XD9.5 winches

DA5621 Discovery 1 / Range Rover Classic — Black
Note - For vehicles without air-con and/or without transmission oil coolers fitted.
Suitable for DB12000i & DB9500i winches

DA5645 Discovery 2 — Black

- One piece bumper manufactured from 5mm steel with wrap around sides to protect the wings
- Fixed to standard mounting points with provisions for 2 swivel recovery points and 2 Hi-Lift jacking points

Note - Grille needs trimming to fit winch
Suitable for DB12000i & DB9500i winches

Discreet Winch Bumper

- Suitable for any low line winch
- Made from 6mm and 8mm steel
- Discreetly fits behind the existing bumper
- Bolts directly onto the front cross member using existing holes
- Modifications to bumper are required, includes instructions
- Excludes fairlead

Note - Low line winch needs to have a removable solenoid.

2 Ton Flat Webbing Sling - Green
This soft and light polyester product reduces the chance of damage during use. The reinforced eyes make the sling both secure and reliable. Tested on a 7:1 breaking strain factor, this flat webbing sling ensures that the item is safe to lift a weight of 2 ton or less. Sling will come with the safe load limit, date of manufacture, serial number and test certification.

	Length	*Width*	*Breaking Strain*
DA1278	3,000mm	60mm	2,000kg
DA1279	5,000mm	60mm	2,000kg

3 Ton Flat Webbing Sling - Yellow
Crafted from polyester to give you a lighter alternative to chain and rope solutions. They are easy to pack away and store, making your life that little bit easier! The sling is coloured in line with EU safety standards with yellow representing a 3 ton loading limit. These webbing slings have been carefully tested on a 7:1 breaking stress factor to confirm that they can safely handle the 3 ton safe loading limit. Sling will come with the safe load limit, date of manufacture, serial number and test certification.

Shackles & Pulleys

DA7336
12-Strand Shackles
Pair
Breaking load - 5,830kgs
Manufactured from 11mm 12-strand UHMWPE rope with built in UV inhibitor. These are a lightweight, easy and safe way of joining ropes and straps. Due to the much lower kinetic energy being stored, using these shackles is much safer in the event of a rope or strap failure. Can also be used to attach ropes to standard towing eyes without scratching the paintwork.

See how easy it is to use these shackles
www.britpart.com/DA7336

ARB2018
ARB Soft Connect Shackle
Staying safe is paramount in a recovery situation. Having gear that is correctly rated protects your family, friends and vehicle, and of course should be front of mind when selecting recovery equipment for your situation. Manufactured using UHMWPE (ultra high molecule weight polyethylene) high tensile CE certified synthetic rope, is ARB's updated Soft Connect Shackle. UHMWPE rope is used in many of the synthetic rope applications on winches and purpose-built tow straps. Rated at 14.5T breaking strength, the ARB Soft Connect Shackle is engineered to float in water, be resistant to short term UV radiation and provide superior strength. Updating the protection to the rope, the UHMWPE synthetic rope is encased in a high tensile braided shield. The braided shield provides improved abrasion resistance when in use.

Features
- 14.5T/(31,967lbs) breaking strength, suitable for vehicles up to 3.5T (7,716lbs)
- UV resistant properties + water resistant & designed to float
- Braided outside shield
- Longer size to suit more conditions
- Slide lock loop, no draw string
- Attaches to most rated recovery points
- Manufactured from CE certified high tensile UHMWPE (ISO 2307)
- Safer than a steel shackle when used correctly
- Instructions printed on storage bag, as well as included in handy print form
- Fits in most storage spots in your vehicle, door pockets, glove boxes & no rattles

Technical Specifications
- UHMWPE (ISO 2307) synthetic rope
- 12mm x 12 strand rope
- Tested in house & externally to ARB's stringent requirements
- Consistent 14.5T+ (142kN+) breaking point in a controlled environment
- All shipments batch tested for consistency under ARB test conditions
- Comprehensive testing in field – winching, snatch blocks & snatch strap
- Braided sleeve for superior abrasion resistance
- Not for lifting purposes
- Suitable for vehicles using an 8T or 11T recovery strap
- 780mm length & 235g

ARB Snatch Block 7000
ARB's easy to use 7,000kg snatch block doubles the capacity of your winch and is suitable for a variety of off-roading uses. Engineered tough for serious recovery. Allows winching from awkward angles and incorporates a grease nipple to ensure smooth pulley operation. Suits mounted and portable vehicle winches.

Working Load	7,000kg
Breaking Strength	14,500kg
Side Plate Material	5mm cold rolled steel
Pulley Material	Solid billet steel
Pulley Diameter	93mm
Cable Size	6mm - 12mm
Weight	3.5kg
Greasable	Yes

ARB
4X4 ACCESSORIES

ARB products available in the UK only.

10100020
ARB Snatch Block 9000
Feature side plates that sit snug against the pulley, eliminating the possibility of the winch cable becoming trapped between the pulley and the side plates. The groove on the pulley itself tapers down to the centre allowing for a variety of cable sizes (¼"-½") to be used and ensures the cable is seated securely in the pulley, minimizing lateral movement.

Features
- Works with steel or synthetic winch lines
- Light weight design
- Easy to use
- Doubles the capacity of your winch
- Allows winching from awkward angles
- Engineered tough for serious recovery
- Suits vehicle mounted and portable winches
- Vehicle recovery booklet enclosed

Specifications

Working load:	9,000kg (20,000lbs)
Breaking strength:	17,500kg (38,500lbs)
Side plate material:	6mm cold rolled steel
Pulley material:	Specialized polymer
Pulley diameter:	110mm (4.3")
Cable size:	8mm - 13mm (0.3"-0.5")
Weight:	2.4kg (5.3lbs)
Greasable:	Not required

GLOVES

GLOVEMX

DA2037	Universal battery isolator switch
DA2037KY	Replacement isolator switch key for DA2037
DB1000	Wheel chocks - pair
DB1016	Winch blanket

Manufactured from heavy-duty vinyl, the blanket will absorb most of the recoil in the unlikely event of the cable breaking. It's also very useful to kneel on in the mud!

DB1308	12 volt winch remote control

Operate your winch from a safe distance with this wireless remote control

- High frequency circuit using SMD design for reliability
- The transmitter uses FM technology for frequency stability and greater control distance
- Receiver output is protected against voltage spikes

Winch with safety in mind

Gloves

When winching, gloves are essential safety wear to protect your hands from many of the hazards you may encounter.

DB1010	Gloves - Britpart
GLOVES	Gloves - ARB
GLOVEMX	Recovery gloves - ARB

Perfect for hand protection and keeping your hands clean during recovery situations, general work on your vehicle or around the campsite. Providing general protection in a stylish design, these gloves are a perfect addition to the glove box or recovery kit. Using premium synthetic materials to reduce abrasion and wear, as well as increase comfort on your hand, the ARB recovery gloves provide knuckle protection as well as palm protection with moulded rubber impact guards. The high abrasion resistant material on the inside palm of the glove works well with wire or synthetic rope winch cables. Added protection to the palm and fingers provide a safe yet good dexterity glove with a firm fitment, reducing pinching hazards. The cuff is embedded with the ARB Recovery logo and touch tape fastener to keep the glove firmly fitted. Finished in a breathable microfibre and ARB hi-viz recovery orange (which is great for marshalling or spotting operations), these gloves will complement your already excellent ARB recovery range.

DB1001 Britpart Winch Bag
A heavy-duty Britpart branded bag. Ideal for keeping dirty recovery gear in one place.

ARB501A ARB Large Recovery Bag
Designed to fit a complete recovery kit including snatch strap, tree trunk protector, winch extension strap, snatch block, recovery damper, bow shackles and gloves. **Note** - The winch pack is sold individually and does not come stocked with the straps. All items sold separately so the user can select the correct strap weights for their vehicle.

ARB503A ARB Compact Recovery Bag
Perfect for carrying a single strap and a pair of shackles. Small enough to fit under a seat or in the back of a drawer system, this recovery bag is a convenient way to keep your most important items in your rig at all times. More information online. **Note** - Bag only.

ARB504A ARB Micro Recovery Bag
Ideal for keeping smaller items such as a snatch block, drag chains, shackles and general recovery items from rolling around the back of your vehicle. This will keep them all neatly together in a highly visible bag, ready to use in any recovery situation you might come across, especially if it's an emergency. **Note** - Bag only.

DB1014 Extended Winch Wiring Kit
1 x red (1.8m) & 1 x black (1.8m) wires with end connectors and isolator switch. Ideal for Defenders - up to 2007

DB1035 Extended Winch Wiring Kit
2 x red (3.15m & 0.60m) & 1 x black (1.8m) wires with end connectors and isolator switch. Ideal for Defender - 2007 - 2016.

DA6541 Ground Anchor
Pull yourself out of trouble with this heavy-duty ground anchor. This anchor utilises a Hi-Lift jack (not included).

DB1314 Ground Anchor Set
600mm pins

DB1318 Ground anchor Bag Set
2 x Pulling Power bags. **Note** - Ground anchor not included (DB1314)

DB1357
Replacement Dyneema® winch rope with competition hook & drum connector
Grey
11mm x 30m
CHOE+DC
Breaking point - 10,773kg

Construction
- Material - UHMPE (Ultra High modulus polyethylene)
- Construction - 12-strand braided
- Coating - 'Armour-coat' PU impregnation

Properties
- Very high strength - Improved safety
- Light weight - Easily handled
- Low elongation - Low stored energy improves safety
- Synthetic fibre - No wire splinters
- 12-strand - Easily spliced
- Armour-coated - Improves abrasion resistance and feel
- Good UV resistance - Durable and suitable for long term outdoor use
- Excellent chemical resistance - Resistant to most common chemicals

Optima Batteries

With it's patented Spiralcell® Technology, Optima batteries offer 15 times the vibration resistance and up to twice the life of ordinary batteries. The Optima is like no other battery found in today's market. Optima's unique patented Spiralcell® design offers the best technology by providing a strong and clean power source that far surpasses any of today's traditional lead acid batteries. With Optima as your choice, you can count on a longer lasting battery.

Yellow Top

Demand more from your vehicle? Then get more from your battery. Optima Yellow Top batteries are made for the extremes. If your vehicle is designed to take the abuse of off-road driving, you need increased performance and reliability from your battery. Optima batteries combine patented Spiralcell® Technology to deliver that performance. The deep cycle characteristics of this technology coupled with its extreme resistance to vibration provides performance vehicles with the repetitive power they need, packaged in a spill-proof compact design. If your vehicle is fitted with high drain accessories such as additional lighting, tracking devices, ICE systems, winches, hydraulics etc, then this ultimately demands more from your battery. Optima Yellow Top batteries provide the extra performance and deep cycling capability that your vehicle demands.

Red Top

Optima Red Top batteries are built to withstand the abuse 4x4's experience on and off-road. Spiralcell® Technology immobilises the internal components of the battery, enabling Optima batteries to withstand incredible amounts of vibration.

Vehicles modified for improved engine performance demand more from a battery. Optima batteries withstand the high engine bay temperatures associated with these performance vehicles. The sealed construction makes the battery spill-proof, even if you install it on its side! This prevents external gassing and leaking which can damage engine components and reduce battery performance. If your battery is used in applications that demand extra reliability endurance and performance, or if you just take pride in getting the best performance out of your vehicle, Optima Red Top batteries deliver the performance you demand.

Yellow Top Batteries
Voltage - 12v
Capacity - 55Ah
Cold Cranking Amps (CCA) - 765

DB1018	Top terminals
DB1020	Top & side terminals

Red Top Batteries
Voltage - 12v
Capacity - 50Ah
Cold Cranking Amps (CCA) - 815

Battery Charger

DA3185R
Multi-Stage Fully Automatic SmartCharger

From Ring - the ultimate in battery maintenance. Diagnose, repair, recondition and charge in one automatic device. Ideal for long-term connection and winter charging. This is battery care made easy. This charger is a multi-award winning SmartCharger. It has won the Automechanika Madrid Exhibition Award for Innovation, Auto Express' Product of the Year and Land Rover Monthly's Best Buy.

- Multi stage fully automatic SmartCharger
- Auto charge applies the fastest charge, based on battery size
- Includes settings for both standard vehicles and Start/Stop
- Includes battery repair tools to increase performance and battery life
- Charging current up to 12A
- Battery capacity: 25-300Ah
- Interactive LCD display
- Memory saver function allows vehicle and audio settings to be retained if the battery is removed
- Product dimensions - 139 H x 197 W x 74mm D
- Weight - 1.48kg
- Voltage - 230V AC input & 12V DC output
- Includes the following battery and alternator analysis tools:
  - Start power test - measures voltage drop during engine start to identify potential battery issues
  - Alternator check - tests the recharging performance of the vehicles alternator
  - Battery cranking performance - measures the battery's cold cranking performance to determine engine starting ability

Keep your batteries in tip-top condition

Battery Monitor Sensor

DA7966 NEW
Sealey Battery Monitor Sensor & Vehicle Finder

- Displays real time battery power, voltage and temperature.
- Wireless connection with dedicated app which supports up to 4 devices (iOS & Android compatible).
- Guides user back to the vehicle by automatically recording the last parking location.
- Record the route, cost and driving habits of each trip, which can be exported to Excel.
- Automatically monitor the starting and charging system of the vehicle and notify if abnormal.
- Compatible with most batteries including lead sealed, AGM and Gel. Supports up to 4 devices.
- Store historical data in device for up to 30 days.

Voltage Range:	6-20V
Average Current:	1.5mA
Input Voltage:	6-20V
Voltage Accuracy:	9-16V ±0.03V
Short Circuit Protection:	Built-in
Reverse Connection Protection:	Built-in
Operating Temperature:	-20 - 40°C
Physical Dimensions:	55 x 41 x 12.5mm
Waterproof:	IP67
Weight:	20g

Replacement Batteries

- Batteries are manufactured on the same equipment as OE batteries and use the same components to give consistent quality and performance
- OE quality standards, giving assurance that the batteries will not let the user down
- Batteries are recyclable, helping to protect the environment

Dual Battery Management System

DA1174

Microprocessor Controlled
Dual Battery Management System

This fully automatic battery management system separates the starter battery from auxiliary battery if the vehicle has stopped and links them while the car is running. All systems are equipped with a 200A power relay. For emergency situations all systems are equipped with the manual override function. This manual linking function (called load sharing) is very helpful for jump starting or when using high current appliances such as an electrical recovery winch, power inverter or compressor. The kit includes a 4.7m wiring loom with sealed automotive plug, battery and crimp terminals for easy installation. The battery monitor is installed in the vehicle and informs the driver about the charge level of both batteries, the charging voltage from the alternator or an additionally installed solar system and the relay link status. The system offers low battery alarm on both batteries and a link failure alarm. Includes a manual link for 30 & 120 minutes with automatic return.

Functions

Display of Battery Voltage (Energy Level)

LED Indicators

Green: Batteries are in the safe working range
Yellow: Check batteries
Red: Batteries should be charged

The LED's show the energy level if all loads are switched off: 12.6V = 100% / 12.4V = 75% / 12.2V = 50% / 12.0V = 25%
11.0V = flashing and beeping indicates low battery situation
This function is called by pressing the display button for about 30 seconds.

Display of Charge Voltage While Charging

LED Indicators

Red: >14.5V: High loading of batteries, may be present at cold ambient temperature for a longer time.
Yellow: >14.0V: Proper charge mode.
Green: <14.0V: Save charge mode, no damage to batteries.

Bi-directional Automatic Battery Link

While the engine is running the main and auxiliary batteries are linked together for parallel charging from the alternator (green LED linked is on). If the engine is stopped, the two batteries will be disconnected automatically with some delay. Appliances such as fridges, lights, compressors, inverters are now safely fed from the auxiliary battery. With the additional charge by solar equipment, battery charger or generator is sufficient for charging, the starter battery will be charged automatically with auxiliary battery together (green LED "link" lights).

Manual Battery "Link"

In an emergency situation (defective or empty main battery) or in case of higher power consumption the two batteries (main & auxiliary) may be connected together by activating the link button (red LED manually linked is on). After a lapse of time of 30 minutes (or immediately after activating the auto button), the system returns to the automatic mode. When using an electric winch, the battery connection can be activated for 120 minutes by pressing the link button twice. In this mode sounds a beep every 30 seconds to remind of this status (auto return after time expired). The load sharing function with the manual battery connection reduces the load on the alternator, the wiring and the batteries in the use of the winch.

Alarm Functions:

Low Battery Alarm

If the battery voltage of one or both of the batteries, is for a longer period below 12V, the sound low battery with "Beep" and the LED "Low Battery" of the corresponding battery (main and/or auxiliary) flashes. With the display button, the "Beep" is switched off. The blinking LED "Low Battery" is reset if the battery voltage is exceeding 12V.

Link Failure Alarm

Monitors the charge on both batteries. When fitting charge (from alternator, solar, charger) no charge to the other battery is detected, the link error alarm with flashing green LED "linked" and the "Beep" sounds. If this error occurs, check immediately the wiring of the power cables to (relay, battery terminals, crimp contacts, control relays). After bug fixes, alarm will automatically reset.

Deactivation of Automatic & Manual Battery Dual Link Function

If there a problem with the auxiliary battery (aux) as short circuit of cells, short circuit or defective battery housing, leading to damage of the generator (alternator). In an emergency situation the battery system can be operated in the vehicle in the basic configuration (alternator, starter battery without additional charge to auxiliary battery). By pressing the link button for 6 seconds (until the sound of the beep), the link is deactivated. In this mode, no manual and automatic battery connection is possible. This feature can solve the battery problem of the auxiliary battery by pressing the auto button for 6 seconds to be reset. Now the system is working again with all the functions.

Specifications

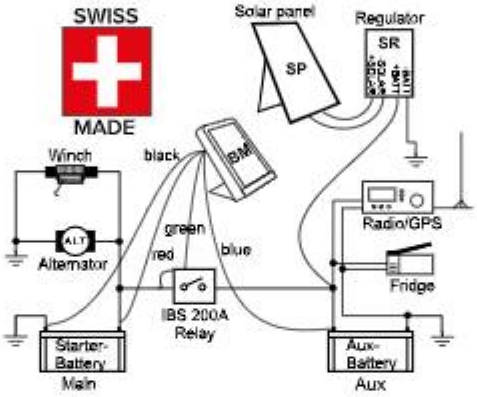

Supply voltage	4 - 16V
System voltage	12V
Measuring range (sense wire blue)	8 - 16V
Display range (battery voltage)	11.0V - 12.8V
Alarm level main and aux	12.0V
Display range (charge)	13.0V - 14.5V
Accuracy	+/-1%
Consumption monitor	1mA
Consumption max. display active (30 sec)	20mA
Isolator link-on/off threshold	13.1V/13.0V
Consumption on-state (relay)	0.6A
Relay continuous load current	200A
Relay current inrush	500A
Relay contact material	Silver (AG SnO2)
Free combination of batteries possible?	Yes
Operating temperature	-40°C - +80°C
Housing	ABS black
Sealing level	IP40
Size, dimensions	100 x 65 x 24mm
Weight	800g
Cabling	Red - Supply/sense (main battery) Black - GND (main battery) Blue - Sense (aux battery) Green - Control relay (open collector)

Protected against

Wrong polarity & against overload of solenoid driving circuit on PC board with SMD electronically security devices, no fuses have to be replaced.

Winch Application

Connect an electrical recovery winch to the main battery as shown in the wiring diagram.

Quality performance brake discs

- Slotted design to increase braking efficiency by reducing dust, debris, water & gas on the disc
- To improve brake cooling, reduce weight and to offer an escape route for dirt & gasses these performance discs are drilled with rows of holes
- Excellent upgrade for your Land Rover to aid braking, especially under a heavy load
- Ideal for off-road use
- Manufactured to British Standard BS1452 Grade 220 and DIN1691 GG20
- Supplied in pairs

IMPORTANT BRAKE INFORMATION
For exact change over points with vehicle applications please contact your local Britpart stockist with the full chassis number for the correct application. These references are intended as a guide only.

Alcon Brake Kits

DA2700

DA2703

DA2704

Defender 18" Wheel Front Brake Kits

- Fixed iron 'C' groove disc assembly - Ø355 x 32mm
- 6 Piston monoblock cast caliper
- Performance brake pads included

DA2700	18" 6 Piston kit	Red
DA2701	18" 6 Piston kit	Silver
Replacement Parts		
DA2709	18" Front left brake disc	
DA2710	18" Front right brake disc	
DA2711	18" Front brake pad set	
DA2797	18" Front anti-rattle clip	

Alcon Defender Brake Kits

- High friction brake pads increase stopping power
- Increased brake pad area reduces temperatures and increases pad life
- Staggered position in order to ensure even brake pad wear
- Stainless steel pistons as standard for improved resistance to thermal conductivity
- Hard wearing anodised alloy caliper
- Internally drilled, no external pipes

Defender 16" Wheel Front Brake Kits

- Fixed iron 'C' groove disc assembly - Ø334 x 28mm
- 4 Piston 2 piece cast caliper
- Performance brake pads included
- TÜV approval certification is available when fitting the 16" brake kits to a Defender - DA2702 plus DA2704 and DA2703 plus DA2705

DA2703	16" 4 Piston kit	Silver
Replacement Parts		
DA2706	16" Front left brake disc	
DA2707	16" Front right brake disc	
DA2708	16" Front brake pad set	
DA3335	16" Front anti-rattle clip	

Defender Rear Brake Kits

- Solid 'C' grove disc - Ø298 x 14mm
- 4 Piston forged caliper
- Performance break pads included

DA2704	4 Piston kit	Red
DA2705	4 Piston kit	Silver
Replacement Parts		
DA2712	Rear left brake disc	
DA2713	Rear right brake disc	
DA2714	Rear brake pad set	
DA3339	Rear anti-rattle clip	

Note - Both DA2704 & DA2705 rear kits are suitable for fitment on Defenders where either 16" or 18" front disc kits are fitted. For Defender 110 the rear kit will only fit vehicles from VA128340.

When you're heading into extreme terrain, you leave nothing to chance. That's why you've probably already added some aftermarket upgrades - suspension lift kit, bigger tyres & a winch etc. But there's one problem; the weight of all that extra gear can put a strain on your Defender's braking performance. The more serious your adventure, the more you need an Alcon uprated brake kit.

The Alcon complete uprated brake solutions are designed to perform superbly even in the harshest conditions. From high rocks to desert washes, these extensively tested brake systems will battle through the toughest challenges without sacrificing performance.

alcon
specialist brakes & clutches

Alcon is a global leader in the design, development and manufacture of brakes, clutches & actuation for motorsport, OEM, aftermarket, specialist and armoured/military vehicles. Alcon's range of brakes, clutches & actuation is huge. It has been developed for over 30 years by working at the top level of motorsport including F1, NASCAR, GT racing, World Rally, and Touring Cars to name but a few. With a wealth of experience in brake and clutch design, backed up by our well-equipped development facility based within "Motorsport Valley" in the UK, Alcon thrives on the challenge of devising innovative and unusual solutions for every application. We use our specialist knowledge to create the best solutions for every customer's need. That's why we're the best at what we do.

Extensively tested brake systems will battle through the toughest challenges without sacrificing performance.

- Sold in pairs
- 100% British cast and machined high quality product
- Wide aperture slots that draw cool air under the pad surface
- Slots that expel all dirt dust and debris from the braking area
- Blind drilled dimples that eliminate cracking common with through drilled sport rotors whilst helping maintain perfect pad contact

IMPORTANT BRAKE INFORMATION

For exact change over points with vehicle applications please contact your local Britpart stockist with the full chassis number for the correct application. These references are intended as a guide only.

Anti-squeal Shims

DA1141

Universal self adhesive noise dampening shims. Pack of 4. The shims are manufactured from wolverine and cut to shape and applied to the backing plate of the brake pads prior to fitting to help eliminate any noise issues (should the pad be unshimmed). When used in conjunction with Mintex Cera-Tec silicon based lubricant, most brake noise related issues will be eradicated.

Brake Lubrication

DA2389
Cera-Tec Advanced Lubricant
75ml

Mintex Cera-Tec is an advanced non-metallic universal lubricant that provides many benefits over traditional copper-based grease. More details available in the Repair & Service section.

Brake Pads - DTEC

High Performance, Low Dust

DTEC is an advanced, low dust, ceramic formulation which has been developed by TRW for those customers who want cleaner wheels without compromising the braking performance that they are used to.

The new material meets all EU legislative requirements as well as TRW's demanding performance requirements.

In addition, rim surface dust levels have been reduced by up to 45% when compared to other standard materials. Cotec coating improves green behaviour during bedding in and ensures great pedal feel from the first stop.

IMPORTANT BRAKE INFORMATION

For exact change over points with vehicle applications please contact your local Britpart stockist with the full chassis number for the correct application. These references are intended as a guide only.

*Pad sets exclude shims

EBC Ultimax Heavy-duty

- New AF42/66 friction material which completely eliminates brake judder and produces a high friction long lasting brake pad.
- Unique powder coat finish to both pad and back plate gives lifetime resistance to corrosion and prevents moisture ingress.
- Unique Brake-In surface coating provides instant brake efficiency on installation and conditions the brake rotor removing glaze, black spotting etc from disc surface.
- All pads feature centre line slot which prevents heat expansion cracks and reduces brake noise.
- All pads feature edge chamfers which have major technical benefits;
  - Significant reduction in brake noise
  - Prevents 'edge lifting' under left and right extremities of pad which can cause corrosion ingress and eventual pad de-bond
  - Can extend pad life by virtue of improved pad efficiency
- Most pads in the Ultimax range features factory fitted noise reduction shims.

EBC Green Stuff High Performance

- 100% British design and manufacture.
- Superb gloss powder coat paint finish to reduce corrosion.
- Unique engineering finish with noise reduction slots and edge chamfers.
- Extra high friction compounds for better stops, these pads will improve your stopping power by up to three vehicle lengths.
- Special compound ingredients that prevent "Outline Etching" eliminating brake stiction onto the rotor in damp conditions.
- Unique "Brake-In" surface coating to accelerate pad bed in after installing new pads which also guarantees brake efficiency from installation.
- Super quiet braking with rubber-steel-rubber noise reduction shims on the reverse, this dampens all possible noise.
- Extra heavy duty compound lasts longer that low cost standard pads.
- Fully ECE R 90 approved and legal for road and off road use.

EBC Yellow Stuff Performance Race

- High friction compound which is effective from cold up to high heat.
- Effective brake upgrade for heavy-duty braking.
- Long lasting powerful brakes.
- Shims, edge chamfers and slots for silent braking.

EBC Yellowstuff brake pads are British made and contain Aramid fibres. These are man-made high performance fibres, used widely for their light-weight, high strength, abrasion resistance and thermal stability. These properties provide advantages over cheaper steel fibre based products. Not only high in friction from first application when brakes are cold but extremely effective at higher brake temperatures as encountered in faster driving and towing/trailing. These pads are a favourite with the military and are used on armoured vehicles in several countries to handle the higher loads and heat and offer a good brake upgrade. Fitted with shims chamfers, centre slots and the unique EBC Brake in coating for fast bedding in of new brakes these pads are also long lasting and silent in operation.

*Note - Front hoses fit directly into the wheel cylinders replacing brake pipe 537763

These brakelines are constructed from the finest quality hose, consisting of a PTFE inner and stainless steel overbraid.

- Eliminates sponginess under heavy braking
- Increases braking efficiency
- Abrasion and corrosion resistant
- Britpart hoses available at plus 150mm lengths - ideal for use with our Plus 5" suspension products

Note - Brake hose clips - **EJP7813** - are not included in any of the kits apart from DA7561

Increase your braking efficiency

Goodridge Premium Performance Brake Line Kits

DA2672 Discovery 3
DA2673 Discovery 4
DA2677 Range Rover Sport - 2005 - 2013
DA2674 Range Rover - 2002 - 2012

Goodridge race-bred brake lines are constructed from the finest quality hose, consisting of a PTFE inner and stainless steel over braid.

- 100% pressure tested
- Greater braking efficiency
- Resistance to abrasion and corrosion
- Eliminates sponginess under heavy braking
- Added reliability, safety & brilliant looks
- Technically superior and race proven
- FMVSS 106 Compliant, DOT, TÜV, ADR, ISO9001 Accredited

Handbrake Conversion Kits

Defender / Discovery / Range Rover Classic

The disc transmission brake uses a state of the art monster sized mechanical caliper designed for agricultural vehicles and earth moving equipment - so using it on a Land Rover is easy work for it. The mechanism is sealed so it will not seize up due to ingress of mud or water and it uses special 'sintered' pads which are resistant to abrasion from mud as well as providing greater friction against the disc than a standard pad. The disc has been specially designed for Land Rovers and manufactured from tough 10mm thick steel. It has a smaller diameter than a standard drum and so does not dangle below the transfer box which helps to protect it from whatever you are driving over. The caliper mechanism sits in a well protected area at the top, away from most of the mud and water.

DA5513
Defender 90 & 110
For anything post 1993 (300Tdi, Td5 & Puma) you need to change the cable - NRC5088. Puma onwards - modifications may be needed to the chassis to enable fitment.

DA5526
Discovery 1 / Discovery 2 / Range Rover Classic
Will not fit a Borg Warner or LT95 transfer box.

XDISC
Replacement disc for DA5513 & DA5526

XPAD
Replacement pads for DA5513 & DA5526

***Beef** Up Your Land Rover's Handbrake!*

Series

DA5537
Series 1, 2 & 3
This will fit any Land Rover fitted with a standard Series transfer box, including those fitted with PTO's, under or overdrive units. The new brake replaces the original transmission brake drum. It is supplied with a new adjustable actuator rod which connects from your original handbrake lever, direct to the caliper, reducing the amount of slack in the linkages. The disc transmission brake uses an industrial open-frame caliper with simple adjustment and easy cleaning. The new caliper is mounted on a laser cut steel back-plate with a folded gusset for added strength and incorporating a built in skid plate to protect the disc which is manufactured from robust 10mm thick mild steel plate and which bolts directly to your original gearbox output flange with six new bolts (supplied). The system is very light weight, offering a saving of almost 10kg compared to an original drum brake.

XPADSERIES
Replacement brake pads for handbrake conversion kit - DA5537

Driving off-road you'll know how easy it is for the standard Land Rover hand brake to get bunged up with dirt and once the mechanism gets clogged up it doesn't work as efficiently as it should. Britpart now offer a solution to that problem - a drum to disc conversion kit. These kits use powerful calipers whose mechanism is sealed to prevent the access of mud. Parts are supplied coated with a tough corrosion resistant coating of gold zinc passivate to ensure a long life. Fitting is easy requiring only simple tools. Full fitting instructions are included as well as advice on adjustment and use.

PRORAM Induction Kit

DA3492
PRORAM Induction Kit
Defender - 5.0 V8 - 2020 onwards
The PRORAM kit features a performance synthetic nanofibre air filter, a twin-tangential velocity stack, designed to optimise airflow. It offers proven performance gains - especially with a tuned vehicle.

Designed to fit directly to the standard OEM factory air box mounting points and rubbers without the need for any modifications.
The heat shield helps maintain low intake temperatures by providing a physical barrier between the air filter and the rest of the engine bay.

What Does It Do?
This induction kit will increase the airflow into the supercharger while increasing engine noise over the restrictive factory air intake system. This kit includes everything required for the fitting of the induction kit.

Ramair Filters utilise the top-quality components in all their kits which includes:
2 x Black powder coated bespoke heat shields.
2 x Proram performance pleated filters.
2 x Silicone hoses.
All ancillaries/fittings required for complete retrofit installation including easy step by step instructions.

Aluminium Tanks

DA4748
Uprated Engine Breather Oil Catch Tank
200Tdi & 300Tdi engines
Allisport high performance aluminium engine breather oil catch tank separator. Manufactured using mounting flange machined from billet aluminium. All engines need to breathe crankcase pressure to atmosphere and most are designed to re-enter the air intake system after the air cleaner. Standard breather pots use a gauze and mesh design which over time becomes blocked with oil deposits, reducing the capacity to release crankcase pressure and also allowing more oil vapour to enter the intake system. This high performance replacement is designed to effectively reduce crankcase pressure build up on Tdi engines by using an internal baffle rather than the standard gauze and mesh design. Designed to have a practical purpose offering an improvement over the original black plastic units, but will also look great in the engine bay. Will fit all Tdi engines including 2.8 TGV. Tank has new integral o-ring-seal design. Manufactured by hand, fully TIG welded.

This is a direct replacement for the original plastic tank which is prone to splitting. TIG welded by hand and manufactured from high specification lightweight non-corrosive alloy, this tank also aids cooling. Tank uses original pressure release screw cap and is a straight fit with no modifications required. Ideal for motorsport, overland or just to improve the look of your engine bay.

Freelander 1 - Td4 engine

DA4749
Aluminium Power Steering Reservoir with Internal Baffle
Defender – Tdi, Td5, Tdci & V8
Designed to replace the plastic ZF reservoir which is prone to splitting and leaking vapour through the breathable cap, which in turn then collects dirt and runs the risk of water ingress. The external breather design means no unsightly mess under the bonnet and allows routing with high axle/gearbox breathers to eliminate water ingress. Manufactured from laser cut 2mm high grade aluminium with CNC machined pipe connections, knurled cap and external breather. The corrosion resistant aluminium rolled body is fully TIG welded by hand in house. 110mm high (155mm height including cap) & 91mm diameter.

Britpart

Filter Guards

- Extends engine life
- No vehicle modification needed
- Added protection for stop & go driving and towing
- Improves fuel economy
- Cleans engine oil for 50,000 miles

Britpart Filter Guard removes potential engine damaging metal particles from your oil. Clean oil works better than dirty oil with reduced friction and less wear. Britpart's Filter Guard is an inexpensive way of removing the harmful contaminants that conventional oil filters can miss. The contaminants are fine metal particles which act like an abrasive on the fast moving parts in your vehicle's engine - dramatically shortening engine life. Filter Guard works by magnetic filtration technology resulting in cleaner oil which your engine will thank you for by running better now and in years to come. The Filter Guard will never clog or restrict the all important oil flow.
Note - Filter not included with Filter Guard. Please check that there is sufficient room for the addition of the filter guard.

Added protection for your engine!

Air Filters - Britpart Performance

- A range of performance filters tailored to fit your Land Rover.
- Maximum breathing efficiency for your engine means more power or better fuel mileage.
- No compromise on quality - the engine gets more air but the dirt particles are trapped by the quality filters.
- No need to replace as easy cleaning means maximum performance guaranteed.
- Easy fit, directly replaces standard air filter.
- Ideal for use in hot dusty conditions to reduce engine wear.
- Compatible with snorkels, ideal for use in conjunction with other performance modifications.
- Filters don't need pre-oiling and if the filter gets dirty there is no need to use a cleaner to clear the dirt on the filter - just use air, water or detergent.

A breath of **fresh air** for your Land Rover

High Output Heater Matrixes

DA4743

DA4744

AllSport uprated high output heater matrixes with high quality vacuum brazed cores and louvred fins. These larger matrixes have twice the capacity of standard which increases heat output and improves windscreen demisting times. TIG welded by hand. Only requires some small mods to the heater box to install.

DA4743
Defender - early models with downward facing pipes. Equivalent to AAP817.

DA4744
Defender - late models with horizontal inlet/outlet pipes. Right hand drive (including some LHD NAS spec). Check your application before ordering. Not suitable for Puma 2.4 and 2.2 vehicles. Equivalent to UTP1725.

24 Months Guarantee BRITPART

Intercoolers - Performance

DA4635

These high performance and robust units are constructed from polished aluminium and are 30% larger than the standard intercooler.

As a result air has a chance to cool before entering the engine. This cooler air can increase engine power by up to 25bhp (subject to application).

Other benefits include better throttle response and reduction in fuel consumption depending on driving conditions. Ideal for on or off road use.

Fully pressure tested, capped and sealed.

DA4635
Discovery 3 - 2.7 TdV6
Range Rover Sport - 2.7 TdV6
The original Land Rover intercooler design can have problems due to the blocking up of the core with mud when the vehicles are used off road, as the intercooler is mounted at the lowest point in the front of the vehicle. This intercooler is designed to be easier to clean and less prone to blockage due to the courser, less dense fin design whilst dramatically improving flow, performance and economy, even without any further tuning. Tests have shown a minimum improvement in fuel economy of 12-15%. Power and throttle response in the lower and mid-range engine revs particularly are noticeably improved. The intercooler is designed to be simple to install without major modifications to the vehicle. The performance intercooler makes full use of the space available behind the bumper. It is designed with an integral fan cowl extension to ensure no loss of cooling efficiency and is supplied with mounting brackets and fitting guide.

Defender comparison - performance vs standard

Note - Dimensions for main intercooler body only. If you have a winch fitted please check clearance before fitting.

Defender Td5 Alloy Intake Pipe Kit

DA3421
Defender - Td5
Original hard intake pipe upgrade for Defender Td5 engines. Eliminates intake hose collapsing under induction, common with tuned engines and larger turbos. Made from individually laser cut aluminium cones to smoothly transition from air flow meter connection to turbo inlet.

Unlike many copies which use a sharp reducing hose causing a restriction, each segment is rolled and welded by hand - gradually reducing the diameter to create a smooth air flow, . Induction air is under negative pressure and requires as smooth a transition as possible and this gradual reduction in size acts as a venturi; helping to speed up air entering the turbo. Includes CNC machined breather take off, making this a direct replacement part.

- Fits with both standard and performance intercoolers

Electronic Fan Kits

Revotec Electronic Fan Conversion Kits

Revotec cooling kits undergo a rigorous development which includes, radiator air flow performance testing at COMEX to ensure the fan(s) used outperform the original setup. The final stage is extensive road testing before release. The latest fan and controller technology used together with vehicle specific fan mounting brackets, for the ultimate cooling package.

- Custom engineered to fit and cool your Land Rover perfectly
- Supplied complete with all necessary fittings and fixings to complete an electronic fan conversion on your vehicle. Kits include mounting brackets or shroud, 35mm Revotec electronic fan controller designed for Land Rovers with an extended loom, earth wire kit and bolts & fixings
- Engineered to fit without any permanent modifications and utilising original radiator mountings
- Easy to install with basic hand tools
- Latest fan and controller technology used together for the ultimate cooling package

Benefits of fitting an electric fan

- Engine reaches operating temperature quickly, reducing wear
- Sufficient cooling when needed i.e. sitting in traffic idling
- Overcome hotter running caused by modern fuel
- Increased performance
- Improved fuel economy
- Reduced load on engine

Revotec Electronic Fan Controller

- Adjustable temperature range of 70 - 120°C
- Instant response
- No interruption to water flow
- Simple to install with no leaks!
- Only 3 wires to connect

COMEX Electric Fan

- Lightweight, slimline body
- Low noise
- Finger guard
- Balanced blades
- High output, long-life design
- Rated to run continuously
- Waterproofed to IP68

Fan Mounting Kit

- No permanent modifications required
- Vehicle specific brackets
- Laser cut
- Engineered to fit perfectly
- Fitting kit which includes all necessary fittings

Air Conditioning Fans

DA8971 Defender

This is a direct replacement to the vehicles original air conditioning fan.
Kit contains - 1 x 10" blowing fan.

DA8972 Discovery 2

This is a direct replacement for OEM Part No. JRP100000.
Kit contains - 1 x 12" high power blowing fan,
2 x anodised brackets & 1 x fixing kit.

DA8971

DA8972

DA8973

Electronic Fan Controller

- 35mm
- To fit extended loom
- Negative earth housing. Fits directly in to a radiator top or bottom hose for direct water contact.
- Supply voltage - 12V
- Space in hose approx - 35mm
- Overall length approx - 65mm
- Material - Aluminium
- Relay rating - 30 amps
- Wire length - 2,500mm

Kit contains -
2 x hose clamps, relay, cap, 3 x cable ties, fitting Instructions.

DA8974

Fan Override Switch

3 -way rotary switch for use with a Revotec fan controller enabling the fan to be manually controlled either on, off or automatic. Perfect for 4x4 applications such as wading. This product must be used with a Revotec electronic fan controller.

Kit contains -

- Black anodised mounting bracket kit
- Position decal
- Sealed 3m wiring loom & connection diagram

Tuning Box

DA4507
Tuning box for the Defender - Puma 2.2Tdci

Power increases by **27bhp** (20kw)
Torque increases by **71Nm**

The 2011 onwards 2.2 Tdci model Defender has new style piezo injectors and requires specialised tuning solutions. It is currently not possible to remap the ECU through the OBD port. This substantial new tuning unit is designed to plug directly into the wiring loom and requires no modification to the vehicle. Contained in waterproof housing so can be safely located in the engine bay.

Turbo Boost Box

DA4667
The Td5 engine fitted in the Defender and Discovery is one of the most 'tuneable' engines available and it responds well to modifications including a PSI power tune box, larger intercooler, EGR removal kit and decat pipes. However the turbo will only boost to 14.7psi in standard form and this will quickly limit the potential from the modifications you have made. The ECU will cut fuel to the engine if it detects an over boosting situation, but there is a solution.

Turbo Boost Box! This intelligent box allows the Td5 engine to run with a higher boost pressure after adjusting the waste gate in accordance with the instructions. This allows increased turbo boost pressure without the engine going into limp home mode. You will feel the benefits of fitting the Turbo Boost Box as soon as you drive. At the lower rpm's the vehicle will feel more responsive whilst at the same time giving you a much smoother spread of power through the rpm range. An added benefit is a reduction of exhaust smoke.

Fitting the Turbo Boost Box is an easy 3 wire installation. The box is water resistant - ideal for most off-road uses.

This product must be fitted by a competent mechanic in accordance with the included instructions, incorrect waste gate adjustment can lead to engine damage.

You will feel the benefits of fitting the Turbo Boost Box as soon as you drive!

PSI Power Tuning

The Power Box houses a digital microprocessor which intercepts the fuelling signals being transmitted from the ECU to the fuel pump; it then modifies them to ensure the exact amount of diesel required for enhanced performance. Such efficient use of the fuel optimises consumption, reduces smoke emissions and there is less engine stress, enhancing engine life in many cases.

The Power Box improves torque enabling the vehicle to change gears earlier and hold higher gears at lower speeds, making driving more pleasurable.

The unit fits using the original manufacturers plugs; these existing plugs are opened and the Power Box is secured in between. Full fitting instructions are included with every unit.

Features
- Plug-in unit
- No intervention with the original ECU
- Compact size
- Shock resistant & waterproof

Benefits
- Can be removed prior to sale or used as a selling point
- Traceless
- Peace of mind
- Quality product which is legal & safe
- Unobtrusive in interior of vehicle
- No worries off road
- A good investment

Tunit Diesel Performance
The Diesel Tunit has been forged from many years of experience to bring a world class unbeatable range of diesel performance solutions.

Tunit Features
Tunit possesses many advantageous features not seen in other tuning solutions such as chips, eprom serial reprogramming (flashing) or other types of fixed map devices. It is interchangeable between vehicles and able to be upgraded. External to the ECU or 'Plug & Play' as it is often called means no interference with the original manufacturers engine equipment. Its option to adjust power and performance provides easy manual adjustment for the novice or finer electronic alterations for the more dedicated tuner.

"Plug & Play"

Fuel Savings
Tunit has become advantageous in reducing fuel costs for a variety of applications; not just improving performance but now helping with saving fuel costs.

Installation
The Tunit is normally connected to original plugs on the vehicle and can either be self-installed or by a professional mechanic.

Upgrade Chips

No trade off between fuel economy & increased power!

DA4497
Range Rover P38
Replacement ECU chip to improve power and economy on the GEMS engine 4.0 and 4.6 in the Range Rover P38. Fitting this chip will increase economy by approx 15% and power by 10%. Once fitted, it helps makes a big difference to the driveability of the vehicle by improving throttle response and mid-range pull.

Accelerate technology
Limitations and restrictions exist which prevent your vehicle from achieving optimal performance. The manufacturer's emissions test is extremely rigorous due to inclusion of all parts of the driving cycle, especially warm up and full load operation, which is where problem emissions are at a maximum. To meet these they compromise performance and efficiency of the engine - this chip helps redress that balance.

Off-Roaders in the driving seat
Your requirements are met through a stable and predictable idle quality, good engine braking and an engine which has plenty of midrange torque. Perfect idle control for hill descents and winching, with no possibility of stalling. Total reliability ensures you never lose control.

Greater expectations
By comparison we know climate conditions and fuel quality your vehicle experiences and can therefore improve efficiency by reducing fuel consumption and optimising the engine to get its best performance on full load, which is less than 10% of the time.

Weber Carburettors

DA3049
V8 4-Barrel conversion kit including manifold
The Webcon 4 barrel replacement carburettor kit is a direct replacement for the twin Stromberg or SU carbs fitted to the Rover V8. Calibrated to work perfectly on the 3.5 and 3.9 engines, the Webcon kit is the most complete on the market and features a Webcon modified Weber 4 barrel 500cfm carburettor, intake manifold, air filter and every single nut, bolt washer, gasket and hose that could possibly be needed. The kit adds up to 20bhp at the wheels and transforms the driveability and economy. Starting becomes instant either hot or cold and with no balance adjustment to worry about with twin carbs, the engine is simply superbly smooth as a V8 should be.

ERC2886W
Series - right hand drive
Replacement for the Zenith 36IV
The Weber range of carburettor kit replaces the Zenith 36IV to offer the optimum balance of power and economy together with the legendary quality and reliability of Weber. Shipped as complete turnkey solutions, all kits are supplied with every nut, bolt, washer and gasket required and comprehensive, easy to follow instructions ensure that installation can be carried out with no specialist carburettor knowledge.

Double 'S' is recognised as one of Europe's leading manufacturers of stainless steel automotive components with a wide selection of systems for off-road use.

Using only the finest austenitic and ferritic stainless steels and employing the latest in CNC mandrel and empty tube bending, measuring and inspection equipment, means increasingly high levels of product quality.

All Double 'S' exhaust systems carry a lifetime guarantee. Double 'S' will replace or repair any part of their Stainless Steel Exhaust Systems found defective through corrosion during the period that the system remains the property of the original owner. Provided that the system is inspected by a garage or exhaust fitting centre annually to ensure that the rubber and other mountings are in good condition.

Lifetime Guarantee

These stainless steel exhaust silencer replacement pipes are designed to directly replace the front silencer in your exhaust system. Once replaced the pipe will give your vehicle more power or reduced fuel consumption with only a small increase in cabin noise. CNC mandrel formed for a perfect fit with laser cut flanges, the pipes have a sateen finish, deep lustre appearance. Quick and easy to install.

Reduced fuel consumption

Quick & easy to install with more power

Garage Therapy Overdrive Unit

DA3338
Garage Therapy Overdrive Kit - 4-Speed (LT95)
Range Rover Classic - 1970-1983

The kit includes:
- GT-LT95 overdrive
- 2 piece LT95 coupling
- Coupling spacer
- Finned transfer case cover and gasket
- Digital temperature gauge kit including 2 sensors
- Overdrive selector kit
- Installation manual

It has been specifically designed to fit the restricted space of the 1970 - 1983 Range Rover Classic that use the Rover LT95 gearbox. Comes with everything required to complete the installation. Because the overdrive has been designed to fit onto the PTO flange area of the Land Rover LT95 gearbox, you can enjoy the 28% overdrive in any gear, including reverse, and in high or low range.

Garage Therapy have worked closely with Global Roamer Corporation of Canada to develop a robust overdrive that will allow you to enjoy quieter, more fuel-efficient cruising on motorways and the ability to split every gear while towing heavy loads. It also allows you to overdrive all gears in low range, reducing engine noise and wear on those long sandy tracks and beaches.

The GT-LT95 overdrive takes advantage of Global Roamer's legendary epicyclic gear train technology as used in their Roamerdrive overdrives. Also known as planetary gear sets, they are well known for their strength and silent operation. Global Roamer Corporation has a worldwide population of many thousands of overdrives using this very same bullet-proof technology.

Many of the older style 'layshaft' overdrive units suffered badly from a lack of lubrication. The GT-LT95 is designed to be open to the transfer case and utilises an innovative lubrication system which directs transfer case oil through the overdrive gearbox and back to the transfer case via a large deep groove ball bearing.

As with all gearboxes, lubrication failure due to excessive heat, lack of supply, or both, is to be avoided at all costs. To handle the extra heat generated by the overdrive gearbox, a finned transfer case cover is included which doubles the heat rejection compared to the standard cover. If even more cooling is required for high speed, high load in hot climates, the cover has ports for an optional oil cooler and manual temperature sensor.

To assist this, an accurate digital temperature gauge is supplied. This very clever gauge uses simple lug style sensors that can monitor both engine and gearbox temperature. Unlike traditional sensors, they operate independent of oil level. It even has an optional exhaust gas temperature thermocouple available; perfect for turbocharged applications. Not only does the gauge have simple to understand icons that change colour if safe limits are exceeded, it also has a series of audible alarms so you never miss that vital warning.

You can enjoy the 28% overdrive in any gear

XS Heavy-duty CV Joints & Half Shafts

DA3858

DA3859

DA3856

XS Heavy-duty CV Joints & Half Shafts

The combination of intense tyre patterns, increased engine power, and axle differential locks, not to mention the healthy dose of competitive spirit often leads to wear and tear of standard driveline components. Upgrade today to robust shafts and CV joints to help tackle challenging terrain and outperforming the competition.

Due to limitations in space with standard axles, simply increasing the size of half shafts and CV joints is not always possible. As a result, the focus shifts to enhancing material specifications and advanced heat treatment processes to ensure resilience and performance.

Both front and rear half shafts are constructed from steel alloy with a high percentage of nickel – chromoly – molybdenum specifically SAE4340. After passing through a 3-stage heat treatment process, these components acquire the necessary properties to withstand off-roading adventures whilst minimising stress on other driveline elements including differentials and transfer boxes.

CV Joints are one of the most critical components in the entire drivetrain. Machined from SAE4340 chromoly material, they have enhanced toughness and resistance to shock loads and are designed to complement the heavy-duty shafts. Ensuring optimal performance, developed to incorporate 30mm centre with 23 splines.

Britpart XS heavy-duty shafts and CV joints serve as direct replacements for original components, allowing drivers to upgrade individual or multiple driveline parts.

All heavy-duty shafts are compatible with 24 splines differentials.

Backed by a 5 year limited warranty, subject to authorisation and a maximum tyre diameter of 35" these HD half shafts and CV Joints offer peace of mind to all off-road enthusiasts.

Fitted with Gwyn Lewis Polyurethane boots & clips

One of the major factors limiting the rear suspension movement on vehicles fitted with an A-frame is the standard ball joint. We have developed this part to provide significantly more articulation than the standard and most aftermarket joints. Others claim more articulation yet in reality they offer very little over the standard 30°. This exclusive ball joint offers 45° movement in all directions. It is easily adjustable with a regular hex spanner and has a grease nipple for convenient regular maintenance. It is supplied fitted ready to bolt to your Land Rover.

Castor Corrected Swivel Housings

Discovery 1 - JA32851 onwards - non-ABS
Range Rover Classic - JA624517 onwards - non-ABS

'3 degrees of additional castor'

Normally the only way to correct the castor angle on a beam axle vehicle is to fit castor corrected radius arms or go through the lengthy process of repositioning the brackets on the axle. Something which takes considerable time and skill. Britpart offer you an alternative. These castor corrected swivel housings come as a handed pair. They are a direct replacement for vehicles normally using the FTC5366 swivel housing but they have the mounting holes positioned to give 3 degrees of additional castor. The swivel housings are from the OEM supplier and then machined to our specification.
Kit contents - Swivel housings; swivel pin bearings; gaskets; seals; plates; shims; joint washers; swivel pin uppers - non-ABS & swivel housing grease sachets.

Radius Arm & Panhard Rod Bush Kits

Front bush kits include bushes for radius arms and panhard rods. Rear bush kits include bushes for top & bottom links.

Meyle Heavy-Duty

Steering and suspension components are subject to extremely high load levels, which frequently results in increased part wear and shorter replacement intervals. Required to perform reliably under these conditions, the parts are therefore made to genuine Meyle heavy duty quality which means optimised products offering maximum service life and outshining OE solutions.

OE — Meyle

Adjustable Control Arms
Discovery 5
Range Rover Sport - 2014 - 2022
Range Rover - 2013 - 2022
The Meyle HD control arms are designed to combine the three different camber options available from OE into one adjustable reference per side. Bushings and ball joint are designed for higher durability in comparison to OE and the control arm body is forged instead of casted for higher strength. The design deviates from the OE but the control arms are developed to replace the following OE references:

AVM Free Wheeling Hubs

By shifting the knob from '4x2' to '4x4', the clutch is mobilized, causing the inner and outer drive member to interlock. For regular road use or driving on firm surfaces, activating 4WD is unnecessary, and the hubs should remain in the free state. However, if 4WD becomes necessary or is anticipated, the hubs should be switched to the 'lock' position.

Installing AVM hubs is straight forward and they come with a heat-treated steel clutch ring that guarantees flawless torque transmission. Made from materials resistant to corrosion, they ensure proper clutch ring positioning, with fully independent engage/disengage springs.

Free Wheeling Hubs

DA3736 NEW	Service kit for DA4544
DA3737 NEW	Service kit for DA4543

AVM free wheeling hubs serve as a robust, reliable, and superior substitute for the hubs originally installed on your vehicle. They're utilized to either connect or disconnect the front drive shaft assembly on part-time 4WD vehicles, but can also be retrofitted to permanent 4WD models with stationary hubs to prevent unnecessary differential spinning and the subsequent wear it incurs. They are also a very useful in the event that you break a front drive shaft on a Series vehicle. Simply disengage the front hubs, put your transfer box back in the 2WD position and you can then drive home.
Each front driveshaft's outermost point has a splined section over which the new hubs inner drive member is fixed. Surrounding this is an outer drive member, which is linked to the wheel, with a clutch functioning as a separator. The clutch engagement is facilitated by slanted grooves cut within the free wheeling hub control knob on the exterior.

Galvanised standard height front shock turret - single
NRC9700GALV
Galvanised spring seat - single

Long Travel Rear Shock Absorber Mounting Kit
DA6337
Defender / Discovery 1
Range Rover Classic
The standard pin and eye shock absorbers don't have the necessary articulation for extreme off-road conditions and the answer is to use pin and pin shock absorbers.
If you use our Cellular Dynamic Plus 5 shock absorbers they offer better articulation. Laser cut, jigged and computer welded with zinc plated and powder coated finish. To be used in conjunction with DC6000LL.
Note - On Defender Td5 the fuel filter must be moved.

XS Skeletonised Shock Turrets
Discovery 2
DA3296
Front
Standard height
DA3297
Front
2" Lift
Stylish XS skeletonised shock absorber turrets. Stronger and easier to clean than the original turrets. Powered coated for a heavy-duty hard wearing finish. Complete with nuts and bolts

Sometimes off-road conditions can be serious enough to test the standard equipment on your Land Rover to its maximum. One of the critical components that takes most of the abuse is the suspension system. When using the standard single shock absorber configuration it is not unknown for the shock absorber to break the factory fitted turret mount. These shock absorber turrets from Britpart give you confidence that your vehicles suspension will tackle the terrain you take it through with greater ease.

The single shock absorber turret is manufactured from heavy-duty steel and replaces the existing turret mount which is susceptible to corrosion by allowing a build up of dirt inside which is hard to clean thoroughly. The new design is harder wearing and easier to clean.

The twin shock absorber turret is manufactured from the same quality steel as the single shock absorber turret but allows for the fitment of an additional shock absorber. The benefits of having extra shock absorbers fitted to your Land Rover is that any extreme force encountered is divided between the two shock absorbers for a more comfortable ride for you and your passengers. Using twin shocks is also beneficial when carrying loads both on and off-road as it improves the load carrying ability of the vehicle. An additional benefit is that when changing shock absorbers there is no need to remove the turrets.

Defender / Discovery 1 / Range Rover Classic*

DA6322	Twin shock turrets	Front	Standard height

Pair

Spring Spacer Blocks

Defender - 90 / Discovery 1 / Range Rover Classic

DA6344 Front pair
DA6345 Rear pair

These 50mm spring spacer blocks are manufactured from 6mm plate with a powder coated finish. The spacers fit between the axle and the spring seats on the front and rear to give you that extra 50mm of lift you need.

Discovery 2

These 40mm spring spacer blocks are machined from high quality aluminium and anodised deep blue.

DA6341 Front pair

With this kit you are able to retain the standard springs and shock absorbers. Use in conjunction with DA6342.

DA6342 Rear pair

This kit enables you to retain your air springs yet give your vehicle the desired 40mm lift. We recommend that this kit be fitted in conjunction with DA6341, DA4198 or DA4199. Please look at the shock absorbers suitable for this vehicle and at 40mm braided brake hoses.

Dislocation Cones

These clever products ensure your springs relocate correctly when using your Land Rover in extreme conditions. Use in conjunction with spring retainers.

Lift Rod Kit

DA7531
Fully adjustable suspension lift rod kit
Discovery 3 / Discovery 4 / Range Rover Sport - 2005 - 2013

"The ease of changing the ride height is what separates these rods from others in the marketplace."

These adjustable rods replace the plastic and rubber parts Land Rover supply on the vehicle. Made from aluminium with an industrial heavy grade rubber bushing, the aluminium parts are anodised black to help with corrosion protection and blending in when in the garage for work.

The lift rods have two settings, standard and off-road. With the air suspension set to normal driving height the lengthened rods will give you standard road and off road driving heights. If you shorten the rods the standard ride height will be approx 50mm higher. If you select off-road height the vehicle will be in the 'super extended' position.

No tools are required and should take no more than 2 minutes to do all four rods.

Access to the front is over the front wheels and for the back is through the rear wishbones (blanket required!)

Note - If run for a long time in off-road position then wheels may need realigning.

Bushes

Bump Stops

Extended polyurethane bump stops should be used on vehicles with raised suspension to prevent the shock absorbers from bottoming out. All sold individually.

Bush Fitting Tool

LRT-60-004
Fitting new front radius arm bushes (part number ANR3332) for the Range Rover P38A is impossible to do without using the Land Rover special tool.

Bush Sets - Watts Linkage

RGX100960K
Discovery 2
Watts rear linkage bush set contains bushes to replace centre bearing, top & bottom bush links and axle end links.

DA1199
Discovery 2
This replacement pivot for the rear suspension is complete with bushes fitted which makes an awkward job easier.

Bushes - Meyle Heavy-Duty

LR073366HD
Discovery 4
Steering and suspension components are subject to extremely high load levels, which frequently results in increased part wear and shorter replacement intervals. Required to perform reliably under these conditions our parts are therefore made in genuine Meyle heavy duty quality which means optimised products offering maximum service life and outshining OE solutions.

NTC1773PB
Polybush Classic Red Kit
Rear suspension - upper link bush

- Lasts 4-5 times longer than rubber
- Controlled suspension movement
- Impressive & confident ride
- Prolonged tyre life
- Unaffected by oil, fuel and road contaminants
- Fixes premature bush failures
- No requirement for specialist tools

Polybush's use of high quality pure materials offers immense flexibility and resilience, providing original ride comfort with the durability of Polyurethane.

All of their bushes are designed and engineered to exact specification. Keeping suspension working as the manufacturer intended.

24 Month Guarantee BRITPART

Bush Sets - Castor Correction

Available in UK only

Kit will increase castor by 2 degrees. Castor angle will be affected when raising the vehicle. These Old Man Emu castor kits will improve castor geometry and steering performance when vehicle has been lifted. Castor kits consist of 4 eccentric bushes which are pressed into the leading arms of the vehicle. This will induce positive castor into the front geometry.

CALR2 Wide bush - 44mm
Defender / Discovery 1 / Range Rover Classic
CALR1 Narrow bush - 38mm
Defender / Range Rover Classic

- Britpart are proud to present an exclusive range of Yellow and Black polyurethane bushes
- Manufactured exclusively for Britpart using the latest Vulkollan™ polyurethane technology
- Machined to exact tolerances once cast to produce the highest finish available
- Produced in both yellow and black they are both the same compound which gives similar ride characteristics to the standard rubber bushes, but they offer improved articulation, vibration damping and last longer
- The black bushes are ideal for replacing individual bushes as they can be fitted without a press
- The DC range of kits include shock absorber and A-frame bushes

- Better handling & better stability under braking
- Prolong tyre life
- High quality polyurethane material
- Last longer (up to 10 x rubber equivalent)
- Easily fitted

Powerflex bushes offer improved performance, safety and prolong tyre life. Engineered to be the best, Powerflex bushes are an answer to soft ageing and failing rubber suspension bushes and provide improved suspension mountings. No special tools are needed and comprehensive fitting instructions are included.

LR023964

LR023964G

At last, a cost effective and easy way to replace the OE air suspension compressor. These compressors are a direct replacement fit for the OE compressors that were fitted by the factory. They are made in Japan by Hitachi. By using the original brackets and pipes they are easy to install. The relay, which is included, must be changed. No need to reprogram the ECU (fault codes may need to be cleared).

- Direct replacement fit
- Cost effective
- No need to reprogram the air suspension ECU
- Uses all original mounting & pipework

DA3964

AMK Compressors

Direct replacement AMK compressors for all non-Hitachi vehicles. Manufactured by the OE company in Germany. The relay, which is included, must be changed.

Britpart XD Remote Reservoir Shock Absorbers

Britpart have developed this range of remote reservoir shock absorbers for users wanting the extra benefits of a remote reservoir shock absorber on a vehicle that is used both on and off-road. The remote reservoir allows the shock to remain cooler under more extreme conditions and hence reduces the possibility of fade. Unlike most remote reservoir shock absorbers on the market the Britpart XD remote reservoir shock absorbers use conventional rubber bushings instead of ball joints. This is because ball joints have a very short life span when used on a road vehicle and are more suited to an all out competition vehicle.

Nitrogen filled remote reservoir shock absorbers with zinc plated steel body and anodised fittings.
Note - Will require extra fabrication to fit.

The Britpart Cellular Dynamic Shock Absorber represents a significant advance in Land Rover suspension systems. It features a cellular foam insert instead of a normal nitrogen gas or air, this is to stop the oil from boiling. The foam takes up less room which means more room for oil, 50% more, which offers maximum heat dispersion. This heat dispersion translates to a very subtle but controlled ride that will not fade no matter how hard you push them. They are ideal for a driver who needs more control to complement performance improvements or to enhance a standard vehicle. The unique design ensures ride comfort and cornering ability is maximised and of course they are superb off-road.

Notes - *Terms & conditions apply. ** Dimensions are +/- 5mm. *** The Plus 5" Cellular Dynamic Shock Absorbers are specialist suspension products and to install them additional fabrication work or brackets may be required. Please ensure that they are fitted by a competent expert.

"They are ideal for a driver who needs more control to complement performance improvements"

Britpart Super Gaz Shock Absorbers

Britpart Super Gaz Shock Absorbers offer a 35mm bore tube filled with Fuchs shock absorber fluid, using the best seal available, single piece eye rings, polyurethane bush mounts and a very durable powder coated finish. These offer a vast improvement in ride quality and damping performance. They are ideal for use with either the Britpart Yellow Spring range or standard Land Rover springs.

Notes - *Terms & conditions apply. ** Dimensions are +/- 5mm.

- 18-25mm induction hardened chrome piston rod
- High quality replacement mounting bushes
- Australian made & engineered

Nitrocharger Sport shock absorbers introduces advanced dual-stack deflective disc technology that continuously adapts to the terrain, offering rapid response improvements to ride quality, handling and control. Available in the UK only.

Features

- Interactive, multi-stacked rebound and compression valving systems ensure optimal damping performance in all conditions.
- Vehicle specific fine tuning for superior handling and ride performance.
- Piston rod 'slip ring' provides more consistent and uniform damping performance.
- Triple lipped oil seal with gas retention check valve design virtually eliminates contaminant damage and gas loss.

Rapid response improvements to ride quality

Old Man Emu BP-51 High Performance Long Travel Bypass Shock Absorbers
Defender - 110 - up to 2007
Defender - 130 - up to 2007
Note - Excludes high capacity pick up

BP5160045	Front shock absorber - single
VM80010036	Front fitting kit
BP5160036	Rear shock absorber - single
VM80010037	Rear fitting kit

- BP-51 shock absorbers feature revolutionary technology developed to deliver unparalleled on and off-road performance for your Land Rover
- Developed and tested under the harshest conditions in Australia
- Designed to bolt onto your vehicle without any vehicle modifications
- Considerable ride comfort around town is combined with significant end-zone damping for exceptional control and handling off-road
- Easily adjustable damping performance across both rebound and compress

Vehicle Specific Applications

- No fitting modifications are needed
- Fit kits developed specifically for the Defender
- All reservoir brackets have been integrated into the geometry of the Defender 110 / 130
- Included in the front fit kit is a replacement front shock turret, front sway spacers, front bump stop spacers and reservoir mount assembly
- Included in the rear fit kit is a replacement rear upper shock mount, rear sway spacers, rear bump stop spacers and reservoir mount assembly
- Spring selection must be from the current OME Defender long travel application

More information is available on the Britpart website.

Boge Shock Absorbers

BOGE shock absorbers offer customers great quality! The technical characteristics are exactly tailored to the vehicle specifications and will contribute to a noticeable improvement in the handling of the vehicle. High quality materials and sophisticated manufacturing processes guarantee the best quality and comfort for your vehicle.

These traditional hydraulic shock absorbers come with fluid and seal technology designed to keep your Land Rover suspension under control.

Britpart Coil Springs - Lifted Springs

Britpart performance springs are high quality, versatile and competitively priced - the right choice when replacing the old sagging original springs.

Developed by one of the world's top spring manufacturers these high quality, powder coated yellow springs have been designed with the needs of today's Land Rover owners in mind. Britpart performance lifted springs have the added benefit of improving your vehicles approach and departure angles which in turn allows you to overcome more obstacles when off-roading.

As Land Rovers are often working vehicles as well as the family car, uprated springs must offer the ability to carry loads, handle off-road terrain and provide a good ride on road. The progressive springs offer a compliant ride when lightly loaded, but firm up as the load increases.

Note - Supplied in pairs.

Britpart Coil Springs - Standard Height Springs

Britpart yellow springs are designed for the enthusiast who wants a performance spring without having to raise the vehicle. They offer a firmer ride with less body roll, ideal for a vehicle with uprated performance or one used for carrying heavy loads. The springs are designed to offer full articulation off-road with a compliant ride. Developed by one of the world's top spring manufacturers these high quality, powder coated yellow springs have been designed with the needs of today's Land Rover owners in mind.

Note - Supplied in pairs.

The right choice when replacing the old sagging original springs!

Lowered Coil Springs & Kits

Range Rover Evoque
DA5135
35mm Lowering Springs Kit
Range Rover Evoque - 2012 - 2018
4WD 2.0 Si4 / 2.2 TD4 / 2.2 SD4
Front & rear

Reduce the ride height of your Land Rover by 1" (25mm). By lowering your vehicle it will help reduce body roll as well as giving your vehicle a more sporty squat stance and improve handling. The springs are designed in line with the standard spring rate specification and are finished in powered coated orange paint to match the anti-roll bars and shock absorbers.

Air Lift Kits

Air Lift 1000
DA5010
Defender 110 / 130
DA5011
Defender 90 / Discovery 1 / Range Rover Classic

Air adjustability is the difference! Stiff steel factory suspensions must compromise between ride comfort and load hauling capacity. Smooth ride suspensions can't carry heavy loads; heavy springs ride rough, especially when the vehicle is unloaded. Air Lift adjustable air springs solve these problems by allowing you to tune your suspension under all load and road conditions. Just add air when towing or hauling and then remove air for a softer ride when unloaded.

Features & Benefits of Air Lift 1000

- Improve ride, handling and stability by reducing roll, sway and 'bottoming out'
- Fits open coil springs, front or rear
- Up to 1,000lbs of levelling capacity
- Tough long-lasting moulded polyurethane construction
- Quick connecting easy-to-use engineered polymer air fittings

DA5012
Air Lift 1000 - Load Controller II
The economical, popular, basic on board air system.
This system controls the rear bags equally. All kits include wiring harness for fast, easy installation. To eliminate the major cause of air spring failure, the low pressure sensor automatically activates if pressure falls below the minimum safe level.

Adjustable Air Helper Springs
The load and towing problem solver!

Springs are designed for each vehicle to match the spring to the specific applications

OLD MAN EMU | ARB

- Manufactured from state of the art micro-alloyed spring steel for superior strength and durability
- Double scragged before and after shot peening to reduce spring stress and enhance spring life
- Exceptional resistance to sagging and corrosion
- Springs are designed for each vehicle to match the spring to the specific applications
- Springs formed on computer controlled, precision mandrels to ensure manufacturing consistency
- Spring end configurations designed to exact specifications, guaranteeing perfect fitment to your vehicle
- Durable, hard wearing black powder coat
- Designed and manufactured in Australia

Note - See website for specific notes on certain springs.
Available in the UK only.

Leaf Springs

These springs are manufactured to the original OEM specification and constructed from the correct grade alloy steel - 60SiCr8. Each leaf is heat treated consisting of hardening & tempering as the Land Rover engineers specified. Fitted with OEM bushes, these leaf springs will therefore give you years of service with the correct ride comfort for your Series vehicle.

Range of kits with high quality OEM parabolic springs paired with Britpart Cellular Dynamic shock absorbers. Also included in the kit are leaf spring castor correction wedges which can be used to correct castor or diff pin angle by 3 degrees. Parabolic springs include 'U' bolts and nuts.

Airbag Man Intelliride Airbag Kits

Why Intelliride ECAS?

This front and rear axle full air suspension kit incorporates on-board air control which is a fully automatic Electronically Controlled Air Suspension (ECAS) System. When fitted, the system provides comfort while maintaining a programmed ride height irrespective of the load. Multiple vehicle heights are available at the push of a button.

The on-board system has automatic load levelling at each height which continuously monitors inputs and component performance as a means of increasing safety and durability. The on-board system recognises and responds accordingly to potholes, cross-articulation and extended turns. This intelligence prevents unnecessary activity and air consumption, it even recognises unachievable heights, assisting in the prevention of possible damage above or below the vehicle.

Features

- Automatic 4 corner ride heigh control catering for all loads
- 3 pre-set heights - high, drive & low mode
- Fully adjustable via easy to use hand held control
- Front to back levelling
- Raise for clearance
- Lower for storage and access
- Inputs available for safety reset to ride height
- Manual mode
- Horizon levelling feature option
- OEM grade components for reliable performance
- High volume air springs for optimal ride quality & carrying capacity

Core Components

- Rear Firestone air springs - heavy-duty rolling sleeve air springs
- Front Dunlop air springs - heavy-duty rolling sleeve air springs includes shock relocation brackets
- AMK air compressor - 12 volt. Max 150 psi working pressure, high quality German built compressor
- 1 Gallon seamless aluminium air tank - SAE J10 APPROVED, lightweight & no corrosion. Max. working pressure 200psi. Pressure tested to 1,000psi. 3 x ¼" NPT ports (including drain port). Multi-position low profile bracket set
- Hand held controller - 9m lead
- ECU & valve block
- Vehicle specific air supply mounting brackets
- Rocker switch & height sensors
- 6mm high quality nylon tubing
- Quick fit push to connect air fittings
- Easy to use electrical connections
- Sealed relay & harness
- Hardware
- Step by step instructions
- Operators manual

DA9202

Britpart

Defender 4-Corner Air Suspension Conversion Kit

How about modifying your Defender with improved on-road behaviour for daily use and the ability of increased ground clearance when venturing off-road?

When your Defender is fitted with the standard coil suspension, the ride is a compromise between off-road ability, load carrying and normal road use. By using a full air suspension kit, ride quality is improved and vehicle height can be altered by moving to a pre-set relevant to your needs. Vehicle height and wheel travel then stays in the optimal working range for suspension performance and comfort at all legal loads*.

Benefits of Full Air Conversion

- Improved vehicle stability and handling under all loaded conditions
- Increased comfort and enhanced driving experience
- Fully adjustable heights with intelligent controls
- Optimized geometry
- Constant ride height under all loaded conditions up to vehicle full GVW*
- Easily installed and user friendly system

High quality materials are used to give you the most reliable kit for your Land Rover. Bespoke air spring units are used in conjunction with a turret setup & electronic control system. Electronic components have been durability tested and in many cases are shared with those fitted to many European cars for factory fit air suspension. The compressor from AMK is very robust with low noise & vibration. The kit comes complete with full instructions and all the necessary parts, it's easy to install and requires minimal drilling during fitment.

Kit Features

- Constant ride height*
- Increased comfort
- Improved stability & driveability
- Pre-set heights for electronic control system
  - Access - Low for easy entry/exit
  - Ride height - Normal road use
  - Off-road
- Additional tilt features available
- Multi-axis horizon levelling add-on feature available on request

Technical Specification

Wheel travel	~180mm
Off-road position	+40mm
Access position	-60mm

*Please refer to Land Rover for Defender official payload capability.

DA9110
Defender 110 & 130

Compatibility
It is important you abide by this compatibility list in order to protect the components in the air suspension kit. Any parts warranty claim would be void if this criteria is not followed.
Bump Stops - Minimum height from chassis 70mm. Bump stop spacers are provided to meet this criteria when using standard Land Rover factory bump stops.
Anti-roll Bars - Passive front and rear anti-roll bars must be fitted.
Shock Absorbers - Front shock absorber maximum length - 545mm. Rear shock absorber maximum length - 535mm

Discovery 2

It is a sad fact that it's likely the air suspension on your Discovery 2 will fail - probably at the most inconvenient time possible. You then have a choice to make. Do you replace it with a new air spring system which is comfortable but not so comfortable on your wallet or replace with an equally comfortable but much more affordable and reliable coil spring system? Britpart have the complete kit for air to coil spring conversion making your decision that little bit easier.

DA5136	Standard ride height	Rear kit - black springs	
DA5137	2" lift ride height	Rear kit - yellow springs	
DA5007	2" lift ride height - heavy-duty	Front & rear kit - yellow springs	Ideal if winch is fitted
DA5008	2" lift ride height	Front & rear kit - yellow springs	

Range Rover P38

The EAS (Electronic Air Suspension) System found on Range Rover 4.0 and 4.6 vehicles can present expensive, recurring maintenance problems. If you've had an air spring failure before, you know this first hand. Britpart now has a coil spring conversion kit for Range Rover 4.0 and 4.6 that makes switching to coil springs seamless and error-free. Conversion to coil springs provides a better, maintenance-free ride that will save you significant money over time. The EAS Override Module suppresses all typical false dashboard display errors and buzzers seen when converting to coil springs. Any mechanic or Range Rover owner can install this coil spring conversion kit without having to go to a Land Rover dealer or Autologic-equipped repair shop to eliminate false dash warning light errors.

The kit features:

- Detailed step-by-step instructions
- The EAS Override Module overrides all typical computer errors seen when converting to coil springs
- Eliminates the need for a costly shop visit
- Aluminium spring perch adapters
- Britpart custom made coil springs provide standard ride height and maximum articulation
- Affordable alternative to expensive, recurring air suspension failures
- Trip computer compatibility - maintains operation of your vehicle's trip computer
- Kit provides everything needed to complete a professional installation

Discovery 3 / Discovery 4
Range Rover Sport - 2005 - 2009 - without ACE/DSC

Kit includes -
A loom to fit Discovery 3 & Range Rover Sport - 2005 - 2009
A loom to fit Discovery 4

An air-to-coil conversion kit designed to eliminate the risks of costly air suspension repairs and the possibility of getting stuck due to a failure in the air suspension. This comprehensive package includes pre-assembled front and rear struts, an advanced air suspension override module, and bespoke wiring harnesses specific to your model.

The kit is designed to maintain the same ride height as the former air-based system while offering excellent load-bearing properties. Ride comfort and manoeuvrability remain uncompromised. Additionally, the override module is engineered to preserve all original electronic functions, including Terrain Response, Headlight Adjustment, and the functions of the Information Screen, among others.

Propshaft Spacer Kits

Defender
Discovery 1
Range Rover Classic
DA6339
15mm spacer kit
DA633925
25mm spacer kit

Propshaft spacer kit machined from billet aluminium and anodised deep blue. When suspension lift kit is fitted it increases the distance between the transfer box flange and the diff flange. This increased distance can cause the propshaft to run out of spline travel.

Fitting this prop spacer helps return the propshaft to its normal operating length therefore allowing full spline travel which also helps reduce the characteristic "binding" of the yokes when a propshaft is over extended.

Propshaft & Flange Bolt Kits

DA1423
4 x 509045P - Propshaft bolt
4 x BT606101L - UNC flange bolt
8 x NZ606041L - Nut

DA1424
4 x 509045P - Propshaft bolt
4 x FRC3602 - UNF flange bolt
8 x NZ606041L - Nut

DA1123
Wide angle nut & bolt kit suitable for DA6350; DA6351; DA6352, DA6353 & DA6354

Propshaft Kit

DA6355
Defender / Discovery 1 / Range Rover Classic - - 300Tdi & Td5 manual models only
- Double cardan extreme use front propshaft with flange and fitting kit
- For vehicles with L230 transfer boxes
- Ideal for use with lifted vehicles
- Helps to reduce driveline vibration where diff and transfer flanges are not in-line

Note - Flange must be fitted to transfer box.

Wide Angle Propshafts

If your Land Rover has raised suspension or been modified for extreme axle articulation then the joints on the existing propshaft will become strained. This will cause the propshaft to lock up or vibrate and wear the universal joints prematurely. Dropping the axle further away from the chassis is great for looks, articulation and off-road performance - a neat solution is to fit a wide angle propshaft. This allows drivetrain angles of up to 32 degrees which reduces vibration, universal joint 'bind-up' and premature wear on the joints. These wide angle shafts have greasable universal joints which are more desirable where longer life is required.

DA6350	Front Defender - from MA - 300Tdi & Td5 / Discovery 1 Range Rover Classic - 1986 - 1991 Extended - 678mm / Closed - 612mm	FRC8386
DA6352	Front Defender - up to LA (1993) Extended - 720mm / Closed - 652mm	FRC8390/FRC5566
DA6351	Rear Defender 90 - 4 cylinder Extended - 705mm / Closed - 635mm	FRC8392
DA6353	Rear Defender 90 - V8 - up to 2007 & diesel from MA Extended - 755mm / Closed - 685mm	FRC8393
DA6354	Rear Discovery 1 - 1989 - 1994 & V8 from 1997 Extended - 940mm / Closed - 873mm	FRC8387
DA6356	Replacement heavy-duty universal joint for wide angle propshafts	
DA1123	Nut & bolt kit - each kit contains 4 nuts - for transfer box end & 4 nuts & bolts - for diff end. Enough nuts & bolts to make propshaft repair out in the field. Suitable for DA6350; DA6351; DA6352, DA6353 & DA6354.

Series 3 - All - from October 1980
Series 3 - All - V8

Discovery 2 Long Sensor Lead
TAY100060L Front
TAY100050L Rear
Land Rover recognised that on some Discovery 2 vehicles the wiring from the ABS sensor to the ECU could get damaged. This would result in the vehicle recording ABS faults that cannot be corrected by either a sensor or hub replacement. Their solution was to produce a sensor with a very long lead that bypassed the damaged lead. This hub assembly is a complete unit with this type of ABS sensor and lead.

Power Steering Rack Pipes

DA2848
Discovery 3
Discovery 4
Pair

Fit to the steering rack and carry the fluid across the rack. Made from steel pipe and feature flared ends and zinc plated male nuts (we advise that customers apply additional corrosion protection before fitting). 6mm in diameter and are not to be confused with the feed and return hoses.

Steering Box/Rack Repair Kits

DA1236
Series 2, 2A & 3

DA2947
Discovery Sport - early models
Range Rover Evoque - 2012 - 2018
Early Range Rover Evoque & Discovery Sports had steering racks held together with aluminium bolts. These can fail and leave the vehicle with no steering. This kit comprises three upgraded steel bolts together with a new drive belt for the power assistance. None of the kit items are available from Land Rover.

Polyurethane Boots & Clips

DA3493
Polyurethane Track Rod End Boot
Defender / Discovery 1 / Discovery 2
Range Rover Classic / Range Rover P38

DA3494
Track Rod End Ball Joint Boot Clip
Stainless steel spring wire
Internal Diameter - 33mm

A common problem with original rubber boots is perishing/cracking. This polyurethane boot will not perish/crack like normal rubber so will give you a much longer service life. The boots are double convoluted which allows them to move/flex more without stretching.

DA3497
Polyurethane A-frame Ball Joint Boot
Defender / Discovery 1
Range Rover Classic

DA3543
A-frame Ball Joint Boot Clip
Stainless steel spring wire
Internal Diameter - 47mm

Brake Pipe Sets

Easily fitted DA7417
Will not rust

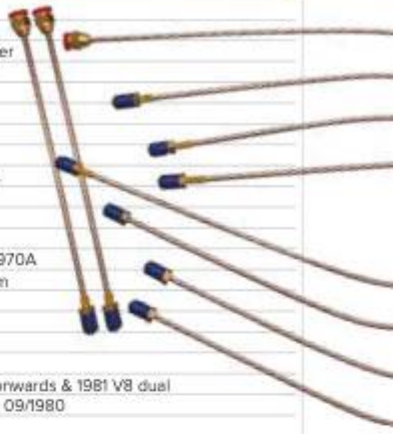

Copper nickel brake pipe sets manufactured in the UK. Each kit is complete for a specific Land Rover model. Pipes are cut to the correct length, fitted with solid brass unions and marked clearly to indicate the correct location on the Land Rover. Pipe fitting clips and brass in-line connectors are supplied where necessary.

More brake pipe kits available on request.

DA7440
Brake pipe bending tool. Can be used with all the brake pipe kits.

DA7432	Series 3	SWB	LHD	Dual system to early 1980
DA7446	Series 3	SWB	LHD	From July 1980
DA7404	Series 3	LWB	RHD	4-cylinder & 6-cylinder single line
DA7408	Series 3	LWB	RHD	From 07/1980 & air portable lightweight from July 1980 onwards & 1981 V8 dual
DA7410	Series 3	LWB	RHD	Up to 06/1980 dual. 4-cylinder up to 06/1980 & V8 up to 09/1980
DA7431	Series 3	LWB	LHD	Single line 4-cylinder & 6-cylinder
DA7411	Defender	90	RHD	1985 - 1991 to VIN HA
DA7418	Defender	90	RHD	With front brake valve less ABS from 1991
DA7441	Defender	90	RHD	Less front brake valve less ABS LA930456 - WA159806
DA7439	Defender	90	LHD	With front brake valve less ABS from 1991
DA7420	Defender	110	RHD	1983 - 1987
DA7414	Defender	110	RHD	1988 - 1991 VIN HA90219
DA7438	Defender	110	RHD	CSW from VIN KA & LA models from 1993 non-ABS
DA7357	Defender	110	RHD	Td5 non-ABS
DA7419	Defender	130	RHD	CSW from 1994 VIN LA
DA7415	Discovery 1	200Tdi	RHD	Up to VIN JA 1992
DA7417	Discovery 1	300Tdi	RHD	From 1994 non-ABS
DA7433	Discovery 1	300Tdi	LHD	From 1994 with ABS
DA7422	Range Rover Classic		RHD	Early models
DA7421	Range Rover Classic		RHD	From 1979 with rear valve
DA7423	Range Rover Classic		RHD	Non-ABS from 1987 VIN DA274121 (2-door) & DA273923 (4-door) OSF valve
DA7425	Range Rover Classic		RHD	ABS 1990 - 1991 VIN HA
DA7426	Range Rover Classic		RHD	ABS 1992 VIN JA
DA7427	Range Rover Classic		RHD	1993 VIN KA air suspension
DA7424	Range Rover Classic		RHD	ABS 1986 up to VIN CA274120 (2-door) & CA273922 (4-door) front valve & bypass pipe
DA7434	Range Rover Classic		LHD	From 1979 with rear valve
DA7435	Range Rover Classic		LHD	From 1987 non-ABS from VIN DA274121 (2-door) & DA273923 (4-door) front valve & bypass pipe
DA7436	Range Rover Classic		LHD	ABS front valve & bypass pipe 1986. 1983 up to VIN CA274120 (2-door) & CA273922 (4-door) 1986 onwards
DA7437	Range Rover Classic		LHD	Up to 1992 VIN HA with Clayton Dewandre Wabco 4-channel with ABS

Ready Made Brake Pipe Sets

Anti-squeal Shims

DA1141
Universal self adhesive noise dampening shims. Pack of 4. The shims are manufactured from wolverine and cut to shape and applied to the backing plate of the brake pads prior to fitting to help eliminate any noise issues (should the pad be unshimmed). When used in conjunction with Mintex Cera-Tec silicon based lubricant, most brake noise related issues will be eradicated.

Parking Brake Spring Kits

LR031947KIT

LR031947KIT
Discovery 4
Range Rover Sport - 2010 - 2013

SFS500012KIT
Discovery 3 / Discovery 4
Range Rover Sport - 2005 - 2013

Brake Caliper Pin Kit

LR016683G
Range Rover Sport - 2010 - 2013
Range Rover Sport - 2014 - 2022
Range Rover - 2010 - 2012
Range Rover - 2013 - 2022
Models fitted with front Brembo brake calipers tend to suffer from the steel pins seizing in the aluminium caliper. The pins are often destroyed whilst being removed. This is a handy new pin kit for both front calipers.

Brake Caliper Pistons & Kits - Stainless Steel

Stainless Steel Brake Caliper Piston Kits DA1165
Each kit is one complete axle, either front or rear as stated.
The kit includes OEM repair kit and grease sachet.

DA1165	Defender - 90 - up to HA701009 / Discovery 1 / Range Rover Classic	Front
DA1166	Defender - 110 - up to HA701009 / Defender - HA701010 onwards	Front
DA1167	Defender - 90 / Discovery 1 / Range Rover Classic	Rear
DA1172	Defender - 110 / 130	Rear

Single Stainless Steel Pistons

606683S	Defender - up to HA701009 / Discovery 1 / Range Rover Classic	Front
606696S	Defender - 90 / Discovery 1 / Range Rover Classic	Rear
STC201S	Defender - HA701010 onwards	Front
	Defender - 110 / 130	Rear

Brake Kits

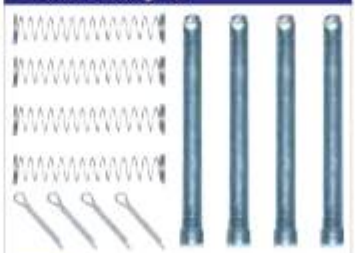

DA6042

Kits include - Brake shoes, wheel cylinders, brake springs & screws (where applicable)

	Britpart Kit	OEM Kit
Defender		
	DA6507	**DA6507G**
Rear	90 - up to HA701009	
	DA6508	**DA6508G**
Rear	90 - HA701010 onwards	
	DA6509	**DA6509G**
Rear	110 / 130 - up to KA930545	
Series - SWB		
	DA6042	**DA6042G**
Front	Up to June 1980	
	DA6043	**DA6043G**
Rear	Up to June 1980	
	DA6044	**DA6044G**
Front	July 1980 onwards	
	DA6046	**DA6046G**
Rear	July 1980 onwards	
Series - LWB		
	DA6044	**DA6044G**
Front	4 cylinder except 1 ton	
	DA6045	
Front	6 cylinder & 109 V8 Stage 1	
	DA6047	**DA6047G**
Rear	Including V8	

Brake Fitting Kit

DA4105
Defender - 1987 - 2006
Brake fitting kit for rear brake pads
SFP000280

Brake Lubrication

DA2389
Cera-Tec Advanced Lubricant
75ml
Mintex Cera-Tec is an advanced non-metallic universal lubricant that provides many benefits over traditional copper-based grease.

- Non-metallic content - ABS and ESP friendly.
- Operates to a high temperature (1,000°C).
- Non-conductive.
- Free of copper and acid.
- More effective at reducing any brake squeal.
- Protects against corrosion and dirt.
- Neutral colour prevents any visible residue or staining.

Parking Actuator Repair Kit

DA9223

Discovery 3
Discovery 4
Range Rover Sport - 2005 - 2009
Kit to fix the troublesome parking brake actuators - LR019223 & LR072318

DA9223
Fixing kit which includes -

4 x gears	8 x self-tap Torx screws
2 x hex bobbins	4 x Durlock flange nuts

DA9224 Set of 4
Replacement brake actuator gears

Britpart XS Brake Discs

Low Noise

- Installation ready - no need for cleaning before use
- Anti-corrosion coating which provides a long lasting clean appearance, ideal for today's open rims
- Disc run out - ≤0.08mm
- Unbalance requirement - ≤150g.cm
- Coating - 5~20µm NA paint
- Salt spray test - 120 hours

Britpart XD & Britpart XS Brake Pads

XD Brake Pads

- Manufactured to OEM specifications ensuring long life and low noise in a TS16949 & ISO14021 approved factory
- Asbestos, lead & CR6 free material
- The XD Brake Pad range meet all official legislation for quality and safety and are compliant with European ECE R90
- All XD Brake Pads are produced with an underlayer material designed to dampen vibrations to prevent noise and to reduce heat transfer to the brake fluid

The Britpart range of XD Brake Pads gives you the opportunity of fitting a much higher quality brake pad than the price would indicate. Britpart has tested many different brake pads over the years and have found this brake pad specification offers Land Rover owners the best possible performance at this price level.

The XD Brake Pads are manufactured to an exact tolerance using only the best European friction materials to OEM specifications ensuring long life and low noise.

All raw materials are analysed in-house using a fully equipped quality laboratory with, for example, an atomic absorption device. After analysis the raw materials are mixed and pressed using several different methods to achieve the best brake pad for each application. Each part number is tailored to the application it is intended for.

The XD Brake Pad range has been thoroughly tested on dynamometers and noise measuring rigs before being put through their paces on test tracks and extended operations tests to ensure a perfect and effective operation every time. All pads are covered by the worldwide Britpart warranty and Britpart recommends they are fitted with the Britpart standard or performance brake discs.

XS Brake Pads

XS Brake Pads have the exact performance material specification of production line brake pads

The Britpart range of XS Brake Pads offers you the opportunity to have the exact factory production line specification of brake pad at an affordable price.

These pads offer the best possible combination of long life, pedal feel and noise suppression. All the pads in the range use the same friction material specification that your Land Rover was originally made with.

The XS range of pads are all produced in one of the world's premium brake pad facilities where production procedures are carefully monitored to ensure a consistently good product. The facility has both in-house testing and access to OE testing facilities to ensure all pads meet the exact specification required. Britpart XS Brake Pads are ideal for high mileage or heavy-duty applications.

Best possible combination of long life, pedal feel & noise suppression

IMPORTANT BRAKE INFORMATION
For exact change over points with vehicle applications please contact your local Britpart stockist with the full chassis number for the correct application. These references are intended as a guide only.

Manufactured in the same plant and on the same assembly line as the OE

Britpart is proud to be a Brembo Official Partner and we are delighted to now be able to offer the new Brembo Lightweight disc. This is a new addition to the Brembo Aftermarket range applicable for some of the latest generation Land Rover models.

Manufactured in the same plant and on the same assembly line as the OE, the disc is made up of a high-carbon cast iron braking surface and a steel hat, which are connected by mechanical interference.

These technical features allow for a weight reduction of up to 15% compared to its integral counterpart of the same size. Since the brake disc contributes to the unsprung mass of the vehicle, reducing the weight ensures an increase in the available force and therefore improves handling and reduces consumption and emissions of the vehicle.

THE ORIGINAL PRODUCT QUALITY.

Appearance - Metallised effect conferring a shiny, clean look to the disc.

Corrosion, Humidity & Temperature Resistance - The resistance is superior to any other products on the market. Corrosion resistance is proven by tests in a salt spray chamber.

Eco-friendliness - The water-based UV varnish requires no solvents. The ultraviolet (UV) coating process is extremely energy-efficient.

Intelligent Marking - The position of the marking allows mechanics to read of the minimum thickness for replacement easily.

Ready To Use - Ready for installation and practical to assemble

Braking Surface Protective Coating - The protective varnish coating, also present on the braking surface, outer diameter and hub, ensures complete protection of the disc.

PADS, THE PERFECT PARTNER
STRENGTHS THAT DISTINGUISH THE RANGE

Born from the experience of racing and from the collaboration with car makers. The Brembo range of brake pads ensures maximum safety when braking thanks to absolute control of all production stages. From research and development to testing, passing through production of the friction compound and mechanical processing.
Performance - Minimal baking space in all conditions. Maximum driving comfort. Maximum silence.
Marking - Immediate identification of the pad.
Easy installation - Wide range of accessories and fitting kits for problem-free installation.
ECE-R90ECE-R90 - ECE-R90 homologated.

The buttons on a Range Rover P38 are prone to wearing out and becoming very tatty and unusable. Fix that problem with this handy repair kit.

Battery Monitor Sensor

DA7966 NEW

Sealey Battery Monitor Sensor & Vehicle Finder

- Displays real time battery power, voltage and temperature.
- Wireless connection with dedicated app which supports up to 4 devices (iOS & Android compatible).
- Guide user back to the vehicle by automatically recording the last parking location.
- Record the route, cost and driving habits of each trip, which can be exported to Excel.
- Automatically monitor the starting and charging system of the vehicle and notify if abnormal.
- Compatible with most batteries including lead sealed, AGM and Gel. Supports up to 4 devices.
- Store historical data in device for up to 30 days.

Voltage Range:	6-20V
Average Current:	1.5mA
Input Voltage:	6-20V
Voltage Accuracy:	9-16V ±0.03V
Short Circuit Protection:	Built-in
Reverse Connection Protection:	Built-in
Operating Temperature:	-20 - 40°C
Physical Dimensions:	55 x 41 x 12.5mm
Waterproof:	IP67
Weight:	20g

Electronic Conversion Kits

ETC5835K
Electronic conversion kit replaces the existing points and condenser with a new reliable electronic module. For 4-cylinder petrol engines the electronic ignition module has been developed to work with the standard ignition coil and provides service free and accurate ignition timing. The kit can be easily fitted to standard points type 45D4 distributors. We recommend fitting a new coil at the same time - PRC9858. Also available a new distributor with points to which this kit can be fitted - ETC5835.

ERC4536K
This electronic conversion kit is for V8 points and has built in dwell adjustment with rpm protection when not running.

Note - Both kits are for negative earth vehicles only.

Electronic Distributors

ETC5835ERED Red top
ETC5835EBLACK Black top
Series - 2.25 petrol
Defender - 90 / 110
- 2.5l 4-cyl petrol - 1985 - 1994
Note - Negative earth vehicles only. Distributor with electronic conversion fitted which replaces the existing points & condenser with a new reliable electronic module.

NGC500370/410 Grey leads
Freelander 1 - 1.8K

These silicone HT lead sets are designed to meet or exceed the original equipment specification. The silicone cable has minimal interference with maximum suppression, it is also resistant to water, oils, chemicals and high temperatures. High quality with ISO 3808 class noise suppression performance.

Starter Motor Repair Kit for NAD101240

DA5240
Defender - Td5
Discovery 2 - Td5
Starter motor repair kit for genuine Land Rover NAD101240LR & Denso NAD101240G.
Not suitable for aftermarket starter motors.

Actuator Repair Cog

LR108980COG
Soft door close power lock latch actuator cog for LR108980
Front
Range Rover - 2013 - 2022
Range Rover Sport - 2014 - 2022

Otter Switch Upgrade

545010
Series 2 / 2A / 3
An updated and reproduced engine mounted switch for operating the choke warning light.

- Waterproof
- Max current capacity – 1 amp
- Normally open
- Single spade lug connection (body of switch is earth)
- Supplied with new cork gasket

Programmable Wiper Relay

AMR2341DELAY

Fed up with your Defender's intermittent wipers not being intermittent enough? Does it drive you mad when you give the screen a quick spray and it wipes for ages?

Fit this new relay in place of the standard AMR2341 to your vehicle to solve this problem. Once fitted you press the stalk down so that the wiper wipes and then back off again, now count/wait till you want another wipe, switch the stalk down and leave it on, this timing will now remain constant till you set another timing the same way or turn off the ignition at which point the relay reverts to a standard 6 second wipe interval. Another bonus is that the wipers will now only wipe once following a short burst of washer fluid or 3 times after a long burst. This will work on all Defenders with the latching intermittent wiper stalk PRC7370 or AMR6106 HA onwards (stays down when pressed) but it will also work on 300Tdi and Td5 although on post 2002 Td5s the relay AMR2341 is located behind the speedo. Will not work with early stalk PRC3900 up to GA models.

Replacement Batteries

Defender - 2007 - 2016
Equivalent to WJI500040EXP
For use in markets which require extra fuel filtration. To be used in conjunction with the regular 5 micron and must **not** be used as a stand alone filter.
Important - Modification to the outer shield housing will be necessary to enable fitment, due to the extra length of the filter.

Fuel Filter Clasp Fixing Kit

DA1670
Defender
Repair kit for the fuel filter clamp casings on Defender. It's part of WKT100010 & WKT100020 and also JEU500060 & WJU500280 but not available separately from Land Rover.

Top Hose Replacement Bleed Screw

PEH101080SCREW
Discovery 2 - Td5
Replacement screw for Britpart top hose PEH101080

Engine Bay Enhancements

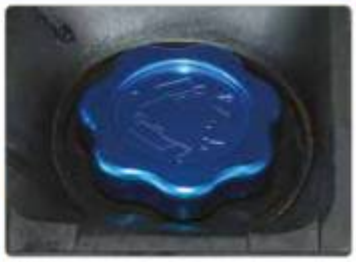

Filler Plugs
ERR4686BLUE
ERR4686RED
Replace your existing filler plug with one of these smart anodised aluminium ones. Suitable for use on a Defender, Discovery 1 & Range Rover Classic on the radiator and thermostat housing. Can also be used on the diff filler level on a Discovery 2.

DA8896
Expansion Bottle Cap
Defender - Td5 onwards
Freelander 1
Smart anodised aluminium direct replacement expansion bottle cap - PCD100160. Will not fit on aluminium header tank - DA4751.

DA8891
Oil Filler Cap
Defender - Tdci
Anodised aluminium. Includes rubber seal

DA8890
Oil Filler Cap
Defender - Td5
Anodised aluminium. Includes rubber seal

Power Steering Reservoir Cap
DA8895 Standard
DA8894 With cooling fins for extreme off-road and racing conditions
Defender
Anodised aluminium. Includes rubber seal.

Top Hose Bleed Screws
PYP10008BLUE
PYP10008RED
Smart replacement anodised aluminium bleed screws for the top hose on a Td5 engine.

Coolant Overflow Container Bleed Screws

Aluminium Header Tanks
DA4750
Defender - 200Tdi / 300Tdi / V8
Discovery 1 - 200Tdi / 300Tdi / V8
Range Rover Classic - petrol & diesel - 1990 onwards

Direct replacements for the original plastic tanks

DA4751
Defender - Td5 & Td4 Tdci
These are direct replacements for the original plastic tanks which are prone to splitting. TIG welded by hand and manufactured from high specification lightweight non-corrosive alloy, these tanks also aid cooling. Tanks use original pressure release screw cap and are a straight fit with no modifications required. Ideal for motorsport, overland or just to improve the look of your engine bay.

DA4748
Uprated Engine Breather Oil Catch Tank
200Tdi & 300Tdi engines
Allisport high performance aluminium engine breather oil catch tank separator. Manufactured using mounting flange machined from billet aluminium. All engines need to breathe crankcase pressure to atmosphere and most are designed to re-enter the air intake system after the air cleaner.

Standard breather pots use a gauze and mesh design which over time becomes blocked with oil deposits, reducing the capacity to release crankcase pressure and also allowing more oil vapour to enter the intake system. This high performance replacement is designed to effectively reduce crankcase pressure build up on Tdi engines by using an internal baffle rather than the standard gauze and mesh design. Designed to have a practical purpose offering an improvement over the original black plastic units, but will also look great in the engine bay. Will fit all Tdi engines including 2.8 TGV. Manufactured by hand, fully TIG welded. Tank has new integral o-ring-seal design - ***No More Leaks!!***

DA3838 NEW
Coolant Expansion Tank Kit
Series 2, Series 2A & Series 3

DA4749
Aluminium Power Steering Reservoir with Internal Baffle
Defender – Tdi, Td5, Tdci & V8
Designed to replace the plastic ZF reservoir which is prone to splitting and leaking vapour through the breathable cap, which in turn then collects dirt and runs the risk of water ingress. The external breather design means no unsightly mess under the bonnet and allows routing with high axle/gearbox breathers to eliminate water ingress. Manufactured from laser cut 2mm high grade aluminium with CNC machined pipe connections, knurled cap and external breather. The corrosion resistant aluminium rolled body is fully TIG welded by hand in house. 110mm high (155mm height including cap) & 91mm diameter.

Potentiometer Kit

DA1647
Rover V8 Throttle Pot Upgrade Kit
Adapts the Rover plenum to accept the Colvern throttle pot. Replaces the 2 bolt throttle pot as fitted to all 3.9 & later 3.5 engines from late flapper to last of the Hotwire 14CUX. It replaces ETC8495 and ERR2263. Consists of: Colvern throttle pot, alloy adapter plate, brass spindle, ball bearing, stainless cover plate, fixings & loom socket. Once this kit is fitted, throttle pot switch replacements are cheaper and easy to source.

Top Hat Liner Set

DA1185
This flanged repair liner is suitable for damaged/porous 3.9/4.0/4.2/4.6 Rover V8 blocks. The block will require re-boring and flange recess machining before fitting. This liner is the complete solution for fixing these blocks. The liner can be bored to 96.00mm for over-bored versions of the V8 engine, taking it to 5.0 litres. Semi finished bore 94.00mm (less 1.00mm for final finishing in bore).

Dimensions
Inside diameter - 94.00mm
Outside diameter - 99.06mm
Length - 135.64mm
Flange diameter - 105.23mm
Flange depth - 5.33mm

Heater Blower Motor Kit & Resistor Kit

DA4178

DA4178RESISTOR

DA4178
Range Rover Classic - 1990 - 1994 - 200Tdi with air con
Discovery 1 - 200Tdi with air con
Atlantic British has developed this all inclusive kit designed and engineered to replace failed heater motors. The kit includes heater blower motor, blower wheel, motor mounting bracket and mounting screws, heater assembly seals, nylon ties, solder, shrink tubing (for soldered connections) and complete instructions. **Note** - When replacing the heater blower motor the vehicle's resistor must be upgraded to DA4178RESISTOR.

DA4178RESISTOR
The air con blower motor resistor controls the speed of the blower motor and the force of the airflow out of the dash vents, it features a thermal-sink aluminium mounting plate that dissipates circuit heat effectively.

Air-con Evaporator Core

DA2660
Defender - 2007 - 2016
If your Defender's air-con evaporator is broken, you cannot purchase a replacement evaporator core alone. Instead you have to purchase the whole heater unit. We can now offer this OEM replacement evaporator core offering a considerable cost saving over the complete assembly.

Valve Unit

Twice the capacity of standard

Uprated High Output Heater Matrixes
AllSport uprated high output heater matrixes with high quality vacuum brazed cores and louvred fins. These larger matrixes have twice the capacity of standard which increases heat output and improves windscreen demisting times. TIG welded by hand. Only requires some small mods to the heater box to install.

DA4743
Defender - 1987 - 2006
Downward facing pipes
Equivalent to AAP817.

DA4744
Defender - 1987 - 2006
Horizontal inlet/outlet pipes.
Right hand drive (including some LHD NAS spec). Check your application before ordering. Not suitable for Puma 2.4 and 2.2 vehicles. Equivalent to UTP1725.

Clutch kit OEM - plate, cover & concentric slave cylinder

Dual Mass Flywheel Conversion Kits

The flywheel conversion kit can be used to replace the dual mass flywheel using a solid metal flywheel and a heavy duty clutch kit. The one piece flywheel will not break up like the dual mass one so it is highly likely you will never need to change it again which means - lower cost, ease of fitting & potentially eliminating any future flywheel failures.
Note - This kit will make the gearbox more audible in the car at tick over and the kit doesn't include the release bearing - UUB000070.

Detent Repair Springclip

DA6247
Detent repair springclip to fit Discovery 3 & Discovery 4 manual gearboxes.
To save expensive gearbox repairs or replacements it may just be this simple clip has broken. It is easily checked and replaced without any removal of the gearbox itself.

Experiencing problems engaging reverse gear?

Diff Coupling Shaft

DA2355
Range Rover - 2002 - 2012
These models can suffer from a common problem with the coupling shaft spline wearing between the front propshaft and front differential, thus losing drive to the differential.

We are now able to offer a cheaper alternative!

The problem relates to the coupling shaft, the differential itself is not affected. Currently the only solution offered by Land Rover is to replace the propshaft and the whole complete front differential assembly - a very expensive option! Using this new coupling shaft will enable you to replace just the propshaft and coupling shaft and leave the differential in place, therefore reducing both time (the differential need not be removed from the vehicle) and cost.

Britpart has put together these boxed kits to help the fitter have all the necessary parts to do the job in one hit, saving time and money trying to find the necessary parts to do the job.

Save time & money with a Britpart CV joint kit.

These kits are also helpful to pass over the trade counter instead of having to hunt for the individual parts. One kit does one CV joint.

IAB500090E NEW
Discovery 2
Refurbished LT230
Non-diff locking variant

IAB000033E NEW
Range Rover - 2002 - 2009
Refurbished by the OEM

Degradation in oil can lead to judder, noise and a deterioration in gear change quality. It is recommended that oil and filters are changed after 50,000 to 75,000 miles on all 5, 6 & 8 speed automatic gearboxes to ensure optimum performance.

6-Speed Filter Conversion Kit

This is an easy change filter conversion kit for all vehicles with either a 6HP26 or 6HP28 ZF 6-speed automatic gearbox. From the factory a fluid and filter change on this transmission is a very lengthy process. The sump and filter are normally one piece and fitting involves jacking the engine up and unbolting the mounts, plus the removal of the exhaust.

Suitable for -
Discovery 3 & Discovery 4
Range Rover Sport - 2005 - 2013
Range Rover - 2002 - 2012

The fitting of this kit is far easier. Once the fluid has been drained from the transmission simply remove the bolts from the old unit. Cut the old plastic sumps filter tube with a hacksaw. Slide the old sump out and remove the other end of the sawn off filter tube. The new separate filter can then be fitted and the new sump pan slides into place and is bolted up with the new gasket supplied. Once secure the transmission can be filled as per manufacturer's instructions. The new sump pan also has the added benefit that it is manufactured in durable steel rather than the plastic of the original item - LR007474. Also see DA6085 & DA6085G in service kit section. 7 litres needed for oil change.

Britpart Kit

DA2142	Filter conversion kit
DA2143	Replacement filter
DA2144	Replacement gasket
TYK500050	Ravenol fluid - 1 litre

OEM Kit

DA2142G	Filter conversion kit - OEM
DA2143G	Replacement filter - OEM
DA2144G	Replacement gasket - OEM
TYK500050G	ZF Lifeguard fluid - 1 litre

6-Speed Fluid Change Kit

Automatic transmission fluid change kit for vehicles with either a 6HP26 or 6HP28 ZF 6-speed automatic gearbox. Ideal for high mileage vehicles and towing vehicles. Kit comprises of pan assembly, transmission fluid, screws, sleeve & plugs.

Suitable for -
Discovery 3
Discovery 4
Range Rover Sport - 2005 - 2013
Range Rover - 2002 - 2012

DA6085	Britpart pan with Ravenol oil
DA6085G	ZF pan with ZF oil

8-Speed Fluid Change Kit

Automatic transmission fluid change kits for vehicles with ZF 8HP70 8-speed automatic gearbox. Ideal for high mileage vehicles and towing vehicles. Kit comprises of pan assembly, transmission fluid, screws & plug.

LUCAS CLASSIC

Since the very first car wheel on the very first car hit the road over a hundred years ago, Lucas has been at the forefront of component manufacture and supply for both OE and the aftermarket. In fact, Lucas is the oldest continually trading automotive brand in the world.

Having been in business for 147 years means that we not only know a lot about vehicles today, but the vehicles of yesterday as well.

In the second half of the 20th century, you would have been hard pressed to find a vehicle on the road that didn't have some Lucas OE content, for electrical, diesel and braking. In fact, Lucas designed products are still used on new vehicles manufactured now.

Today, we're still at the top of our game as a global business. Our famous green boxes can be found in every corner of the world.

But for us, our heritage is vital, as it is what sets us a part from others. Hard won experience of innovating and providing quality parts that are durable and reliable, straight out of the box.

And now, we are celebrating that heritage with a new range of classic parts specifically designed for restorers, workshops and consumers who want to keep their classic vehicles faithful to the original by fitting Lucas parts developed, tested and engineered to the original specification. Now, you can have the real thing. Lucas Classic parts are often reproduced from original tooling, re-manufactured and re-engineered by trained experts following original Lucas product manuals and technical drawings.

Lucas. Classics live forever.

Richards Chassis

All Richards chassis are manufactured in the UK, using locally sourced materials and locally based machine shops. They are located close to the steel city, Sheffield, and therefore optimise the use of local steel, ensuring that all their chassis are formed from 2.5mm British steel which are all galvanised as standard. All profiling is done 'in house' using their own laser machine, enabling them to have greater control over the quality of parts used and the materials that they are formed from. The chassis are made using 2.5mm side rails which are 25% heavier than the standard 2.0mm rails. Overall this gives a small increase in the vehicle weight but has a massive effect on the long term durability of the chassis. Bolt on crossmembers are not supplied with Richards chassis but are available separately - see DA5300.

DA5300	Defender 90 / 110 - excludes 300Tdi	
	Bolt on crossmember - galvanised with fittings	

Marsland Chassis
The Marsland Defender chassis manufactured by GKN Wheels & Structures, supplied with an insurance accepted GKN Certificate of Authenticity confirming the chassis are constructed using "the same materials, processes and quality control techniques as were stipulated at the time of original equipment manufacturer". Type approved and crash tested. All Defender chassis are built to 2016 type/latest specification, including rear cross member and A-frame cross member. GKN pressed 'C' section main legs/rails made from 2mm steel with 3mm stiffeners fitted and spot welded internally for added strength, effectively giving you 5mm of material where most needed. Chassis supplied with bolt in gearbox cross member, rear cross member to body bracket, A-frame to chassis bushes including fixings. Power steering pipe, fuel filter, fuel tank and fuel line riv nuts fitted to chassis. All holes drilled and tapped excluding rear tow pack holes. Galvanised as standard.

www.britpart.com/chassis

KVD001010-M
Defender 90 - with rear fuel tank and engine conversion
Defender 90 NAS - with engine conversion
Note - Requires 5 weld nuts per engine mount. Use 10 x Flange bolt FS108207L.

Marsland Adaptor Chassis
Chassis blank with threaded plates for engine conversions. OEM manufactured with hot dipped galvanized finish. Replacement for Defender variants with a rear mounted plastic fuel tank. Chassis features the latest Puma updates with reinforced main rails, upgraded bulkhead outriggers and rear cross member with integral fixing nuts for tow plate and recessed mounting point for towing plug.

KVD001030-M
Defender 110 - plastic fuel tank with alternative engine
Galvanized top tank strap and galvanized fuel tank protection plate.
Note - Requires 5 weld nuts per engine mount.
Use 10 x Flange bolt FS108207L

Features the latest Puma updates...

Designed and manufactured to accept multiple types of engines. Instead of welded on motor mounts, this chassis has double plated sections with weld nuts for bolt on motor mounts, making it the perfect choice for all types of engine conversions. Includes bolt-on flat gearbox cross member. Made in the UK.

Stainless Steel Products

Stainless Steel Door Threshers
Defender - from 1983 - 2016 & Series 2 & 3
These stainless steel door threshers will freshen up the inside of your Land Rover as this is an area is which can get very scruffy. All of the existing holes on the sills line up with these doors threshers so they are a quick, easy bolt on project. The door threshers are made from stainless steel 304 grade bright annealed 1.5mm thick and are laser cut and CNC pressed. Stainless steel fixings are supplied. **Note** - If your door seal is fitted to your sill rail, you may need to modify the sill rail.

Orange part numbers ending in 'PCAT'	OEM filters & spark/heater plugs with a bottle of Cataclean fuel & exhaust system cleaner

Degradation in oil can lead to judder, noise and a deterioration in gear change quality. It is recommended that oil and filters are changed after 50,000 to 75,000 miles on all 5, 6 & 8 speed automatic gearboxes to ensure optimum performance.

6-Speed Filter Conversion Kit

This is an easy change filter conversion kit for all vehicles with either a 6HP26 or 6HP28 ZF 6-speed automatic gearbox. From the factory a fluid and filter change on this transmission is a very lengthy process. The sump and filter are normally one piece and fitting involves jacking the engine up and unbolting the mounts, plus the removal of the exhaust.

Suitable for -
Discovery 3 & Discovery 4
Range Rover Sport - 2005 - 2013
Range Rover - 2002 - 2012

The fitting of this kit is far easier. Once the fluid has been drained from the transmission simply remove the bolts from the old unit. Cut the old plastic sumps filter tube with a hacksaw. Slide the old sump out and remove the other end of the sawn off filter tube. The new separate filter can then be fitted and the new sump pan slides into place and is bolted up with the new gasket supplied. Once secure the transmission can be filled as per manufacturer's instructions. The new sump pan also has the added benefit that it is manufactured in durable steel rather than the plastic of the original item - LR007474. Also see DA6085 & DA6085G in service kit section. 7 litres needed for oil change.

Britpart XD Oils

10W-40 Semi-Synthetic Multi-grade Engine Oil

DA1331	Britpart XD 10W-40	1 litre
DA1530	Britpart XD 10W-40	5 litres

Product Description

Britpart XD 10W-40 is a semi-synthetic multi-grade engine oil manufactured using high quality additives and base oils for fuel efficiency and superior performance for petrol and diesel engines of passenger cars and light commercial vehicles. Meets ACEA and API specifications required by a large number of cars and light commercial vehicles. The additive technology coupled with advanced base fluids also ensures a high level of component protection and cleanliness when operating in severe conditions. Engine design has changed rapidly over recent years and increased output from smaller units, coupled with reduced engine oil sump capacity, has put greater demands on the lubricant. Britpart XD 10W-40 is designed to meet these challenges. It provides excellent stay in grade performance for a wide range of engines.

Applications

Britpart XD 10W-40 is suitable for use in normally aspirated and turbocharged engines in passenger cars and light commercial vehicles, where any of the performance levels listed are required. It is miscible with all synthetic and mineral based engine oils.

Performance Levels

- API - SN / CF
- ACEA - A3 / B4
- MB - 229.3
- VW - 501.00 / 505.00
- Renault - RN 0700 / 0710

Benefits

- Suitable for a wide range of vehicles
- Excellent high and low temperature stability
- Excellent cold starting
- Improved oil consumption and emissions

20W-50 Mineral Engine Oil

DA1822	Britpart XD 20W-50	1 litre
DA1823	Britpart XD 20W-50	5 litres
DA1824	Britpart XD 20W-50	20 litres

Product Description

Britpart XD 20W-50 is a traditional mineral oil based engine oil suitable for use in petrol fuelled passenger cars and light duty diesel vehicles. It is formulated from a blend of top quality solvent refined mineral base oils with established detergent/dispersant additive technology and incorporating viscosity index improver polymers to deliver the 20W-50 multi-grade viscosity profile. The 20W-50 viscosity grade classification is designed for severe service conditions and ensures optimum lubrication protection and engine performance in warmer climate conditions.

Applications

Applications for the 20W-50 are older model petrol vehicles fitted with an oil filter, especially V8's and 200Tdi/300Tdi high mileage vehicles with excessive oil consumption. Also to be used in hot climates where a 15W-40 is normally recommended. Not suitable for TD5 - 2016.

Performance Levels

- ACEA: A3/B3
- API: SL/CF
- MB: 229.1

Benefits

- High temperature performance
- Protects against ring sticking at high temperatures
- Maintains oil performance
- Minimises oil consumption
- High standard of engine cleanliness
- Excellent sludge control protection designed for stop-go city motoring
- Long lasting dispersant, anti-wear and corrosion protection

*These are typical test results and don't constitute a specification.

5W-30 Synthetic Multi-grade Engine Oil

DA1333	Britpart XD 5W-30	1 litre
DA1529	Britpart XD 5W-30	5 litres

Product Description

Britpart 5W-30 is a synthetic, fuel-efficient multi-grade engine oil complying to Ford specification WSS-M2C913-D and WSS-M2C913-C and meeting the STJLR.03.5003 Jaguar Land Rover specification. Britpart 5W-30 is a synthetic multi-grade engine oil formulated with highly refined synthetic base stocks and the very latest in advanced additive technology. The carefully selected components combine to provide the user with improved fuel economy benefits, greater robustness to fuels containing increased levels of bio-diesel and superior soot handling properties. This highly stable, stay-in-grade product allows extended oil drain intervals to be achieved.

Applications

Britpart XD 5W-30 is an ideal choice in many normally aspirated and turbocharged petrol and diesel engines designed to use a fuel saving engine lubricant. In particular, Britpart 5W-30 can be used in all Ford diesel engines (except Ford Ka TDCi 2009 onwards and Galaxy 1.9 TDi 2000-2006). It is strongly recommended for use in Transit models (2012 onwards) carrying the 2.2 Duratorq TDCi engine where only WSS-M2C913-D lubricants can be used.

Performance Levels

- API - SL / CF
- ACEA - A5 / B5
- Ford WSS-M2C913-D
- STJLR.03.5003
- RN0700

Benefits

- Complies with Ford specification WSS-M2C913-D
- Complies with Ford specification WSS-M2C913-C
- Extended drain capability
- Fully backwards compatible with the earlier specifications of WSS-M2C 913-A and 913-B
- Stay-in-grade formulation
- Excellent low temperature stability for improved flow rates
- Improved fuel efficiency

Britpart XD Oils

0W-30 Synthetic Engine Oil

DA3664 NEW	Britpart XD 0W-30	1 litre
DA3665 NEW	Britpart XD 0W-30	5 litres

Product Description

Britpart XD FA 0W-30 is a mid-SAPS engine oil formulated for use in Ford and JLR's latest technology diesel engines and where superior fuel efficiency performance is required. Can be used in engines specifying low viscosity lubricants, either in gasoline or diesel applications, where the performances levels quoted below are listed.

Applications

Britpart XD FA 0W-30 has been developed for use in Euro V and VI compliant vehicles with DPF after treatment devices.

Performance Levels

- Ford WSS-M2C950-A
- ACEA C2
- STJLR.03.5007

Benefits

- Increased engine efficiency, output and improved fuel economics
- Outstanding cold temperature flow rates and high temperature film strength
- Low levels of volatility
- Superior thermal stability, improved engine cleanliness

0W-20 Synthetic Engine Oil

DA3674 NEW	Britpart XD 0W-20	1 litre
DA3675 NEW	Britpart XD 0W-20	5 litres

Product Description

Britpart XD FE 0W-20 is a low viscosity, high performance engine oil. This product also contributes to the reduction of emissions by helping to promote fuel efficiency due to an ultra-thin oil film that minimises internal energy losses. Additionally, Britpart XD FE 0W-20 provides protection against LSPI (Low Speed Pre-ignition) in petrol engines, including petrol direct injection units fitted with petrol particulate filters, also suitable for vehicles using hybrid electric technology.

Applications

Britpart XD FE 0W-20 is recommended for passenger car engines, including turbo-charged and supercharged versions, requiring a low viscosity grade.

Performance Levels

- ACEA C5, ACEA C6
- API SP, API SN Plus
- Ford WSS M2C-952-A1
- MB 229.71
- OV0401547
- GM Dexos® D
- STJLR 03.5006

Benefits

- Increased engine efficiency, output & fuel economy in petrol & diesel units
- Increased film strength at high temperatures under all driving conditions
- Enhanced timing chain wear protection
- High temperature deposit and anti-sludge control
- Full after-treatment device compatibility (catalysts, DPFs, GPFs)
- Low level of volatility

5W-30 Synthetic Engine Oil

DA3618 NEW	Britpart XD 5W-30	1 litre
DA3619 NEW	Britpart XD 5W-30	5 litres

Product Description

Britpart XD 5W-30 is a low-SAPS, synthetic technology engine oil formulated to meet the demands and fuel efficiency expectations of the latest petrol and diesel engines, where a low viscosity oil is required. Britpart XD 5W-30 has been formulated to protect sensitive exhaust after-treatment devices, particularly those fitted with diesel particulate filters (DPFs), helping to ensure efficient and trouble-free operation.

Applications

Britpart XD 5W-30 is recommended for the latest low emission passenger car high performance petrol and diesel engines that require ACEA C1 SAE 5W-30 lubricants. Manufacturers include: Land Rover, Ford, Mazda & Mitsubishi.

Performance Levels

- ACEA C1
- Ford WSS-M2C934-B
- STJLR.03.5005

Note: Do not mix with oils that are not ACEA C1 compliant as this will adversely affect after-treatment devices and the operational efficiency of the engine.

Benefits

- Increased engine efficiency, output and improved fuel economics
- Excellent cold starting characteristics, reducing noise and wear
- Outstanding high temperature operation and anti-sludge control
- Low levels of volatility, minimised oil consumption
- Better thermal stability, improved engine cleanliness and component longevity

Its intelligent molecules will protect your car's engine during the critical warm up stage when up to 75% of engine wear occurs

DA1427
Castrol Magnatec Stop-Start 5W-30 A5 — 1 litre
Its intelligent molecules will protect your engine from the moment you start, every time you start, dramatically reducing stop-start wear

Transmission & Drive Train Oils

STC50531LR Automatic transmission fluid 402 — 1 litre
STC4861LR Transmission fluid - transfer box — 500ml
STC9157 LubeTech Manual transmission fluid 94 API GL4 — 5 litres
STC9158 LubeTech Manual transmission fluid 94 API GL4 — 1 litre
STC4862G Texamatic 7045E — 1 litre
Automatic transmission fluid. Provides top-tier protection to all applications where Dexron IIIG type products are specified, offering excellent protection to automatic transmission and power steering systems.

LR006247G Castrol Syntrans 75W-90/API GL-4 — 1 litre
Multi-vehicle manual transmission fluid

STC4863G Mobile ATF LT 71141 — 1 litre
Automatic transmission fluid. Suitable for use in automatic transmissions and power steering systems.

TYK500050G ZF Lifeguard Fluid — 1 litre
This high performance full synthetic oil for automatic transmissions has been exclusively developed and approved for ZF automatic transmissions only.

IYK500010G Transfer Fluid TF-0870 - OEM — 1 litre
Use in active transfer case to provide a stable viscosity.

TYK500010G Castrol Differential SAF-XO SAE 75W-90 — 1 litre
Fully synthetic final drive lubricant recommended for most passenger car final drives.

LR003156G Castrol Differential EPX SAE 80W-90 — 1 litre
Mineral based multi-grade extreme pressure gear oil for the lubrication of spiral bevel and hypoid differentials. The product is also suitable for the lubrication of manual transmissions where the manufacturer recommends the use of an oil to API GL5.

LR019727LR Castrol Differential SAF Carbon Mod Plus SAE 75W-90 — 1 litre
Fully synthetic gear oil which can be used for axles with limited slip differentials.

LR024835G Castrol Syntrans FE 75W / API GL-4 — 1 litre
Multi-vehicle manual transmission fluid

LR048849 NEW Morris Lodexol MTFE 75W — 1 litre
Lodexol MTFE 75W will provide potential fuel saving performance due to its low viscosity, which minimises friction in the gearbox.

LR003137 NEW / STC4861 NEW Morris Lodexol FS 75W-90 — 1 litre
Lodexol FS 75W-90 is a synthetic high performance gear oil that has excellent extreme pressure (EP) performance and load carrying ability, as well as providing rust and corrosion protection to transmission components.

Ravenol Classic Oils

The need for Classic Oils?

Oils for modern engines need to comply with the latest API ratings and specific ACEA and OEM specifications concerned with improving fuel efficiency, extending oil drain intervals and exhaust treatment systems such as diesel particle filters.

A classic car engine has the opposite characteristics with cork/graphite/rope seals, low pressure gear driven oil pumps, larger oil galleries with greater dependence on "splash" and "cling" lubrication, lower revving with larger machining tolerances. This type of engine design demands a totally different lubricant. The range of Ravenol Classic Oils offers formulations that have been specially blended to meet the requirements of older vehicles.

Special anti-wear additives with the correct amount of zinc (ZDDP) are added to ensure that metal to metal contact and irreparable engine damage is prevented, especially to camshafts and followers, which can wear out in only a few thousand miles when using modern oils. The careful selection of appropriate corrosion inhibitors, special dispersant additives and the correct levels of detergency protect against pitting, the build-up of gums, lacquers, sludge, soot and metallic ash - the normal by-products of combustion.

Just Added...

Workshop Pro Solvent Cleaner
DA3953 NEW 400ml
A powerful residue-free solvent degreaser and brake cleaner. A complex mixture of hydrocarbon and oxygenated solvents designed to clean and degrease all flat and irregular surfaces. Workshop Pro Solvent Cleaner is free from chlorinated and other ozone depleting solvents and is provided in aerosol form to provide an easy means of applying to surfaces, the powerful jet allowing easy purging of blind holes and crevices. After degreasing, the solvent evaporates rapidly leaving components chemically clean and free from oily and corrosive residues. The low temperature resulting from rapid evaporation may, in some instances, be used for shrink-fitting of small mechanical parts.

Features
- Excellent degreasing properties
- Rapid removal of dirt and debris
- Chlorine free
- Applications
- Particularly designed to remove all dirt and deposits from brake shoes and to evaporate leaving behind no residues. Also recommended for general degreasing applications in a workshop environment.

Note: Due to the flammability of the product Solvent Cleaner is not recommended for use on electrical equipment, particularly where "sparking" may occur.

MEG Anti-freeze & Radiator Coolant
DA3952 NEW 1 litre
DA3951 NEW 5 litres
MEG Anti-freeze will protect engines from frost damage right down to –40°C, whilst providing outstanding protection against rust and corrosion for all parts of the cooling system. This monoethylene glycol (MEG) based antifreeze meets the technical requirements of BS6580:2010 and is recommended for all year round use.

Features
- Does not allow rust or corrosion to take place with cast iron, aluminium, copper alloys, solder, or any other metals found in the engine cooling system and therefore prolongs the life of the block, cylinder liners, radiator, pump and heater system.
- Does not form sediment, precipitate additives or form gels.
- No adverse effects on rubber hoses or gasket materials and will not cause leaks.
- Last for up to two years in service, when a 50% solution is maintained. Does not form harmful foam inside the system.
- Compatible with all good quality ethylene glycol antifreezes of this type.
- Nitrite, amine and phosphate (NAP) free.
- Includes borate and silicate.

Applications
Suitable for most engine cooling systems found in cars, vans, trucks, agricultural equipment and contractor's plant.
Note - Always check the manufacturer's handbook or seek technical advice in case an alternative antifreeze type is required.

Performance
Exceeds the requirements of many European and International Standards including: ASTM D3306, SAE J 1034, BS 6580 (2010).

Engine Oils

DA6289 1 litre
DA6288 5 litres
SFE Super Fuel Economy 5W-20
Ravenol SFE 5W-20 is suitable for all petrol and diesel engines requiring a 5w20 grade fuel economy lubricant, and is especially developed to meet the requirements of the latest generation of Land Rover and Jaguar vehicles fitted with 5.0L V8 units.

DA6376 1 litre
DA6377 5 litres
FLJ SAE 5W-30
Ravenol FLJ SAE 5W-30 is a universal, fuel-saving, specially-composed motor oil for modern petrol and diesel engines both with and without turbochargers, for use in automobiles and vans with extended oil change intervals.

DA6378 1 litre
DA6379 5 litres
VMO SAE 5W-40
Universal synthetic low friction motor oil especially developed for pump-jet diesel engines. Moreover, this lubricant is suitable for gasoline and diesel engines in passenger cars and vans with and without turbo charger. Due to the specific composition Ravenol VMO SAE 5W-40 is suitable for use for several of the latest OEM requirements.

DA6291 1 litre
DA6292 5 litres
FO 5W-30
Ravenol FO 5W-30 is a fuel economy engine oil, special product for modern gasoline and passenger car diesel engines.

DA1804 1 litre
DA1813 5 litres
Eco Synth ECS 0W-20
A state-of-the art PAO (Polyalphaolefin) based fully synthetic, smooth-running low-friction motor oil with Ravenol's patented USVO® and CleanSynto® technologies and is recommended for modern car petrol and diesel engines, including supercharged models, and for direct injection engines and hybrid vehicles under all operating conditions.

DA1805 1 litre
DA1814 5 litres
FDS 5W-30
A PAO (Polyalphaolefin) based, fully synthetic low friction motor oil with especially USVO® and proven CleanSynto® technologies for petrol and diesel engines with and without turbo-charging and direct injection. Ideal for use in all driving conditions such as in extreme stop-and-go traffic and high-speed motorway driving. It minimizes friction, wear and fuel consumption.

DA1806 1 litre
DA1815 5 litres
FES 0W-30
Fully synthetic, smooth-running low-friction motor oil with special USVO® and proven CleanSynto® technologies and is recommended for modern passenger car fuel and diesel engines, including supercharged models, and for direct injection engines under all operating conditions. Using additives with low ash content it offers excellent cold start characteristics.

DA1807 1 litre
DA1816 4 litres
SSV Fuel Economy SAE 0W-30
Achieves a high viscosity index and a considerable fuel saving through of its formulation with special base oils and PAO. The excellent cold start behaviour provides an optimum lubricating safety during the cold run phase.

DA1808 1 litre
DA1817 5 litres
VDL 5W-40
Full synthetic engine oil designed for modern high performance diesel engines where improved fuel efficiency and extended protection are demanded. Minimum evaporation properties, very high wear protection and improved detergent and dispersant characteristics make this suitable for use over extended drain intervals and the harshest of conditions.

DA1809 1 litre
DA1819 5 litres
VST 5W-40
Utilizes the positive properties of tungsten to smooth the surface structure of the motor, significantly improving mechanical efficiency. This guarantees optimal operation in all driving conditions, extreme stop and go in heavy traffic to high speed driving on motorways.

DA6368 1 litre
DA6369 5 litres
TSi SAE 10W-40
TSi 10W-40 is suitable for year round use in modern petrol & diesel cars. For use in turbo & non-turbocharged vehicles, multi-valve & direct injection diesel engines and is catalyst-compatible. Due to the specific high quality composition of TSi 10W-40, meets and exceeds the requirements of many leading OEM's, it also carries manufacturer approvals.

DA6380 1 litre
DA6381 5 litres
Turbo-C HD-C SAE 15W-40
It is perfectly suited as all-season motor oil for the mixed fleet. It can be used in the commercial vehicle sector for operation and extended oil change interval (up to 45,000 kilometres are possible) according to manufacturer's specifications.

Ravenol Oil Guide

www.britpart.com/ravenol

Use our handy online Ravenol Oil Guide to find the most suitable oils for your Land Rover - covers from early Defenders right through to current models.

NEW

DA3540 NEW 1 litre
EHS 0W-20
A synthetic, low-friction engine oil with CleanSynto® technology for car petrol and diesel engines, with or without turbo-charging and direct injection. It minimizes friction, wear and fuel consumption, and is suitable for extended oil drain intervals according to manufacturer's instructions.

Transmission Oils

STC4863 1 litre
DA1579 20 litres
ATF 5/4 HP Fluid
Ravenol ATF 5/4 HP Fluid is primarily designed for use in ZF 4HP-series (4HP20, 4HP22, 4HP24) and 5HP-series (5HP18, 5HP19, 5HP24, 5HP30) automatic transmissions.

LR052059 1 litre
DGL SAE 75W-85 GL-5 LS
A fully synthetic multi-grade PAO based hypoid transmission oil meeting API GL-5 specification with a specially co-ordinated additive treatment and 'limited slip' properties for manual transmissions and rear-axles.

TYK500030 1 litre
TYK500030-4L 4 litres
MTF-2 75W-80 Gear Oil
Ravenol MTF-2 SAE 75W-80 is ideally suited to ensure smooth and efficient operation of modern transmissions subject to very high mechanical and thermal loads of gear oils, even at the longest oil change intervals.

LR019727 1 litre
Multi-disc Locking Differentials Semi-synthetic Lubricant
Ravenol MDL multi-disc locking differentials was developed specifically for use in lamella limited slip differentials.

LR022460 1 litre
LR002748 1 litre
ATF T-IV Fluid
Ravenol ATF T-IV Fluid was primarily developed for use in the latest Aisin Warner and Toyota transmissions found in many modern European and Japanese vehicles, and its versatile formulation means it can also be used to replace older T, T-II and T-III fluids where required, as well as fulfilling many other manufacturer requirements.

LR023288 1 litre
DA3240 4 litres
DA1345 20 litres
ATF 8HP
Ravenol ATF 8HP Fluid is an automatic transmission fluid (ATF), produced with a blend of hydrocrack oils & synthetic PAO together with special additives & inhibitors to enable smooth and efficient function of the latest ZF automatic transmissions. Ravenol ATF 8HP Fluid has been formulated specifically for the latest generation of 8-speed ZF auto transmissions and is coloured green for easy identification.

DA6374 1 litre
DA6375 4 litres
ATF T-WS Lifetime Fluid
An automatic transmission fluid based on the latest HC/HT and PAO synthetic technology. Due to the special formulation the durability is up to twice that of a comparable standard ATF oil.

TYK500010 1 litre
TYK500010-4L 4 litres
TYK500010-20L 20 litres
VSG 75W-90 Gear Oil
Suitable for use in both synchromesh and non-synchromesh gearboxes and perfectly suited for use in highly stressed axle drives and differentials. Used in many high performance and motorsport applications as well as for road use in cars where maximum protection and fuel economy are desired.

DA1811 1 litre
DA1820 4 litres
MTF-3 75W
A fully synthetic, fuel efficient gear oil formulated using the latest PAO synthetic technology and special additive systems to combat very high mechanical and thermal loads, even at the longest oil change intervals.

IYK500010 1 litre
IYK500010-20L 20 litres
Transfer Fluid TF-0870
Ravenol Transfer Fluid TF-0870 was developed for use in active transfer case and provides a stable viscosity even under the highest loads.

STC4862 1 litre
STC4862-20L NEW 20 litres
ATF Dexron IIIH
Ravenol ATF Dexron III H was primarily developed for use in automatic transmissions with electronically controlled converter lockup clutch, but also suitable for use as a universal ATF and power steering fluid, especially where Dexron III is the required specification, and is backwards compatible for Dexron II applications.

DA1569 300ml
DA2886 1 litre
AWD-H Fluid
A special high-performance transmission oil suitable for rear AWD coupling control units. Ravenol AWD-H Fluid should be changed every 37,500 miles in order to avoid damage to the powertrain.

STC50531 1 litre
ATF JF506E Fluid
Ravenol ATF JF506E is primarily designed for use in JATCO JF506E 5-speed automatic transmissions used in Land Rover Freelander.

DA1826 1 litre
MTF-1 SAE 75W-85
Full synthetic, low-viscosity transmission oil for manual transmissions, transfer cases and differential gears. Designed to exceed the OEM requirements and specifications for a fuel efficient lubricant which combines outstanding performance at both hot and cold temperature extremes, even with extended oil change intervals.

TYK500050 1 litre
TYK500050-4L 4 litres
TYK500050-20L 20 litres
TYK500050-208L 208 litres
ATF 6HP Fluid
Ravenol ATF 6 HP Fluid was developed specifically for use in the latest ZF 6HP-series transmissions, 6HP19, 6HP21, 6HP26, 6HP28, 6HP32, 6HP34, also for 5-speed automatic transmission 5HP-series. It is backwardly compatible for all earlier versions of ZF 4.

DA6372 1 litre
DA6373 4 litres
ATF Dexron D II
It was developed for the use in automatic transmissions, hydro steering mechanisms, converters and power transmissions and can be used as a universal ATF (automatic transmission fluid) for all vehicles and working machines.

LR003156 1 litre
EPX SAE 80W-90 GL
Ravenol Getriebeoel EPX SAE 80W-90 GL 5 is compatible with all brand-name transmission oils. In case of changing to Ravenol EPX SAE 80W-90 GL 5 flushing is not necessary. It can be used in manual transmissions, axle drives, distributor and intermediate transmissions in vehicles and working machines.

DA3539 NEW 1 litre
ATF 9HP Fluid
Specifically designed for use in automatic ZF transmission from the 9HP-Series, such as 9HP48. It guarantees maximum wear protection in any operating condition. This is a fully synthetic ATF, developed using PAO (Poly-alpha-olefin) blended with special additives and inhibitors to ensure correct functioning of the automatic transmission.

Ravenol Workshop Consumables

Coolants

DA6293 1.5 litres
DA6294 5 litres
Organic Technology Coolant Concentrate
Ravenol Organic Technology Coolant Concentrate is an eco-friendly 1.2-Ethanediol (monoethylene glycol) based silicate, borate, nitrite and phosphate-free coolant for cooling circuits in combustion engines which provides maintenance-free corrosion and frost protection.

DA1812 1.5 litres
DA1821 5 litres
Traditional Technology Coolant Concentrate
An eco-friendly 1.2- Ethanediol (monoethylene glycol) based nitrite, amine and phosphate-free coolant for cooling circuits in combustion engines which provides maintenance-free corrosion and frost protection. The product is formulated as a long-term coolant based on a proven inhibitor development.

Power Steering

STC50519 1 litre
STC50519-20L 20 litres
SSF Power Steering Fluid
Ravenol SSF Fluid is a special hydraulic fluid formulated using the latest fully synthetic technology blended with special ashless additives. It is designed for use from -40°C to +100°C and is therefore recommended for the latest developments in the vehicle market.

Diesel System Cleaner

DA4962 300ml
Diesel System Cleaner
A fuel additive for all diesel engines which cleans the fuel injection system and restores the full power of the engine, whilst increasing operational safety and improving fuel economy. It is a cleaning agent for electronically and mechanically controlled fuel injectors which allows for combustion with a low degree of soot and reduced particles whilst preventing rattling noises and rough idling.

Engine Cleaner

DA3940 NEW 300ml
Engine Cleaner
An engine flush suitable for all petrol and diesel engines (with and without catalytic converter) for use before changing the oil. It effectively breaks down dirt accumulation sludge and carbon deposits in the engine using intensive-cleaning surfactants and removes these effectively when draining used oil, thus improving combustion and fuel efficiency.

Grease

DA4960 400g
DA4961 5kgs
Multi-purpose Grease
Ravenol Mehrzweckfett OML is a lithium based multi-purpose grease with oxidation and corrosion protective additives.

Interior Cleaner

DA1628 400ml
Interior Cleaner
Ravenol Cockpit-Spray is a highly effective care spray for the cleaning and maintenance of plastic, artificial and natural leather interior surfaces of all types of motor vehicles. Silicone-free formulation leaves a silky shine and protects treated surfaces from the effects of oxidative ageing, as well as helping to protect surfaces against the effects of intense sunlight such as fading and cracking. The anti-static properties ensure surfaces remain dust-free for longer and the product leaves a pleasant perfumed odour after use.

Ravenol the renowned German Manufacturer is one of the most technically innovative companies in the lubricants industry. Ravenol prides itself on the special formulations, unique design and its exacting manufacturing processes that are individually tailored to suit customer needs. This is why the demand for Ravenol product is growing worldwide. In the advanced in-house laboratories products are carefully developed to meet and exceed the requirements of the major automotive manufacturers and to comply with all current and future regulations. Across the globe, Ravenol has earned an enviable reputation for innovation and technical excellence. Ravenol have developed an extensive range of products meeting and exceeding Land Rover requirements resulting in quieter running engines with improved fuel economy and smoother gear changes. Whichever Land Rover/Range Rover model you drive, wherever and however you drive it, Ravenol have developed a lubricant to meet your specific requirements. We at Britpart not only recommend the use of Ravenol lubricants in your Land Rover, but use them in our own fleet of Land Rovers, trucks and vans.

Oil Analysis Kit

DA6358
Lubetrend Analysis is the complete fluid analysis programme performed by the Number One oil condition monitoring laboratory in the UK with over 35 years of experience in monitoring all types of fluid lubricated and insulating oil systems; giving you the confidence to act. Regular checks on the condition of the oil can extend the life of both engine and transmission and help spot potential problems long before they materialise.

Extend the life of both engine & transmission

Our aim is to help you succeed in making the most of your vehicles and machinery through reducing unplanned downtime, extending oil drains and detecting potential future failure - before they happen. Essential not only for all aspects of motorsport - we'd recommend taking a sample after each event - but also recommended for your everyday transport as part of the annual service. The price includes the sample kit and the full analysis report. Postage to the laboratory is your responsibility.

Castrol Classic Oils & Greases

Castrol Classic Oils Workshop Consumables

DA6260	Classic XL 20W-50	1 gallon tin
DA6261	Classic XL 20W-50	1 litre tin
DA6704 NEW	Classic XL 20W-50	20 litre drum

A conventional multi-grade engine oil of good all round performance for pre-1980 modern classic cars

DA6264	EP140 Extreme Pressure API GL4	1 litre tin

Originally specified grade for Series steering boxes and relays

DA6265	EP90 Extreme Pressure API GL4	1 litre tin
DA6705 NEW	EP90 Extreme Pressure API GL4	20 litre drum

Extreme pressure multi-purpose gear oil for hypoid and non-hypoid applications

DA6268	TQF	1 litre tin
DA6706 NEW	TQF	20 litre drum

Transmission fluid for automatic gearboxes, incorporating additives to provide wear, oxidation and corrosion resistance

DA6269	Red Rubber Grease	500g pot

A special, rubber compatible grease for use on hydraulic brake and clutch components where hardening or swelling of rubber must be avoided. Useful in assembly of rubber components for brake, clutch and suspension units.

DA1595	Water Pump Grease	500g pot

Hard consistency grease with high water resistance and excellent sealing properties. Also ideal for protecting brake pipes and fittings.

Castrol Classic Oils Merchandise

DA6270	Castrol Tin Mug - Drink your tea in a nostalgic way with this large tin mug
DA6274	Baseball Cap - Smart green cap with embroidered Castrol logo. One-size fits all
DA6275	Window Service Sticker - Never forget to change your oil with this self-cling window sticker with Castrol logo on one side and Change Due boxes on the other. 3" diameter.

Castrol Pouring Jugs

Use either to decorate your workshop or study or to accurately measure lubricant quantities shown in imperial measures in vehicle handbooks

DA6271	Half pint
DA6272	Pint
DA6273	Quart (two pints)

Classic Pump Oil Cans

The classic Castrol oil applicator. Pump action screw top cans, supplied with exchangeable fixed and flexible applicators. With printed 1946 logo on one side. These period style oil cans are great for lubricating hard to reach places.

DA3926 NEW	200ml
DA3927 NEW	500ml

Castrol GTX

DA3542 — 5 litres

Liquid Engineering from Castrol Classic Oils – ***the original is back***

Castrol GTX Classic 10W/40. A premium mineral oil suitable for vehicles from 1978 to 1993, extending the Classic range to cover younger and modern classics. Supplied in the traditional 5 litre tin with the iconic GTX stripe branding, GTX Classic will appeal to owners who want period correct oil with a period correct look.

- Mineral 10W/40, suitable for vehicles 1978 to 1993 where a 10W/40 oil is specified
- Period correct balanced additives for superior wear and corrosion protection, including ZDDP
- Can be used in vehicles either with or without a catalytic converter
- Suitable for both naturally aspirated and turbo-charged vehicles
- Original handbook recommendation for many vehicles
- Supplied in original style 5 litre can
- API: SG

Oil is too small a word for it. Thin in cold, thick in heat; cooling, smoothing, protecting: pliant as liquid, tough as steel, always busy under gigantic stress. It is the result of over eighty years of single minded technical genius. More than just an oil, it is Castrol GTX – Liquid Engineering.

For more information on each product and images visit **www.britpart.com/castrol**

DA3926

DA3927

Britpart

Cataclean Cleaners

DA3325
Cataclean Diesel
500ml

- Improves fuel economy
- Reduces emissions
- Restores performance
- Protects & maintains catalytic converter
- Reduces risk of diesel particulate filter (DPF) clogging

Cataclean is a fuel and exhaust system cleaner. Cataclean will remove the harmful carbon build-up in the valves, injectors, oxygen sensors, EGR valve, and catalytic converter. Cataclean will also reduce the particulates in a DPF, preventing clogging. Cataclean can improve fuel economy, reduce emissions, restore performance and extend the life of engine/exhaust parts.

DA3326
Cataclean Petrol
500ml

- Improves fuel economy
- Reduces emissions
- Restores performance
- Protects & maintains catalytic converter

Cataclean is a fuel and exhaust system cleaner. Cataclean will remove the harmful carbon build-up in the valves, injectors, oxygen sensors, EGR valve and catalytic converter. Cataclean can improve fuel economy, reduce emissions, restore performance and extend the life of engine/exhaust parts.

CATACLEAN

DA3327
Cataclean Work Shop
5 litres

- Improves fuel economy
- Reduces emissions
- Restores performance
- Protects & maintains catalytic converter
- Reduces risk of petrol particulate filter (PPF) and diesel particulate filter (DPF) clogging

Cataclean 5 litre is a bulk product for the automotive workshop. Cataclean is a fuel and exhaust system cleaner. Cataclean will remove the harmful carbon build-up in the valves, injectors, oxygen sensors, EGR valve, and catalytic converter. Cataclean will also reduce the particulates in a PPF, preventing clogging. Cataclean can improve fuel economy, reduce emissions, restore performance and extend the life of engine/exhaust parts.

AdBlue

All new Euro 6 engines now have to have a diesel additive to reduce the emissions. The AdBlue liquid - called Diesel Exhaust System does this. Newer Land Rovers are using this more additive than expected, so there is a need for people to replace the fluid used. If the fluid runs out, the engine stops and won't restart without a visit to the Land Rover dealership.

DA1622 1 x 10 litre drum with spout
DA1622X NEW 60 x 10 litre drums with spout

- Conforms to ISO22241 as specified by all vehicle manufacturers. Every batch is independently tested before release
- Suitable for diesel vehicles & machinery fitted with SCR emission removal systems. If in doubt, refer to operating manual
- 32.5% solution of pure urea in demineralised water
- Reduces Nitrous Oxide (NOx) emissions
- Ready to use

LR072258G
4 x 1.89 litre (½ gallon) bottles
Previously this has only been available through Land Rover, now Britpart have the OE supplier product in stock

DPF Cleaner

DA6859 325ml
Wynn's Diesel Particulate Filter Cleaner
Chemical treatment for diesel engines that reduces soot emissions, cleans and regenerates the particulate filter.

- Reduces soot formation during the fuel combustion cycle.
- Clears and regenerates blocked soot filters without dismantling.
- Complete burn-off of soot particles during driving.
- Avoids frequent maintenance costs related to the manual regeneration of the blocked soot filter
- Optimizes combustion and lowers fuel consumption
- Especially suited for city driving cycles
- Can be used in combination with built-in regeneration systems
- Ultra-fast result!

Dr. Tranny® Instant Shudder Fixx™

DA6809 2fl oz (59.2ml)
Packaged in a uniquely engineered two ounce application tube Dr. Tranny® Instant Shudder Fixx™ is compatible with conventional or synthetic automatic transmission fluids. This formulation of friction modifiers made of synthetics and synthetic esters is concentrated five times.

- A concentrated friction modifier formulated specifically for instantly eliminating torque converter lock-up shudder
- Provides 4x's less wear than regular ATF
- The original shudder fix
- Compatible with conventional and synthetic ATFs
- Commonly used as a diagnostic tool to determine if a problem is fluid related or a more mechanical fix is required

Britpart

Trade Tack Stab

DA6348
Super Bond Spray Adhesive
250ml aerosol

- High strength
- Variable spray
- Quick
- Clean
- High tack/long tack
- Very fast set

Ideal for bonding and laminating of polyurethane foam, polystyrene foam, fibres, fabrics & felts etc to themselves.

Lead Replacement Petrol Additives

DA6267
Classic Valvemaster™ Plus 250ml bottle - treats 250 litres
Valvemaster Plus with its unique phosphorus formula provides the ultimate protection against valve seat recession. Valvemaster Plus contains Octimise-Plus friction modifier for increased acceleration and economy, increasing acceleration by up to 3% and increasing economy by up to 2%. It also contains Etha-Guard ethanol stabiliser, enabling the use of Ethanol E5 and E10 petrol, preventing acidity, protecting against corrosion and keeping the fuel system clean. Valvemaster Plus can be used with 95, 97, 98, 99 or higher octane rated petrol containing E5 or E10 ethanol.

- The best protection after lead against valve seat recession
- Increases fuel economy by up to 2%
- Protects your engine under all driving conditions
- Keeps fuel systems clean
- Protects against corrosion
- Increases acceleration by up to 3%

DA6266
Classic Valvemaster™ 250ml bottle - treats 250 litres
Valvemaster with its unique phosphorus formula protects against valve seat recession under all driving conditions. Containing Etha-Guard ethanol stabiliser that protects and enables use of ethanol E5 and E10 petrol in classic cars and pre-1996 petrol vehicles. For use with 95, 97, 98, 99, or higher octane ethanol E5 and E10 petrol. Valvemaster is the recommended solution for vehicles requiring valve seat protection.

- The best protection after lead against valve seat recession
- Protects your engine under all driving conditions
- Keeps fuel systems clean
- Protects against corrosion

Swivel Housing Grease

STC3435 370g bottle
STC3435S 370g sachet

- Formulated for all Land Rover models with ball type swivel housings
- Lubricates swivel pins and housing seals, protects spheres
- A semi-fluid grease designed to withstand shock loading in oscillating joints
- Reinforced with solid lubricants, highly resistant to water and salt corrosion
- Better lubrication while driving, less leaks while standing
- One shot gives 'filled for life' protection

Coolants/Anti-freeze

LR181438

Morris
Extended life coolant concentrate

LR181438 NEW	1 litre
LR181439	5 litres
STC50530-20L	20 litres
LR181439-20L	20 litres

Texaco - EGX concentrate

LR181439G NEW	5 litres

500ml
LR052653G
1 litre
LR067409 NEW
1 litre
Castrol React SRF Racing Brake Fluid. A high performance brake fluid of special value in competitive motor sport where extreme braking conditions are encountered.

Bearing Grease

DA2391
10 x 20ml sachets of bearing grease

Friction Modifier

DA6296
850ml
Oil additive
Friction modifier

TetraBOOST

TetraBOOST E-Guard Road
DA3672 NEW 1 x 50ml bottle
DA2912 12 x 50ml bottles
TetraBOOST E-Guard Road is a potassium-based lead replacement, octane booster and ethanol corrosion inhibitor. Designed for cars without hardened valve seats, to give protection from problems resulting from modern ethanolised petrol.

- One 50ml bottle for up to 50 litres of fuel.
- Protects against ethanol induced corrosion
- Inhibits valve seat recession
- Raises octane by up to 2 points

TetraBOOST Fuel Life Extender
DA3671 NEW 1 x 50ml bottle
DA2911 12 x 50ml bottles
TetraBOOST Fuel Life Extender addresses the increasingly common problem of today's petrol 'going off', which causes difficult starting after a period of storage.

- One 50ml bottle for up to 50 litres of petrol
- Extends petrol storage life
- Slowly disperses existing sludge
- Ideal for winter storage

TetraBOOST

CV Joint Grease

DA2833
CV Joint Grease
90g sachet

Air-con Compressor Oil

DA3265
500ml
Mahle PAO AA1 - PLUS UV air con compressor lubricant for air conditioning systems in vehicles with conventional petrol or diesel engines.

Lubegard® Gear Fluid Supplement

DA1905 237ml bottle

Lubegard® Gear Fluid Supplement is designed for use in all manual transmissions, transaxles and final drives that require gear oil. Lubegard® contains LXE®, (liquid wax esters) and their derivatives, a blend of high grade petroleum oil, synthetic base oils and a complete anti-wear formula. Lubegard® is designed to provide high temperature stability to prevent harmful deposits on synchros and gears. For use in all manual transmissions, manual transaxles and final drives that require gear oil.

- Reduces drive train power loss
- Lowers temperature and extends fluid life
- Improves heat transfer from the fluid to the case wall and out the gear box
- Improves all cold weather stiffness
- Improves all manual & synchromesh transmission shifting characteristics
- Reduces tooth drag and absorbs shock loads, thus improves the life of all gear units
- Lowers friction on bearings and gears with high wiping stresses, especially hypoid gears
- Minimizes oxidation and varnish deposits
- Suppresses lubricant foaming
- Safe for new MTF Fluids
- Increases power transfer, reduces energy consumption
- Decreases equipment operating and maintenance costs

Lubegard® Gear Fluid Supplement Provides:

More Power

- Reduces back-lash frictional (i.e. tooth) drag in differentials allowing more horsepower to the wheels
- Lower operating temperatures
- Reduces rolling and sliding friction in the gears
- Reduces friction between the bearing rolling elements and their separators
- Improves heat transfer from the fluid to the case wall and out of the gear box

Longer Equipment Life

- Reduces wear on gears and rolling elements
- Lowers operating temperature and prolongs fluid life
- Enhances the stability of the gear oil
- Contains no shear-sensitive viscosity components
- Will not cause sludge or varnish
- Contains no harmful solid lubricants or corrosive chemical enhancers

Economy

- Ratio used is at 3 fluid oz. to a quart = 1 part in 10
- Saves on downtime by extending gear fluid changes

Duxback

DA1649
Duxback One Car Kit

Duxback is a revolutionary glass treatment that creates a 'hydrophobic' effect on automotive glass. Originally developed for aviation and applied to Boeing cockpit glass, a Duxback treatment greatly improves safety when driving in pouring rain especially at night. When driving over 40mph, rain water will be blown straight off the glass, no need for wipers! In wintertime, ice will either not stick to the glass or will be much easier to remove. Research has shown that visibility is improved by 35% when driving in pouring rain. Furthermore a driver's ability to identify a small object when driving in foul conditions is improved by 25%. A 25% improvement in reaction time is 58 feet at 40mph. Enough to save a life! Duxback is a certified product approved by TÜV Thüringen

- 35% Improved visibility
- 25% Improved reaction times
- 58ft Better reaction distance

35% Improved Visibility

Evans Waterless Coolants & Prep Fluid

Power Cool 180° & Classic Cool 180°

Benefits Over Water-based Coolants

Eliminates Overheating
Evans Waterless Coolants have a boiling point above 180°C and will not vaporise, thus eliminating overheating, boil-over and after-boil.

Reduces Pressure
Evans Waterless Coolants generate very low vapour pressures reducing strain on engine hoses and cooling system components.

Prevents Corrosion
Water promotes corrosion via oxidation and electrolysis - Evans Waterless Coolants contain no oxygen and are virtually non-conductive effectively preventing corrosion.

Maximise BHP
Evans Waterless Coolants eliminate pre-ignition and detonation caused by overheating - thus increasing combustion efficiency and delivering more power.

Stops Erosion
Evans Waterless Coolants stop cavitation and eliminate liner and cooling pump erosion.

Freeze Protection
Evans Waterless Coolants freeze below -40°C

Non-Toxic
Evans Waterless Coolants are proven to be non-toxic. Standard anti-freeze is toxic and known to kill pets.

High Performance Synthetic Formula

Advanced Cooling for Classic Cars

Power Cool 180°

DA3434	25 litres
DA3435	5 litres
DA3436	2 litres

Description
Waterless engine coolant for modern & performance engines.

Application
For use in modern & performance car engines and associated cooling systems fabricated from aluminium, aluminium alloys, steel and copper components.

Typical Characteristics
Physical state : Low viscosity synthetic liquid
Boiling point : Above 180°C
Freezing point : Below -40°C
Colour : Red clear
Odour : Almost odourless
Taste : Slightly sweet, non-toxic but not recommended for human consumption

4-Life Durability
Evans Waterless Engine Coolants have been proven to last >20 years and a million miles in service without the need for replacement.

ASTM & ISO Standards
Evans in association with ASTM committee D15.22 have developed a specific range of standards for waterless engine coolants. All Evans Coolants are manufactured in accordance with certified ISO procedural standards.

Classic Cool 180°

DA3437	25 litres
DA3438	5 litres
DA3439	2 litres

Description
Waterless engine coolant for classic cars.

Application
For use in classic car engines* primarily fabricated from cast iron with carbon steel, copper & aluminium components. *Not suitable for engines using thermo-syphon cooling systems

Typical Characteristics
Physical state : Low viscosity synthetic liquid
Boiling point : Above 180°C
Freezing point : Below -40°C
Colour : Green clear
Odour : Almost odourless
Taste : Slightly sweet, non-toxic but not recommended for human consumption

4-Life Durability
Evans Waterless Engine Coolants have been proven to last >20 years and a million miles in service without the need for replacement.

ASTM & ISO Standards
Evans in association with ASTM committee D15.22 have developed a specific range of standards for waterless engine coolants. All Evans Coolants are manufactured in accordance with certified ISO procedural standards.

Evans Prep Fluid

Benefits

Flushing
Evans Prep Fluid is formulated to hygroscopically absorb water whilst flushing loose dirt and scale from the cooling system prior to filling with Evans Waterless Coolant.

No Water
Prep Fluid contains no water eliminating the problems caused by water based coolants, increasing reliability and extending engine life.

Non-Toxic
Prep Fluid has been tested and certified as non-toxic by an EPA approved laboratory. It is biodegradable and will not bio-accumulate.

DA3440	25 litres
DA3441	5 litres
DA3442	2 litres

Description
Waterless engine flush for all engine types

Application
Designed as a preparatory fluid to help remove residual water from engine cooling systems as part of the fluid conversion process.

Typical Characteristics
Physical state : Low viscosity synthetic liquid
Boiling point : Above 180°C
Freezing point : Below -40°C
Colour : Clear
Odour : Almost odourless
Taste : Slightly sweet, non-toxic but not recommended for human consumption

ASTM & ISO Standards
Evans in association with ASTM committee D15.22 have developed a specific range of standards for waterless engine coolants. All Evans Coolants are manufactured in accordance with certified ISO procedural standards.

Degreasing Fluid

DA3544
Lydian Degreasing Fluid
5 litres
Lydian Degreaser is a ready for use, blue coloured emulsifiable fluid, manufactured from a mixture of hydrocarbon solvents and a non-ionic detergent. This powerful degreasing formulation acts by splitting the bond between solid dirt and oily matter, so that the surface can then be washed clean with water. It has an extremely effective cleaning action on all surfaces, even at low ambient temperature. Lydian is non-caustic, it will not corrode metal parts and washes away cleanly without leaving any harmful or corrosive residues on the surfaces.

Features
- Highly effective cleaning action
- Easy to remove with water
- Non-caustic
- Safe on metal parts

Applications
Recommended for removal of oil grease and dirt from metal, paintwork and concrete. Typical uses include cleaning used engines prior to overhaul, removing build-up on pipes and steelworks, cleaning concrete and brickwork. Many uses can be found in factories, yards and compounds, where oil and grease build up is a problem, or perhaps even dangerous for vehicles and pedestrians.

Lydian is always more effective if it can be allowed to soak into the dirt and surfaces for several hours, or even overnight before hosing off. Lydian is easily applied by spraying, brush or dipping. Do not use Lydian on Tarmac as it will soften this type of surfacing. It is also not advisable to use Lydian in parts washers with plastic components as its aggressive nature may harm them. Under no circumstances should this product, neat or diluted, be disposed of by putting into drains, soil or water courses.

Raptor Aerosols

Raptor 2K Multi-Use Protective Coating

DA6644	Black	1 x 400ml aerosol
DA6642	Black	6 x 400ml aerosols
DA6665	White	1 x 400ml aerosol

Use 2K Raptor aerosols to touch up your Land Rover's lower panels, wheel arches, bumpers, roll bars and many other vulnerable areas.

- Superior durability
- UV Protection
- Chemical and abrasion resistant
- Water resistant finish keeps moisture out, protecting against rust and corrosion
- Use on multiple substrates from original paint, metals, rigid plastic, fibreglass, polyester body fillers, wood and more
- Ideal for small jobs and bed liner repairs
- Easy no mess, no clean-up application vs traditional spray equipment
- Easy to activate
- Create a range of textured 'gun' finishes from one can
- Patented delivery system

Achieve different textures with your aerosol

- Flat rippled
- Matt rough
- Coarse ripple
- Smooth fine silky

Easy to activate using the valve on the base. No measuring required.

Raptor 1K Multi-Use Protective 1k Aerosol

DA6650 Black 1 x 450ml aerosol

Raptor multi-use protective coating protects a variety of surfaces from impact, scratches, corrosion and water damage. Ideal for vehicles, trailers, railings, stairs, metal furniture and more.

Its 1K formulation gives a durable, abrasion resistant finish with excellent adhesion to metal, aluminium, fibreglass, plastic and wood.

Clog free nozzle and easy to use, it dries to form an attractive, textured finish that resists fading from the sun.

- Textured finish
- Durable and gives good corrosion resistance
- Excellent adhesion to prepared metal, aluminium, fibreglass, plastic and wood
- Ideal for both the automotive and DIY market
- No need for an air-fed mask or spray booth

Ready to go Raptor

3 x Tougher Than Other 1K Aerosols!

See it in use at
www.britpart.com/DA6650

Touch Up Paint Pens

- TUPP single stage paint pen is ergonomic, light and easy to use
- It allows quick, one-step repairs of small scratches and nicks that may appear on any painted surface
- It will meet the highest colour matching expectations
- The patented valve mechanism and gravity action of the paint pen will give you an even flow of all components assuring the same particularities and brightness of the original finish
- An edged polyester fibre tip allows accuracy and can be removed to be cleaned or replaced
- The paint pen has a closed opaque container preventing accidental spills, hardening of the paint and colour change due to light exposure before the application

The best you can get without repainting!

The Pen - Paint is held in a barrel and automatically dispensed through a fine felt tip, providing the user unparalleled control over their painting instrument.
The Paint - High quality urethane paint is used which is the same as your vehicles manufacturer. The paint provides the user with a much closer colour match than other companies which primarily use lacquer paints.
The Results - The best you can get without refinishing the damaged areas.
More details and FAQs can be found at www.britpart.com/paintpens

Raptor Protective Coating

RAPTOR

TOUGH & TINTABLE protective coating

Raptor is a highly durable protective coating that ensures protection against mechanical damage, fuels, hydraulic oils, rust, corrosion, salt water, damp, extreme temperatures and off-road muddy good fun.

Surfaces*
- Painted surfaces
- Aluminium
- Steel
- Bare metal
- GRP
- Galvanised
- Plastics
- Wood
- Polyester fillers
- Glass
- SMC

Usage
- Automotive
- Off-road
- Marine
- Commercial
- Industrial
- Agricultural

*Some substrates require additional surface preparation before applying Raptor.

For full product details and a video to see how easy it is to use visit

www.britpart.com/raptor

One half of this Discovery 1 corner bumper is a very tired looking, tatty and weather beaten bit of plastic. The other half is transformed with a coating of Raptor and it will stay like this as Raptor is UV resistant.

Customisable
Raptor is available in black and tintable versions. The tintable version can be altered to suit the colour of your vehicle by adding a small amount of automotive solvent paint. Raptor can be applied as a smooth finish through to a very coarse finish.

Features & Benefits
- Easy to use: simply FILL - SHAKE - SHOOT®
- Easy to clean
- Provides excellent UV protection
- Waterproof - provides a water tight seal, keeping water out and protects new surfaces against rust
- Sound deadener (reduces noise and vibrations)
- Protects against rust, corrosion, salt, damp and extreme temperatures
- High resistance to everyday and off-road use
- Abrasion and stain resistant
- Dries rapidly, is flexible
- Provides excellent adhesion
- No need to wax after application

Achieve Different Textures
- Flat rippled
- Matt rough
- Coarse ripple
- Smooth fine silky

Application Areas
- Chequer plate and grills
- Loading area
- Underbody protection
- Bumpers and bull bars
- Sills, side rails and steps
- Wheels and wheel arches
- Part and full vehicle overspray
- And much more...

Application Methods
- Raptor application gun
- Roller
- Brush

Protect your Land Rover with Raptor

Black Finish

DA6382	Raptor 4 litre kit - black 4 x 750ml Raptor & 1 x 1 litre hardener
DA6497	Raptor 1 litre kit - black 1 x 750ml Raptor & 1 x 250ml hardener
DA6370	1 x 5 litres of black Raptor

White Finish

DA6649	Raptor 4 litre kit - white 4 x 750ml Raptor & 1 x 1 litre hardener

Tintable Finish

DA6384	Raptor 4 litre kit - tintable finish 4 x 750ml Raptor & 1 x 1 litre hardener
DA6498	Raptor 1 litre kit - tintable finish 1 x 750ml Raptor & 1 x 250ml hardener

RAPTOR

Raptor Colour Pouches

DA3332	Beige	RAL 1001
DA3334	Orange	RAL 2008

45ml Pouch. Raptor Colour Pouches are a highly concentrated tint for use with Raptor Tintable Protective Coating. Mix Raptor Colour Pouches with Raptor Tintable Base (they can fit in the bottle!) to give a rich, UV resistant colour that won't fade even after years in the sun. Available in three colours, users can choose either a single colour or use different colours to create their own multi-coloured, custom look. Simple to use. Add one Colour Pouch to Tintable Raptor bottle and hardener. Shake the bottle for 2 minutes to make sure the colour is thoroughly mixed. Ready to apply.

DA6386
Schutz Application Gun
Specially constructed for the application of Raptor. Screws directly onto plastic bottle.

DA6447
Professional Automotive Gravity Fed Spray Gun
1.7 tip with excellent transfer efficiency.

DA6617
Vari-nozzle Spray Gun
Delivering a professional, consistent finish with the ability to customise your texture. Locking nozzle for consistency and repeatability.

Degreaser Slow

DA6390	1 litre tin
DA6391	5 litre tin

Anti-static and anti-silicone panel wipe. Slow evaporation ideal for larger panel repairs. Aggressive degreasing action removes contaminants including silicones. Carefully formulated to avoid any attack on existing paint films.

DA6393 450ml aerosol
ACID#8™: Acid Etch Primer
Promotes paint adhesion to difficult substrates such as galvanised steel & aluminium.

DA6394 450ml aerosol
GRIP#4™: Universal Adhesion Promoter
Ready for use universal adhesion promoter for paints, adhesives and sealants. Ideal for difficult to reach areas such as around door handles and sills. Replaces the need for abrasion and prevents lifting.

DA3344 450ml aerosol
WIPE #6 Solvent-Based Degreaser
An anti-static, anti-silicone degreaser that removes contaminants including wax, grease and silicones. Fast evaporating for localised repairs. Formulated to avoid attack on existing paint film. Can be used on bare metal and existing paint surfaces.

DA6484 200g sachet
Raptor Traction
Slip resistant additive. 1 sachet needed for 1 litre Raptor. BSI Kitemarked.

DA6653
Tray & Rollers
Specifically designed to work with Raptor and to provide a great textured finish. 1 x tray & 2 x 4" rollers.

DA6396 140m roll with 350 sheets
Panel Wipe Cloths
White wipe that leaves the surface clean, completely grease & fibre-free. Convenient centre-feed box dispenser.

DA6397 25 qty
Mixing Cups
Clear plastic 1,300ml mixing cups

DA6398 100 qty
Wooden Mixing Spatulas

Raptor Anti-corrosion Epoxy Primer

Raptor Anti-Corrosive Epoxy Primer is a 2K high performance primer specifically designed to be used under Raptor Protective Coating to further extend the protective and anti-corrosive properties of Raptor.
The advanced resin technology in Raptor Anti-Corrosive Epoxy Primer improves adhesion to bare metal and most other prepared surfaces. It contains a blend of anti-corrosive additives to inhibit rust and corrosion.

- Easy and convenient - activate using the valve on base
- No need for spray equipment
- Ideal for both consumers & professionals

Dinitrol Products

These rustproofing kits are designed for those who don't have access to a compressor or air supply.

DA1985
Rust Proofing Aerosol Kit - Large Car
7 x Dinitrol 3125 Cavity Wax - 500ml aerosol
10 x Dinitrol 4941 Black Underbody Wax - 500ml aerosol
1 x Dinitrol RC900 Rust Converter - 400ml aerosol
2 x 600mm Extended nozzle for aerosols
50 x 10mm Black tapered plastic plugs
1 x Aerosol application trigger attachment

DA1986
Rust Proofing Aerosol Kit - Land Rover
7 x Dinitrol 3125 Cavity Wax - 500ml aerosol
5 x Dinitrol 445 Black Stone Chip - 500ml aerosol
5 x Dinitrol 4941 Black Underbody Wax - 500ml aerosol
1 x Dinitrol RC900 Rust Converter - 400ml aerosol
2 x 600mm Extended nozzle for aerosols
50 x 10mm Black tapered plastic plugs
1 x Aerosol application trigger attachment

DA1989
Rust Proofing Aerosol Kit - New Vehicle
7 x Dinitrol 77B Brown Cavity Wax - 500ml aerosol
5 x Dinitrol 445 Black Stone Chip - 500ml aerosol
5 x Dinitrol 4941 Black Underbody Wax - 500ml aerosol
1 x 600mm Extended nozzle for aerosols
50 x 10mm Black tapered plastic plugs
1 x Aerosol application trigger attachment

These rustproofing kits are designed for those who have access to a compressor or air supply and includes an undercoating gun for easy application.

DA1987
Rust Proofing Litres kit - Large Car
4 x Dinitrol 3125 Liquid Cavity Wax - 1ltr bottle
6 x Dinitrol 4941 Black Underbody Protect 1ltr bottle
1 x Dinitrol RC900 Rust Converter - 400ml aerosol
1 x Shutz Gun
50 x 10mm Black tapered plastic plugs
1 x 600mm Extended nozzle for aerosols

DA1988
Rust Proofing Litres Kit - Land Rover
4 x Dinitrol 3125 Liquid Cavity Wax - 1ltr bottle
3 x Dinitrol 445 Black Stone Chip - 1ltr bottle
3 x Dinitrol 4941 Black Underbody Protect - 1ltr bottle
1 x Dinitrol RC900 Rust Converter - 400ml aerosol
1 x Shutz Gun
50 x 10mm Black tapered plastic plugs
1 x 600mm Extended nozzle for aerosols

DA1990
Rust Proofing Litres Kit - New Vehicles
4 x Dinitrol 3654 ML4 Cavity Wax - 1ltr bottle
3 x Dinitrol 445 Black Stone Chip - 1ltr bottle
3 x Dinitrol 4941 Black Underbody Protect - 1ltr bottle
1 x Shutz Gun
50 x 10mm Black tapered plastic plugs

Dinitrol 77B
DA1984 500ml aerosol
DA1982 1 litre canister
Dinitrol 77B is a corrosion preventive fluid, designed for long-term protection against corrosion and, due to its residual hard film affords some protection against mechanical wear. Dinitrol 77B contains environmentally acceptable low aromatic solvents, which once evaporated leaves a thick, brown waxy film. Dinitrol 77B is primarily designed for cavity protection but may also be used for storage, transport and underbody protection.

Dinitrol 3125 HS
DA1991 500ml aerosol
DA1997 1 litre canister
Dinitrol 3125 HS is designed for application mainly as a cavity protection and a thin underbody coating. Main objects to be treated are used vehicles with some corrosion present. For improved performance on more corroded surfaces, Dinitrol ML or Dinitrol ML HS can be used as a pre-treatment. The slightly thixotropic nature of the product ensures an evenly applied film to the required thickness and strength.

Dinitrol 3654 / ML 4
DA1992 1 litre canister
The product is designed for application in closed cavities, doors and other parts. Dinitrol 3654 is also designed for use on spare parts etc, which are to be stored for long periods.

Dinitrol 4941
DA1996 500ml aerosol
DA1995 1 litre canister
Dinitrol 4941 is a black underbody chassis coating that contains self-healing properties to recover any small damaged areas within the coating layer. Once Dinitrol 4941 is applied to the underbody chassis area it seals and protects the surface from rust-accelerating water and oxygen.

Dinitrol Dröhnex 445
DA1994 500ml aerosol
DA1993 1 litre canister
Stone chipping & corrosion protection coating Black coloured long-term protection product against corrosion and stone chipping with a synthetic resin/plastic basis.

Dinitrol 449
DA1980 1 litre canister
Vehicle bitumen based underbody and stonechip coating Dinitrol 449 is an environmentally friendly black coloured bitumen based underbody and stonechip coating with good corrosion protection and sound deadening properties. After curing Dinitrol 449 has a very durable tough and elastic film, which results in a very good stonechip resistance. The product is NOT overpaintable

Dinitrol 977
DA1981 1 litre canister
Dinitrol 977 is a semi-transparent, waterbased liquid anti corrosion coating for the protection of cavity areas where a rust preventative surface is needed. The product is water-repellent and has very good penetrating properties. After drying remains a wax coating which has a good temperature resistance up to ca.+120 deg C and is almost tack free. When dried Dinitrol 977 is heated by sun or by engine-heat, it does not have the typical smell of conventional cavity-waxes.
Dinitrol 449 and Dinitrol 977 can be used together to form a comprehensive water borne corrosion protection system application. Rather than applying both products separately, we recommend a two-layer application method with Dinitrol 977 and Dinitrol 449. This unique combination is very effective on surfaces that are already corroded.

Dinitrol Converust RC 900
DA1998 400ml aerosol
Dinitrol RC 900 actively converts rust on substrates into a stable organic iron complex. Once the product is dry, an impermeable barrier against further corrosion is formed. Dinitrol RC 900 penetrates rust 7 to 10 times deeper than standard rust converters. The product forms a strong dry adhesive film that provides a suitable base for paintwork and other corrosion protection products.

Dinitrol ML
DA1958 500ml aerosol
DA1959 1 litre canister
This oil based brown coloured product is specially designed for applying into closed cavities such as doors, frame members and exterior joints and crevices. Dinitrol ML is a penetrating cavity wax ideal for rust-proofing second-hand vehicles. Can be used as a pre-treatment for Dinitrol 3125HS on more corroded surfaces after prior application of Dinitrol RC900 Converust.

Dinitrol 4010 Corroheat
DA3670 NEW 500ml aerosol
Resistant corrosion inhibitor for surface and engine protection. Dinitrol 4010 Corroheat is versatile and can be used in both open and closed areas. The product penetrates like a cavity wax. It can also be used in electrical systems to avoid galvanic corrosion and other negative influences such as moisture.

Extended Nozzle
DA1983
600mm extended nozzle for aerosols. Ideal for applying the Dinitrol products.

For much more information on each of the Dinitrol products in each kit and the technical data sheets -
www.britpart.com/dinitrol

The Dinitrol DIY Rustproofing Kits are perfect for protecting your own Land Rover. The rustproofing treatments can be applied in 6 easy steps.

Isopon Repair Consumables

ISOPON

Much more information available
www.britpart.com/isopon

DA6609
Scratch & Stone Chip Filler
A durable easy to use filler that's been specially formulated to repair fine scratches, stone chips and other minor damage. Used straight from the tube, it dries fast and is easy to sand smooth ready to prime. Just follow the simple instructions in this guide for a quick and easy repair.

DA6607
Plastic Bumper Filler
A flexible easy to use filler that's been specially formulated to repair scratches and scuffs in most types of plastic. The pre-measured sachets make mixing simple and it can be easily sanded and shaped to the exact bumper contour. Highly flexible with excellent adhesion, the filler gives a smooth durable repair that's ready for priming and painting.

DA6276
Metalik Paste
Long recognised as one of the only body fillers that will adhere to a Land Rover's aluminium body. A two component multi-functional smooth metallic body filler paste used for the filling of holes & imperfections in most substrates. It has been specially formulated for the professional user and combines good filling and smooth spreading properties together with ease of sanding. Metalik Paste is suitable for use on the following surfaces; bare metal, eg steel aluminium and zinc coated substrates (degrease and abrade with P80 paper), original painted surfaces (with the exception of thermoplastic acrylics - degrease and abrade with P180 paper) and GRP (degrease and abrade with P80 paper). 2K polyester body filler contains aluminium flakes and is smooth spreading with good adhesion & pinhole free. Sandable after 20 minutes (at 20C) and can be over-painted with most paint systems including 2K.

DA6606
Stone Chip Protector
Long lasting protection from stone chips and rust. Can be over-painted. Specially formulated to protect sills, side skirts and the underside of vehicles from stone chips and rust. The black, quick drying spray formula is fast, easy to use and gives long lasting protection with just two coats.

Photo by Geoffrey Hodges

U-Pol Tiger Seal

DA6388BLK
Black
DA6388BW
White
DA6388GG
Grey
310ml cartridge
- Non-shrinking
- Permanently flexible
- Can be over-painted

A one component ready to use polyurethane sealant and adhesive that bonds to most materials including steel, aluminium and most plastics. Ideal for sealing and bonding body panels, trims and seams.

Britpart

Hylomar Exhaust Paste & Putty

Hylomar Exhaust Repair Putty
DA6672
250g Tub
Specifically formulated to fill small holes and cracks in exhaust systems thus delaying the need for replacement.

- Water based
- Heat curing
- Withstand high temperatures & pressure
- Specifically designed for use in the assembly of exhaust systems for automotive and other general applications

Hylomar Exhaust Repair Putty is a water based, heat curing product. It has been specifically designed for use in the repair of exhaust systems for automotive and other general applications. The exhaust putty formulation will withstand both pressure and temperatures typically found in vehicle exhaust systems. When heated the product cures to form a gas tight seal.
Appearance - Viscous Dark Grey
Specific Gravity @ 20°C (68°F) (ASTM D4659) 1.89
Service Temperature - Up to 1,000°C

Hylomar Exhaust Assembly Paste
DA6702 NEW 500g Tube
- Water based
- Heat curing
- Specifically designed for use in the assembly of exhaust systems for automotive and other general applications
- Asbestos free
- Withstand high temperature and pressure

Hylomar Exhaust Assembly Paste is a water based, heat curing product. It has been specifically designed for use with exhaust systems for automotive and other general applications. The exhaust paste formulation will withstand both pressure and temperatures typically found in vehicle exhaust systems. Hylomar Exhaust Assembly Paste lubricates joints to make assembly easier and faster.
Appearance - Light Brown/Beige
Specific Gravity @ 20°C - (68°F) (ASTM D4659) 1.89
Service Temperature - Up to 1,000°C

Loctite & Teroson Consumables

Body Repairs

DA6278 DA6614 DA6310

Freeze & Release
DA6310 400ml aerosol
Shock freezing (-43°C) is a quick and convenient method for releasing seized and corroded parts.

Chemical Metal
DA6278 180ml pack
The original rock-hard multi-purpose repair paste.

Leak Fix
DA6614 180ml pack
Seals and repairs leaks in petrol tanks, radiators and sumps.

Zinc Spray
DA6326 400ml aerosol
Sprayable anti-corrosion primer paint for vehicle body repairs. Electrically conductive (wet and dry). Allow to cure for 8-12 hours before over painting.

DA6326

Gasket Repairs

STC50550 DA6364

Premium Silicone Black 5980
STC50550 100ml tube
For flanges with permanent oil contact. Can be used for metal, plastic and painted parts. Low odour, non corrosive.

Premium Silicone Grey 5660
DA6364 100ml tube
For flanges with permanent water/glycol contact. Can be used for metal, plastic and painted parts. Low odour, non corrosive.

Premium Silicone Copper 5990
DA6365 100ml tube
For flanges exposed to high temperatures and high performance engines. Can be used for metal, plastic and painted parts. Low odour, non corrosive.

Silicone Blue 5926
DA6366 40ml tube
Multi purpose flexible silicone sealant. For flanges of any size or shape. Can be used for metal, plastic and painted parts.

Glues, Adhesives & Thread Lockers

Super Glue
DA6300 3g tube
DA6301 5g bottle with brush
High performance instant adhesive with thousands of applications.

Rear View Mirror Bonder
DA6304 1 shot tube
Unique bonding system for rear view mirrors, car telephone aerials and all window mounted material.

Stud 'N Bearing Fit
DA6306 24ml bottle
Locks and seals studs into position. Seals against leaks and vibration.

Super Steel Epoxy-Weld
DA6314 2 x 25g tube
Sets like steel. Seals, repairs, bonds, fixes and replaces.

Instant Adhesive 3090
DA6360 10g
Multiple-purpose 2-component, fast curing, gap filling adhesive.

Lock 'N Seal 243
STC50552 10ml bottle
DA6305 24ml bottle
DA6307 50ml bottle
Replaces traditional locking methods. Prevents bolts, screws & nuts from vibrating loose.

Hylomar Sealants & Compounds

RTC3347
Hylomar Universal Blue
Gasket & jointing compound - 100g
Non setting universal jointing compound that is resistant to fuels, coolants and lubricants. Use on gaskets and machined metal surfaces. High temperature capability up to 250°C with unlimited assembly time. Easy disassembly for service maintenance and allows for differential thermal expansion of components. Excellent vibration resistance.

Hylomar 101 Silicone Sealant
DA6441 Black
RTC3254 Ivory
Gasketing, sealing & bonding compound - 85g
Hylomar Silicone Sealant is a non-corrosive, low odour, room temperature vulcanising (RTV) silicone compound. It is a high performance engineering grade which is used in the automotive industry and for general manufacturing. It can also be used for a variety of applications and is particularly suitable for high strength applications in odour sensitive environments. Hylomar Silicone Sealant has good resistance to oils and aqueous anti-freeze agents. Unlike general-purpose silicone sealants, Hylomar Silicone Sealant contains no solvents and does not evolve acetic acid during cure.

STC4404
Hylomar 607
Silicone Sealant - 300ml
Engineering grade with excellent gap filling properties. Forms any size or shape of gasket instantly and remains flexible and will not shrink. Bonds to metal, glass, ceramics, plastics, fibres and wood. Resists most solvents. Good fluid resistance - not petrol or diesel. Electrical insulator with maximum constant operating temperature 250°C. Neutral curing. Tolerant of some oil and grease, ensure surfaces are clean.

STC4600
Hylomar 3400
Anaerobic Gasket Compound - 300ml
Excellent resistance to automotive fluids including fuels with an operating temperature -40°C to 150°C. Machined metal to metal surface only, not suitable for pressed steel. No gap filling. Latest generation anaerobic gasket compound. Single part product. Suitable for K-series engines. Ensure surfaces are free of oil and grease.

DA3217
Hylosil 310
Silicone Sealant - 300ml
Engineering grade acetoxy curing RTV silicone sealant. Forms any size or shape of gasket instantly. Remains flexible, will not shrink. Bonds to metal, glass, ceramics, plastics, fibres and wood. Resists most solvents. Electrical insulator

The Right Tools For The Job

DA1115
Timing Kit
Freelander 2 - 2.2 diesel
Range Rover Evoque
- 2012 - 2018 - 2.2 diesel
Land Rover tool part numbers -
303-1277 - Camshaft pulley timing pin
303-1270/303-1059 - Flywheel locking timing pin
303-1272 - Flywheel/ring gear locking tool adaptor

DA3140
Timing Kit
2.5D / 200 & 300Tdi - 12 piece

DA6124
Timing Kit
Range Rover Sport - 2005 - 2013 - 3.6 TdV8
Range Rover - 2002 - 2012 - 3.6 TdV8
Designed to lock the camshaft and crankshaft in their timed position when performing engine rebuild or changing the cam chain. Packed in a foam tray and metal tin. Made in Sheffield.
Equivalent to
OEM 303-1236 - camshaft alignment blocks 2 x 2 + bolts
303-1243 - flywheel locking plate
303-1239 - camshaft rotating pin
303-1238 - crankshaft timing pin

DA1667
Fuel Pump Locking/Removal Tool
2.0 diesel Ingenium AJ200 diesel engine
Discovery Sport
Range Rover Evoque - 2015 - 2018
Jaguar F-Pace, XE, XF - 2015 onwards
Engine codes: AJ-200D, 204DT, AJ200D, AJ200, 204DTD.
Locks the fuel pump sprocket and chain in a fixed position while the pump is removed and replace. To be used with timing tool kit DA1668. Equivalent to 303-1672.

DA1770 NEW
Laser Camshaft Sprocket Holding Tool
A multi-application wrench with variable adjustment. Holds the sprocket whilst releasing the fastener. Reduces potential damage to camshaft. Designed to allow the sprocket to be held still whilst undoing fixings.

DA1162
Flywheel Locking Tool
Defender - 2007 - 2016
Land Rover tool part number - 303-698

DA6116
Timing Kit
Freelander 1 - 2000 - 2006 - TD4 - M47
Range Rover - 2000 - 2006 - Td6
This set enables the correct timing to be made when servicing the BMW M47 2.0 16 engines.

DA1668
Timing Kit
2.0 diesel Ingenium AJ200 diesel engine
Discovery Sport / Range Rover Evoque - 2015 - 2018 / Jaguar F-Pace, XE, XF (2015 onwards)
Engine codes: AJ-200D, 204DT, AJ200D, AJ200, 204DTD.
For locking the engine into the timed position so the engine timing chain can be removed/replaced and the engine timing checked. To be used with fuel pump locking tool DA1667.
Equivalent to

303-1625	Camshaft holding tool
303-1631	Camshaft adjuster locking/holding tool
303-1630	Crankshaft pulley locking tool

DA7364
TDV8 Crankshaft Position Sensor Ring Installer
Range Rover Sport - TDV8
Range Rover - TDV8
Designed to install the TDC position sensor ring on the TDV8 diesel engines found in the Range Rover and Range Rover Sport models. It is critical that the sensor ring is fitted in the correct position in relation to the crankshaft to ensure correct injection timing. Equivalent to OEM JLR-303-1237.

DA1120
Flywheel Locking Tools & Camshaft Timing Pins
Discovery 3 - 2.7 TdV6
Discovery 4 - 3.0 TdV6
Range Rover Sport - 2005 - 2013
- 2.7 & 3.0 TdV6

DA6120
Fuel Pump Locking Tool
For use with DA1120 on 3.0 TdV6 engines

DA6129
Timing Kit
Range Rover P38 - BMW diesel
Specifically designed for the 2.5 TDS diesel engines. This timing tool includes crankshaft holding tool, timing chain compressor, injection pump puller, shaft puller, crankshaft alignment pin, camshaft alignment tool & tensioner locking pins.

DA1847
Timing Kit
Developed to allow the safe removal and replacement of the camshaft drive chains and check the engine timing on the Range Rover and Range Rover Sport 4.4L diesel engines.
- Engine codes include: 448DT (Diesel V8 4.4L)
- Equivalent to OEM Tools: JLR 303-1620, 303-1568, 303-1243, 303-1571
- Unique camshaft timing tool design - EU registered design

DA1121
Timing Kit
Land Rover KV6 engines
The Land Rover KV6 quad cam engine has one front and two rear camshafts and these tools cover the replacement of all three belts

LRT-12-158

LRT-12-058

Timing Pins
LRT-12-058
Timing pin (short) - Td5 engines
LRT-12-158
Timing pin (long) - Td5 engines

DA6112
Timing Kit
Defender - 2.4 TDCi
Timing tool kit including timing pump removal and installation tools, camshaft/crankshaft sprocket alignment pin, chain tensioner, fuel pump cover removal tool and fuel injection pump sprocket locking tool. Supplied in metal case with foam tray.

DA7539
Timing Kit
AJ200 Ingenium Petrol
Discovery 5 - 2017 onwards
Discovery Sport - 2017 onwards
Range Rover Evoque - 2017 onwards
Range Rover Sport - 2017 onwards
Range Rover Velar - 2017 onwards
Kit contains all the essential components required to lock the JLR 2.0l Ingenium petrol engines in their timed position so that the engine timing chain can be safely removed and replaced and/or the engine timing checked. Made in Sheffield. Equivalent to OEM JLR-303-1630, JLR-303-1635 & JLR-303-1636. Petrol engine codes: AJ-20/PT204, AJ-200/PT204, AJ-200P/PT204, AJ200P, PT204 and AJ200.

DA3525
Engine Locking Kit for V8 5.0L
Discovery 4 / Range Rover Sport / Range Rover
Engine codes include: AJ-133/508PS and AJ-133/508PN.
Timing tools to lock the camshafts and crankshaft in their timed positions. Designed specifically for use on the post 2010 V8 5.0L petrol engines used across the JLR range. This 7 piece kit includes the camshaft, crankshaft, flywheel locking tools and the special camshaft turning tools with the tensioning wrench required to work on the engines listed.
Equivalent to OEM: 303-1482, 303-1445-1, 303-1447, 303-1445-5, 303-1303 & 303-1452. Made in Sheffield.

DA1160
Engine Front Casing Alignment Tool
Defender - 2007 - 2016
Land Rover tool part number - 303-682

DA1161
Crankshaft Front Seal Remover/Installer Tool
Defender - 2007 - 2016
Older type seal
Land Rover tool part number - 303-679

DA1899
Crankshaft Locking Kit
Defender - Puma 2.2
Used to lock and time the crankshaft and flywheel to allow the TDC sensor position to be set after removal when servicing the cam chain drive system.

DA6550
Crankshaft Trigger Wheel Installer Tool
Discovery 3 / Discovery 4
Range Rover Sport - 2005 - 2013
Required to install the crankshaft position sensor ring when fitted with TdV6 engine. Specifically required to repair sensor wheel dropping off or cracking.
Equivalent to OEM 303-1130
Overall dimension: 123.5mm

DA1845
Crankshaft Seal Installation Tool
Freelander 2
- 2.2 diesel
Range Rover Evoque
- 2012 - 2018- 2.2 diesel
Jaguar XF - 2.2 diesel
Designed to allow the rear (flywheel end) crankshaft oil seal fitted to Land Rover 2.2 diesel engines to be installed without damage. The tool allows the rear oil seal to be pulled in to place in a controlled manner significantly reducing the chances of damaging the seal's sealing lip.
> Equivalent to OEM 303-1271
> Keep threaded components clean and well lubricated with clean engine oil when in use.

JLR-303-1619
Crankshaft Front Seal Remover & Installer Tool
Defender - 2007 - 2016
Newer type seal

DA3536
Crankshaft Pulley Set for V6 3.0L & V8 5.0L
Discovery 4 / Range Rover Sport / Range Rover
Engine codes include: 3.0L AJ-126/306PS, 5.0L AJ133/508PS and 508PN.
Set of tools required for the removal of the front crankshaft pulley (crankshaft vibration damper) fitted to the JLR 3.0L V6 and 5.0L V8 petrol engines. The crankshaft pulleys used on these engines are tightened to 200Nm + 270 degrees so are very tight to undo and must be held by a substantial holding tool which the kit provides. Also included in the kit are the pulley puller components required to remove the pulley without damage. Important: Ensure the force screw is well lubricated with molybdenum disulphide grease before use.

DA6114
Crankshaft Rear Seal Remover/Installer Tool
Range Rover Sport - 2005 - 2009
- 4.4 & 4.2 V8 petrol
Range Rover - 2002 - 2013
- 4.4 & 4.2 V8 petrol
Discovery 3 - 2004 - 2009 - 4.4 V8 petrol
Suitable for use on vehicles with the petrol AJV8 engine both N/A and supercharged. Comes complete with punch to assist seal removal on Freelander 2- 2.2Td4.
Equivalent to OEM 303-538.

DA3246
Crankshaft Front Oil Seal Installation Tool
Freelander 2
Range Rover Evoque - 2012 - 2015
Designed to be used to fit the front crankshaft seal on the 2.2 DW12 diesel engines without damage to the seal or the crankshaft. Made in Sheffield.
Equivalent to OEM JLR-303-1274.

www.britpart.com/newsletter

DA7360
Front Crankshaft Oil Seal Fitting Tools for AJ200 2.0L Diesel
Engine applications 2.0L AJ200 diesel engines (engine code AJ200/204DT)
Defender - 2020 onwards
Discovery Sport - 2015 - 2019
Range Rover Evoque - 2015 - 2018
Range Rover Sport - 2016 - 2018
Range Rover Velar - from 2017
E-Pace - from 2017 / F-Pace - 2016 - 2020
XE - 2015 - 2020 / XF - 2015 - 2020
Designed to engage with the front bayonet style crankshaft oil seal and allow the user to remove and fit the seal. Specifically used on 2.0L AJ200 diesel engines found across the Jaguar and Land Rover ranges. Fitted with ½"D drive. Equivalent to OEM 303-1628. Made in Sheffield.

DA7593 NEW
Rear Crankshaft Tool
Designed to allow damage-free fitting of the rear main crankshaft oil seal on the AJ200 Ingenium engine. When performing major engine rebuild work on any engine it is easy to damage the rear main seal if it is not aligned and guided into place with care. This kit provides a simple and effective solution to ensure correct alignment and fitting. Equivalent to OEM JLR 303-1674. Made in Sheffield.

DA6133
Crankshaft Pulley Holding Tool
Provides the required components to hold the crankshaft vibration damper in place whilst undoing the very tight pulley mounting bolt. Equivalent to OEM 303-191, 303-192, 303-193, 303-194. Designed to be used with a ½" D Power Bar. For use on AJ V8 3.2, 4.0, 4.2 & 4.4 petrol engines.

Sockets & Spanners

606435
Hub Nut Spanner

DA1118
Deep Socket
52mm deep socket - ½" drive
Socket for adjusting hub nuts
Defender / Series

DA1111
Viscous Fan Coupling Spanner
Two sizes - 32 & 36mm

LRT-12-094
Viscous Fan Coupling Spanner
V8 petrol / Td5 diesel / V6 2.7 diesel
2.5 Td diesel / Td6 diesel / 300Tdi

LRT-12-093
Viscous Fan Coupling Spanner
V8 petrol / Td5 diesel
2.5 Td diesel / 300Tdi

DA1209
Fuel Tank Sender Wrench
For easy removal of the fuel tank metal locking ring (ESR3808) on the
Defender - 2002 onwards
Discovery 1 / Discovery 2 / Freelander 1
Range Rover P38 / Range Rover - 2002 - 2012

Alloy Wheel Nut Sockets

DA6131	27mm x ½" D
DA6130	22mm x ½" D
DA6643	21mm x ½" D

- Nylon outer sleeve to protect alloy wheels
- Manufactured from chrome molybdenum

DA1662
Whitworth Combination Spanner Set
An 8 piece Whitworth combination spanner set. Manufactured from Chrome Vanadium with polished finish and supplied in a handy storage wallet. Sizes: 1/8", 3/16", 1/4", 5/16", 3/8", 7/16", 1/2", 9/16".
Old Land Rovers need constant attention and sometimes a new set of Whitworth Spanners are just what you need! British Standard Whitworth threads are used in many classic cars and employ a different measuring system to the AF or Metric counterparts. It is essential to use corresponding Whitworth spanners for Whitworth fixings and the new 8 piece. This classic spanner set is essential for keeping that Landy running!

Whitworth socket sets. Manufactured from Chrome Vanadium. Complete with socket rail.

DA1665
Socket Set - Whitworth ¾" Drive
7 Whitworth sockets with ¾" drive.
Sizes - 1/8" / 3/16" / 1/4" / 5/16" / 3/8" / 7/16" / 1/2"

DA1663
Socket Set - Whitworth ½" Drive
9 Whitworth sockets in bi-hex format with ½" drive. Sizes - 1/8" / 3/16" / 1/4" / 5/16" / 3/8" / 7/16" / 1/2" / 9/16" / 5/8"

DA3855 NEW
Flat Cut Star Socket Set 13pc
A set of 3/8"D flat-cut star sockets, from E5 to E20, manufactured from satin finish chrome vanadium. Designed to fit low-profile TORX head bolts where the normal socket profile would not give full contact with the fixing. Often used for body panel fixing etc. Supplied on a socket rail for easy storage. Socket sizes: 3/8"D: E5, E6, E7, E8, E10, E11, E12, E14, E16, E18, E20. 1/2"D: E22, E24

DA6703 NEW
Alloy Wheel Impact Socket
- Chrome molybdenum socket, hardened, tempered and anodised for corrosion resistance
- 24mm 1/2"Sq drive suitable for use with impact tools
- 6-point socket is externally and internally sleeved to prevent damage to alloy wheels and nuts
- Colour-coded for easy size selection

Oil Filter Tools

DA6118
Oil Filter Socket
Freelander 2
Range Rover Evoque - 2012 - 2018 - 2.2 diesel
27mm hexagon face drive with ⅜" D face drive. Removes paper filters without damage to the plastic filter housing. Manufactured from Chrome Vanadium.

DA1176
Oil Filter Socket
36mm oil filter socket - ⅜" drive
Designed to protect the corners of the filter from damage. Defender - Puma 2.2 & 2.4. Freelander 1 - Td4. Range Rover - 2002 - 2009 - M57 3.0 diesel & M62 4.4 V8 petrol

DA1189
Oil Filter Remover Tool
For removing and installing oil filters on diesel models of the Freelander 2 and Range Rover Evoque. 27mm combination spanner with flexi-head. 400mm long. Manufactured from Chrome Vanadium. Fully polished with ratchet. Manufactured to Ansi standards.

DA1173
Oil Filter Remover Tool
To remove the paper element from the canister. Prevents damage to the filter housing.
Discovery 3 - TdV6
Discovery 4 - TdV6
Range Rover Sport - TdV6
Land Rover tool part number - 303-1128

DA1117
Td5 Oil Filter Spanner
Defender
Discovery 2

Note - Will not fit Mahle or Delhi filters. Britpart filters only - LPX100590

DA6638
Oil Filter Wrench
Cup style
65mm x 14 flutes
Suitable for AJ200 Ingenium engines

DA7488
Laser Two Way Ratcheting Oil Filter Wrench
- Ratcheting function to install and remove the oil filter quickly and easily
- Non-slip steel jaws securely grip the oil filter
- ½" drive
- Size range: 60 - 80mm

204-591-01
Dynamic Response System Bleed Bottle
Note - For professional use only.

DA7361
Brake Cylinder Hone
For use with a cordless drill to clean brake cylinders during service.
- Self aligning
- Spring tension adjustment - 22mm - 69mm
- 29mm stones
- Flexible shaft
- For use with a standard drill

Brake Caliper Rebuild Tool Kit
DA1153
After a brake caliper rebuild the most difficult part can be fitting the dust seal after the pistons have been fitted. Make that task easier with the seal fitting tools in this kit. The kit is supplied with a tool to fit 41mm and 44mm pistons and comes complete with a heavy-duty piston spreader to allow the seals to be pushed into place evenly.
DA7460
Heavy-duty piston spreader only.

DA7484
Laser Automatic, Self Adjusting Brake Pipe Cutter With Ratchet Handle
- Ratcheting, self adjusting mini brake pipe cutter ideal for restricted access
- 4.75mm (3⁄16") with ratchet handle
- Automatic self adjusting for faster cutting. Fast and accurate operation, ideal for under vehicle use
- Extra leverage due to handle length over standard cutter. To further increase leverage use the ¼" drive square in the end of the handle

Brake pipe cutters can be quite small and compact but there are instances when working where there is still not enough clearance to turn the cutter around the whole of the brake pipe. This mini brake pipe cutter solves this problem with its ratchet mechanism. Simply slide the cutter over the pipe - the handle gives excellent leverage and even if the space is really restricted, a few turns of the handle will quickly and cleanly cut straight through. It is self-adjusting, so no need to keep tightening the blade down onto the pipe as you are cutting. Quick and easy. Use on 3⁄16" or 4.75mm brake pipe, steel, cupro nickel or copper.

DA6136
EPB Brake Adaptor
Adjustable 3 pin EPB brake adaptor with standard 2 pin drive which is adjustable to fit many modern vehicles. Kit also contains a pneumatic brake caliper rewind tool - 3⁄8" D. This tool is for left and right hand threaded pistons. Suitable for most 3⁄8" D wind-back adaptors and pin type adaptors.
A great time saver in the workshop.

DA6174 NEW
Eezibleed Kit
Easy fluid replacement system using air pressure from the spare wheel to bleed brake and clutch hydraulics. Safe to use, the one-way flow mechanism and airtight seal on the reservoir ensures fast fluid replacement with no contamination. There is no need for pedal pumping which avoids the risk of damaging the master cylinder seal. The versatile kit includes four screw caps (25, 27, 44-45 and 46mm) as well as three hoses, making it easy to connect Eezibleed to a wide variety of vehicles.
- Suitable for single handed operation. Uses the air pressure from a spare tyre to effortlessly bleed hydraulic systems.
- Can be used successfully on the following systems: tandem master cylinders without sensors, tandem reservoirs, slave servos and vacuum servos.
- Includes a range of cap and seal sizes: 25mm (Lockheed systems), 27mm (certain VAG systems), 44/45mm (metal Girling reservoirs and all ATE systems) and 46mm (certain Girling systems).
- Kit contains: pressure bottle (for new brake fluid), bottle cap assembly, bleed tube set, five cap and seal sets, brass reservoir cap fitting, two fibre washers, lock nut and hook.

Propshaft Fastener Tools

DA1065 ⅜" square drive

DA1119 ½" square drive

- Size - ⅝" 6 point (hexagon)
- Total length - 150mm
- Outside diameter - 20mm

Specialist socket for propshaft fasteners on most Land Rovers. The ⅝" socket end is a perfect hexagon with rounded tip profiles to ensure the whole turning power is transferred onto the flanks of the nuts instead of on the corners. The socket's slim wall construction and wine glass profile, coupled to an integral slimline extension means it fits perfectly between the UJ yokes and over the propshaft nuts without fouling. The ⅝" AF nuts are common to Series, Defenders (90 & 110 up to latest vehicles), Discovery 1, Discovery 2, Range Rover Classic and Range Rover P38.

DA1235
Locking Tool
Defender - Puma
Locking tool to restrain the fuel injector sprocket during a fuel pump removal or installation.

DA1841
Easy Flow Pump for 20-25L Drums
Suitable for engine oil, gear oil, diesel and antifreeze.

- Not suitable for corrosive or water based fluids
- Supplied with a 48" non-kink discharge hose and non-drip steel nozzle plus extending suction tube
- Pump head features D-handle for easy down stroke, drum refill plug (no need to remove pump to refill drum) and drain back port
- Delivery flow is 0.9L per 14 strokes

DA1842
Thread Adaptor for Easy Flow Pump
Two adaptors for use with DA1841 Easy Flow Pump. Suitable for use with engine oil, gear oil, diesel and anti-freeze. Specifically designed to convert the female thread (DIN 61mm) drum pump 57mm (M) + 2" BSP (M) adaptor.

DA6111
Oil Pump Alignment Tool
Defender - 2.2 TD4 diesel - 2006 - 2015
Developed to correctly align the engine oil pump in the sump after an engine rebuild as it is important that the pump be correctly and accurately aligned to ensure the oil pump sprocket is not operating with excessive side loads.

DA6132
Cooling System Pressure Test Kit
A comprehensive cooling system pressure testing kit for universal use. 24 pieces including 16 individually sized adaptors, pressure testing pump with gauge, 2 pressure cap test connectors for use with No 3 adaptor and handle. Checks the leakage on original radiator cap. Application list and instructions included. The pressure pump is hand operated and is fitted with an accurate and easy to read gauge marked in both psi and bar. This kit includes a thermometer to aid diagnostics and also ensure the system is cool before removing the cap. Also included in this kit is a very useful radiator pressure cap tester.

DA1749
Steering Drop Arm Puller
Defender - 1987 - 2006
Designed for the removal of the steering drop arm from the steering box. The Defender steering drop arm can wear because of its position low down at the front of the chassis - it's exposed to all the road spray and water that gets thrown at it. Water gets into the joint and eventually you will have to replace the drop arm and ball joint because the rust has corroded it. However splitting the steering drop arm from the steering box can be problematic because the steering drop arm and the steering box splines corrode together. This tool solves that problem. Supplied with a spare threaded bar.

DA1840
Front Lower Ball Joint Tool
Discovery 3 / Discovery 4
Range Rover Sport - 2005 - 2013
Allows the bottom ball joint to be replaced and fitted without removing the lower wishbone assembly

- Designed for use on the vehicle saving significant time and additional parts costs
- Equivalent to OEM 204-531
- Always lubricate the force screw with molybdenum disulphide grease

DA1155
Panel Popper Tool Kit
12 piece set designed to aid in the easy removal of door trim panels, trim fasteners and mouldings inside or outside the vehicle. Manufactured from a tough & durable engineering plastic to minimise panel damage. Includes an additional metal clip tool.

DA1839
Glow Plug Compression Adaptor Kit
2.0 / 2.2(TD4) / TDV6 / TDV8 & 2.2 Ingenium
A selection of diesel glow plug compression test adaptors specifically designed to allow Laser diesel compression testers (4510 & 2596) and cylinder leakage tester (5140) to be used on the current range of Jaguar & Land Rover diesel engines including the 2.2 TD4, TDV6, TDV8 and the latest Ingenium engines. The kit includes a specially designed 90 degree connector to allow access on TDV6 engines where the oil filter obstructs normal access.

- 3 glow plug adaptors for compression and cylinder leakage testing
- Equivalent to OEM 60228, 60229, 60232
- Designed to be used with Laser Compression & Cylinder Leakage testers. Part Nos. 4510, 2596, 5140

DA1844
Differential Pinion Shaft Holding Tool
Freelander 2
A 2 piece kit providing the special pinion nut holding tool and splined deep socket to allow the removal and installation of the rear differential pinion shaft nut when rebuilding the rear differential in accordance with Land Rover OEM instructions.

- A two piece kit including Bi-Hex pinion nut holding tool and splined socket
- Use with suitable torque wrench with a 250Nm minimum capacity (see Laser 7169)
- Equivalent to OEM tool JLR-205-984

DA1125
Ball Joint Remover Tool Kit
Fit & remove RBG000010 to a Defender drop arm without having to remove the arm from the vehicle.

DA7362
Airbag Removal Tool
Discovery 3
Discovery 4
Freelander 2
Range Rover Sport
Designed to release the driver airbag module from the steering wheel.
Equivalent to OEM 501-106

DA6134
Diesel Fuel System Bleeder Kit
Freelander 2 - 2.2 diesel
Hand pressure pump and 4 adaptors. For bleeding/priming the system after fitting new filter or other maintenance on the fuel system. Essential service tool.

DA7477
Gearbox/Axle Filler Pump
1 litre capacity.
This handy mini pump makes all top up jobs easy. Ideal for gear boxes and differentials and is suitable for oils, automatic transmission fluids, brake fluids and general purpose cleaners.

DA5631
Wing Protectors
Protect your Defender's wings with a pair of these sturdy, easy to fit wing protectors.

DA6135
GEN2 Wheel Bearing Kit
Freelander 2
82mm / Front
This kit enables you to be able to remove and replace the bearing/flange in situ.

DA1698
All-In-One Stud & Hub Cleaning Tool
Stud Kleen attaches firmly to a standard impact wrench, providing the fastest and safest cleaning solution for your wheel changing process. The face of the tool moves rust and contaminants in seconds, providing a smooth clean surface for ease of assembly of all mating parts. At the same time, stainless steel tines effectively clean the threaded studs assuring easy and accurate torquing of lug nuts. The proprietary abrasive material is significantly longer lasting than any other material on the market.

Features
- Cleans the hub and stud at the same time
- Fits to ½" impact
- Single size for all passenger cars and light trucks
- Won't damage your wheels
- Dense, long lasting abrasive pad
- Hundreds of internal stainless steel tines instantly & effectively clean threaded studs
- Stack tolerances when balancing wheels will improve and ensure proper torque tensioning during installation
- Cleans approximately 800 wheels

DA1878
Laser Damaged Nut/Bolt Extractor Set - 12 Piece
This kit is made up of a set of cleverly designed hexagon bolt and nut extractor adaptor caps. The caps fit over the rounded off fixing and allow a standard 12 point socket or ring wrench to be used to remove the rounded off hexagon fitting.
- Sizes: 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18 & 19mm
- Specially hardened steel components finished in black
- Can be used on up to 65% rounded nuts
- Due to material used, the tools should be considered consumable. Following the instructions for use will help significantly increase the service life of the kit

Watch in action - www.britpart.com/DA1878

DA1875
Laser Torx Fixing Extractor Set - 11 Piece
An essential workshop tool for extracting Torx fixings.
- Manufactured from S2 silicon steel
- 7 x Extractors with 6mm Hex drive (quick chuck)
  Sizes - E10, E15, E20, E25, E27, E30, E40
- 3 x Extractors with 10mm Hex drive
  Sizes - E45, E50, E55
- ½"D x 10mm Hex adaptor
- Storage case

See them work - www.britpart.com/DA1875

DA1876
Laser Damaged Cap Head Bolt/Screw Extractor Set - 11 Piece
For removing damaged hex bolts and screws.
- 7 x ¼" Hex shank
  Sizes - 1.5, 2, 2.5, 3, 4, 5 & 6mm x 50mm long
- 3 x 10mm Hex shank x 7, 8 & 10mm x 38mm long
- ½"D x 10mm Hex adaptor
- Storage case

DA1877
Laser External Deburr/Chamfer Tool

External deburr/chamfer tool fitted with HSS blade for repairing damaged bolts. Effective on stainless steel, hardened steel, mild steel, copper, brass, wood, fibreglass, hard plastic.
- Size range 3 - 19mm
- Speed 0 - 400rpm
- High speed steel blade ¼" shank

In a busy workshop there are numerous instances of threads getting damaged: whacking a track rod end with a hammer; cutting a bolt or threaded rod - the threaded ends get torn and squashed. Wheel studs get damaged just by removing and refitting the wheels... Luckily there is a quick and easy solution - the external deburr & chamfer tool. See it work - www.britpart.com/DA1877

DA7489
Laser Impact Twist Sockets
Ideal for removing damaged nuts and bolts. Impact twist socket ½" drive, manufactured from SCM440 steel.
- Sizes: 17, 18, 19, 21, 22 & 24mm
- ½" drive
- Supplied in EVA foam for tool box storage
- Manufactured from SCM440 steel with black finish
- Special profile for removing damaged nuts and bolts

DA7487
Laser Short Circuit Diagnostic Kit
Tracing a short circuit can be a very time consuming exercise. This Short Circuit Diagnostic Kit provides the solution in the form of a set of circuit breaker fuses that are designed to fit in place of the traditional fuse. The circuit breaker will safely break the circuit when an overload is detected just like a conventional fuse but unlike a conventional fuse it is manually resettable allowing the technician to reset the circuit breaker fuse to run their tests as many times as they need. The kit provides resettable fuses for both standard and mini size blade fuses. Where space is really tight the set includes two 300mm extension leads which allow the circuit breaker fuse to be connected where space in the fuse box is tight.
- Contents includes: 7 standard blade manually resettable circuit breaker fuses & 7 mini blade manually resettable circuit breaker fuses.
- Fuse ranges: 5A, 7.5A, 10A, 15A, 20A, 25A, 30A.
- 300mm (12") extension loop leads for better access for use with both blade sizes.

DA7490
Laser Breaker Bar With Built-in Impact System
330mm long breaker bar with built in impact system allowing the bar to be loaded with one hand and then impacted with a hammer for significantly increased force. Ideal where air tools are not an option.
- Bi-directional for removing left or right handed stubborn nuts and bolts using combine hand and impact force
- Swivel head gives access to difficult areas
- Use with impact socket and bits
- 330mm long x ½" drive
- Impact absorbing composite grip handle

DA7485
Laser Cordless 30W Soldering Iron
- Cordless 30w soldering iron with rechargeable Li-ion battery (2400mAh)
- Supplied cone tip, chisel tip, heat shrink tip, 15g solder, cleaning sponge, stand, cap & USB charging cable
- Charging time 3 - 5 hours; one charge provides 35 minutes of use
- LED illumination
- Reaches working temperature 180°C in 10 seconds. Maximum temperature up to 600°C
- Internal charging board protects against overcharging, short circuit and electro static discharge

DA7486
Laser USB Soldering Iron
- Soldering iron designed to be powered by a USB socket (1 amp current draw)
- Heats up to 185°C in approx 15 seconds
- Maximum temp 480°C
- Supplied with a 1.2m USB lead
- Folding stand included

DA3611 NEW
NORMA® Fuel Line Repair Kit
One stop solution to repair defective fuel lines in under five minutes
- Economical solution to repair defective spots instead of replacing complete fuel lines
- Access to OEM quality materials
- Easy identification of the components within the kit with the help of product descriptions

See web for full kit contents

DA2799
Laser Differential Pinion Holder & Wrench Set
- 2 piece set including ½" D spline pinion socket with ½"D pinion nut wrench
- Applications include
  Range Rover - 2013 - 2016
  Range Rover Sport - 2014 - 2016
- Pinion Nut Wrench also suitable for Discovery - 2017 - 2019
- Equivalent to OEM JLR-205-994, JLR-205-996
- Refer to OEM instructions for torque setting

- Standard quick connector - spigot connection as per SAE J2044 Safety aspect: NORMAQUICK® S connector cannot be opened under pressure
- Very high pull-off forces of quick connectors due to four locking arms ABA Mini provides excellent clamping force compared to screwless clamps

DA1650
Automotive Current Tester LCD Display
This automotive current tester with LCD display, plugs directly into the fuse box and can be used on mini, standard and maxi fuse connections. Blades may get hot during use and care should be taken for 2 mins whilst they cool down.
- Fits mini and maxi fuses
- Current range 0-80A
- Safe and easy way to check automotive current
- LCD display
- Hold and peak function with bar graph

DA7288
Automotive Current Tester
For the rapid safe and accurate testing of DC current on 12v vehicles. The tool plugs straight into the vehicles fuse board and displays the current on the large LCD display. Specification range 0-48volt max 20 amps, 12v battery included.
- Quick and safe
- Plugs straight into the vehicle fuse board
- Large LCD display
- Specification range 0-48volt max 20 amps
- 12v battery included

DA3247
Balance Shaft Removal & Installation Kit
Discovery 5
Discovery Sport - 2015 - 2019
Range Rover Evoque - 2015 - 2018
Range Rover Sport - 2016 - 2018
Range Rover Velar - 2017 -
Designed to allow the safe removal, fitting and timing of the gear driven balance shaft on the Jaguar Land Rover AJ200 2.0L diesel engines. The kit contains all the essential components to enable the balance shafts to be aligned when reassembling the components. Made in Sheffield. Use in accordance with OEM instructions. Equivalent to OEM - JLR-303-1662 / JLR-303-1663-1 / JLR-303-1663-2 / JLR-303-1663-3 JLR-303-1664 / JLR-303-1665

DA3248
Long Series Hex Bit 3/8"D 11mm
Ideal for injector clamp bolts and caliper bolts. Size: 11mm x 100mm long. Socket manufactured from Chrome Vanadium. Bit from S2 Steel.

DA7399
Exhaust Gas Temperature Sensor Socket
Range Rover - 2011 - 2012
Range Rover - 2013 - 2017
Range Rover Sport - 2014 - 2017
- Required to remove/install the exhaust gas temperature sensor
- Equivalent to OEM 303-1573
- 13mm hex x 6mm deep
- Socket equipped with a 13mm hex to use with appropriate spanner or wrench
- Made in Sheffield.

DA5443 NEW
Drain Plug Removal Tool
Slotted oil drain plug tool.
For use with a 19mm spanner or socket.
Series, Defender & Range Rover Classic

DA3898 NEW
Flange Holding Tool
Defender - 2020 onwards
Discovery 4 / Discovery 5
Freelander 2
Range Rover Velar
Range Rover Evoque - 2012 - 2018
Range Rover Sport - 2010 - 2013
Range Rover Sport - 2014 - 2022
Range Rover Sport - 2023 onwards
Range Rover - 2002 - 2009
Range Rover - 2013 - 2022
Range Rover - 2022 onwards
Used to hold the flange whilst removing and replacing the flange nut on JLR 5.0L and 3.0L diesel engines. Equivalent to OEM 205-053.

DA1765 NEW
Hose Clamp Tool - Bar Type
140mm long hose clamp tool. Suitable for use on rubber hoses, making it ideal for both brake and fuel lines together with coolant hoses. Steel construction with round chrome plated bars to help prevent damage.
- Clamps any hose simply and effectively
- Chrome plated bars
- Use on brake, fuel and heater hoses
- No sharp edges
- Ensures complete clamp

DA3499
Automatic Gearbox Alignment Tool
Defender / Discovery 1 / Discovery 2 / Range Rover Classic / Range Rover P38
An essential tool for the correct setting and alignment of the XYZ switch (gear selector position and starter inhibitor switch) on the ZF4HP22, ZF4HP24, ZF4HP44 automatic gearboxes. Equivalent to OEM 307-498 & LRT-44-011. Made in Sheffield.

DA7355 NEW
Laser Damaged Hex Bolt Extractor
7 piece hex bolt extractor bit set designed to remove damaged, rounded, or corroded allen (Hex) bolts or screws. Sizes: 1.5, 2, 2.5, 3, 4, 5 & 6mm x 50mm long. 1/4" shank with quick chuck end. Packed in a storage case. For use with a drill.

DA1848 NEW
Laser Fork Ball Joint Separator
For separating ball joints, this tool uses the forked wedge principle. Designed to be used with a hammer separate the joint from the steering arm. Fork dimensions: internal 14mm, thickness of shaft 22mm, overall length 200mm. Manufactured to ANSI and DIN standards.

DA3524
Hub Puller Adaptor Kit
Hub puller plate for use on 3, 4 and 5 bolt fixing drive flanges.
- PCD 97 - 123mm
- Complete with 5/8"UNF adaptor for slide hammer
- 1½" x 16tpi plate thread allows use of hydraulic ram
- Can also be used with an impact force screw

DA7463
Rear Suspension, Lower Hub Bush Removal & Installer Tool
Equivalent to OEM 204-516.
Discovery 3 / Discovery 4
Range Rover Sport - 2005 - 2013
Range Rover - 2002 - 2012

DA7466
Rear Suspension, Upper Hub Bush Removal & Installer Tool
Equivalent to OEM 204-515.
Range Rover - 2002 - 2012

The lower hub bush tool (**DA7463**) and the upper hub bush tool (**DA7466**) have been developed to allow the technician to remove and refit these rear suspension bushes with the minimum of dismantling required. Being able to perform the task on the vehicle saves considerable time over the more traditional use of a workshop press and the requirement that the hub be completely removed. For reference, the **DA7463** bush tool (OEM equivalent 204-516) has been specifically designed to work with OEM bush RBK500220, and the **DA7466** bush tool (OEM equivalent 204-515) has been specifically designed to work with OEM bush RHF000260.

DA7465
Front Suspension Lower Arm Front Bush Removal & Installer Tool
Equivalent to OEM 204-536.
Designed to remove and refit the front suspension bush of the lower arm with the minimum of dismantling.
Discovery 3 / Discovery 4
Range Rover Sport - 2005 - 2013

DA7461
Front Suspension Lower Arm Rear Bush Removal & Installer Tool
Equivalent to OEM 204-535A. For use with RBX500291. Can be used on the vehicle saving time and money.
Discovery 3 / Discovery 4
Range Rover Sport - 2005 - 2013

DA2883
Rear Suspension Hub Bottom Bush Removal & Installer Tool
Freelander 2 & Range Rover Evoque - 2012 - 2018
This tool has been developed to allow the user to safely remove and replace the rear hub bottom bush. It's been specifically designed for use with minimal strip down of the vehicle components for the removal and replacement of the bush. Use on vehicle with the minimum of suspension dismantling required. Uses a mechanical force screw. Always ensure the force screw is clean and lubricated with molybdenum disulphide grease. For use with hand tools only.

DA7464
Rear Suspension Upper Hub Bush Removal & Installer Tool
Equivalent to OEM 204-530. Designed for OEM bush RHF500100. Can be used in situ which saves time and reduces the dismantling required.
Discovery 3 / Discovery 4
Range Rover Sport - 2005 - 2013

LRT-60-004
Bush Fitting Tool
For front radius arm bushes (part number ANR3332) for the Range Rover P38A - impossible to do without using this Land Rover special tool.

DA3854 NEW
Rear Axle Carrier (Sub-frame) Bush Tool
Range Rover - 2002 - 2012
Used to extract and insert the sub-frame (differential carrier) to body bushes without dropping the sub-frame from the vehicle.

DA1303 NEW
Knuckle Ball Joint Tool
Discovery 2 / Range Rover P38
For the removal and fitting of bushes and ball joints, without having to remove suspension legs, subframes, wishbones, trailing arms etc from the vehicle. Designed to be used in-situ, although many can also be used in a workshop press if circumstances require.

This kit has been designed to allow the top and bottom steering ball joints fitted to the Discovery 2 & Range Rover P38 - upper and lower ball joints - to be replaced with the axle casing attached to the vehicle. Equivalent to OEM 205-718, 205-732, 205-733, 205-719, FTC3570 & FTC3571. Use with ratchet ring spanner - flexi head 19mm.

Calibration Tools

LRT-64-003
Air Suspension Calibration Blocks
Discovery 2
To be used in conjunction with Lynx diagnostics kit.

LRT-60-003
Air Suspension Calibration Blocks
Range Rover P38
To be used in conjunction with Lynx diagnostics kit.

Clutch Tools

DA1147
Clutch Alignment Tool
Defender - 2007 - 2016
Discovery 3 - TdV6 manual
Replace two tools for one with this cost effective clutch tool. One end is the Land Rover 308-419 clutch alignment tool which is used to align the clutch disc and pressure plate on installation. The other end of the tool is Land Rover 303-1096 aligner/installer tool which is used to align the clutch drive plate and install the spigot bearing.

DA6113
Clutch Alignment Tool
Defender - 2.4 TD4 - 2007 - 2016
Specifically designed to hold the clutch centre plate centred on the flywheel while fitting the clutch cover plate. Ensures fast effective alignment of the clutch centre plate. 200mm long x 14mm dia with knurled grip. Equivalent to OEM 308-419.

Automatic Transmission Fluid Exchange Machine
Excludes Land Rover application kit - DA6863
It is recommended that a fluid and filter change are carried out before 75,000 miles or 50,000 miles in arduous conditions. The only practical way to do this and ensure a 99% fluid exchange is using dedicated equipment. Overtime fluid and additives in your Land Rover deteriorate, this can have impacts on the transmission by causing the carefully engineered friction coefficients and viscosity to alter. This can lead to harsh engagements and rough or slipping shifts as the critical, controlled clutch slip no longer responds as designed. Ultimately premature and expensive transmission failure is likely. Changing the fluid at 75,000 miles helps to restore operation and protect the transmission in the future. The Launch UK CAT501S is an automatic transmission fluid exchange station which ensures a fast and trouble-free fluid exchange. Unlike traditional emptying methods of draining from the sump plug, the ATF machine will run a flushing detergent through the gearbox and exchange 99% of the total oil capacity. The CAT 501S is a fully featured product with a straightforward menu driven interface making it easy to use. Provided with a full set of adapters allowing connection to virtually all transmission types.

Benefits of Fluid ATF Oil Service

- Smoother gear change
- Reduced transmission noise
- Easier gear selection
- Reduced transmission vibrations
- Faster up shift during acceleration

DA6863
Launch UK Land Rover ATF Fitting Kit
A complete fitting kit for attaching a gearbox fluid exchange machine, to all modern Land Rover and Range Rover models. It includes modern 8HP gearbox fittings, 9 speed Evoque as well as all 4, 5 and 6 speed applications including the 5L40E gearboxes on early Range Rovers. Cooler pipe fittings and direct to the gearbox are included, for varied application. Full instructions are included, advising where to attach the fitting for each model. Ideal for Land Rover garages as this kit is compatible with other brands of ATF machines.

DA6861
Launch UK
Automatic Transmission Flushing Fluid
400ml x 24 bottles
This product is designed to effectively remove oxidised oil deposits, and other contaminants that can be present in +40,000 mile automatic transmissions. Suitable for all transmission types.
Advantages
It is particularly suitable for use with the Launch CAT501 fluid exchanger, or similar. It safely removes contaminants from Mechatronic units, valve bodies, torque converters and other moving parts. Allows fresh oil to work correctly in a decontaminated environment, ensuring smooth gear shifts.
Application
It is best used with fluid exchanging equipment, but can also be used without. Run vehicle at normal operating temperature for 10-15 minutes through all ratios and lever positions on a vehicle lift. Carry out oil exchange following the manufacturers guidance. 400 ml will treat up to 10 litres of ATF, for higher capacities add 40ml per litre.

DA6862
Launch UK Automatic Transmission Conditioner - Care & Protect
400ml x 24 bottles
When added to automatic transmission fluid this product will support the fluid in resisting oxidation and ensuring maximum temperature stability, resulting in consistently smooth gear shifting.
Advantages
The product will enhance the function of many fluids, helping to reduce oxidation and extend the effectiveness of the complex additive packs present in automatic transmission fluids
Application
The product is best applied using the Launch CAT 501S Fluid Exchanger or a compatible machine. It can be applied manually, and will treat new and old fluid, usually through the level plug, or top up point. 400ml will treat up to 10 litres of fluid. Larger capacities add 40ml per litre.

Wynn's TranServe™ Consumables

DA6867
Wynn's Automatic Transmission Flush
325ml x 12 bottles
An oil soluble treatment developed to clean automatic gearboxes and restore their optimal operation.

- Safely removes varnish deposits
- Prepares transmission for new fluid
- Cleans all internal transmission components
- Smooths and quietens gear changes
- Prolongs component life
- Restores optimal gear shifting
- Only to be used with TranServe machine

DA6248
Automatic Transmission Treatment
325ml x 12 cans
An oil soluble supplement developed to stop and prevent leaks and ease shifting.

- Stops and prevents leaks
- Rejuvenates rubber seals & O-rings
- Cleans and protects the system by means of detergents & dispersants
- Eases shifting
- Prevents ageing and oxidation of automatic transmission fluids
- Prolongs component life
- 1 can of 325 ml treats up to 6.5 litres automatic transmission fluid

Inspection Lights

DA5175 NEW
Ring Rechargeable Under Bonnet Inspection Lamp
Designed for professionals, this rechargeable under bonnet lamp is perfect for illuminating any engine bay or car interior. Perfect for mechanics and detailers alike, the universal design and large 360° rotating hooks allow the light to be attached to almost any vehicle.

Extending to 1.8m wide, the light can be placed either under the bonnet or between doors for superior illumination whilst working on the vehicle's interior.

60% lighter than the previous model, the lamp is easier to handle and install. Despite its ultra-lightweight design, it features both IK07 impact and IP65 weather ratings, perfect for the demands of a busy workshop.

Recharged via USB-C, the lamp is capable of outputting an impressive 1,200 lumens in high power mode and 600 lumens in energy saving mode, which helps extend run time to 4.5 hours.

- 1,200 lumens peak output
- 600 lumens energy saving mode
- Up to 4.5 hours run time
- Extendable up to 1.8m wide
- Large padded hooks for universal fitment
- Rechargeable via USB-C
- Integrated 3.7V 4400mAh li-ion battery
- Over 60% lighter than the previous model
- Illuminated battery status indicator
- IP65 weather resistant
- IK07 impact resistant

DA5085
Ring Zoom300 LED Inspection Torch with Power Bank
- Up to 300 lumen torch - provides bright white light with 6000K colour temperature
- Standard setting has a wide-angle light output for total illumination of the work area
- 6x Optical zoom - for a focused beam of light to see into the distance
- Maximum power mode (300 lumens) - lasts for 4.5 hours
- Maximum life mode (150 lumens) - lasts for 10 hours
- Complete with USB to Micro USB cable - for convenient recharging (6 hours recharge time)
- Built in IC protection - to protect battery from over charger or discharge
- Power bank functionality - ideal for an emergency charge of a mobile phone
- Magnetic base - for hands-free usage

Light output	300 lumens on high 150 lumens on low
Battery	3.7V Li-ion, 2200mAh 8.14Wh
Functions	High, low
Operating time	Up to 4.5 hours on high Up to 10 hours on low
Product dimensions	145 H x 38 W x 38mm D

DA5171 NEW
Ring Worklight With Integrated Powerbank
Designed with the professional in mind, the powerful 1000 Lumen rechargeable worklight is perfect for providing extra illumination to a workspace. This compact worklamp has the option of high and low settings and operates for up to 8 hours from a single charge. It also has the capability to charge a mobile device via the onboard USB port.

- Two light outputs - High (1000lm) & low (500lm)
- Up to 8hrs operating time (low output)from a single charge
- Integrated powerbank - use to charge other devices
- USB-C charge connection - with charging indicators

Light Output	1000 Lumens (High) 500 Lumens (Low)
Battery	3.7V 4400mAh
Operating Time	4 hrs (High) 8 hrs (Low)
Charging Time	4 hrs
Product Dimensions	159 x 172 x 50mm (HxWxD)

DA5027
Ring Essential LED Inspection Pocket Light
- 5hrs operating time
- Magnet for hands free use
- LED torch function for focused light output
- Protective lens for demanding conditions
- Integral swivel pocket clip
- Includes batteries
- Runs on 3 x AAA batteries

DA5174 NEW
Ring MAGflex Twist LED Inspection Lamp
Multi-award winning inspection lamp that gets light exactly where you need it. A bright, wide angle light output of 450 lumens and 250 lumens on power save mode, makes the MAGflex Twist ideal for workshops. Lightweight, tough and with a 360° rotation and 180° ratcheting, it is the ultimate tool for directional lighting in the workshop with no compromise on light.
- Ultimate control over lighting direction - rotates 360° and 180° ratcheting
- Exceptional light output - COB LED provides 450 lumens
- Power saving mode drop light output down to 250lumens to extend battery life
- Produces white light similar to daylight
- Wide angle of light output that has uniform intensity
- 190 lumens LED torch for precision beam
- Magnet and integrated hook for hands free uses
- Rechargeable and cordless
- USB-C charging cable provided
- Fast, consistent charging with lithium ion battery
- Resilient polycarbonate and ABS construction
- Robust construction with a waterproof rating of IP65 and impact resistance rating of IK07
- Voltage - 3.7V
- Wattage - 8.14W
- Charging - USB-C charging cable provided
- Light output - 250 lumens

Ring MAGflexTwist Ultra Bright LED Inspection Light
DA5066 UK plug
- Rechargeable and cordless
- New technology COB LED provides 250 lumens light output
- Light can rotate 360° with a 180° ratcheting design to allow ultimate directional lighting
- White light output simulates daylight
- Wide angle of light output that has uniform intensity
- Magnet for hands free use
- Integral hanging hook
- High power LED torch function
- Anti slip comfortable grip
- Li-ion battery for faster consistent recharging
- Includes AC mains charger

Light output	250 lumens
Battery	3.7v Li-ion, 2200mAh 8.14Wh
Mains adaptor	Input 230v AC-50/60Hz Output 5v DC-500mA

Add some light to your working environment

DA5170
Ring MAGflex Headtorch250
Designed with the professional in mind, the MAGflex Headtorch250 provides reliability where it is needed the most. This 250 lumen headtorch, equipped with a motion sensor, is tested to IP54 & IK07 and operates for up to 6 hours from a single charge. Perfect for all tradesperson, when needing to work hands free.
- Bright professional inspection lamp - 250 lumens output in a robust housing to withstand tough working environments
- Integrated motion sensor - convenient control of light output
- Reliable battery life - up to 6 hours operating time from a single charge
- Adjustable angle - 60 degree adjustment to point the light where needed
- Integrated warning features to indicate low battery levels - main light emitting surface and charge level indicator will flash to provide visual warning
- Type-C USB connection - cable included
- Light output - 250 lumens (high) & 140 lumens (low)
- Operating time - 3.5hrs (high) & 6hrs (low)
- Charging time - 3.5hrs

Inspection Lights

DA5173 NEW
Ring Rechargeable Mini LED Lamp
Complete with a magnetic base for hands-free working and placement anywhere in the workshop or garage. It has a bright 140 lumen light output and is rechargeable via micro USB, meaning no need to spend extra money on replacement batteries.

- Max 140 lumens output - perfect for DIY around the home or in the car
- Energy saving mode
- Integrated torch
- Rechargeable via micro USB
- Multi-positional with 180° flexible and magnetic base
- Operating time on high output 2hrs 30 mins
- Charge time 2hrs
- Product dimensions - HxWxD - 117 x 62 x 39mm
- Voltage - 3.7V
- Wattage - 3.15W

DA5172 NEW
Ring MAGflex Utility Lamp
Designed with versatility in mind, the MAGflex utility lamp combines dual, magnetic ratcheting bases with a 360° rotating body. This means that the lamp can either be used free-standing or hands-free, positioned in any number of ways to ensure that the workspace is properly illuminated. With 1000 lumens output the lamp can be used as site light or an under-bonnet light as well using for close up inspections. Ideal for mechanics and all other tradesmen such as electricians, plumbers and builders.

- Utility lamp with versatile design - ideal for automotive, professional trade and DIY use
- Dual 180° ratcheting and 360° twist function to direct light exactly where you need it
- Dual hanging hooks and strong magnetic bases for hands free use
- Up to 1000 lumen light output
- Up to 2 hour operating time
- Tough ABS construction to withstand robust working conditions
- Virtually unbreakable polycarbonate lens
- Rechargeable and cordless via USB C - for consistent efficient charging
- Voltage - 7.4V
- Wattage - 19.24W

215717
Old Man Emu NitroLight Pack
Mini LED Light

- Compact & lightweight
- Cordless rechargeable battery
- 20 LED lights
- Up to 2 hours run time on full power & 4 hours on half power
- 12V DC lead and adaptor
- 400 lumen & 10W output
- Dual magnetic mounts & single hook mount
- Water & shock resistant
- LED life expectancy of 50,000 hours

LED Head Torch

- 5W CREE LED light
- Aluminium body
- Three light functions
- Adjustable elastic strap
- Batteries included
- Adjustable beam width
- Light colour - 6500K

ARB Pureview 800 Torch
The ARB Pureview Torch 800 is a rugged and versatile torch. With a beam distance of up to 300m, this torch provides excellent distance.
Features & Benefits

- 800 lumens
- LUMINUS® SST40 with 50,000hr life span
- 300m beam distance
- 2600mah 18650 li-ion battery
- High, medium, low & strobe
- 5000-8300k colour temp
- 800 lumens high - 1.5 hours runtime
- 400 lumens medium - 4 hours runtime
- 200 lumens low - 7 hours runtime
- Strobe - 20 hours runtime
- Hidden micro USB charge port internal charging with charge indicator
- IP55 dust/mud/water resistant
- Polycarbonate shatter-proof lens
- Quality braided USB cable
- Tested to world standard ANSI ratings
- Aircraft grade anodised aluminium
- Includes lanyard and magnetic belt pouch
- Laser etched ARB logos

Technical Specifications

- Beam distance - 300m/984ft
- Lumens - 800 high, 400 medium, 200 low
- LED type - LUMINUS® SST40
- Battery - 3.7V 2600mah 18650 li-ion battery
- Runtime - 8 hours - low, 4 hours - medium, 1.5 hours - high & 20 hours - strobe
- IP rating - IP55 (Dust/mud & high-pressure water resistant)
- Charge time - Up to 4 hours via USB charge cable
- Accessories - Micro USB high current braided cable, belt pouch
- Certificates - CE & RCM(SAA)

Jaguar Land Rover DOIP SST

The original and cost-effective answer to Jaguar Land Rover servicing.

DA2915
Helps independent all-makes workshops to keep up to date with the latest service functions such as service light reset, electronic park brake release and more on DOIP vehicles. Fast start up times means it takes less time to complete those service jobs and leaves your diagnostic tool free to carry out the more complex jobs. This compact tool has a simple intuitive colour screen with a button membrane and means this tool can be used anywhere in the workshop. This JLR approved device works with all current and future DOIP vehicles.

Features

- Intuitive simple user interface, colour screen with button membrane
- Wi-Fi connectivity allowing remote device connection, application download updates, supported via optional USB Wi-Fi dongle
- Encrypted secure data connection to AWS cloud services
- J2534, DPDU support for existing retailer diagnostic tools
- Support for remote diagnostic runtime interface, pay as you go application support
- Approved JLR applications for the JLR SST
- Transport mode toggle (TMT) with speed limiter enable/disable
- Diesel exhaust fluid (DEF) measurement
- Service oil indicator reset (SIR)
- Electronic park brake release (EPBR)
- Diesel particulate filter dynamic regeneration (DPFDR)
- Tight tolerance toggle (TTMT)
- Oil level measurement

Vehicle Coverage

- Range Rover L405 (17MY onward)
- Range Rover Sport L494 (17MY onward)
- Discovery 5 L462 (17MY onward)
- Evoque L538 (18MY onward)
- Discovery Sport L550 (18MY onward)
- Range Rover Velar L560 (18MY onward)
- Defender L663 (20MY onward)
- Jaguar F-TYPE X152 (18MY onward)
- Jaguar F-PACE X761 (18MY onward)
- Jaguar XE X760 (18MY onward)
- Jaguar XF X260 (18MY onward)
- Jaguar E-PACE X540 (18MY onward)
- Jaguar I-PACE X590 (19MY onward)

Note
You will need to register your product to unlock it for use. To register your product, you will need to first download the Diagnostic Associates App Hub from the website here. Please follow the advice in the User Manual, which can be found in TOPIx. It is important to install the Diagnostic Associates App Hub before plugging your device into your computer.

DA1864

DA1863

DA1862

Ideal for use with Pathfinder Diagnostics

Suitable for most common battery types

TRACTION
POWER BEHIND THE BATTERY

DA1864
50A Traction Control Battery Charger
The new MPL50 charger from Traction Chargers has been designed with the latest JLR workshop standards in mind. Suitable for most common battery types - Ca/Ca, Ca/Ag, AGM, GEL and conventional lead acid. The MPL50 features Traction's patented de-sulphation technology ensuring the battery is in peak condition before commencing charge. As with all Traction Battery Chargers the MPL50 is manufactured at our own UK site. The rectified DC output of the MPL50 achieves significantly higher standard of charge than its switched mode competitors.

- Patented sulphation recovery program
- Short circuit shut-down without blown fuse
- Reverse polarity protection
- Soft start current control
- Fast constant current bulk charge
- 3-stage charging: CI-CV-Float
- Constant voltage float/standby
- Proportional timing - minimal gas emission
- Independent overrun timer
- Accurate zero-crossing voltage sensing
- Flexibility - to match battery specification
- 50A constant output function for diagnostic support
- Approved by Jaguar & Land Rover
- Fitted with UK electric plug - adaptor needed for other countries

Input - 220-250VAC
Size - 380 x 260 x 255mm / Weight - 23kg

DA1863
125A Traction Control Battery Support Unit - Diagnostics, Reprogramming, ABS Brake Bleeding
BSU2-125B provides a stable voltage and up to 50 amps of fully regulated power to prevent loss of charge and damage to the battery. BSU2-125B can be used with any 12V automotive battery including AGM and GEL. When the battery is charged the BSU is a regulated power supply to sustain accessory loads and offset parasitic drain. Designed for use in the workshop and compatible with most diagnostic trolleys. Reverse polarity protection. Output current display. Supplied with 5M IEC power lead and 5M output leads.

- BSU2-125B provides a constant voltage to prevent loss of data and possible damage to control units during software updates, and module reprogramming as well as diagnostic processes when in a Key On, Engine Off state
- During diagnostic or programming operations, the vehicle's systems are operating solely from the battery. Maintaining battery charge during this process is critical
- The status of BSU2-125B is indicated simply by three LED's - POWER, POLARITY, DEMAND. When all 3 are illuminated, BSU2-125B is supporting the battery
- Designed to be wall, ramp or trolley mounted the BSU2-125B has been designed to meet the needs of the high power consuming vehicle
- Approved by Jaguar & Land Rover

Input - 90 - 260VAC
Output - 13.4V up to 125A continuous
Size - 300 x 184 x 124mm / Weight - 8kg

DA1862
50A Traction Control Battery Support Unit - Diagnostics, Reprogramming, ABS Brake Bleeding
BSU2-50 provides a stable voltage and up to 50 amps of fully regulated power to prevent loss of charge and damage to the battery. BSU2-50 can be used with any 12V automotive battery including AGM and GEL. When the battery is charged the BSU is a regulated power supply to sustain accessory loads and offset parasitic drain. Designed for use in the workshop and compatible with most diagnostic trolleys. Reverse polarity protection. Output current display. Supplied with 5M IEC power lead and 5M output leads.

- This low profile (90mm) BSU2-50 battery support unit provides a constant voltage to prevent loss of data and possible damage to control units during software updates, and module reprogramming as well as diagnostic processes when in a Key On, Engine Off state
- During diagnostic or programming operations, the vehicle's systems are operating solely from the battery. Maintaining battery charge during this process is critical
- Designed to be wall, ramp or trolley mounted the BSU2-50 has been designed to meet the needs of the high power consuming vehicle
- Supplied with 5M output leads as standard

Input - 100 - 240VAC / 50/60Hz
Output - 13.4V up to 50A continuous
Size - 280 x 190 x 90mm / Weight - 6kg

DA3610 NEW
50A Li-Ion Battery Charger
12V
50A
Input - 110-230V AC
The MPL50-LI charger from Traction Charger has been designed with the latest workshop standards in mind. Suitable for most common battery types – LiFePO4, Ca/Ca, Ca/Ag, AGM, GEL and conventional lead acid. The MPL50-LI features a contactor reset mode for reactivating disabled/highly discharged LiFePO4 batteries. MPL50-LI is available with an optional temp sensing lead set allowing the ultimate in efficient charging. MPL50-LI also features a 13.4V constant output mode for battery support functionality at up to 50A. MPL50-LI is compatible with CDU-1 Charge Distribution Unit. Comes with 2M detachable output leads.

- Contactor reset mode for LiFePO4
- Manufactured in the UK
- Short circuit shut-down without blown fuse
- Reverse polarity protection
- Fast constant current bulk charge
- 3-stage charging: CI-CV-Float
- Constant voltage float/standby
- Flexibility – to match battery specification
- Proportional timing – minimal gas emission
- Independent overrun timer
- Battery Support Mode
- 5M detachable output leads
- Accurate zero-crossing voltage sensing
- "Car Start" ready indicator in LiFePO4 mode
- Soft start current control – temp controlled in LiFePO4 mode

Snow Cowls
Manufactured from ABS plastic these cowls will help prevent snow, mud and leaves from entering the heater intake and reducing the Defender heater performance.
Fitting a cowl will reduce moisture build-up in the intake system which can happen if debris collects in the one-way valve. The cowl fits over the existing grille and follows the profile of the Defender's wing.

DA3648 NEW
Polybush Rear Light Boot
The Defender's rear lights have no protection from water ingress via the rear of the vehicle, Anything from rain to wading can cause damage, which leads to rust and corrosion of the electrical system, resulting in short circuits and malfunctioning lights and indicators.

The Polybush Rear Light Boot saves your Defender from corrosion, its designed to specifically to fit around the O.E lights on your Defender. The boot provides an effective barrier against water ingress and wheel spray, protecting the connections and preventing rust and corrosion ensuring that the rear lights and indicators remain functional, improving visibility and reducing the risk of accidents. The boot is made from a durable and long-lasting Polyurethane, which is unaffected by oil, fuel, and road contaminants.

Unlike rubber, Polyurethane remains flexible and pliable, ensuring that the boot maintains its protective qualities for decades. Installation of the boot is a straightforward process. Cost-effective as it saves Defender owners time and money by eliminating the need for expensive repairs due to water damage. The boot is an affordable and practical solution that provides peace of mind for Land Rover Defender owners who enjoy off-road adventures.

Light not supplied

Electrical Enhancements

DA6674
USB Socket
Designed by MUD to slot into the factory switch apertures on the Defender -Td5 & Puma dashboards. The MUD Land Rover USB socket will also fit the apertures within the Freelander 1, Discovery 2 & Range Rover Classic 'Soft-Dash'. The socket design and green background illumination complements the original OEM Land Rover switches and helps the install retain a factory appearance. USB (A) socket is 12v Quick Charge (QC) 3.0 rated. Supplied with a mini-harness to provide a simple two wire installation. Fitting instructions included.

DA3237
Binnacle Switch Pod
Defender - 2020 onwards
These switch pods were designed to blend into the dash and allow for 2 switches. The pod is supplied with two switches and is made from durable ABS plastic that easily mounts into position using the included double-sided tape.

DA3829 NEW
Dynamic Sweep Wing Mirror Indicators
Defender - 2020 onwards
Sweeping from top to bottom, these dynamic indicators replace the standard on/off indicators. The LED lights are easy to fit and have a smoked finish to match the original factory fitted ones. E-marked (E4).

DA6678
USB Extension Socket
Replace that loose USB input cable trailing from the back of your head-unit in your Land Rover with a dedicated dash-mounted USB input socket. The MUD USB Extension socket provides a neat way to connect to any head-unit equipped with a Apple Carplay/Android Auto by connecting the USB via the rear of the head unit. The MUD USB Extension socket is equipped with a Male USB A connector to plug directly into the Female USB A socket/lead on the back of your head unit. Plug your phones power lead directly into the MUD USB Extension Socket on your Land Rover dashboard to provide Android Auto or Apple CarPlay connectivity and simultaneous phone charging. Length of extension lead is 1000mm. Musical note illuminates green when powered by the vehicle. Finish of rocker is black. The USB Extension socket is styled to complement the original Land Rover Td5/Tdci switch design. The USB Extension socket will slot into the factory switch apertures on the Defender Td5 & Tdci dashboards. The MUD Land Rover USB Extension socket will also fit the apertures within the Freelander 1 & Discovery 2 & 'Soft-Dash' Classic Range Rover. It will also fit the MUD Puma Pod II & any Puma Double DIN Console switch relocation panels. The green illumination of the USB is a brighter green than the factory LED illumination. If this is problematic for you, you can remove the rocker from the USB rotate the switch round then re-apply the rocker. This stops the musical note from illuminating when powered.

Electrical Enhancements

DA6555

LED Interior Light Plinth
Light grey
Defender - 1991 - 2016
The MUD LED interior light plinth allows you to fit a light to the rear of a Defender Station Wagon. The plinth gives enough room to allow the light to fit to the existing wiring. Please note the plinth is not required when fitting to the front of the vehicle.

DA4598
Heated Mirror Kit
MUD-UK Defender heated mirror elements are unlike any other heated mirror element. They use the same carbon impregnated glasscloth technology found in underfloor heating and high-end bathroom mirror applications. Unlike traditional printed circuit heated mirror elements the current flow in flexible glasscloth is across the whole surface area of the element. This results in a larger 'heated' surface area and avoids the "striping" effect of traditional elements. The mirror elements have no fine circuits which can damage easily and offer improved durability and performance over traditional printed circuit elements. The heated mirror elements are supplied with self-adhesive backing. Peel off the backing and stick the element to the back of the Defender mirror glass. Also supplied with a fitting kit that consists of 4m of twin core wire, assorted terminals and a relay. To allow the installer to match up existing switches already installed, an additional switch is required which is not supplied. The wiring can be concealed within the arm of the wing mirror, to create a neat and tidy finish. Elements measure 115 x 167mm.

DA5717
Retrofit Insert Seat Heaters
Complete set for driver and passenger seats
- Two stages of heating
- Kit includes four heating elements and items needed for installation
- Pre-assembled cable set with switching relay and buttons included
- Temperature guard to prevent overheating
- Heating elements are durable and extremely flexible
- For use on seats which have a removable cover
- Includes fitting materials and instructions
- Test mark: e-approved to 95/54/EC (EMC guidelines for vehicles)

DA2342L	Defender 90 / 110 - Td5	LHD
DA3833	Defender 90 / 110 - 2007 - 2016	RHD & LHD
NEW	OE parts throughout	

As OE fitment. Once fitted the system is indistinguishable from factory fitted units. Plugs straight into the existing Land Rover wiring loom and fuse board. Easy to install as components are pre-assembled. Kit uses high performance condenser which eliminates need for an extended nose cone. Parts interchangeable with Land Rover parts.

Rear Kit
DA3263
Defender 110 / 130 - 2007 - 2016 RHD & LHD
The rear A/C unit includes a central cubby box designed to house the air conditioning components, this cubby box comes fully assembled and is a drop-in replacement. The unit design incorporates a new floor plate for the vehicle, replacing the original floor plate that is beneath the cubby box or third seat if fitted. The rear A/C unit consists of twin blowers, with 3D printed components for improved drainage, ducting and airflow. This is combined with a large evaporator coil, suitable for cooling long wheelbase Defenders. The unit features a cigar lighter, providing a 20A outlet for high power accessories. Improvements have also been made to the mechanical components such as the cup holders, these are now machined from billet aluminium prior to finishing.

7450124 NEW
ARB 6-Channel Fused Relay Box
Fitting electrical accessories to a vehicle can be time consuming work. Finding space to mount relays and fuses in a modern vehicle engine bay is a challenge for fitters. And the end result is multiple power cables connected to the crowded battery positive terminal, multiple drilling in the engine bay to mount different looking relays and fuses, and various messy cables running between the relays and fuses. Solve those issues with an ARB 6 Channel Fused Relay Box.

The relay box acts like a 12V power distribution hub and provides 6 output channels. Once the relay box high current cable is connected to the battery, the power connection of any load (e.g., lights) involves only one cable from the load to the screw terminal of the box.

The rated current on each channel is 20A and the rated total output current of the relay box is 60A. Each channel has its own standard blade fuse for overload protection and a 30A automotive relay for turning on and off the power. There is also built-in over temperature protection. A top lid protects the wiring within a compact flame-retardant enclosure. A quick connect cable simplifies LINX installation with pre-terminated direct connection to all 6 x LINX Switchboard outputs, as well as 2 x LINX inputs for convenient under bonnet connections to low beam and high beam.

- 1 x Relay box (160mm x 93.7mm x 84.3mm)
- Selection of pre-installed blade fuses (3 x 20A, 2 x 10A and 1 x 5A)
- 6 x 30A rated relay pre-installed
- 1 x Pre-terminated quick connect cable
- 1 x 3m Extension cable with braided cable sleeve
- 10 x cable ties
- 2 x M6 x 20mm hex flanged screws and M6 locking hex nuts
- User manual

For outputs, ARB recommend to use a wire gauge suitable for the load's current draw and length of wire – for 20A loads, 12AWG (1m) and 10AWG (2m). If using LINX, use the Switchboard Outputs (Terminals No. C3"D3) to control the relays. If using mechanical switches, feed +12V signals to control the relays.

Electrical Enhancements

DA4698
12 Volt Dash Socket
Features watertight cap, easy installation and twist locks securely with plug
- Designed to withstand the rigours of damp environments and constant vibration
- Large contact surfaces for good electrical connection
- Twist lock system - plug locks securely into socket
- Internal strain relief and cord seal
- Nickel plated copper alloy used for all current carrying components
- Front panel, rear panel or surface mount

Specifications
Maximum voltage - 12V DC
Cut-out dimensions - 1⅛" (28.58 mm) diameter hole
Maximum socket amperage - 15A

Enhance the look of your Defender

DA1748

DA4679
Dual USB Charger
Easy to install in existing 12V DC socket hole providing convenient access for charging mobile devices.
- Compatible with popular mobile devices
- Protective cap
- Easy to use

Maximum output current - 2.1A DC (total)
Cut out dimensions - 1⅛" (28.58 mm) diameter hole
Input voltage - 12V
Output voltage - 5V DC +/- 5%
Parasitic current draw - 15mA
USB - 2.0

DA1748
6-Way Blade Fuse Distribution Block Neg Bus Bar
This high quality 6-way fuse holder distribution block has an integral 6-way bus bar - meaning both live and earth connections can all be made at this fuse panel.
- A clear insulating cover is supplied which also has slots to hold spare fuses within the cover
- Externally on the cover are recesses to mount small format stickers to identify the circuits protected
- Selection of stickers provided
- Accepts ATO & ATC automotive blade style fuses
- Tin plated bus and fuses connections for superior corrosion resistance
- Mounts via four M4 holes
- Positive and negative posts are M5 size
- Each circuit is rated at 30 amps at a maximum of 32 volts with a total rating of 100 amps per block

1 x 6-way blade fuse distribution block with neg bus bar

ATO/ATC Blade Fuses

1 x 5a blade fuse - beige	1 x 10a blade fuse - red
1 x 15a blade fuse - blue	1 x 20a blade fuse - yellow
1 x 25a blade fuse - clear	1 x 30a blade fuse - green

Pre-insulated Ring Fuse Blocks

Fast Rings
Defender - and other 5" / 5¼" speakers
A 3-piece foam ring speaker enhancement system solves the problem of acoustically coupling aftermarket speakers to factory speaker openings. The RoadKill Fast Rings kit increases speaker output, improves the projection of the audio into the car cabin and reduces unwanted rear reflections that can degrade the sound.

Benefits
- Reduce panel vibration
- Increase mid-bass response
- Enhanced audio output efficiency
- Minimize destructive wave interference
- Help prevent front and rear wave cancellation
- Easy installation with peel & stick application
- Maximize performance for speaker installations
- 3-Ring DNA
- Gasket for speaker mounting to the baffle plate surface
- Middle ring to mount around the outer edge of the speaker
- Circular foam pad goes behind the speaker to absorb unwanted reflections on hard surfaces, such as inside a car door

DA7960
Ring Wireless Connect
The smart way to control power to ancillary electrical products. The one central Tech Hub connects to the vehicle's 12V battery, allowing 8 ancillary electrical products to be wired to one location. Then through unique signal pairing each device can be wirelessly accessed through the switch remote.
- One power pick up point
- Single point connection for up to 8 ancillary products
- Ease of product connection
- Driving efficiencies and saving time in both fitting and operation
- Removes the need to fit battery protection measures
- A simple system, reducing faults and keeping vehicles in operation
- The switch unit can be operated remotely on the job
- Switch units can be located anywhere in the vehicle for easy access

With fewer connections and one central wiring point, fault finding is simpler and vehicles can be back in operation quickly. The switch remote can be located anywhere on the vehicle and can be operated remotely during on-site working.
- Single point connection for efficient installation
- 60 amp capacity, powerful enough to operate multiple ancillaries at the same time
- Unique signal pairing allowing x 2 switch panels to be connected
- 8 fused output channels for easy connection for ancillary electrical products
- Manual override in case of an emergency
- Battery protection maintains battery voltage
- Switch remote - Single point switch panel where 8 switches are controlled via one user interface
- Switch remote - Backlit illumination for working at low light
- Switch remote - Active channel lights indicates switch status icon
- Switch remote - Lithium battery for quick efficient recharging
- Switch remote - Adaptable switch icons to suit individual requirements
- Switch remote - Docking station for secure fitment when travelling or recharging

Specifications

Input voltage	11 - 15V
Input current	Max 60A
Battery protect voltage cut-off	11V
Input reverse voltage protection	Up to 16V
Fused input	60A

8 x Fused relay channels 2 x 1.5A; 2 x 3.5A; 2 x 5A & 2 x 20A

Tech Hub
You can connect up to 8 ancillary products to our hub and each one is then wirelessly accessed through our switch keypad. The hub can be conveniently located in the vehicle to minimise wiring and fitting times and to give operators easy access.

Switch Remote
The switch unit wirelessly connects to the hub, can be removed from the dock to be operated remotely on the job and can be located anywhere in the vehicle.

DA4599
Heater Deflector
Defender - 2007 - 2016
The MUD Heater Deflector solves the problem of that crude and annoying blast of hot air to your lower legs in all Puma engine Defenders. The Heater Deflector redirects the flow of air from the lower heater outlets forwards into the footwell, rather than directly at your legs to create a more comfortable driving environment. The Heater Deflector moulding fixes easily in place using the supplied push-fit fasteners & can be fitted in 5-minutes. All you need is a 4.5mm drill. Position Heater Deflector, drill the fixing holes in the lower dash section & fix the Heater Deflector in place using the push-fit fasteners.

DA4691
Single DIN Dashboard Mount
Defender - 2007 - 2016
The MUD dashboard mount creates a quick and easy method of mounting a single DIN accessory into the Puma dashboard. You will however have to route any wiring through the back of the dashboard. Ideal for mounting any DIN sized CB/HAM radio unit into your Defender. Mic extension leads are an inexpensive accessory and commonly available so that mic can reach the driver. The single DIN mount also comes with a handy 'coin tray' which sits behind the grab handle. The dashboard mount is also suitable as a digital tachograph mount. EU customers should be aware that mounting a tachograph on the passenger side of the dashboard does now meet EEC legislation. Supplied with all fixings required to provide a quick and easy installation. Fits both right-hand drive and left-hand drive vehicles.

Front Grab Handles

DA8868	Black anodised aluminium	Single
DA8869	Silver anodised aluminium	Single

Defender - 1987 - 2006

Stainless Steel Door Threshers
Defender & Series 2 & 3
These stainless steel door threshers will freshen up the inside of your Land Rover as this is an area is which can get very scruffy. All of the existing holes on the sills line up with these doors threshers so they are a quick, easy bolt on project. The door threshers are made from stainless steel 304 grade bright annealed 1.5mm thick and are laser cut and CNC pressed. Stainless steel fixings are supplied.
Note - If your door seal is fitted to your sill rail, you may need to modify the sill rail.

Designed and manufactured by Optimill, these are CNC machined from billets of aerospace grade 6082-T6 aluminium. Rubber grips fitted to aid grip and feel of the pedal. After machining, they are ceramic blasted and anodised to a maximum of 25 microns. Set of 3.

DA3744 NEW
Side Window & Windscreen Demister Kit
Defender
The Defender Demister is an amazing product that fits most Defenders, wide vent versions from approximately 1983 - 2016.
Fitted in about 30 seconds using a couple of screws, no drilling or complicated processes. All you need to fit them is a screwdriver!
It works by controlling the existing air flow, distributing it to the areas that need it most... your front and side windows.
Safety for both yourself and anybody travelling in your vehicle is the most important consideration for any driver. The Defender Demister ensures that both side windows are mist and condensation free thus ensuring visibility even in the worst weather conditions.

DA1205
Demister Kit
Defender - 1987 - 2007
Fitting this Defender demister kit will help demist your windscreen more effectively than the standard fitted demister and has the added bonus that it will also demist your side windows too. With full fitting instructions.

Interior Enhancements

DA6493
X-Trouser - Pair
Lost a pair of trousers getting in and out of your Defender? Here is the simple solution. Not only does it protect your trousers, in many cases it makes the door close more reliably and helps (though it does not entirely stop) the seat belt getting caught in the latch. If the seat belt does become caught as you close the door, it suffers less damage due to the smooth profile of the X-Trouser. The X-Trouser has a smooth profile, if your belt loop or pocket runs over it, it will slide off freely. Made from high quality 304 grade stainless steel. The X-Trouser catch is reversible so it will fit both the driver and passenger doors, left & right hand drive. It will also fit the rear side doors of 110 Station Wagons.

DA2608

Double DIN Fascia Plate

DA2608	Piano gloss black
DA2609	Matte black

Defender - 2007 - 2016
This fascia kit allows the installation of a double DIN head unit into a non-double DIN size aperture. High quality finish designed to match the vehicle dashboard. Complete fascia kit, supplied with brackets to mount the aftermarket double DIN head unit.

DA2682

Double DIN Fascia Plate With Retention Of OEM Clock

DA2681	Piano gloss black
DA2682	Matt black

Defender - 2007 - 2016
For double DIN stereo installation. Retains OEM clock, all dash buttons and button detail. Fascia kit allows the installation of an aftermarket head unit into a non-DIN sized aperture. High quality finish designed to match the vehicle dashboard. Allows for relocation and retention of OEM clock. Fascia kit supplied with brackets or cage if required.

DA1204

DA1203

Rear Door Stays

DA1204	Defender - up to 2002
DA1203	Defender - 2007 - 2016

Does your Defender's rear door sometimes close on you unexpectedly? This neat and easily installed gas strut kit will solve that problem and replaces the original door stopper. The gas strut will hold the door in place when open - even with a spare wheel in place - and will assist in the opening of the rear door too with a smoother and more controlled movement. Complete with fittings and instructions.

Defender Td5 Double DIN Console

DA2898	Black

Corresponds to single DIN - FWJ000110PMA

DA2899	Brunel Silver

Corresponds to single DIN - FWJ000110LQV
The MUD Td5 Double DIN Console replaces the factory-fit Defender Td5 radio fascia with an exclusive one-piece design that allows you to easily upgrade the original single DIN radio set-up to a double DIN head unit. The original radio fascia fitted is a fragile unit prone to breakage thanks to a flimsy and poorly designed two-piece assembly that can barely support the weight of the single DIN head unit. Typically, the separate centre panel containing the head unit/radio will break loose from the main console. Fitting is a simple DIY upgrade that uses the factory fixings and requires no cutting, drilling or modifications to be made to your dashboard. Simply remove your old console, replace with the new console and enjoy the benefits and features of the larger screens found on modern double DIN head units. The console was engineered using CAD 3D scanning technology and uses an injection moulded manufacturing process for a factory fit appearance and a perfect fit every time. A design detail we've incorporated is to increase the diameter of the recess that houses the standard cigar lighter style 12v socket. This increase in the recess diameter has been made to accommodate the popular Bluesea marine grade power sockets.

DA5055

DA5079

Interior Storage & Panels

Heavy-duty Drawer Systems

DA1470	Defender 90 Defender 110 - Utility 2007 - 2016	Drawer size - 950 x 700 x 170mm Overall dimensions - 1,100 x 910 x 230mm Base - 1,000mm long
DA1471	Defender 110	Drawer size - 1,010 x 700 x 170mm Overall dimensions - 1,160 x 910 x 230mm Base - 1,050mm long

These Defender drawer systems are ideal for storing items that you keep in your vehicle that you would want to be hidden away from view and can be locked for extra security. The heavy-duty drawers with smooth roller action, fit between the wheel arches and create very useful extra storage space. Drawers extend almost full length for ease of access with a maximum load of 80kg. Hard wearing textured black finish complements the heavy-duty carpeted top.
Note - Will not fit 90 Station Wagons or 110 Station Wagons with 3rd row or inward facing rear seats.

Image above shows side floor kit fitted. Custom box and cover not included in package. Image below shows both single drawer module and side floor kit

CRDDEF
ARB Outback Solutions Modular Roller Drawers
Single Drawer Module
Defender - 90 & 110 Station Wagon - 2002 - 2016
The ARB Outback Solutions Modular Roller Drawers have unique and practical features incorporated into their design to ensure high quality, maximum functionality and ease of use.

Specifications
Drawer Internal - 730mm wide x 970mm long x 220mm high
External Frame - 790mm wide x 1,070mm long x 280mm high
Total Weight- Approx. 63kg

- *Anti-roll Back System* - Incorporates mechanisms on the roller drawer that lock it in the open position, preventing unintentional closing when the vehicle is on uneven ground. The mechanisms engage at full opening of the roller drawer and are disengaged automatically when closing.
- *Anti-rattle* - Locking mechanisms on the roller drawer eliminate movement while closed. Retaining the drawer in this way stops rattle and wear and tear while driving.
- *Purpose Folded Stainless Steel Runners* - The roller drawer bearings run on purpose folded stainless steel runners. Stainless steel offers the best surface for bearings to run on resulting in smooth quiet operation. Galvanized bearing runners are not used because the galvanized coating transfers onto the bearings creating rough operation and an opportunity for corrosion to start. Tool chest style telescopic runners are not used because of the slop and movement they allow. This constant movement whilst driving accelerates wear and deterioration when used in automotive applications.
- *UV Stable Commercial Carpet* - Exterior surfaces are finished in hard wearing commercial carpet and interior surfaces are trimmed in automotive boot carpet. Both materials resist abrasion and conceal dirt in tough off road conditions.
- *Robust Finishes* - Aluminium trims are used to protect corners and ends of the drawer to improve longevity.
- *Slam Shut Latches* - Slam shut/pull open handles make opening and closing the roller drawer an ease, even with hands full of gear. The roller drawer handle is key lockable.
- *Drawer Dividers* - Fixed long divider to separate into 2 drawers + additional 2 removable dividers.
- Fully galvanised steel chassis.
- Lined with precision cut, quality boot carpet on the inner and outer side to give it a professional and neat finish.
- Full fitting instructions included in packaging.

FKDEF
ARB Outback Solutions Modular Roller Drawer Side Floor Kit
The side floor kit is especially designed for fitment with the CRDDEF drawer module and fills in the area between the outer edge of the drawer and the side of the rear boot area. The side floor kit completes the floor and provides a larger flat top surface.
Note - Fridge slide not available for this drawer model.

DA2977
Console
Storage Box
Defender - 2020 onwards

Make use of the space at the front of your centre console with this easy to fit plastic storage box. To stop items sliding around, the box features an easy to remove rubber mat.

Glove Box Kit

DA2603	Defender - 2007 - 2016	Black finish fascia plate
DA2603CF	Defender - 2007 - 2016	Carbon fibre effect finish fascia plate

DA2610
Coin Tray
Defender - 1987 - 2006

Interior Storage & Panels

Roof Consoles

DA4629	Grey
DA4629B	Black

This roof console fits all Defenders except sunroof equipped models. Supplied with interior light extension loom and DIN blanking panel. Fitting kit and instructions are also supplied. The console offers a unique storage solution for the Defender in providing additional overhead roof storage as well as a single DIN provision in one unit. The two side sections are designed to hold anything from maps to sunglasses, documents to magazines. The console is supplied in three separate pieces. The product has been designed with CAD software and the moulding finished off using CNC machinery to ensure an OE level fit and finish to the product.
It is supplied with a DIN blanking panel but the central binnacle will fit any DIN sized accessory such as a stereo, CB/HAM radio or even a digital tachograph. The single DIN aperture will also accept a bank of seven Carling Technologies switches by using the Carling interlocking switch mounts.

Will the Defender roof console fit my vehicle?

The console has been designed to fit all post 1983 Defender models without a sunroof and with a factory headlining. The fixing method does not require removal or cutting of the headlining or sun visors. (Some later models will require trimming of the central area of the headlining when fitting a DIN unit). If you have a non-factory headlining it is unlikely it will fit without modification of the headlining. If you have a Series vehicle, again it is unlikely it will fit without modification.

DA4692
Utility Wagon Trim Panels

Protect the interior of your 110 Utility Wagon and improve upon the crude 'unfinished' factory look of the Land Rover 'window' trims with our MUD designed 110 Utility Wagon Trim Panels. The MUD 110 Utility Wagon Trim Panel fits behind the existing 'window' trim panel to create a smart factory look finish. The MUD 110 Utility Wagon Trim Panels are supplied in pairs with cargo nets that create useful extra storage within the cabin walls. Ideal for coats, shopping bags and pet paraphernalia! Each net features elasticised netting and is supplied with black headed flush fit fasteners for a professional appearance. With a typically MUD level of attention to detail, they've had the plastic of the MUD 110 Utility Wagon Trim Panel specially blended to match the correct 'Dark Granite' shade of the original trim panels to provide an OE appearance to the installation. Each MUD 110 Utility Wagon Trim Panel is supplied with four foam insulation panel that sit behind the trim panels to isolate vibrations and provides an additional layer of insulation.

Interior Side Trim Panels

DA2764	Blank	Black
DA2765	With nets	Black

Defender 90

Designed to offer a smart factory appearance to the interior of any hardtop Defender 90. The rigid plastic trim offers added protection from accidental damage to your hardtop side panels, whist the easy to clean surface means the rear loadspace remains dog-proof! The basic kit comes as a pair of moulded trim panels. The panels are a one piece moulding from ABS plastic. Each kit comes supplied with four self-adhesive foam backing pads and all the necessary fasteners and instructions. The kits are an easy DIY fit and can be installed with the minimum of tools in approximately 1.5 to 2 hours. Each kit is supplied with four closed cell foam pads to offer additional insulation and sound deadening to the interior of your Land Rover. The foam pads are supplied pre-cut and come fitted with self-adhesive backing for quick and easy installation.

With Nets

The recessed areas within the side panel trim has been designed to accept a 500 x 300mm wire frame storage net. Each net features elasticised netting and is supplied with black headed flush fit fasteners for a professional appearance.
Note - The kits will fit all Defender 90 hardtops fitted with side panels that have the vertical strengthening rib fitted. Early 90 models have a strengthening rib that runs horizontally across the side panel. Unfortunately the kits will not fit this variant.

Defender 90

Rear quarter window panel trims to compliment interior side panel trims. The rear quarter window panel trims will finish off the side panel installation with a plastic trim surround to conceal the exposed bare metal to either side of the rear door opening. Available in two styles - with window cut out and without the window-cut-out to suit the later Defender 90 'Van' models when Land Rover stopped fitting the quarter windows as standard in van models. Fitting is a simple screw fixing. Fixings are supplied together with screw caps for a neat appearance. Some minor trimming of this product may be necessary (but not always) due to the variation in the fitment of the side-panels and factory hardtop.

Optimill Enhancements

DA8880

DA8883

DA8883

Optimill Steering Wheel Bosses

DA8880	Slimline boss	48 splines
DA8881	Slimline boss	36 splines

Optimill slimline boss, measuring only 32mm in depth. Manufactured from a single anodized billet aluminium. Momo horn button will no longer fit due to this being so slim therefore an Optimill cap is supplied. Boss is supplied with screws and pins to cancel the indicators.

DA8883	Slimline boss with quick release	48 splines
DA8882	Slimline boss with quick release	36 spline

Optimill slimline boss fits directly to your steering column, without the need for multiple bosses to be used. Manufactured to the highest standard, hard anodised to prevent wear and designed to give an extra level of security to your vehicle. The slimline boss is just 42mm in depth, meaning it is only 10mm thicker than our original slimline boss. The boss is designed to fit Momo steering wheels or wheels with 6 holes on a 70mm PCD. Momo horn button will no longer be able to be used as the boss is so slim, therefore an Optimal cap is supplied along with screws and pins for installation. Note: This boss has 2 locking pins which are used to separate the boss. These must NEVER be pulled open whilst driving. This is designed as a removable product and it is the drivers responsibility to ensure it is fitted correctly and in full working order before attempting to drive the vehicle.
Note - Optimal steering bosses DA8880/DA8881/DA8882/DA8883 don't fit Mountney steering wheels DA4650 & DA4654.

DA8883

DA8884

OPTIMILL

DA8884
Optimill Quick Release Security Lock
Produced as a swivel locking cover to fit over an Optimill Quick Release Boss (36 or 48 spline). Manufactured from billet aluminium. Outer body runs on a bearing to prevent the steering being turned. Anodized in bright orange for visibility. Supplied complete with lock & 2 keys.

DA8884DOCK
Optimill Quick Release Security Lock Docking Station
Manufactured to screw into your cubby box or where you choose to store your Optimill quick release swivel lock (not included) when not in use. Manufactured from billet aluminium and anodised silver.

DA8884DOCK

Optimill Enhancements

DA8860
Billet Wing Mirror Arms with Puddle Light
Defender
Black. Supplied as a pair.
Manufactured from aerospace grade billet aluminium, anodised and assembled in house at Optimill. Comes pre-wired for heated mirror heads and fitted puddle lights. Manufactured to fit both Optimill and original door hinges. The hinges may require drilling to hide the wires into the door. (Optimill hinges now come pre-drilled to accompany this modification). All fixings and drilling templates are supplied for ease of fitting. These mirror arms are 20mm longer to aid towing trailers/caravans.

DA8861
Billet Wing Mirror Arms
Defender
Black. Supplied as a pair.
Manufactured from aerospace grade billet aluminium, anodised and assembled in house at Optimill. Designed to fit both original and Optimill door hinges. All fixings and drilling templates are supplied for ease of fitting. These arms are 20mm longer to aid towing trailers/caravans.

DA8862
Number Plate Light with Camera
Defender
Black
Complete with HD 170 degree camera & LED number plate light. Billet machined from 6082 aluminium. Plug & Play to plug into factory Land Rover wiring loom. Fitted using the existing holes in the body. Supplied with foam gasket and stainless steel screws.

DA8863
Defender Number Plate Light
Defender
Black
Billet machined from 6082 aluminium. Complete with LED number plate light. Plug & Play to plug into factory Land Rover wiring loom. Fitted using the existing holes in the body. Supplied with foam gasket and stainless steel screws.

DA8867
Security Bonnet Hinge Kit
Defender
Black. Supplied as a pair.
These are CNC machined billets of aluminium 6082-T6. Internally pinned to prevent unwanted removal of the bonnet. Anodised for extra protection and longevity. The set comprises of high security stainless steel fixings which are fixed from underneath the bonnet for added security.

DA8862MONITOR
Rear View Mirror Camera Monitor
Practical high quality 4.3-inch TFT-LCD auto rear-view mirror monitor, which is suitable for car reverse cameras, DVD, VCD player, and supports 2-way video inputs. Works perfectly with the Optimill number plate light with reversing camera. The monitor will start up automatically, and synchronously display the video from the rear view camera when you're backing your Defender. It is easy to install without damaging to any parts of your vehicle - clip the monitor on the original one.

DA8866
Rear Door Security Hinge Kit
Defender
Black
Designed with concealed fixings, to prevent access from outside the vehicle. CNC machined from billets of aerospace grade 6082-T6 aluminium. The hinge pins are made of stainless steel which are internally pinned to prevent unwanted removal. The hinges also feature self lubricating graphite bushes to reduce friction and prevent wear. The superior performance of these hinges means there is no longer a need to use a separate swing away type wheel carrier, although are compatible with most makes, they are also compatible with panoramic glass conversions. Supplied with high security stainless fixings.

DA8862LOOM
Wiring Loom For Number Plate Light With Reversing Camera
Small piggy back wiring loom that fits between original plug and reversing light, enabling fitment of the new number pate light and provide the live power feed for the reversing camera.

Note
Optimill recommend that no TFR (Traffic Film Remover) solutions found in some cleaning products, should be used on their anodised products.

DA8864
Front Door Security Hinge Kit
Defender 90
Black

DA8865
Front Door Security Hinge Kit
Defender 110 - 1st & 2nd row doors
Black

With this unique design the door cannot be removed even if the external screws have been removed. Prevention increases security for unwanted removal. These high quality door hinges are CNC machined from billets of aerospace grade 6082-T6 aluminium. The hinge pins are made of stainless steel which are internally pinned to prevent unwanted removal or theft. The hinges also feature self lubricating graphite bushes to reduce friction and prevent wear. Supplied with high security stainless fixings & shims.

Dynamat Sound Deadening

Dynamat Xtreme Sound Deadening
Dynamat Xtreme is the highest efficiency sound deadening material available and the most effective product for stopping noise and vibration. Xtreme can be used on any and all interior sheet metal and fibreglass body panels. The aluminium constraining layer is very moldable and conforms easily to all interior surfaces. The patented extra sticky butyl layer is formulated with VECTOR chemistry for the most amazing energy conversion capabilities ever. Use it on your doors, floor, roof, bonnet and loadspace for a quiet, cool and incredibly solid ride.

- Create a solid, luxury car feel with a reduction in road noise
- Stop resonance & vibrations, reduces buzzes & rattles
- Improved sound. Get more bass. Hear more of your music
- For use throughout your vehicle interior, the first step to a great car

Transmission

Red Booster Servo Clutch Kit

The Red Booster servo clutch kit makes your Defenders clutch much easier to press. This kit will make your driving a more pleasurable experience and reduce the effort you'd normally put in from driving your Defender. No more painful knees or feet when you are stuck in slow moving traffic!

Designed, engineered and manufactured to the highest standards, Red Booster is a mechanism system that makes it possible for all Defenders to have a servo assisted clutch. Working in a similar way to the braking system with a servo assisted system, it is mounted between the pedal and master cylinder and uses a vacuum from the inlet manifold to reduce the amount of pressure needed on the pedal to operate the clutch.

The left hand drive version - works similar to the right hand drive system. The location of the clutch pedal of a left hand drive Defender is on the far corner of the vehicle and with hardly any space the entire unit had to be redesigned to fit without cutting and drilling your vehicle.

DA4748
Uprated Engine Breather Oil Catch Tank
200Tdi & 300Tdi engines
Allisport high performance aluminium engine breather oil catch tank separator. Manufactured using mounting flange machined from billet aluminium. All engines need to breathe crankcase pressure to atmosphere and most are designed to re-enter the air intake system after the air cleaner.
Standard breather pots use a gauze and mesh design which over time becomes blocked with oil deposits, reducing the capacity to release crankcase pressure and also allowing more oil vapour to enter the intake system. This high performance replacement is designed to effectively reduce crankcase pressure build up on Tdi engines by using an internal baffle rather than the standard gauze and mesh design. Designed to have a practical purpose offering an improvement over the original black plastic units, but will also look great in the engine bay. Will fit all Tdi engines including 2.8 TGV. Manufactured by hand, fully TIG welded. Tank has new integral O ring-seal design - ***No More Leaks!!***

Aluminium Header Tanks

Range Rover Classic - petrol & diesel - 1990 - 2016
DA4751 Defender - Td5 & Td4 Tdci

Direct replacements for the original plastic tanks

These are direct replacements for the original plastic tanks which are prone to splitting. TIG welded by hand and manufactured from high specification lightweight non-corrosive alloy, these tanks also aid cooling. Tanks use original pressure release screw cap and are a straight fit with no modifications required. Ideal for motorsport, overland or just to improve the look of your engine bay.

DA4749
Aluminium Power Steering Reservoir with Internal Baffle
Defender – Tdi, Td5, Tdci & V8
Designed to replace the plastic ZF reservoir which is prone to splitting and leaking vapour through the breathable cap, which in turn then collects dirt and runs the risk of water ingress. The external breather design means no unsightly mess under the bonnet and allows routing with high axle/gearbox breathers to eliminate water ingress. Manufactured from laser cut 2mm high grade aluminium with CNC machined pipe connections, knurled cap and external breather. The corrosion resistant aluminium rolled body is fully TIG welded by hand in house. 110mm high (155mm height including cap) & 91mm diameter.

Tailgate Conversion Trim Kit
Range Rover Sport - 2005 - 2011
The rear tailgate on the Range Rover Sport changed in 2012 from a two piece tailgate (with opening top window section) to a one piece tailgate & above the registration plate a new silver strip was added that went the width of the tailgate. If you have a 2005 - 2011 model and want to make it look like the 2012 model from the rear you can fit this clever conversion kit. The kit consists of 3 panels - 1. Underside base - section made from ABS plastic in grey primer finish - you will need to paint this part black. 2. Top section - supplied in primed ABS plastic ready for painting body colour 3. Strip section - chrome plated plastic. This is a bolt on replacement kit that replaces the existing panels on the upper tailgate. Easy to fit. More details online.

- Allows for relocation and retention of OEM clock
- Includes mounting brackets and fitting accessories
- Retains steering wheel control functionality
- Retains OEM MOST amplified system
- Retains phone button functionality
- Provides outputs for speed pulse, park brake and reverse gear
- Updateable via USB
- Comes with universal patch lead for the plug and play connection of the kit to any brand of aftermarket head unit

Double DIN Radio Install Fascia
DA2611
Discovery 3 — Non-amplified vehicles only
DA2652
Discovery 3 — Fibre optic amplified vehicles only
Double DIN radio install fascia, steering wheel control interface and antenna adapter

- Allows you to upgrade to an aftermarket head unit whilst maintaining use of your factory steering wheel controls
- Plug and play, no cutting of wires required
- Maintains the original features of the vehicle such as date, time and temperature display
- Choose the relevant head unit connection lead according to the make of aftermarket head unit you wish to fit
- Contains universal patchlead

DA1921
Double DIN Radio Install Fascia
Discovery 4
Retains visual parking display
Upgrade your Discovery 4 head unit and retain the OEM look, feel and functionality of your vehicle. Allows for the complete installation of a double DIN stereo whilst retaining all key factory features. For vehicles with basic display. Retains steering wheel controls, USB input, vehicle warning/park assist functionality and settings menus.

Allows for relocation of OEM clock and button panel. Behind the dashboard the plug-and-play interface will retain the vehicle's steering wheel control functionality, phone buttons and visual parking aid functionality whilst also providing CAN-Bus outputs for parking brake trigger, speed pulse, reverse gear and mute.

To complete the installation, the bespoke fascia panel sits seamlessly in the OEM dashboard, surrounding the stereo and allowing for the retention of the OEM clock. The fascia panel is painted to match the meteor grey components with accents of satin silver to preserve the aesthetics of the dashboard.

DA1390
Fuel Burning Heater
Discovery 3 - 2.7
Discovery 4 - 3.0 - when timed climate is activated
Fuel burning heater is ideal for warming your engine on cold winter mornings while sat in the comfort of your house, no need to go outside and start your engine to defrost the car. The heater is triggered using one of two main options. The first is your Land Rover original blip using its 3rd button, secondly by sending an SMS. As well as a FBH this controller can do a host of other functions including - clear faults, fuel pump prime, diagnostic and statuses on SMS, various run modes, SMS controlled GPS tracking and so much more.

Internal features

- ***Dairy compartment*** - optimised internal capacity includes separate compartment for fruit and dairy products
- ***Reversible basket with divider*** - multiple storage options by separating fridge freezer contents or alternatively allowing longer items to be positioned along the length of the cabinet
- ***Drain plug*** - integrated into fridge freezer base for effortless cleaning
- ***Integrated evaporator*** - designed as an integral part of the interior cabinet, ensuring simplified cleaning and optimum use of internal storage space
- ***Internal LED light*** - low power draw LED light with magnetic switch turns off when lid is closed

External features

- ***Secop compressor*** - highest quality, Secop Compressor with smart electronic control system enables rapid cool down to target temperature
- ***Durable detent hinge*** - stainless steel detent hinge ensures the lid can be easily released and securely slid back into place
- ***Rear clips*** - rear clips secure 12/24V and 100-240V cables, preventing the plug from being accidentally disconnected
- ***Lid with integrated seal*** - tough, two piece injection moulded lid incorporates a recessed seal, preventing excessive wear and damage
- ***Front latch*** - simple to use, large over-centre cam lock latch provides a positive seal between the lid and cabinet for maximum cooling efficiency
- ***Control panel*** - easily accessible, recessed front control panel with maintenance-free digital temperature display (no dedicated battery required)
- ***Recessed handles*** - powder coated steel handles, engineered to double as tie down points
- ***Durable case*** - powder coated, robust zinc steel cabinet sides designed to withstand extreme off road conditions
- ***Rubber feet*** - integrated into fridge freezer base for increased grip and stability

CONTROL BY APP

ELECTRIC FRIDGE FREEZER SLIDE & TIE-DOWN KIT

More information is available online at www.britpart.com

Overview

The tried and proven ARB fridge freezer has been keeping food and drinks cold for many years now they've been given a fresh new look and some cool little upgrades! One of the most exciting updates is the free transmitter module which allows remote display and control via an Android or Apple Smartphone or ARB LINX device. A colour scheme inspired by the ARB Jack, the gun-metal fridge freezer body contrasts perfectly with the black plastics and will look right at home in the back of a wagon, underneath an ARB Canopy. See all the updates, features and benefits of these fridge freezer - **www.britpart.com/chill**

Communication

A transmitting module has been introduced that utilises Bluetooth® connectivity allowing both monitoring and control of your Series 2 fridge freezer. Whether you're in the driver's seat or relaxing in your camp chair, keeping an eye on the temperature of your beers has never been so easy - it can all be done on your Apple or Android Smartphone or ARB LINX device. For existing ARB fridge freezer owners, the transmitter is also backwards compatible on any ARB fridge freezer manufactured post 2014 however, functionality is limited to display only - see website for more details.

10900041

ARB Remote Electric Fridge Freezer Monitor

Allows you to monitor the operating condition of your ARB fridge freezer from the comfort of your driving seat.

- Multiple receiving channels for minimised transmission disruptions
- Large easy viewing backlit display
- Ability to monitor 2 ARB fridge freezers
- 30m line of sight or 15m interrupted transmission
- Quick release bracket for easy removal of LCD display
- Temperature displayed in either °C or °F
- Power supply 12V

ARB Electric Fridge Freezer Transit Bags

Shields your electric fridge freezer from dents and scratches while also providing additional insulation in extreme temperatures. Made of tough, durable canvas, the functional ARB transit bag features a handy side pocket for items such as the power cord or instruction booklet, as well as openings for the fridge freezer's rubber feet, power cables and drain plug hole. And most importantly, includes an ARB bottle opener!

Toastie Brander

ARB4206
The ARB Toastie Brander is designed to make toasted sandwiches on the coals of an open fire or portable burner. Consisting of two cast iron plates with handles formed from Manchurian Ash timber. The Toastie Brander can cook a variety of sandwiches and as the name suggests, brands the ARB logo onto both sides of the sandwich. Supplied with canvas case.

Tents, Awnings & Shelters

Tent & Awning Pegs

ARB4158A
ARB Supergrip Sand Pegs

- 4 pegs per pack
- 370mm length
- Polycarbonate construction
- Multiple attachment points
- Bright orange for best visibility
- 80.5g each

With a unique head design, the ARB Super Grip Sand Pegs are able to grip more than traditional pegs in surfaces such as soft soil, sand and snow. Made from strong & durable polycarbonate, the pegs will handle the strong winds to sudden gusts. Packing up camp, the bright orange colour makes them super easy to find as well as reducing the potential to trip over them.

ARB4159A
ARB Guy Rope Set With Carabiner

- 2 per pack
- Spring tensioner
- Aluminium toggle/tensioner
- Aluminium carabiner - 50kg rating
- Reflective rope for easy sight at night
- 108g each

The spring-loaded tensioning system, featuring a heavy-duty spring, helps absorb shocks to the pegs in windy conditions, this in turn ensures your guy ropes stay taut and the peg isn't pulled from the ground. Ideal for use with the ARB awnings as the aluminium carabiner allows it to be simply and easily clipped on to the awning. The ropes also feature reflective sections to help with visibility at night.

ARB Awnings & Accessories

Awning

DA6828 1,250 x 2,100mm

Easy to mount and operate, these self standing, retractable awnings fit onto the side of a roof rack and are conveniently stored for immediate use on arrival. Specifically designed for harsh outback conditions, the awnings feature height adjustable, telescopic legs and provide fast and convenient protection from the elements. Easily mounting to the side of most roof racks or roof bars, the awning is secured in a heavy duty nylon reinforced PVC bag. Constructed from tough PU coated 300gsm poly/cotton rip stop canvas, the awnings are fully waterproof and offer a UVP 50+ rating. **Note** - You may also need awning fitting brackets - 813401 or 813402 or quick release brackets.

Windbreaks

DA6829	2,500mm	Front wind break
DA6840	2,000mm	Front wind break
813300	1,250mm	Front wind break
DA6844	2,400mm	Side wind break

Suitable for 2,000mm and 2,500mm awnings only.
Not suitable for 1,250mm awning (DA6828).

Designed to angle out from ARB awnings, these wind breaks offer additional protection from the rain while also providing extra shade and sun protection. ARB wind breaks are ideal for creating extra protection and storage for items like swags and chairs under the awning. Manufactured from lightweight PU coated 300gsm poly cotton canvas. Waterproof and UV protected with a UVP 50+ rating. Tie down points for each wind break to further secure the awning.
Note - Awning not included.

Deluxe Awning Alcoves

813209 2,000mm
813109 2,500mm

Provides a practical solution to protect you from the elements, in many applications and environments. Whether it's an enclosed shelter for your swag, verandah for the table and chairs or protected space for storage, this alcove is sure to provide a versatile solution against the sun, rain, wind and light. Produced in line with ARB's existing Touring lineup, it features a high density 175GSM polyester ripstop canvas. It is also fire retardant for global markets and includes a durable multi-mesh mat. More information and images available online.

Awnings & Light Kit

814406 2,000 x 2,500mm
814407 2,500 x 2,500mm

When touring or camping, having adequate lighting is one of the most important items needed for any trip. Having good bright light, in the right spot and not in your eyes, will further enhance your overnight experience in the great outdoors.

Introducing the ARB awning and light kit, an LED light strip is incorporated into the awning roof. Just like in your home, good quality lighting is in the ceiling, not the walls - therefore placing the light right where it's needed and not harshly in your eyes is important. The slim dimensions of the LED light strip simplifies pack up. The light is rolled up with the awning roof after use and not removed, keeping everything together for your next adventure (make sure the joining cable hangs out about 10cm from the sleeve).

LED light strip is incorporated into the awning roof

The ARB awning light provides up to 1200 lumens with a choice of either cool white or amber colour mode and is dimmable via a waterproof digital dimmer switch.

Building a high performance light into the roof came with some challenges. One was making sure we could get the LED strip small enough as well as making sure we could keep them cool so they would not de-rate and dim prematurely. This has been achieved by using quality LED chips that can handle more heat than a standard strip light and also attaching the strip light to an aluminium track for heat dissipation, all sealed in a water tight resin.

Colour feature: Amber mode provides low bug attractant qualities or to provide comfortable late-night soft lighting when out camping or touring with current draw at 1 amp hour.

The light is powered via a fused cigarette lighter plug, with an additional 4 meters of insulated water proof cable and connectors, so the awning can be mounted on either side of your vehicle. Included with the wiring is a handy storage bag to keep all your cables together when the light is not in use.

Remember, using the appropriate ARB Quick Release Bracket for the awnings, you can now correctly mount the ARB 2.5m Awning to any dual cab trade rack.

Features & Benefits

- 300gsm awning roof material - Heavy-duty to withstand the elements, mould proof treated, provides excellent UV reduction, one of the highest in class
- 1,000mm water head rating - Excellent water proofing
- 25mm aluminium poles and arms @ 1.2mm thickness - Superior strength and one of the thickest in the market
- 1000D PVC carry bag - Excellent abrasion and UV rating
- Welded and heat tape seamed seams - Quality built
- Flexible arm joints - Reduce stress and cracking
- 1200 lumen, high heat resistant LED's with aluminium extrusion for heat dissipation
- Water resistant digital dimmer control - Dimmer rated to IP56
- Cool white LED mode - Great for cooking and preparation
- Amber LED mode - Great to reduce bugs and mood lighting
- Additional cable storage bag provided for when not in use

Note - You may also need awning fitting brackets - 813401 or 813402 or quick release brackets.

814450 NEW **Ensuite Room With Floor - Instant Shower Tent**

Looking for the perfect camping accessory for a private and comfortable shower experience? Introducing the ARB Ensuite Room Shower Tent! Attached to your roof rack and with a simple and speedy set-up, you'll have a private shower, change room, and toilet all in one. **Much more information available www.britpart.com/814450**

Three Wall Set

ARB4409A 2,500 x 2,100mm

Comprised of three individual walls that wrap around the outside of ARB awning legs, the three wall set is both waterproof and UV protected. Manufactured from lightweight PU coated 300D Oxford polyester, two walls feature windows made from half mesh and half clear PVC, while the right hand wall includes a zippered door that can be rolled up out of the way. Connected via a zip, each wall can be used individually, as a pair or set. Available to suit ARB awnings. Supplied with hardened steel pegs and adjustable tension straps. No rear wall allows for full access to the vehicle. Mud/storm flaps at the bottom of each wall.

ARB Awnings & Accessories

Deluxe Awning Room with Floor

813208 2,000 x 2,500mm
DA1466 2,500 x 2,500mm

Designed to function as a fully enclosed room or mosquito net, the ARB deluxe awning room with floor provides protection from the weather, insects and provides additional privacy. Easy and quick to set up the ARB deluxe awning room can be used with 2500 and 2000 model awnings and features a durable waterproof floor and its own separate ceiling to help keep you cooler. All main wall panels incorporate zipper operated two way solid and mesh access doors for easy access and to accommodate changing weather conditions. Vehicle wall is solid zipper wall only.

- Keep dry with waterproof walls made from Oxford Polyester
- Long product life and sun protection thanks to UV treated materials
- Enjoy a 'bug-free' environment with ultra-fine insect mesh
- Heavy duty yet lightweight waterproof floor means a dry ground and compact storage
- Organiser pockets perfect for phones, magazines and sunblock
- Comes complete with guy ropes and steel pegs
- Cable access ports for high mounted lighting solutions

Note - Kit does not include the awning. You may also need awning fitting brackets - 813401 or 813402 or quick release brackets.

ARB Quick Release Awning Brackets

Going one step further with your awning attachments is to have a quick release option. The ability to quickly unbolt your awning for storage or alternatively moving it to a different mounting place is now easier with the ARB quick release awning brackets.

The ARB quick release brackets provide excellent mounting options for all ARB awnings to their roof racks and cages. They provide the correct mounting and in nearly all cases with no drilling or modifications required to mount.

The ARB quick release brackets are easily removable via a simple one bolt configuration. This allows for storage of the awning when it is not required on the vehicle, or the ability to move the awning between vehicles which further expands the versatility of the ARB awning.

Installing the Kit 4 bracket to the rear of the roof rack/cages allows your awning to be moved from the side of your vehicle to the rear of your vehicle in minutes when you are setting up for camping. This provides up to 2.5m of awning space at the rear of the vehicle. The awning will need to be moved back to the side of the vehicle while in transit.

Dual cab mounting with Kit 3 allows a full 2.5m awning to be fitted to the side of dual cabs with the correct 700mm overhang to be adhered too. ARB quick release brackets also provide excellent mounting options for wagons providing strength and durability where required. Removing the awning when not required allows for reduced weight on the vehicle and additional security when the awning is not required.

Complementing the design and sophistication of modern 4WDs, ARB's aluminium encased awnings offers a sleek and contemporary alternative to traditional awning covers while adding improved functionality.

ARB Aluminium Encased Awnings

Natural Aluminium Finish

814102 2,500 x 2,500mm
814408 2,500 x 2,500mm - with LED lights

Black Aluminium Finish

814414 NEW 2,000 x 2,500mm - with LED lights
814412 2,500 x 2,500mm - with LED lights

The three quick release bungee cords remove the need for zips while the flip-up lid provides unmatched simplicity. An added abrasion resistant material improves the protection of our proven 300gsm, PU coated, fully waterproofed and UV protected canvas while stowed and travelling. The awning is supported by heavy duty 1.2mm gauge x 25mm expandable aluminium poles, anodised for greater corrosion resistance and perfect for setting up by the beach.

- Aluminium housing offers strength and modern styling
- Quick release bungee cords on a hinged lid for unmatched simplicity
- Anodised aluminium for corrosion resistance, perfect for the beach
- PU coated canvas provides a 100% waterproof overhead shelter
- Ripstop canvas, a cross-hatched design, improves strength
- Heavy-duty poles for greater resistance to poor weather conditions
- Compatible with awning rooms, wind breaks

Note - You may also need awning fitting brackets - 813401 or 813402 or quick release brackets.

ARB Awning Brackets

813402
Designed with welded gussets to provide additional strength when awnings are mounted to roof bars on vehicles used off-road or under extreme conditions. Single.

813401
Galvanised bracket bolts directly to roof bar or flat roof rack panel for a simple awning fitment. Single.

ARB Esperance Rooftop Tent

Compact. Hardshell. Lightweight. Contemporary Design.

Drawing heritage from the beautiful beaches and crystal-clear waters of one of Western Australia's most renowned coastal environments, the Esperance tent now expands the ARB rooftop tent family into a super lightweight, slimline and contemporary looking hard shell.

With the brief focused on quick and effortless setup/pack up times, features like an internal telescopic ladder, gas strut assisted opening and only 3 push lock ratchet straps keep travelling a breeze. Not only does Esperance look great at camp but the unique shell design and colour tone also compliments vehicles while packed up.

Lift, Pull & Rest

- Setting up is as simple as unclamping the cover, lifting it up, and folding out the tent via a pull
- Can be packed up with compact bedding left inside
- Internally stored telescopic ladder

Roomy & Comfy Interior

- When set-up, enjoy a large overall internal bed space: 1,520mm (L) x 2,000mm (W) x 1,200mm (H at centre)
- 40mm thick, high-density sponge with a quilted polyester peach skin mattress cover that's removable for washing
- Manage airflow via the 3 zippered windows featuring dual midge-proof mesh screen
- Stargazing moonroof

Extra Protection

- Wind resistant, slimline shell design that has been designed with a streamlined mould
- Stainless steel hardware for long term durability
- Canvas is made from 200GSM poly cotton fire retardant with a silver coated 2m water head
- Fly is made from removable 210D fire retardant canvas, with silver coated 3m water head

Handy Features

- Features an internal dimmable LED strip light with concealed cables
- External LED strip lighting to help you out late at night
- Includes internal storage pockets, shoe pockets, cargo pockets, mounting kit and hardware

Specifications

- Packed Dimensions - 1,520mm (L) x 1,220mm (W) x 330mm (H)
- Open Dimensions - 1,520mm (L) x 2,000mm (W) x 1,200mm (H)
- Weight - 56kg dry (approximately)
- Sleep Persons - 2 adults & 1 child
- Tent Weight Limit - 500kg
- Ladder Weight Limit - 150kgs
- Shell Material - ABS with acrylic compound material
- Mattress - 40mmm, high density sponge
- Mattress Cover - 3-layers quilt polyester peach skin
  Fabric of Rain Cover - PU300mm, UV50+, PU+silver plating, Oxford, 210D, FR free
- Fabric of Main Tent - PU300mm, UV50+, PU+silver plating, poly-cotton canvas, 200g, FR free
- Mesh - 100% polyester, 50g/m2, 68D
- Roof Rack/Cross Bars requirement - Your roof rack and cross bars MUST have load limit over 75kg. Your cross bars MUST be at least 760mm apart and height is less than 40mm. Please consult your vehicle's manufacturer regarding the load limit.
- Speed Limit - The recommended speed limit to not exceed when having the tent on your vehicle is 68 mph. Driving speed should always be adjusted according to the current driving conditions, such as road type and quality, weather (wind conditions, rain), and applicable state speed limits.

804200 NEW

- Magnetic, self-locating window/door loops
- Insect/midge proof mesh & solid canvas doors
- Hanging shoe & accessory organiser

803300

ARB Flinders Rooftop Tent

Compact Without Compromising On Camping Comfort

With a quick set-up and pack-up as well as the added practicality of storing all your bedding inside, with the ARB Flinders rooftop tent you're one fold away from a good night's sleep in a comfortable space that'll go wherever you and your 4WD take it!

Spacious inside with 3 surrounding zipper windows, a skylight-style roof and built-in internal light and USB charging port, the Flinders rooftop tent is conveniently compact on the outside with a lower packed height for reduced wind drag and less added height to your vehicle.

Easy Set-Up & Hassle-Free Pack Down

- Set up and pack down is simplified thanks to the zipped cover which does not have to be removed
- Setting up is as simple as unzipping the cover, opening out the tent using the ladder and sliding the expendable poles into position – all internal poles will intuitively fan out into place
- Packing down is easy via 2 internal bungee lines to help pull the sides of the tent in as it folds down

Internal Light, USB Charging Points & Storage Pockets

- Features an LED touch lamp and 2 x USB charging points that can connect to a vehicle's 12V outlet
- Includes 4 storage pockets, shoe pockets, pack down bungee cords, 5m lighting cable extension, mounting kit and hardware

Compact & Lower Profile

- The lower packed height of 200mm (without ladder affixed) results in reduced wind drag and adds less overall height to the vehicle
- Compact size allows for improved aerodynamics as well as improved access to low roof areas and tracks with low canopies
- Removable ladder

Large Internal Space With Windows

- When set-up, enjoy a large overall internal bed space: 2,400mm (L) x 1,400mm (W) x 1,200mm (H at centre)
- Manage airflow via the 5 zippered windows featuring dual midge-proof mesh screen
- Rain and sun awning shelters to side windows and entrance
- Integrated vent ensures maximum airflow and reduced condensation
- Includes comfy 50mm high-density foam mattress with bedding retention straps

Specifications

- Packed Dimensions - 1,400mm (L) x 1,200mm (W) x 200mm (H) (300mm H with ladder)
- Open Dimensions - 1,400mm (L) x 2,400mm (W) x 1,400mm (H)
- Weight - 56kg dry (approximately)
- Canvas - 300gsm poly-cotton rip-stop canvas & 420D Oxford polyester fly for sunroof and window awnings
- Outer cover - 600gsm heavy-duty grey PVC cover
- Base - ABS laminated insulated aluminium internal frame
- Frame - Internal metal camlock bows with 25mm diameter frame
- Ladder - Aluminium sliding ladder - 120kg rating
- Windows - 3 windows, 1 x door entry, a skylight and an all-weather ventilation port
- Mesh - Midge proof mesh
- Seams - Internal seam sealing and bar tack stitching on tensioned areas
- Zips - Self-repairing coil zips
- Lighting - 300 lumen LED touch lamp, 2 x USB sockets at 2.1A and 12V socket
- Mattress - 50mm high-density foam mattress with bedding retention straps

ARB Tents

DA8981
ARB Simpson Rooftop Tent & Annex
1,400 W x 2,400 L x 1,300mm H
The ARB Simpson III rooftop tent will provide the ultimate in ease and convenience when travelling. Unfolding in minutes, a rooftop tent provides sleeping quarters off the ground, protected from the elements. Spacious and comfortable, all bedding can remain inside the tent during the journey, freeing up vital storage space in the vehicle, and allowing the tent to be quickly and easily packed away. 2,150 L x 1,400 W x 450 to 800mm H
Weight - 14kg

SW002 **ARB SkyDome Peg & Pole Kit**
Replacement peg & pole for SDS200

Incorporating the latest in swag design and comfort, the ARB SkyDome swag has been designed from the ground up to meet the exact needs of 4WDers and tourers alike. To counter the claustrophobic feeling caused by some swags, ARB's SkyDome range has been designed with very generous dimensions. The industry-leading height from head to hip allows occupants to move around freely and spread out without feelings of confinement. The large mesh areas provide excellent ventilation to reduce internal condensation, with additional canvas flaps and insect-proof mesh in the roof zone of the Series II improving cross-flow ventilation to enhance airflow and make it cooler and even more comfortable during warmer nights. The freestanding architecture means ARB SkyDome swag require no pegs or guy ropes when deployed on flat surfaces. Matched with waterproof materials and a high-density corrugated 75mm foam mattress, the SkyDome will ensure a dry and comfortable night's sleep in any conditions. Rain gutters to divert water from windows. Each tent has 4 x internal storage pockets, a torch holder and 2 x hanging hooks.

- 500gsm - rot & mildew proofed canvas
- High tensile wax coated core spun thread
- Ultra-fine 135gsm midge proof mesh
- 970gsm PVC base
- 75mm corrugated foam with anti-microbial treatments
- Improved air ventilation
- Genuine no#10 YKK zippers with anti-corrosion
- 11mm aluminium poles

ARB Cargo Gear SkyDome Swag Bags

10100385
Single SkyDome Swag
1,000mm L x 450mm D

10100390
Double SkyDome Swag
1,500mm L x 450mm D

10100385

These ARB Cargo Gear bags have been developed specifically for storage and transit of the ARB SkyDome Swags. The bags feature moulded rubber carry handles on either end along with a removable shoulder strap. Unique to the swag bags are four adjustable tie down straps integrated into the bag to allow it to be secured to a roof rack without the need for additional straps.

- Outer shell made from tough, Oxford weave PU coated fabric and rubber panelling
- All seams are heat sealed and taped to ensure storm proofing
- Roll up top closure with 'Sure Grip' buckles to create water resistant seal
- Removable body curve shoulder strap
- Grab handles on either end of bag

804401

815118

BSWAG
ARB BootSwag
When designing the range of SkyDome swags, the boot mat found on numerous other swags was intentionally omitted due to the nature of these flaps getting dirty and soiling the swag when rolled up. The BootSwag is ARB's creative solution to this challenge and features a zippered front flap, large boot mat and a dome section made from waterproof Oxford fabric. Being a standalone item, the BootSwag can also be used with other touring products including the ARB roof top tents where it can be placed at the foot of the ladder.
Boot swag - 460 L x 500 W x 340mm H
Boot mate - 580 L x 500mm W

- Waterproof, heavy-duty PVC base and boot mat
- Designed to protect footwear from the elements at night
- Manufactured from PU coated Oxford polyester for optimum water shedding ability
- Free standing design with 4 pegs included
- Durable fibreglass bows and rod
- YKK zipper and nickel plated brass eyelets for corrosion resistance
- PU coated Oxford polyester storage bag

803301
ARB Tent Lighting Kit
The perfect addition to any camping setup, ARB's Tent Light works seamlessly with a large range of rooftop tents and awnings. Simple to set up and featuring a touch-sensitive switch, the Tent Light helps to light up the night wherever you are, without needing to fumble for switches in the dark of night.

- Light output 300 lumens dimmable light output
- Suited to 25mm clamps to suit ARB Flinders, & ARB Simpson tents as well as other awnings and rooftop tents with 25mm poles
- Current draw Up to 1A @ 12V for lighting from 12V cig plug
- Power output Two USB ports (2.1A and 1A) and a 12V cig plug
- Weather-resistance IP54 splash resistance and weather-resistant external plugs and fused 4m cable

ARB Camping Chairs

DA8929
ARB Air Locker Camping Chair
Rated to 120kg and has a host of features, including a padded seat and backrest, convenient drink holder pouch, side pocket with Velcro flap for your keys, wallet or other small items, and a mesh magazine pocket on the rear of the backrest. Manufactured from durable nylon Oxford weave material, the chair also comes with a matching carry bag for compact storage and transportation.

10500101
ARB Camping Chair
Rated to 150kg. The ARB camping chair is built with quality and comfort in mind. Made from durable nylon Oxford weave. The chair also features a convenient drink holder table, side pocket, additional drink holder pouch and mesh magazine pocket. The zippered storage bag features a shoulder strap making it easy to transport and is ideal for protecting the chair from dirt and dust when not in use.

More information available online

10500131
ARB Compact Directors Chair
Rated to 130kg. The ARB compact directors chair is the luxurious camping chair solution! The chair features Old Man Emu colours, full high back support, auto folding table with cup holder, padded armrests, safety lock out button, unique any-terrain legs, integrated fully PVC welded no leak cooler bag and an abundance of pockets and organisers which all fold neatly down into an easy pack carry bag.

ARB Camping Table

10500130 ARB Compact Aluminium Camp Table
The perfect size for packing neatly away into your vehicle, yet big enough to get a family of 4 around. Made from aluminium, the design utilises a full diameter aluminium slat providing a strong sturdy surface, as well as heat resistance for cooking preparation. A great place for dinners or another storage spot to keep your camp items off the ground. Cross braces are used to provide additional support providing a unique sturdiness not seen in similar tables. Pack up size is great which is all neatly stored away in a compact bag.

- Table surface size - 860 L x 700 W x 700mm H
- 22 x 22mm black anodised legs
- 600D PVC back nylon carry bag
- Table can hold up to 30kg when assembled
- Unique table pins to keep table together if moved
- Folds up easily for carrying and compact storage - 880 L x 210 W x 125mm H

ARB Quick Fold Stretcher Bed

10500140
ARB Quick Fold Stretcher Bed
Sometimes finding a soft place to set up your swag or tent is next to impossible. Anyone who's had to sleep on rocks can tell you that unless you're travelling with a pillowtop mattress, you're going to feel the ground all night. The ARB Stretcher has been developed for use underneath your swag or on its own, it features a quick-fold design for an almost instant set up, meaning you can set up in a snap, giving you more time to relax and enjoy your surroundings. When you're finished, the ARB Stretcher packs up quickly and easily, and stores into its rugged storage bag ready for your next adventure. An included strap with hooks secures your swag to the stretcher via the peg down points on the head end of your ARB swag and by using the included pack up/roll up straps sewn into the ARB swag you can secure the base. The quick-connect boot bag, supplied standard with the ARB Stretcher, keeps your boots and other essential items off the ground and safe from creepy crawlies.

- Easy connect boot bag - great for storage of your boots and other personal items
- Quick fold system makes pack up a breeze
- Anti-rock feature to keep you steady and still for the entire night.
- 600D nylon padded top, providing comfort and support
- Heavy-duty steel frame
- 600D nylon storage bag
- Weight rating - 150kg
- Pack weight - 12kg
- Open size (LxWxH) - 2,110 x 820 x 460mm
- Pack down size (LxWxH) - 1,050 x 210 x 210mm

10500070
ARB Pureview 800 Torch
The ARB Pureview Torch 800 is a rugged and versatile torch. With a beam distance of up to 300m, this torch provides excellent distance.

Features & Benefits
- 800 lumens
- LUMINUS® SST40 with 50,000hr life span
- 300m beam distance
- 2600mah 18650 li-ion battery
- High, medium, low & strobe
- 5000-8300k colour temp
- 800 lumens high - 1.5 hours runtime
- 400 lumens medium - 4 hours runtime
- 200 lumens low - 7 hours runtime
- Strobe - 20 hours runtime
- Hidden micro USB charge port internal charging with charge indicator
- IP55 dust/mud/water resistant
- Polycarbonate shatter-proof lens
- Quality braided USB cable
- Tested to world standard ANSI ratings
- Aircraft grade anodised aluminium
- Includes lanyard and magnetic belt pouch
- Laser etched ARB logos

TRASHAROO
OFF ROAD SPARE TIRE TRASH BAG

ARB Track Pack

ARB4305

This versatile Track Pack provides storage for unwanted smelly rubbish and recyclables. Keep your rubbish sorted with unique internal dividers to create dual compartments, one for recyclables and one for general waste. The Track Pack can also be used to keep wet towels and clothes from a day at the beach or additional storage for dirty items or recovery gear. More information available online.

- Large twin main compartments - overall 60 litres of space
- Centre removable divider for organization of rubbish or gear
- Top lid organiser for keys, rubbish bags or sunscreen
- Twin side pockets with shackle holders
- Full mesh base for easy clean out
- Suits tyres up to 35"
- Reflective strips for safety
- Three point harness with anti-slouch strap
- Security strap to deter thieves from stealing your bag
- Includes built-in bottle opener

Expedition Boxes

Stay organised & keep your equipment protected with these durable, stackable storage units.

DA9993
Low Lid Expedition Box
External Dimensions
510mm L x 400mm W x 230mm H
Internal Dimensions
450mm L x 340mm W x 205mm H

DA9994
High Lid Expedition Box
External Dimensions
510mm L x 400mm W x 295mm H
Internal Dimensions
450mm L x 340mm W x 293.5mm H

Manufactured from super tough black high density polyethylene plastic, the boxes lock tight with catches and feature a ribbed structure for additional strength. The boxes can be stacked on top of each other, with the base fitting firmly with the lid below reducing shifting of cargo in transit. Given the rigid structure of the boxes, ratchet straps can be used to hold boxes in position without damaging any of the contents. The storage capabilities of these boxes are limitless - from camping equipment, food supplies, recovery equipment, camera supplies and much more. Enabling you to keep your packing space organised and easy to access, whether that be in the boot or on the roof rack. The boxes are big enough to hold your supplies, whilst still being easy to lift in and out of your vehicle and are available in low and high lid options.

Features

- Durable high density polyethylene plastic
- Lock tight with catches
- Integrated grab handles
- Water resistant
- Drainage holes
- Stackable
- Ribbed structure

ARB Stormproof Bags

The ARB Stormproof bags have a large roll-up (non-zip) opening - perfect access for packing and unpacking your contents. This unique roll-up opening with side tie down buckles creates a waterproof and dustproof environment, allowing you to store your cargo bag outside or transport it on your ARB roof rack. All ARB Stormproof bags now feature looped webbing straps on each side of the bag. The larger end loops accommodate tie down straps to retain your bag on the roof rack during transport with the other loop webbing straps suitable for attaching additional gear or hooks to the exterior of your ARB bag.

Features & Benefits

- Polyester waterproof shell
- PVC abrasion resistant base materials
- Gear loops
- Quick release buckles
- Tie down loops, perfect for ratchet tie downs (fits ARB tie downs and others)
- Stone coloured polyester
- Strong double stitched webbing carry handle
- Exterior mesh quick access pocket
- Convenient shoulder strap included
- Styled ARB logo

10100350 Large
Capacity - 110 litres
Size - 900 L x 400mm D — Weight - 1kg

ARB Fire Pit

10500200
ARB Fire Pit

This is a seriously sturdy and versatile fire pit that will be just as useful at home entertaining guests in the backyard, as it will be at your favourite campsite. A fire pit for camping has to be portable and while the design of the ARB Fire Pit might not scream "revolution", they have added some key elements that make a good design great. The base structure of the fire pit is a five-piece assembly, slotting together without requiring any tools. To ensure longevity and improved heat retention, all pieces are cut from a solid three-millimetre sheet of REDCOR® steel. A base plate ensures the coals and associated heat remain in the pit, while the top edges are folded with integrated tabs to secure the included cooking grill. It is also designed to suit your own sourced cast iron BBQ plates and rotisserie. The included cooking grill utilises half of the fire pit's top opening and features both a grill and hotplate section. The cooking grill is made from 4mm mild steel and can be seasoned with cooking oil and a quality fire. The whole unit collapses down and fits neatly into the supplied Australian made canvas carry bag.

Weathered Look

REDCOR® is a new class of steel that won't rust, but will weather to a nice patina. This look and finish are the actual desired look and finish of this material and is not a warranty concern. The steel was specifically picked to do this and some customers may have concern around this, but this is the finish and look we aimed for. The patina will actually provide additional protection to the fire pit and keep in good use for years to come.

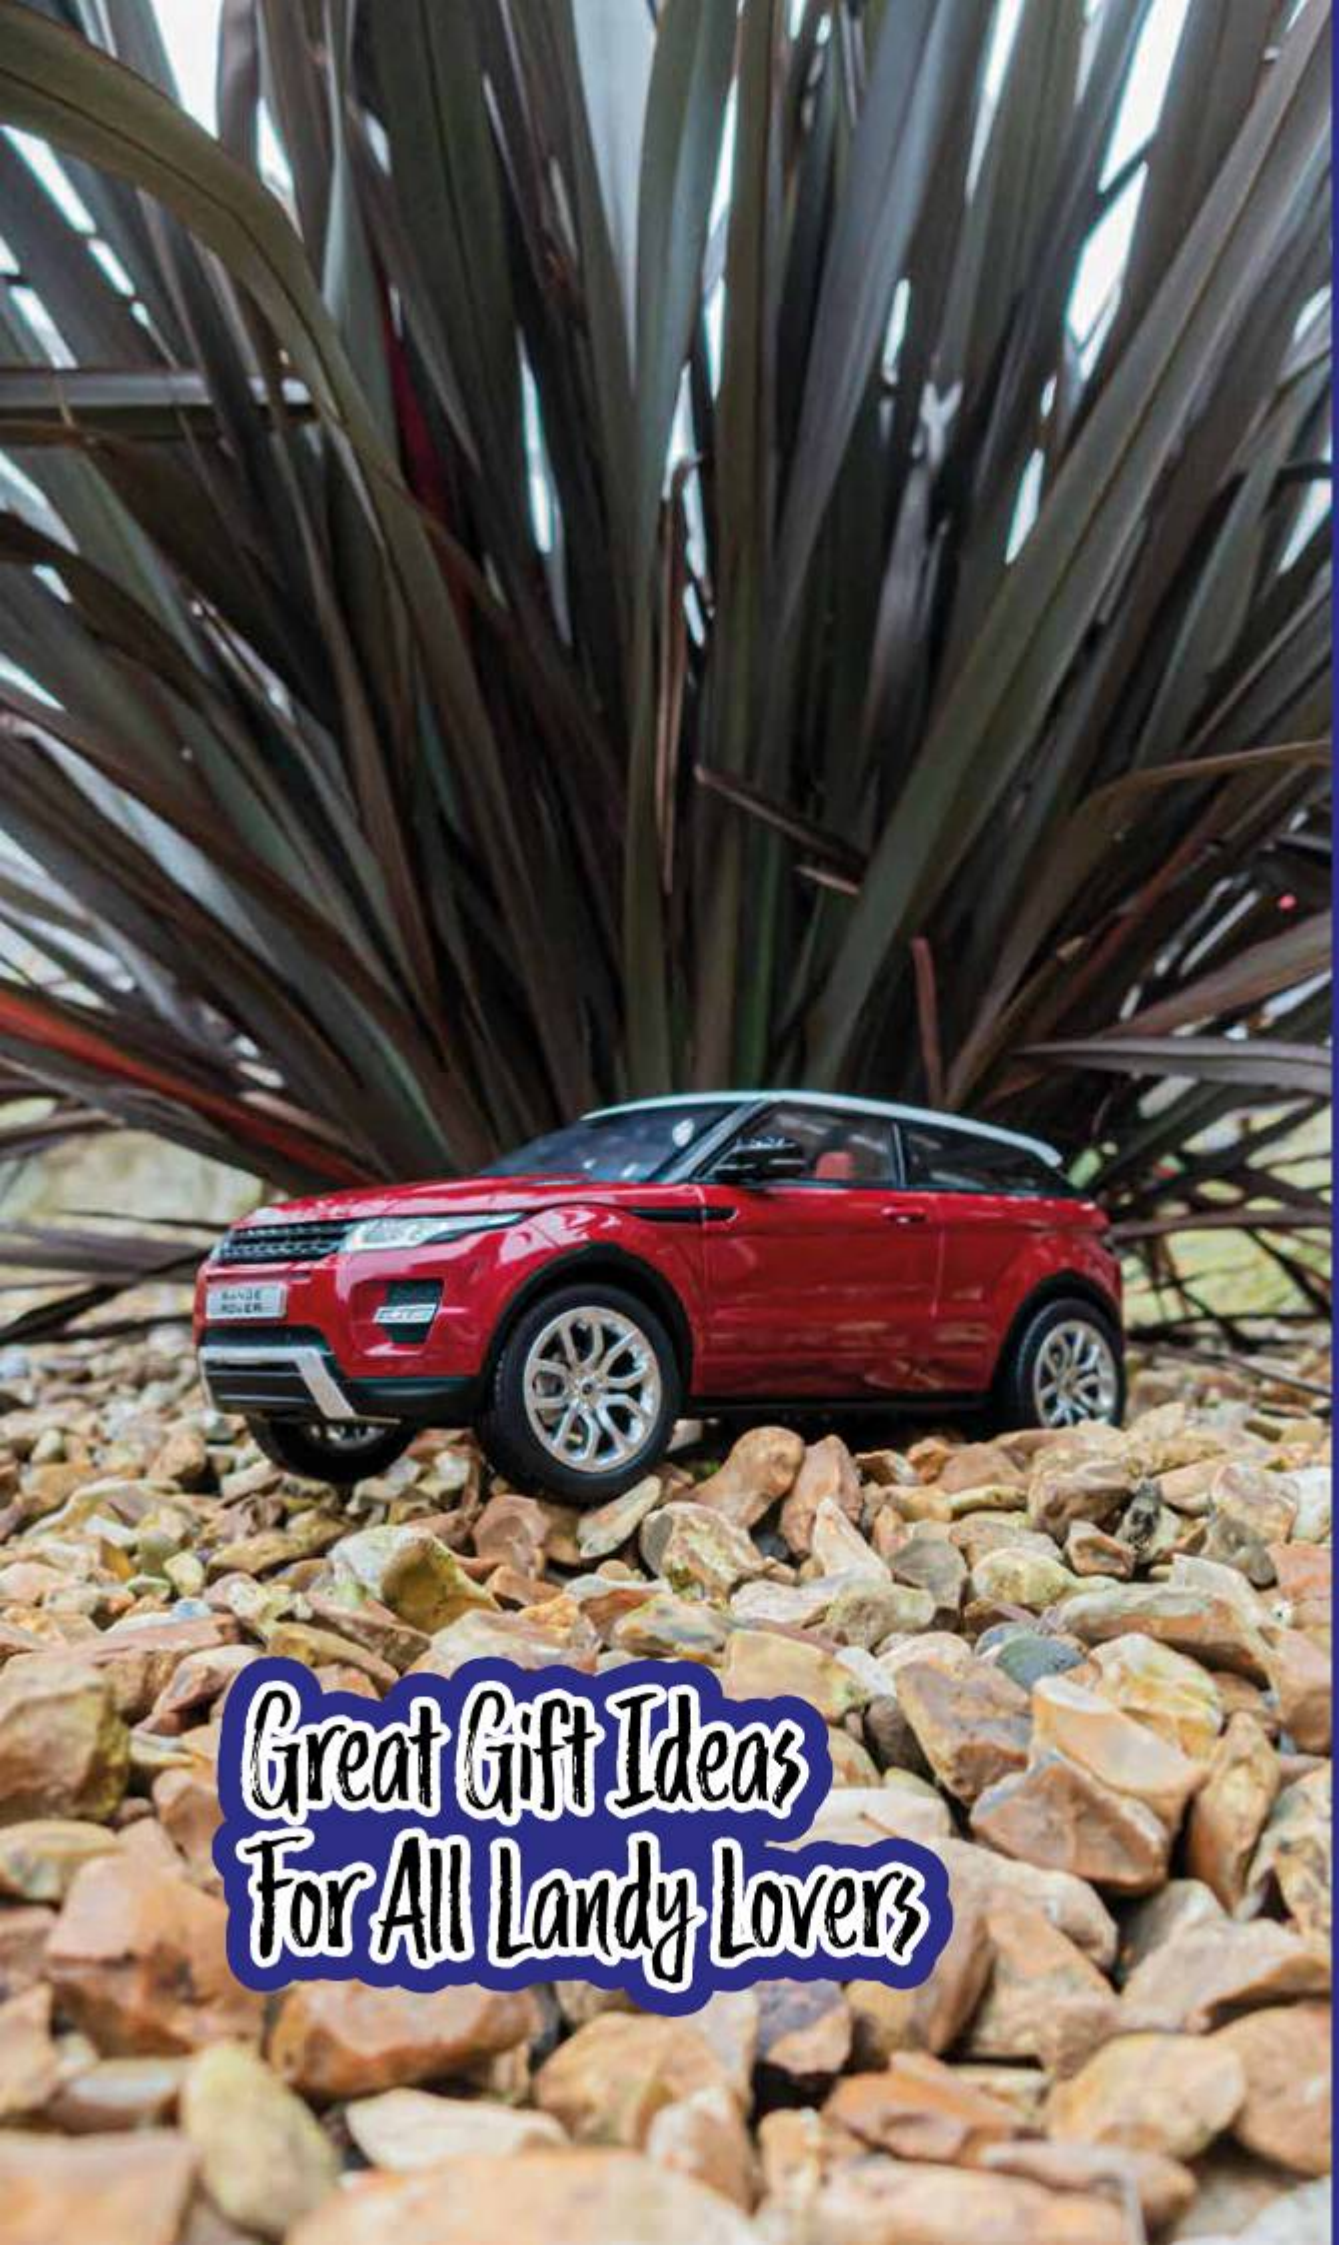

3195294SP
Replacement BBQ grill plate for ARB Fire Pit 10500200

Landy Books

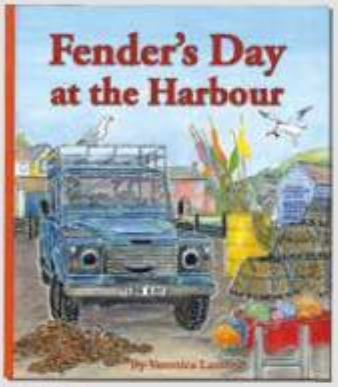

LANDY
"Landy has been left abandoned for many years until, one day, Jack finds him..."

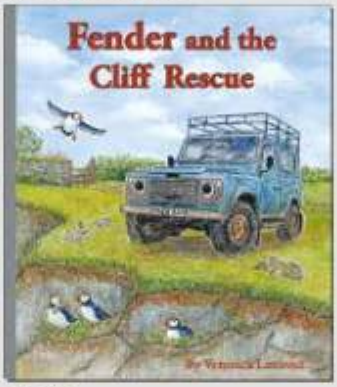

LANDY NEW HOME
"Jack and Landy are busy setting up their small holding but Landy feels left out. When Fender arrives, Landy realises he hasn't been forgotten after all..."

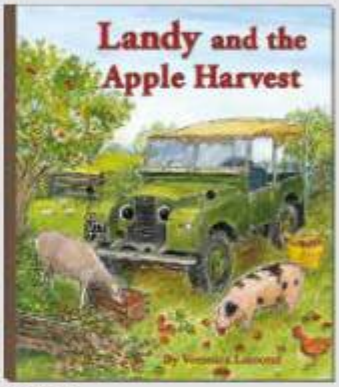

FENDER
"Scamp races Fender down the track - they have lots of things to do and lots of friends to meet!..."

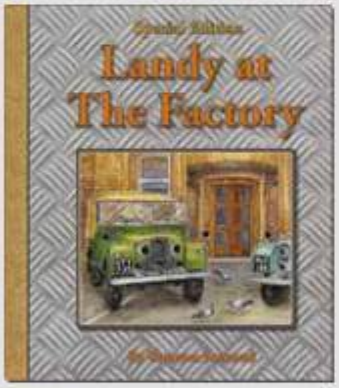

FENDER HARBOUR
"Fender watched the fishermen fixing their boats and the swing shovel at work. Meanwhile, Dan and Jack weren't having much luck...."

FENDER RESCUE
"Dan and Fender spend a day working up on the cliff top. Then Jack calls for help and they drive off to the rescue..."

LANDY HARVEST
"After a very windy night, Jack decides it's time to gather up all the fallen apples. Landy helps him bring the harvest home..."

LANDY FACTORY
"Inside the envelope, he found a letter from the Land Rover factory. "How exciting, Landy," said Jack. "We've been invited to visit the factory to celebrate your 60th birthday!"..."

FENDER AFRICA
"Fender and Dan are on their long trip through Africa, from Cairo to Cape Town. Come and join them on their exciting adventure..."

These charming hardback books, which are beautifully written and illustrated by Veronica Lamond, are an excellent gift idea for any Land Rover fan - whatever their age!

Land Rover Original Technical Publications

ORIGINAL TECHNICAL PUBLICATIONS

The days of hunting around auto-jumbles for grubby and damaged workshop manuals, parts lists and owner manuals are over! At least they are if you own one of the many classic Land Rover and Range Rover models covered in the range of Original Technical Publications compilations. Carefully reproduced from the extensive historical archives in England and in the USA, we are pleased to give you access to the original Land Rover publications needed to run and maintain your classic Land Rover, including parts catalogues (most models), service manuals and owner's literature. Original parts books, workshop manuals and handbooks for Land Rovers and Range Rovers have always been greatly sought after, and rightly so: nothing compares to a Land Rover workshop manual compiled by the car's manufacturer. Now owners and enthusiasts have the opportunity to effortlessly collect all the original publications for their favourite Land Rover or Range Rover, on one handy and cost-effective title. These publications are the original publications used by the Land Rover parts department, service garages and sales departments when these cars were still in production and being serviced. Each section provides detailed information on major systems, diagnostics, troubleshooting, overhaul, as well as the removal and installation of major components. Compiled in an easy to understand format, these publications contain step by step processes designed for the mechanic and the enthusiast. In addition most manuals are filled with detailed illustrations and sometimes photographs and diagrams to help with identification of components and proper assembly. What's more, you can find information and links to Land Rover Cars, Land Rover Heritage, Land Rover Clubs and Original Technical Publications. Check out the latest picture galleries, video and media archives - even download classic Land Rover and Range Rover wallpaper to personalize your computer, tablet or phone.

Online eBook*
The online eBook wallet includes additional text and instructions as well as the web address required to access the interface and content from a personal computer (Mac OSX or Windows) as well as tablets or handheld devices (Mac iOS, Windows or Android). The eBook product provides each registered customer with a single license for one device. In other words, if a customer registers their personal computer they would be able to access BOTH the USB (if applicable) as well as access the information online on that device. If a customer registers their handheld device (iPad, tablet or hybrid) they would ONLY have access on that device once the viewer is installed and the license is authenticated.
***Note**: The 'online access' option does not apply to the Portable USB. See opposite.

Product Features
- Printable (Windows only) - print only the pages you need
- Viewable & zoomable
- Searchable - search the entire section in seconds
- Bookmarked - manuals are bookmarked to quickly locate sections

System Requirements
- User must have administration rights to allow installation.
- PC Windows 10 or later, Safeguard Windows PDC viewer
- Mac OS X 10.8 (64 bit) or above, Safeguard OS X PDC viewer*
- iOS 9.1 and above Safeguard Mac iOS viewer
- Android 5.0 and above Safeguard Android viewer
- Printing not available for Apple OSX or iOS applications unless running a Windows emulation software.

Both products are Handy & Easy to use!

Portable USB
USB for Windows PCs. Installation of viewer on host computer is all that is required as the user license is bound to the USB. Internet access is not required for use or activation unless the user is prompted to check for a viewer update for the particular device where the USB is being used. Each (Portable USB ebook) product is a portable software product, no registration or activation is required. DRM license is bound to the supplied USB enabling product access only to that particular.

Product Features
- Printable - print only the pages you need
- Viewable & zoomable
- Searchable - search the entire section in seconds
- Bookmarked - manuals are bookmarked to quickly locate sections
- Internet not required
- Portable between Windows computers
- Secure documents are instantly accessible just like ordinary files

System Requirements
- PC - Windows 10 or later. USB port, Safeguard Windows PDC viewer. Must have administration rights to allow installation.
- USB port

See www.britpart.com/otp for much more in depth information about what is included with each product. Far too much to list here!

Which OTP Product is best for me?
The Original Technical Publications are now available in two formats - Portable USB Online eBook.

Windows PC
User has 2 choices - Portable USB or Online eBook. Windows 10 or a later version. Requirements - USB port & Safeguard Windows PDC viewer. **Note** - Portable USB recommended as it can be easily moved from computer to computer - internet not required.

Apple OSX
Online eBook access via the online access URL. Mac OSX 10.8 (64 bit) & above. Requirements - Internet access & Safeguard OSX PDC viewer.

Apple iOS
Online eBook via the online access URL. iOS 9.1 & above. Requirements - Safeguard Mac iOS viewer. **Note** - Online eBook is recommended as it is everything you need when using from your iPad - works best with internet

Android
Online eBook via the online access via the online access URL - works best with internet. Android 5.0 or later. Requirements - Safeguard Android viewer.

Notes - Printing not available for Apple OSX or iOS applications unless running a Windows emulation software. The Portable USB option is for use on Windows PCs only. (This option is considered to be multi-license because it can be moved between Windows PCs simply by installing the PDC viewer). The Online eBook is for use on all Operating Systems except Linux. (This option is supplied with a single license for one device.)

LTP3010
OTP Land Rover Master Collection
The ultimate Land Rover Technical Publication Collection covering models from 1948 to 2012. A must for any Land Rover specialist, garage, restoration facility or aficionado.

Models Covered
Series - 1948 to 1985/Land Rover 90, 110, 127 & Defender 90, 110 & 130 - 1983 to 2011/Discovery 1 - 1989 to 1999
Discovery 2 - 1999 to 2004/Discovery 3 - 2005 to 2009/Discovery 4 - 2009 to 2012/Freelander 1 - 1998 to 2011
Range Rover Classic - 1970 to 1995/Range Rover P38 - 1994 to 2001/Range Rover - 2002 to 2010
Range Rover Sport - 2005 to 2010

*A **must** for any Land Rover aficionado!*

Contents
Parts Publications - Parts catalogues, parts index (where available, approximately 1948 to 2004).
Service Publications - Service manuals, service procedures, system description and operation, circuit diagrams, electrical libraries.

PDI and Maintenance - Workshop manual - pre-delivery inspection, pre-delivery inspection sheet, oil service, annual inspection.
Owners Literature - Owners handbook, additional handbooks:- In-car entertainment/audio/TV and navigation system/audio and navigation system/in-car telephone.
Supplementary Information - Sales brochures, accessory fitting instructions, photo gallery, downloads and various links.

XS PowerPack
MULTI-FUNCTION JUMP STARTER

The XS PowerPack is handy to keep with you on your travels to ensure you never run out of 'juice'!

CE

Technical Specifications

Battery volume: 18,000mAh
Starting current: 350A
Size: 230 x 87 x 27mm
Weight: 615g
Output:
5V = 2.1A - (smart phone/tablet fast charge)
12V = 10A
19V = 3.5A (laptops/notebooks)
Input: 14V = 1A
Peak current: 700A

- Small and lightweight high capacity nano lithium polymer portable power pack with the latest battery technology
- Supports fast charging with low self-discharge cycle
- Charging cycles can reach more than 1,000 times
- Supports 12V jump starts as well as back up charging or many brands of mobile phones, laptops, tablets, portable refrigerators etc
- Supports 3 different types of charging modes
- Built in redundant electronic control safety protection for jump starter over-charging and over-discharging

DA1239 kit contents

DA1239 UK mains plug
DA1239EU EU mains plug
DA1255 Replacement 12V adaptor
Not suitable for DA1239 & DA1239EU purchased before 18/06/2018

Skytag

DA9012

How It Works

- Pinpoint GPS tracking
- Worldwide coverage
- 24/7 service
- Tamper alerts
- Intelligent movement alerts
- Direct police access and liaison
- Simple to install and transferable
- Internal backup battery
- 5 year warranty

SKYTAG

About Skytag

Skytag are now the largest independent stolen vehicle recovery company in the UK, providing state of the art location equipment to recover your property quickly and efficiently. With an outstanding recovery record and an 11 minute fastest record, they are proud to offer a service second to none. With unique features like monthly operation checks and direct police access to live location information.

The Skytag device is a very small covert unit designed to be hidden in a vehicle, self installation enhances the covert nature of the product as everyone will put it somewhere different, making it virtually impossible to find, this also reduces costs and makes the unit easily transferable from vehicle to vehicle with no charges.

The device is smaller than a computer mouse and contains a GPS chip that can pin-point its location on the planet to within 5 metres. The device also contains a module that communicates this position to us via the GPRS data network. So we know exactly where your vehicle is in the event of a theft.

Our unit comes with the peace of mind of full worldwide cover and is IP65 waterproof. The device has an inbuilt backup battery that lasts 3 days should the vehicle battery be disconnected. It also alerts us when the battery has been disconnected; we can even tell when the vehicle battery is running low, ensuring continuous operation.

Skytag Packages

Standard Tracking

£7.99/month - payments to Skytag
Initial 3 months service included. Standard service includes battery disconnect alerts, tracker battery low power alert. Monthly health check and email notification. Worldwide coverage. 24 hour crime line with police liaison to recover your vehicle.

Active Monitoring

£11.99/month - payments to Skytag
Initial 3 months service included. Standard Tracking service plus active movement alerts.
'***LeisureSafe***' is designed for leisure vehicles which are used 2-3 times a week, 'LeisureSafe' is fully automatic with no requirement to remember to turn on or off. A bespoke zone is created where the vehicle is normally stored. If the vehicle moves out of this zone during the protected hours, alerts are sent direct to your mobile phone, your landline, text and email.
'***NightSafe***' is designed for everyday use vehicles where you need protection during the vulnerable night hours. Using a zone similar to 'LeisureSafe' the system alerts leaving the 'Safe Zone' during the armed period.

Live Tracking

£13.99/month - payments to Skytag
Live Tracking has all the features of the active monitoring service with the addition of user designed zones, speed alerts and the ability to log in from any internet enabled device and see the vehicle updated every 5 minutes with the ignition wired installation, or every 20 mins with standard fitting. 'Liveview' service includes unlimited email alerts and 10 direct telephone alerts per week.

Tamper Proof Nuts & Bolts

Ensure your precious accessories remain firmly on your Land Rover by using a set of these stainless steel tamper proof nuts and bolts. Ideal for securing your winch and front bumper. Each set contains either 4 nuts or bolts and 1 key.

DA7330	M6 nut set & key	**DA7333**	M10 x 110 bolt set & key
DA7331	M8 nut set & key	**DA7334**	M10 x 35 bolt set & key
DA7332	M10 nut set & key		

Security Marking Kit

DA8533

The International Security Register (ISR) system has proved successful in deterring and detecting theft and fraud for over 30 years. It works on the principle that if a vehicle's windows and parts are marked using robust techniques and details are recorded on a secure database - supported by a 24/7 verification service - criminals stealing the vehicle will run a real risk of being caught and prosecuted. Each mark applied to a vehicle will contain a unique 8-digit code, the ISR logo and www.isrcodecheck.com

Reducing the risk of your Land Rover being stolen or cloned.

Pack Components

- Full instructions on marking and registering a Land Rover are in the security marking kit.
- 8 vinyl stencils, fluid and brush for marking windows.
- 2 warning decals.
- 2 sets of 6 UV self-etch labels for application to painted metal body panels.
- 2 sets of 7 ultra-destruct labels with UV fluid and applicator for identifying plastic parts.
- A set of three Britpart branded securlly tags for increasing the chance of items that are so often mislaid, being returned to the owner.
- A Britpart branded ISR customer contact card.

Registration of Vehicle and Owner Data on the ISR

The vehicle owner - or the stockist - would complete the registration process online via the Britpart registration page at www.TheISR.org then select "All Vehicles" then "Vehicles" followed by "Britpart Registration Form" entering the unique code together with the vehicle make, model, colour, VIN and VRM together with the owners name and contact details. If an email address is supplied, an automated acknowledgement of registration would be sent. The code for the security tags would be automatically recorded.

More details of the kit can be found at **www.britpart.com/security**

X-Defend Pedal Lock

Defender
- up to Td5 without air-con

DA6601	Right hand drive
DA6602	Left hand drive

The X-Defend Pedal Lock prevents the clutch, brake and throttle pedal from being operated, making a vehicle almost impossible to drive! Unlike other pedal locks, this remains bolted to the floor of the vehicle. When not in use, it folds flat on the floor and seat box, forming the floor of the cab. In this position it can be covered with your usual floor mat. This means you don't have to store a 20kg lump of metal which could be lethal if it hit you in the event of an accident or while off-roading. It also means that locking is incredibly quick. Just release the catch which holds it against the seat box and lock into position. A 10mm thick steel claw grabs the brake pedal shaft and ratchets in tight against it. It can be locked in a couple of seconds! To unlock turn the key which releases the pedal and fold flat on the floor. The Pedal Lock is supplied in tough, corrosion proof 304 stainless steel and uses formed hinges with a 6mm stainless pin. It is supplied with an anti-drill, British made Lowe & Fletcher RPT Lock.
Note - This does NOT fit Series/Defender - 2007 - 2016. As not all Defenders are the same and build tolerances are at best acceptable it may be necessary to either relocate the bonnet pull bracket (you can drill out the spot welds and re-attach with pop rivets) or better still replace with the later Td5 type bonnet pull (FSC000050PMA). We have discovered that because Land Rover had no set place to fit the early type bracket it sometimes fouls the pedal lock.

Starting Handle

218508
Starting handle for Series vehicles

X-Column

DA9013

One thing that is common to virtually all stolen Land Rovers is that the column steering lock has been broken. It is normally broken by removing the lock barrel as this is surprisingly quick - the vehicle can then often be started with a screwdriver. This neat solution is a sleeve for the lock barrel assembly machined out of steel. It is strong enough to prevent the barrel being removed or the end broken off.

Nothing to lock or unlock

The best thing about this solution is it's completely passive - i.e. nothing to lock or unlock. It stays permanently fitted to the vehicle providing 24 hour protection and deterrent value. The column lock will fit all Defenders LHD or RHD - up to 2014, including Puma/Tdci. One exception is that some ex-military vehicles do not have a steering lock. While the column lock will fit - it serves no purpose as there is nothing for it to protect.

Locking Fuel Cap

Have a third eye on the road for those unexpected moments!
Drive with a security expert by your side with the Ring Smart Dash Camera and Ring Connect. Save, download and share your dash cam footage easily in one place, making it easier to look back on your journeys, and if the worst was to occur, gather crucial evidence in one place.

A full HD 1080p resolution dash cam with 32GB storage capacity. A 120° field of view and 30fps create a high quality, full HD image to see more of what is happening outside your vehicle. Includes an interior trim installation/removal tool and a quick and easy to use magnetic mount for a stronger, more secure fitting. The dark colours and compact size help keep the camera discreet in the car, avoiding any distractions.

- Full HD 1080p 30fps recording for clear, high recording quality
- 120° field of view to capture a wide view of the road
- Ring Connect and wi-fi enabled - works with Ring Connect App
- Easy installation and removal with a magnetic mount and trim tool included
- G-sensor to automatically save files in the event of a collision
- 32GB memory capacity with micro SD card
- 2" screen
- Auto start/stop - prevents vehicle battery for being drained
- Trim installation/removal tool included
- Dimensions - 45 x 76 x 34mm (HxWxD)
- Weight - 188g
- Voltage - 12V - 24V DC
- Wattage - 5
- Amps Output - 0.35
- Batteries included - Rechargeable lithium-ion

VPLKV0134LR

VPLKV0134LR

Front & Rear Camera
Defender - 2020 onwards / Discovery Sport / Discovery 5
Range Rover Evoque - 2019 onwards / Range Rover Velar
Range Rover Sport - 2014 - 2022
Range Rover Sport - 2023 onwards
Range Rover - 2013 - 2022
Range Rover - 2022 onwards
Drive with peace of mind that events and incidents will be captured with the Land Rover dash cam. Designed to seamlessly integrate with your Land Rovers cabin and electrical system.
With low power consumption for extended use and full HD front and rear video camera, the camera makes it easy to look back in journeys, and if the worst occurs, to gather crucial evidence.

- Removeable front camera with fixed viewing angle
- Fixed rear camera with adjustable viewing angle
- G-sensors trigger recording in the event of an accident or heavy braking
- An integrated radar system* to enable recording when your parked vehicle is approached
- Record additional events with a manual record option
- Onboard GPS allows used to optionally add speed and location data to the linked video files to create a detailed record of each event
- Includes 32GB SD card
- Recordings can be accessed and controlled by optional Apple of Android apps, or via a web browser

Note - Not compatible with windscreen sun shield. To preserve the 12V battery life it may be necessary to disable this feature on some vehicles. *Only available on certain vehicles

Haynes Internal Combustion Engines

Build a working model of an engine.

DA4817
Build a fully functional, motorised model of a V8 petrol engine. Features sound recorded from a real V8 and illuminating spark plugs. The kit contains nearly 300 pieces and all that you need to assemble the model. It is supplied with a Haynes style manual giving you clear step-by-step instructions as well as interesting information about real V8 engines.

DA4310
Build a realistic working model of a combustion engine. Includes light and sound features, light up spark plugs, moving pistons, valve gear, fan belt and 'Haynes Manual'. Finished model size - 180 H x 270 W x 140mm D

Remote Control Defender Model

DA1626

From Tamiya R/C - this is a superbly detailed 1/10 scale remote control model assembly kit of an early version of the Defender 90. ***The model's bodywork needs painting - ideal for having the chance to match your own Defender's colour!***

- 457 L x 200 W x 214mm H and Wheelbase - 242mm
- The Defender 90 form is accurately captured by the polycarbonate body, with slide moulding used for great detail such as rear panel surfaces.
- Includes separately moulded parts for grille, side mirrors, light cases and tyre cover.
- Compatible with 5mm diameter LEDs (white) x 2 for headlights and 5mm diameter LEDs x 6 for the rear.
- Matt plated wheels are paired with realistic tyres featuring authentic tread pattern.
- Highly reliable CC-01 chassis features a full-time 4WD system and front double wishbone, rear 4-link rigid suspension equipped with 4 CVA oil dampers.
- An expansive range of option parts is available to customise the CC-01 chassis. The CC-01 chassis is Tamiya's ultimate platform for mounting precise scale renditions of off road chassis. With built in wheel arches, sealed front and rear gear boxes with precision engineered differentials and shaft driven 4WD via universal joints, it replicates all the rugged realism of the Defender 90 - as such it is the ultimate platform to carry this iconic body.

Superbly detailed 1/10 scale remote control model assembly kit

Note - The remote control is not supplied with the model and needs to be purchased separately.

DA1627

Remote Control System

- Operating voltage transmitter 4.8 - 6V
- 2.4GHz system
- Two continuously variable, fully proportional channels
- Servo reverse for both channels (change of running direction)
- Trimming function for acceleration and steering
- Power supply of the BEC receiver possible via driving battery with 4.8 - 7.2V
- Connector system for Futaba and Graupner JR
- Charging socket (positive pole inside)
- Battery charge level display by means of LED
- 4 Channel receiver
- Transmitter batteries
- Battery pack NiMh 7.2V/2100 mAh
- Plug charge (Output 9V/300 mA)

Sit On Defenders

DA1517	White
DA1518	Orange
DA1520	Red

For smaller Land Rover fans we have these! Fully licensed by Land Rover, these Defender 6V electric toys are suitable for children aged 3 to 7. These toys are equipped with working LED lights and realistic engine sounds. MP3 connectivity means your little ones can listen to their favourite music as they drive around. The cars can be controlled by either the child driving or by a parent with the remote control handset. 2.4GHz radio control ensures each car has its own frequency so can't be controlled by anything else - ideal if you have two Defenders in the same location.

Maximum load capacity - 20kg

Size - 780 x 410 x 490mm / Weight - 10kg

Features

- 6V 4.5AH battery
- Power indicator display
- Working LED headlights
- Seat belt for added safety
- Realistic engine sounds
- MP3 connection
- Forward and reverse gears
- 2.4GHz radio control
- Easy to assemble

Equipped with working LED lights and realistic engine sounds.

Smart green cap with embroidered Castrol logo. One-size fits all

Ride On Suitcases

Make travelling with kids fun with the Range Rover Sport SVR convertible kid's ride on and suitcase! This beautifully crafted officially licensed scale model of a real Range Rover can be used as a pull along suitcase but the really clever bit is that it also converts quickly and easily into a fun kids' ride on toy. Ideal for parents travelling with kids as it is will keep kids amused while travelling - perfect for planes, trains or cars and for playing on when you get to your destination too. It is a must have accessory for all little Range Rover fans! It is big enough to hold everything you need in your hand luggage including toys, clothes and games but also not too bulky to be pulled along using the pull-out handle. It is quick and easy to convert it into a kids' ride on car toy with the clever fold up handle - kids can push themselves around plus it makes a great seat for kids to sit on while in queues for check in too!

Suitable for age 2+ years.

Max recommended user weight: 23kg.
Product size: 548 L x 296 W x 223mm D

Converts quickly and easily into a fun kids' ride

Take The Path Less Travelled

The Traxxas TRX-4® Scale and Trail® Crawler is an all-new Traxxas design that is loaded with innovation that instantly obsoletes the status quo with exciting new features, versatility, and capability. In other words, we built it the Traxxas way, rugged, powerful, and ready for fun! Underneath the authentic scale look is a machine built for extreme off-road capability that takes you to new places and new adventures. Exclusive portal axles deliver maximum ground clearance that dramatically turns "no way" into "no problem." Whether you are enjoying outdoor trails or getting technical on the rocks, the remote-locking front and rear differentials and high/low range transmission provide unmatched driving versatility.

What's In The Box

- TRX-4, Ready-To-Race® model
- XL-5 HV waterproof electronic speed control
- Titan™ 21T reverse rotation motor
- TQi™ 2.4GHz radio system with cruise control
- High quality maintenance tools

What You'll Need

- Batteries - TRX-4 accepts a wide variety of NiMH (4-7 cell) and LiPo (2s-3s) batteries - DA3650
- Charger - Traxxas EZ-Peak Live charger is recommended for easy and fast charging performance - DA3649
- 4 x AA Alkaline batteries for the transmitter.

Innovation

Radically innovative technology combines with precision engineering to create a completely new breed of Scale and Trail® Crawler...Only from Traxxas.

GTS Aluminum Shocks

All new oil-filled coil-over GTS shocks deliver silky-smooth damping performance and feature threaded aluminium shock bodies for easy ride height adjustments. The convincing scale realism looks great and they perform even better.

High/Low Range Transmission

When the going gets tough, shift into low range for incredible 4WD pulling torque. Shift into high range for blasting down the trail. The TRX-4 Scale and Trail Crawler adapts to any situation or driving style.

3S Power System

The new XL-5 HV electronic speed control brings 3S LiPo capability for stronger, more efficient running. The powerful 21T Titan® motor provides torque to tackle the steepest climbs and all-out speed on flat terrain. This efficient system provides up to 2 hours of run time with a Traxxas 3S 5000mAh iD LiPo battery pack!

TQi Radio System With Cruise Control

The Traxxas TQ; features our exclusive cruise control for long-distance treks. Set your speed using the transmitter and then use the multi-function knob to fine-tune it faster or slower to match precisely the pace of your caravan of trail explorers.

Accessory Light Kits

Optional light kits illuminate the trail ahead and provide an authentic appearance. A separate regulated power supply ensures powerful lighting with consistent brightness. (All light kits and light kit accessories are sold separately.

Waterproof Electronics

The TRX-4 is fully waterproof, not 'splash resistant.' There is a big difference. Traxxas' patented innovation gives you the freedom to tackle creeks, snow, and mud without worrying about water in your electronics.

The Power Of Portals

Portal axles lift the truck at the wheels for huge centre pumpkin ground clearance. In order to achieve the same clearance with straight axles your tyres would have to be over an inch taller than the tyres on the TRX-4.

Torque Twist Eliminated

The portal axles use gear reduction at the wheels to virtually eliminate torque twist. The Titan 550 motor's torque translates into straight powerful, forward motion, rather than wasted energy twisting your rig right off the rocks.

All-New Chassis Design

The Traxxas TRX-4 Scale and Trail® Crawler is an all-new design that instantly obsoletes the status quo with greatly expanded features, versatility, and capability. Performance and technology combine in a revolutionary new chassis that looks as good as it performs.

Rigid Steel Frame

A heavy-duty formed-steel ladder frame with moulded cross members creates an extremely rigid backbone. You'll feel the difference on trails when navigating technical terrain.

Scale Details

The TRX-4 features a fully licensed and highly detailed Land Rover Defender body. Scale details abound from the detailed front grille and bumper to the functional spare tyre in the back. Realistic lighting details, side mirrors, bumpers and even the included jack all add to the rugged and authentic appearance.

Remote Locking Differentials

Traxxas allows you to lock and unlock both the front and rear differentials remotely from your transmitter. New sleeved micro cables control the differential action for scale appearance, without limiting suspension articulation.

Traxxas 1/18th Scale Defender

DA3642 NEW	TRX-4M Defender 1:18	Blue
DA3643 NEW	TRX-4M Defender 1:18	Grey
DA3644 NEW	LED Light Set	

Big Fun And Adventure In A Smaller Trx-4
Introducing TRX-4M, a new way to experience all the fun, adventure, and scale realism of the TRX-4 in a 1/18 platform. TRX-4M bridges the gap between the small crawler scene and 1/10 scale quality and performance. Oil-filled shocks, steel frame rails, and a smooth running drivetrain give it true outdoor capability over rocks and through grass and streams. The tight turning radius and precise throttle control give it fantastic indoor manoeuvrability.

The Right Size For Fun
TRX-4M is the perfect size to fit in a backpack for fun on the go. It's small, powerful, and manoeuvrable so just about any space becomes an instant trail or crawling course. Whether it's a mountain of books indoors or a rock garden in the backyard, TRX-4M is always ready for big fun and adventure.

All-Terrain Versatility
TRX-4M is equipped to take on tough off-road terrain with grippy soft-compound tires, precision-engineered 4-link suspension geometry, and smooth oil-filled shocks. High centre ground clearance, big approach angles, and low CG give the TRX-4M impressive capability everywhere it goes.

45° Steering Angle
A full 45° steering angle gives TRX-4M an exceptionally tight turning radius and extreme manoeuvrability in small spaces where every inch counts. A heavy-duty 2065T steering servo delivers powerful steering authority, even on thick carpet.

What's In The Box:
- TRX-4M® Ready-To-Race® model
- Licensed ABS hard body
- Titan® 180 87-turn motor
- ECM-2.5™ Electronic Control Module
- TQ transmitter
- 7.4 volt 750mAh 2-cell LiPo battery
- 2-amp USB fast charger with iD®
- High quality maintenance tools

What You'll Need:
- 4 x AA alkaline batteries for the transmitter

Oil-Filled GTM™ Shocks
TRX-4M's oil-filled GTM shocks offer smooth suspension damping to keep the wheels firmly planted on uneven surfaces. The added control also keeps the body from bouncing around on rough terrain for a more realistic driving experience.

Detailed ABS Body With Clipless Mounting
The innovative clipless body removes and installs in just seconds with no clips to lose or frustrating hook and loop tabs. Tough, highly detailed ABS bodies feature moulded-in colour with a deep glossy finish that won't chip or scrape off.

Waterproof Electronics
TRX-4M is the truck that goes where you want to go, without boundaries or restrictions. Only Traxxas' fully-waterproof innovation gives you the freedom to drive through wet grass, puddles, and streams that force others to turn around.

LLGF104MXA NEW
Lego Classic Defender 90
2336 Pieces
160mm H x 160mm W x 320mm D

The new Lego Land Rover Classic Defender 90 comes equipped with functioning steering, working suspension and accurate interior details. Equip your Defender for any adventure with accessories such as a fire extinguisher, jerry cans, toolbox, working winch, mudguards and sand ladders.

Fuel your creativity with the LEGO® Icons Land Rover Classic Defender 90. This immersive building project for adults lets you build one of the most famous vehicles in off-road history before taking it for a spin.

Staying true to the original 1984 model, this car collectible is sand green with a white roof, black wheel trims and a brown interior. It features functional steering, working suspension and a choice of 2 engines. Car-lovers can keep the basic vehicle as a Land Rover Estate or customise it for an epic off-road adventure using accessories such as a roll cage, fire extinguisher, roof rack, an engine snorkel and traction boards for crossing muddy terrain.

As well as being the perfect gift for Land Rover fans and car collectors, this building set provides a rewarding project for adults who appreciate outstanding design.

- Indulge your creativity - Build and display a LEGO® Icons Land Rover Classic Defender 90 (10317), an immersive project that lets adults create, customise and display their own collectible car
- Authentic details - The model features functional steering, opening doors, working suspension and a bonnet that opens. Inside, there are accurate interior details and a coffee cup for the driver
- Ready for adventure - Customise this car collectible with off-road accessories including a roll cage, fire extinguisher, jerry cans, toolbox, working winch, mudguards and traction boards
- Choose your drive - Build the car as a left-hand-drive or right-hand-drive vehicle. It comes with the choice of a diesel or a petrol engine, plus 3 different bonnet options
- Gift for car fans - This building set makes a gift for car-lovers and collectors, as well as anyone who likes cool vehicles and display cars
- Digital building instructions - The LEGO® Builder app features a digital version of the building instructions included with this set

Integrated Interface Diagnostics Tool
DA6404 IID Tool
Range Rover Sport - 2010 - 2013
DA6399 2m USB Cable for IID Tool

For something so small these tools are packed with big features...

Self contained diagnostic system with integrated interface or Bluetooth/PC/Mac controller app.

Despite its size and price, the IIDTool is a fully featured diagnostic system offering diagnostic functionality otherwise only found in systems costing many, many times more.

The IIDTool offers the following unique advantages:
Speed and ease of use: an easy to use, intuitive menu system provides all commonly used diagnostic functionality much more quickly than PC based systems.

Portability: no power supplies, cables, or additional equipment necessary - simply plug in and use; can be used at the roadside or in the middle of the desert.

Restore to default: upon first use on a vehicle, the IIDTool saves the configuration and settings to allow a restore from backup at any time.

Covers all vehicle systems: from ABS, airbags, and BCM, through engine, instrument pack, and LCM, to steering angle, TPMS, transfer case and transmission – all systems covered.

Enhanced diagnostic functions: includes component / system calibration, CCF (car configuration file) editing, and ECU flash functions.

Includes all EASControl functions: raise and lower the EAS electronic air suspension settings in minutes – without dirty hands!

And much, much more...

Winch Solenoid
DB1359
Solenoid 4-pin assembly for old style DB9500 & DB12000 winches

Headlamp Assembly
DA3151
24 volt
Left hand drive

Owners Workshop Manual
DA3211
Owners Workshop Manual Haynes Jaguar X-Type Petrol & Diesel (01 - 10)

Winch Magnum 8k 12v Winch
DA2261

Dimensions	532.0 L x 160.0 D x 193.2mm H
Mounting Bolt Pattern	254 x 114.3 mm
Rated Line Pull	3629 Kg
Motor	3.6 Kw
Gear Train Ratio	216:1
Clutch (Freespooling)	Sliding Ring Gear
Brake	Internal Automatic
Drum Diameter/Length.	64mm/230mm
Wire Rope	24.4m x 8mm Diameter
Control (Length)	Remote Switch & 3.7m Lead
Recommended Battery	650Cca Minimum For Winching
Battery Leads	2 Gauge/1.83m
Weight	34kg
Fairlead	Hawse
Finish	Black Gloss Powder Coat

Full details online www.britpart.com/DA2261

Hiclone
Hilcone is a simple non-moving stainless steel device that sits inside the air induction system of an engine. Like a static mixer, it vigorously swirls the air; improving the fuel/air mixture and atomisation, promoting more complete combustion as more of the available fuel is consumed. More efficient burning of the fuel cuts smoke and other hydrocarbon emissions. Hiclone also smooths out the engine torque curse, resulting in a reduction in gear changes and a quieter engine, especially on the motorway. With Hiclone fitted you can comer and go uphill in a higher gear, this makes the vehicle easier to drive, improves the ride and reduces engine wear. Additionally Hiclone improves low down grunt of turbo charged engines making towing and hauling heavy loads more effective.

DA3119	Series 2 - 2.25 - diesel	58mm
DA3126	Defender - 200Tdi - EGR	68 & 45mm
DA3102	Defender - 3.5 carb	2 x (55 x 25mm)
	Range Rover Classic - 3.5 carb	
DA3092	Discovery 1 - 200Tdi	60 & 53mm
DA3128	Discovery 1 - 200Tdi - EGR	60 & 45mm
DA3133	Freelander 1 - 2.0 - diesel	70 & 50mm

STOCK CLEARANCE

Available while stocks last only. For further details on any of these products, please contact your local Britpart stockist.
